## Six Elements of Classical Education School Website Audit

School: St. Giles Christian Academy  
School Website: <https://www.saintgiles.academy/>

January 7, 2026

**Artificial Intelligence Disclaimer**

*This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.*

## Overall Classification: CLASSICAL

### Executive Summary

St. Giles Christian Academy (Leavenworth, KS 66048) presents a clear and sustained Classical Christian orientation across its public materials. The school foregrounds the Trivium (Grammar, Logic, Rhetoric), the liberal-arts framework, Latin, and a Great-Books approach (Omnibus programs) within a Protestant, Reformed, biblically grounded worldview. The public materials consistently articulate aims of character formation, formation of virtue and wisdom, and the cultivation of a lifelong love of learning anchored in Scripture and Christian doctrine. Several elements routinely cited in classical education rubrics appear in abundance: explicit references to Truth, Goodness, and Beauty; theology as foundational to all learning; a commitment to Great Books and the Great Conversation; a chapel/creedal (Apostles' Creed, Nicene Creed, Chalcedon) tradition; and a pedagogy that blends memorization/recitation with Socratic potential through seminars and disciplined discussion (as evidenced in course descriptions and faculty materials). Overall, the school qualifies as CLASSICAL, with evidence of robust classical commitments across six key domains.

#### Executive Summary — Element-by-Element Snapshot

- Element 1: Religious and Metaphysical Foundations — CLASSICAL
- Evidence: Explicit statements about a Christian worldview infusing all subjects; theology as a central governing lens; creeds and Protestant/Reformed heritage; explicit references to Christ as King; Scripture and the Word of God as foundational; Westminster standards and historic creeds form the doctrinal backbone.
- Positive keyword indicators present: truth, goodness, beauty; theology; liturgy/worship; creeds (Apostles' Creed, Nicene Creed, Chalcedon); gospel; Christ; Scripture; Bible; Christian worldview; Protestant/Reformed heritage. Negative keyword indicators: none observed in publicly accessible materials.
- Why this rating: The materials treat religious/metaphysical foundations as central to curriculum, formation, and daily life, with explicit theology-driven claims and liturgical/cultic language. CLASSICAL.
- Element 2: Purpose and Goal — CLASSICAL
- Evidence: Vision and mission statements emphasize formation of character and intellect aligned with Scripture; goals frame education as the formation of virtuous, discerning persons rather than mere job preparation; the Great Books/Great Conversation orientation anchors the telos of studying truth, goodness, and beauty.
- Positive keyword indicators present: formation; virtue; wisdom; liberal education; sacred/mixed classical telos; worshipful aims; pursuit of truth/goodness/beauty; great conversation (as a phrase echoed in classical canon framing). Negative keyword indicators: minimal to no job-readiness or purely workforce-mentality framing in public materials.
- Why this rating: The language consistently frames education as formation aimed at human excellence in a transcendent sense, not solely for career prep. CLASSICAL.
- Element 3: Curriculum — CLASSICAL
- Evidence: Central emphasis on the liberal arts (grammar, logic, rhetoric) as foundational; explicit inclusion of Great Books and the Great Conversation (Omnibus program); Latin; integrated Bible/history/lit-

erature strands; cross-subject coherence; explicit curriculum sections (Curriculum pages) detailing Pre-K through 12 with Omnibus and classical humanities components.

- Positive keyword indicators present: grammar, logic, rhetoric; Great Books; Great Conversation; liberal arts; Latin; history within Western canon; Omnibus (as a humanities program); Bible/Scripture integration; integration of language, literature, and theology; beauty in learning.
- Negative keyword indicators: avoidances of purely social-studies framing; not centering solely on STEM-first or project-based-only models in public materials.
- Why this rating: Curriculum is textbook-classical in scope and structure, with explicit Great-Books/canon engagement and a Trivium-based framework. CLASSICAL.
- Element 4: Pedagogy or Teaching Methods — CLASSICAL
- Evidence: Explicit mention of memorization/recitation elements (chants, memory work in English, Bible and music), and integration of disciplined study with occasional contemplative/restful pedagogy; lower- vs. upper-school pedagogical modalities imply a mix of guided discussion and rigorous practice; explicit articulation of a cooperative approach to teaching (parents as co-teachers) and a rhythm of class meeting days; evidence of a sacred, liturgical cadence in learning. The curriculum includes a memory/recitation dimension and a move toward disciplined rhetoric in upper grades; the presence of chants and memory work is explicit in some materials.
- Positive keyword indicators present: memorization/recitation; chants; singing; memory work; formation through imitation; Socratic dialogue (potentially implied by Omnibus/Humanities through classical dialogue); restful learning (Scholé) concepts appear in the classical lexicon; liturgical/calendar-integration language appears in the broader classical lexicon.
- Negative keyword indicators: some public materials do not strongly emphasize explicit Socratic seminars or full early- and late-stage Socratic pedagogy, though the Great-Books framework often supports dialogic inquiry; overall, explicit, consistent Socratic-seminar language is less prominent in public content.
- Why this rating: The pedagogy shows strong classical elements (memory work, recitation, formation through models) with some emphasis on dialogic inquiry, but explicit articulation of full Socratic seminars across all grades is not consistently documented in the publicly accessible site text. CLASSICAL.
- Element 5: Faculty — CLASSICAL
- Evidence: Public materials present a clearly defined faculty structure (Headmaster/bible teacher; named faculty roles; board governance; portraits of teacher expectations); the public materials emphasize the teachers as mentors and as the living curriculum in practice; quotes highlight professional, virtuous modeling and alignment with Christian doctrine; the faculty are described in terms of virtue, character, and mentorship (e.g., Headmaster as Bible teacher; board membership with spiritual emphasis).
- Positive keyword indicators present: living curriculum; portrait of teacher; mentor/teacher as exemplar; virtuous and thoughtful pedagogy; Christian leadership; professional and diligent teachers; mentors; quality staff; alignment with doctrine.
- Negative keyword indicators: none observed publicly; no explicit leasing of a secular or non-theological faculty framework in public text.
- Why this rating: The public materials consistently present a classical-fidelity faculty model, with teachers as moral exemplars and mentors, aligned with a Christian worldview. CLASSICAL.
- Element 6: Parents & Community — CLASSICAL
- Evidence: Public materials emphasize partnership with families; explicit language that parents are co-teachers and that the school will “do the heavy-lifting” so parents aren’t required to manage everything;

examples of parent involvement (A La Carte, book groups, visits); a focus on educating parents about classical education; open campus/open-door approach to visitor access; governance and board-based affiliation with a local church body; strong emphasis on community and shared mission.

- Positive keyword indicators present: partnership with families; parents as co-teachers; family involvement; parent formation; Christian home life integration; community support; open campus; classical parent training.
- Negative keyword indicators: none observed in public materials; no consumerist, minimal-parent-involvement language.
- Why this rating: The school places a robust emphasis on parent partnership and community alignment with classical aims. CLASSICAL.

Overall aggregate assessment: CLASSICAL

The site's public materials exhibit a coherent classical education posture: a Trivium-based curricula and language (grammar, logic, rhetoric), a heavy emphasis on Great Books and Western canon, Latin, a biblically integrated worldview with creeds and confessional standards, and a pedagogy that includes memory work and potential dialogic practice. The presence of a formal Statement of Faith, creeds, and Protestant/Reformed heritage, coupled with a clearly structured classical curriculum (Omnibus/Great Books) and a governance model anchored in Christian community, all align with the Classical School rubric's six elements.

What Would Move the Needle

- Not applicable for a CLASSICAL rating in this evaluation; no major needle-moving changes are required given the aggregate CLASSICAL designation. If one sought to further strengthen the classical posture, adding explicit, published outcomes for Socratic seminars in all grades, and making explicit the schooled practice of scholé (restful learning) across divisions, would tighten alignment with the six-element rubric.

## Appendix

### ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

### Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
