

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Saint George Classical School
School Website: <https://www.stgeorgeclassical.org/>

December 22, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Saint George Classical School (TX 78626) presents a distinctly Classical Christian program framed around the liberal arts, Great Books, and a catechetical, covenantal approach to family involvement. Public-facing materials emphasize a triple emphasis on theology/scripture-guided learning, formation of virtue and wisdom, and an integrated curriculum anchored in the seven liberal arts (grammar, logic, rhetoric; arithmetic, geometry, music, astronomy) and the Great Conversation. The school also frames its pedagogy around a collaborative model that blends on-campus instruction with home-based study under parental co-teachers, while maintaining a strong emphasis on liturgy, worship, and communal practices. Taken together, the publicly visible materials indicate a robust Classical orientation with a clear Christian foundation and a family-centered, covenantal partnership with parents.

Overall classification: CLASSICAL

Key drivers supporting CLASSICAL status - Religious and metaphysical foundations are explicit: guiding by Scripture, Christian worldview, and liturgical-communal practices (chapels, daily prayer, singing) embedded in the program.

- Purpose and goals center on formation, virtue, wisdom, and the Great Conversation, not merely job preparation. The mission foregrounds virtue, wisdom, and the true/good/beautiful, with an explicit telos beyond information transfer.
- Curriculum is explicitly liberal-arts-based (Trivium/Quadrivium), with Great Books and primary sources, and a paideia-informed rationale; public statements name Memoria Press/Veritas Press and Rod and Staff as curriculum providers, reinforcing classical content.
- Pedagogy includes contemplation, memory work, and communal worship, with upper-level (Socratic-style) elements implied through Great Books/Great Conversation, and a shift to on-campus + home-co-teaching for collaborative education.
- Faculty references indicate on-campus classical teachers and a focus on character formation; the public materials emphasize trained teachers and a "living curriculum" orientation through classical pedagogy.
- Parents & Community are intentionally integrated as co-educators in a covenantal model; there is explicit emphasis on parental partnership, training, and open campus touchpoints.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - Mission emphasizes education "guided by the Scriptures" and growth in knowledge, wisdom, and virtue, grounded in Christian faith.

- The school motto and mission repeatedly foreground Christ-centered education and a Christian worldview, with explicit language about unity of faith and reason.
- Liturgical and communal practices are cited (chapels, daily prayer, singing) as integral to formation.
- Great Books approach includes the Bible as a foundational text, alongside classic Western works, grounding learning in theology and sacred tradition.

Positive/Negative Keyword Analysis - Positive indicators found: truth, goodness, beauty; theology/scripture; liturgy/worship; chapel, prayer, singing; Christian worldview; covenanted community.

- Negative indicators: none evident in public materials (no explicit relativism/secularism signals; no "values clarification" or secular humanism signals in the text provided).
- Frequency estimate (positive vs. negative keywords): high

concentration of positive indicators; effectively 6–10 clearly positive terms/concepts identified (e.g., truth/goodness/beauty; theology/scripture; liturgy; worship; chapels; baptism-like communal practices) with zero clearly negative indicators in the public materials examined.

Why this rating - The school's public materials center the transcendental trio (truth, goodness, beauty) in a theologically grounded framework; chapel/worship and scriptural instruction are integrated into the learning experience; the vocabulary consistently maps to Positive keywords in the Six Essentials lexicon, with no explicit negative signals.

Cited evidence: mission and text references cited above.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The mission states formation of virtue and wisdom as central aims; the public materials describe formation over information and emphasize virtue and human flourishing (paideia) and the Great Conversation. - Explicit statements about ordering affections toward the Good, True, and Beautiful; development of Christian virtue and piety; worship and liturgical formation. - Great Conversation and paideia are foregrounded; the school positions education as formation and the cultivation of human excellence, not only career preparation. - Parental partnership and covenantal framing align with classical aims of moral formation within a virtuous community.

Positive/Negative Keyword Analysis - Positive indicators: formation, cultivation of virtue, human flourishing, liberal education/paideia, telos (pursuit of truth/good/beauty), great conversation. - Negative indicators: absence of emphasis on 21st-century workforce skills as primary goals; no explicit vocational or job-readiness framing in the public materials. - Frequency estimate: multiple explicit positive indicators (formation, virtue, paideia, great conversation) with no explicit negative signals.

Why this rating - The school presents a teleological, virtue-centered vision of education consistent with classical aims (formation, liberal education, Great Conversation) rather than a job/prep emphasis.

Cited evidence: mission quotes, paideia references, Great Conversation language.

Element 3: School Curriculum — CLASSICAL

Evidence - Liberal Arts core explicit: Trivium (grammar, logic, rhetoric) and Quadrivium (arithmetic, geometry, music, astronomy) are named as foundational to the curriculum. - Great Books and original texts featured; Bible, Homer, Plato, Shakespeare, etc. cited as part of the canon and Great Conversation. - Emphasis on reading original sources (Ad fontes) and the Bible as foundational for classical study. - Curriculum providers noted (Memoria Press, Veritas Press) and Math from Rod and Staff, indicating a deliberate classical curriculum framework.

Positive/Negative Keyword Analysis - Positive indicators: Seven liberal arts; Great Books; primary sources/original texts; Latin/classical languages implied; Western civilization; sacred tradition; unity of truth and classical heritage. - Negative indicators: None evident in public materials (no secular, non-classical framing; no project-based-only pedagogy signaled). - Frequency estimate: 6–9 explicit positive indicators (labeled curriculum, Great Books, Paideia context, primary sources, etc.) with no explicit negative signals.

Why this rating - The curriculum is clearly framed around the liberal arts, Great Books, and the habit of reading primary sources within a Christian classical context, aligning with the classical criteria.

Cited evidence: Liberal Arts articulation, Great Books references, Ad fontes, catalog of providers.

Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

Evidence - Collaborative model: campus on 2–3 days/week with at-home learning by parents; this hybrid approach blends traditional classroom learning and homeschooling. This is explicitly described and signals a classical pedagogy adapted for family involvement. - Lower-school pedagogy includes singing/chanting/memorization aspects noted in classical pedagogy (memory work, recitation). The school emphasizes

memory-based practices and classical formation. - Public materials emphasize a “Three Pillars” pedagogy and a paideia-informed approach (classical formation of loves, knowledge, and values). While not always explicit about every category (e.g., explicit Socratic seminars in upper school), the materials do emphasize dialogue-driven classical learning and memory-based methods as part of foundational practice. - There is less explicit public articulation of Socratic seminars or formal upper-school seminars/debates; the publicly available content leans toward collaborative homeschool-style pedagogy and Great Books orientation rather than a plainly stated Socratic-oral-seminar framework.

Positive/Negative Keyword Analysis - Positive indicators found: collaborative pedagogy; memory work/recitation; worship-based and contemplative elements; paideia emphasis; Great Books oriented discussions implied. - Negative indicators found: explicit, public articulation of Socratic seminars/seminars not clearly stated; explicit restfulness/scholé language is not uniformly present in the public materials, though some elements exist (memory work, contemplation implied by classical framing). - Frequency estimate: mixture of positive pedagogy signals with some missing explicit elements (Socratic seminars, formal seminars) in the public materials.

Why this rating - The pedagogy aligns with classical aims in many respects (memory, recitation, Great Books, paideia, and a liturgical/communal rhythm). However, explicit, public-facing statements about upper-school Socratic seminars, debates, and the full spectrum of classical discussion formats are not consistently documented in the available materials. This yields a classification of SOMEWHAT CLASSICAL rather than fully Classical for pedagogy.

Cited evidence: Collaborative model and memory/chanting references.

Element 5: School Faculty — CLASSICAL

Evidence - Faculty are described as “classically trained” and integral to the learning experience; the campus model emphasizes teachers who are aligned with classical methods. This aligns with the Classical expectation of model teachers and mentors who embody virtue and the living curriculum. - The public materials signal a living curriculum and a focus on character formation through teachers who model virtue and knowledge (implied by the classical framing and the mission). - The Covenant/Approach materials emphasize community, mentorship, and teacher-student alignment within a covenantal framework, reinforcing the ‘portrait of a teacher’ and ‘living curriculum’ concept.

Positive/Negative Keyword Analysis - Positive indicators: model teachers; living curriculum; faculty as mentors; classical training; portrait of a teacher (as an aspirational standard) in the classical lexicon. - Negative indicators: no explicit negative signals about faculty; no counter indicators observed in the public materials.

Frequency estimate: Several explicit positive indicators (classically trained teachers, living curriculum, mentorship) with no explicit negatives.

Why this rating - The materials present a strong Classical faculty orientation with explicit reference to classical training and teachers as a core element of the curriculum’s living nature.

Cited evidence: Public statements about classically trained teachers and mission emphasis.

Element 6: School Parents & Community — CLASSICAL

Evidence - Partnership with families described as covenantal and central to the school’s model; parents are co-teachers in the home/academy blend, with training and take-home assignments to support at-home learning.

- The school encourages parental involvement and formation via book studies, gatherings, and parent training; there is an ethos of family formation and shared mission. - Public materials emphasize an open-campus posture and parental participation in visits and school life, supporting parent engagement and a collaborative educational culture.

Positive/Negative Keyword Analysis - Positive indicators: partnership with families; co-teachers; parental formation; home-centered learning; family catechesis; parent training; open campus; shared mission. -

Negative indicators: none evident in the public materials (no consumer/customer language; no removal of parents from the educational process).

Frequency estimate: High presence of positive indicators related to parent/community engagement; no negative signals observed.

Why this rating - The school strongly foregrounds parent partnership, training, and a covenantal community, aligning with classical expectations for Parents & Community.

Cited evidence: Covenant model & parent partnership language; home-and-school integration; open-campus emphasis.

Aggregate Assessment

- Category ratings:
 - Element 1: CLASSICAL
 - Element 2: CLASSICAL
 - Element 3: CLASSICAL
 - Element 4: SOMEWHAT CLASSICAL
 - Element 5: CLASSICAL
 - Element 6: CLASSICAL
- General assessment: CLASSICAL

Rationale: The Saint George Classical School materials consistently reveal a Classical Christian program across core foundational aspects: religious/metaphysical grounding, formation-focused purpose, a liberal-arts curriculum with Great Books, and a covenantal family-community model. Pedagogy shows strong classical underpinnings (memory/recitation, paideia-oriented curriculum, Great Books), though a fully explicit articulation of Socratic upper-school pedagogy is not consistently evident in public materials, which places Element 4 in SOMEWHAT CLASSICAL. All other categories meet Classical criteria robustly, yielding an overall CLASSICAL designation.

What would move the needle (only if applicable) - For Element 4 (Pedagogy): Publicly signaling explicit upper-school Socratic seminars and formal seminar structures would strengthen the Pedagogy category to CLASSICAL, aligning all six categories uniformly with the classical rubric.

ABSTRACT

Saint George Classical School TX 78626 demonstrates a robust Classical Christian orientation anchored in the liberal arts, Great Books, and a covenantal family-community model. The school's public materials describe a theology-integrated program that treats truth, goodness, and beauty as real and knowable, with a formation-first purpose aimed at virtue and wisdom rather than job preparation. The curriculum centers on the seven liberal arts (Trivium and Quadrivium), Great Books, and original sources, with a paideia-informed rationale and a strong emphasis on parental partnership as co-educators. Pedagogy and faculty are framed around a classical living curriculum and classically trained teachers, though explicit, public articulation of upper-school Socratic seminars is less evident, leading to a SOMEWHAT CLASSICAL rating in Pedagogy. Parents and community involvement is explicit and strong, reinforcing the classical model of education as a shared mission with families.

Overall, Saint George Classical School is CLASSICAL in its orientation, with substantial alignment across all six categories, and a clear path for strengthening Pedagogy to reach full, unambiguous CLASSICAL status.

Cited sources (selected) - Mission, Scripture-guided framing, and theological foundations; Great Books and Christian worldview: Saint George Classical School website materials. - Covenant with families and parental partnership language; Great Books and paideia references: Covenant and Approach materials. - Great Books canon including Bible and primary sources; Ad fontes emphasis: Classical materials page. - Liberal Arts core (Trivium/Quadrivium) and Great Books; curriculum providers: public curriculum pages. - Collaborative model (campus days + home days with parent co-teaching) and memory-focused/chanting pedagogy: page content. - Mission statements and covenantal community language: Mission page and related content. - Liturgical and

communal practices (chapels, daily prayer, singing) in program materials. - Great Conversation references and paideia framing: Approach materials.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
