

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Aristoi Classical Academy of Cypress
School Website: <https://www.aristoiclassical.org/ac/index>

December 27, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools (ACCS) or the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Aristoi Classical Academy Cypress (ACA Cypress) presents itself as a tuition-free public charter that explicitly frames its offering as classical liberal arts education for grades Kindergarten through 10th with a stated mission to form virtuous citizens. The school heavily markets classical language around the grammar–logic–rhetoric (Trivium) tradition and emphasizes critical thinking, persuasive writing, and a love of learning. Public materials show clear alignment with several core elements of classical education—most notably the liberal arts framework and a pedagogy that foregrounds structured language disposition (grammar, logic, rhetoric) and memory via recitation-like practice in lower grades, with Socratic-style inquiry and rhetoric in upper grades implied by the naming of “Logic & Rhetoric” and related weekly announcements.

However, ACA Cypress does not consistently foreground theological grounding, liturgical or communal religious practices, or explicit Great Books/the Great Conversation language in its publicly accessible materials. The content leans toward formation through classical disciplines and virtue-informed aims, but it does not closely articulate theology, liturgy, or explicit theological grounding, nor does it consistently articulate a distinctive, written “great books” curriculum. On balance, ACA Cypress most closely aligns with a classical orientation, but with notable gaps in explicit articulation of several pillars (especially religious metaphysics and explicit Great Books emphasis). Consequently, the school is best characterized as SOMEWHAT CLASSICAL overall, with particular strength in curriculum structure (Trivium) and formation aims, and room to more strongly demonstrate the full six-element classical rubric in a few categories.

Executive Summary — Element-by-Element Snapshot

- **Element 1: Religious and Metaphysical Foundations — SOMEWHAT CLASSICAL** Evidence: public materials emphasize virtue and character formation; explicit theology or liturgical practices are not evident in the publicly accessible content. Positive/Negative keyword analysis: Positive keyword matches include virtue/virtuous character. No clear theology or liturgical terms surfaced in the available public material. Negative keywords not observed. Why this rating: Some transcendental moral vocabulary appears (virtue), but the key theological and liturgical anchors are not publicly stated.
- **Element 2: School Purpose and Goal — SOMEWHAT CLASSICAL** Evidence: mission emphasizes virtuous character and classical formation rather than vocational focus; language centers on formation of citizens of virtuous character. Positive/Negative keyword analysis: Positive keywords include virtue, character, formation; no explicit job-focused or work-preparation framing appears in the accessible text. Why this rating: Formation and moral aims are foregrounded, but explicit statements about truth/goodness/beauty as declarative teleology are less explicit in public copy beyond virtue-centered framing.
- **Element 3: Curriculum — SOMEWHAT CLASSICAL** Evidence: explicit reference to classical liberal arts (grammar, logic, rhetoric) and presence of related weekly content (Grammar/Linguistic & Logic/Rhetoric) on ACA pages. Positive/Negative keyword analysis: Positive keywords identified include grammar, logic, rhetoric, liberal arts; absence of explicit Great Books/Great Conversation language in the visible content. Why this rating: Strong Trivium-based framework evidenced; weaker demonstration of the Quadrivium or Great Books components within the public pages.

-
- Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL Evidence: naming of Logic & Rhetoric, Grammar weekly content implies formal, seminar-like and rhetoric-oriented approaches in upper grades; lower grades imply memorization/recitation by the presence of grammar/choral tradition language in the broader classical education frame. Positive/Negative keyword analysis: Positive keywords include Socratic-style inquiry (implied by “Logic & Rhetoric” emphasis) and recitation/memory (implied by classical pedagogy), whereas explicit restfulness/scholé or chant in lower grades is not overtly shown in the public material. Why this rating: Pedagogical methods align with classical norms (discussion, rhetoric) in upper grades; lower-grade contemplative/restful pedagogy is not clearly demonstrated in accessible content.
 - Element 5: Faculty — SOMEWHAT CLASSICAL Evidence: no explicit living-curriculum or faculty portrait statements appear in the publicly accessible materials; the school indicates hiring faculty but without detailed classical-formation framing. Positive/Negative keyword analysis: Positive keywords in this category would include “model teachers,” “living curriculum,” “faculty as mentors.” Those phrases are not evident in the accessible site copy; only generic teacher-hiring language is visible. Why this rating: Some classical expectations (professional faculty teaching a classical curriculum) are plausible, but explicit language about faculty as mentors and living curriculum is not demonstrated in public content.
 - Element 6: Parents & Community — SOMEWHAT CLASSICAL Evidence: family materials and open-campus language exist (Family Handbook, tours, open houses) suggesting parental engagement, but explicit co-teaching partnership language is not clearly stated in the accessible public copy. Positive/Negative keyword analysis: Positive keywords include family involvement, open campus, parent access; negative indicators (e.g., minimal parent involvement or consumer-language framing) do not appear in the visible content. Why this rating: There is institutional invitation to families (handbooks, tours), but the public statements do not consistently frame parents as co-educators or emphasize structured parent formation programs.

Overall aggregate rating: SOMEWHAT CLASSICAL

- Rationale: ACA Cypress demonstrates core classical elements—liberal arts orientation, grammar–logic–rhetoric pedagogy, and a clear formation emphasis—while missing explicit, widely-publicized theology, liturgical practices, and strong articulations of Great Books or “living curriculum” faculty culture that would push it toward a fully CLASSICAL designation. The public content aligns with a classical orientation, but it does not present a comprehensive, textbook-level articulation of all six elements in a manner consistent with a fully CLASSICAL profile.

What Would Move the Needle

- Declare explicit theological or metaphysical grounding in public materials (even if within a Christian framework, clearly articulate a transcendent teleology that aligns with truth, goodness, beauty and a potential liturgical rhythm).
- Publicly articulate Great Books/Great Conversation components and demonstrate a cross-disciplinary integration with primary sources, classics, and canonical texts.
- Clarify and publish a “living curriculum” portrait of the faculty and a clear, explicit portrait of faculty as mentors who model virtue and classical formation.
- Codify and display explicit parent-education partnerships and co-teaching roles for parents, including book clubs, study groups, and ongoing parent formation programs.
- Expand public examples of Socratic seminars, deliberative discussions, and formal rhetoric opportunities in upper grades, including student speeches and public presentations.
- Highlight a cohesive, community-facing plan for liturgical or communal practices if pursued (music, ritual, and quiet contemplative rhythms) to reinforce the scholé dimension.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — SOMEWHAT CLASSICAL

- Evidence
 - The public materials emphasize virtue and virtuous character as outcomes of education. This is visible in statements about forming virtuous leaders and citizens of virtuous character.
 - The text references a “millennia-old tradition” of thinking, which aligns with a classical intellectual tradition, though it stops short of explicit theological grounding in the public copy.
- Positive/Negative keyword analysis
 - Positive keywords found: virtue, virtuous character.
 - Negative keywords found: none detected in the accessible content for this category (no explicit theology, liturgy, or liturgical practices).
- Why this rating
 - The material signals a focus on moral realism through virtue formation, a component of transcendental aims, but it does not publicly articulate theological grounding or liturgical communal practices. Therefore, SOMEWHAT CLASSICAL.

Element 2: School Purpose and Goal — SOMEWHAT CLASSICAL

- Evidence
 - The mission centers on academically challenging Classical Liberal Arts education and virtuous citizenship, emphasizing formation of character.
- Positive/Negative keyword analysis
 - Positive keywords found: formation of virtue/character, classical mission.
 - Negative keywords found: none explicit in this copy (no vocational-workforce-leaning framing is present).
- Why this rating
 - Formation and virtue are foregrounded, but the public copy does not explicitly frame education as “formation rather than information” in the language of the Six Elements; thus, SOMEWHAT CLASSICAL.

Element 3: Curriculum — SOMEWHAT CLASSICAL

- Evidence
 - Public materials reference classical liberal arts and emphasize the Trivium (grammar, logic, rhetoric) via terms like “Grammar” and “Logic & Rhetoric.”
- Positive/Negative keyword analysis
 - Positive keywords found: grammar, logic, rhetoric; liberal arts.
 - Negative keywords found: not apparent in the visible copy (no explicit Great Books mention in the public content available here).
- Why this rating
 - Strong evidence for Trivium-based curriculum; however, explicit Great Books/Great Conversation and Quadrivium elements are not clearly visible in public content. Hence, SOMEWHAT CLASSICAL.

Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

- Evidence
 - The presence of “Logic & Rhetoric Weekly Announcements” and “Grammar Weekly Announcements” signals structured, language-centered pedagogy with opportunities for disciplined discussion and rhetoric in upper grades.
- Positive/Negative keyword analysis

-
- Positive keywords found: Socratic-style inquiry (implied by rhetoric/logic focus), memory/recitation (implied by classical pedagogy and recitation traditions in the classical lexicon), disciplined dialogue.
 - Negative keywords found: explicit scholé/restful learning or expansive project-based learning statements are not clearly demonstrated in the public copy.
 - Why this rating
 - Pedagogical approach aligns with classical norms (logic, rhetoric, structured discourse) but lacks explicit, publicly stated restful or contemplative elements beyond the tradition's language. SOMEWHAT CLASSICAL.

Element 5: Faculty — SOMEWHAT CLASSICAL

- Evidence
 - Public content centers on ACA Cypress as a classical program and ongoing hiring; however, there is no explicit public articulation of a “living curriculum” or a detailed portrait of the teacher's role as mentors.
- Positive/Negative keyword analysis
 - Positive keywords (from the classical rubric) would include model teachers, mentors, living curriculum; not explicitly stated in accessible content.
- Why this rating
 - Classical framing is present in curriculum and formation orientation, but explicit statements about faculty as mentors or a defined “living curriculum” are not demonstrated in publicly accessible pages. SOMEWHAT CLASSICAL.

Element 6: Parents & Community — SOMEWHAT CLASSICAL

- Evidence
 - Existence of Family Handbook, open houses, and campus-tour content shows engagement with families and parental access.
- Positive/Negative keyword analysis
 - Positive keywords present: partnership with families, open campus, parental access (as evidenced by Family Handbook and campus-tour content).
 - Negative keywords found: explicit “parents as co-teachers” language or formal parent-formation programming is not clearly shown in public copy.
- Why this rating
 - There are clear indicators of family involvement and accessibility, but the public copy does not consistently present parents as co-teachers or a formalized parent-education program, thus SOMEWHAT CLASSICAL.

What Would Move the Needle

- Add explicit theology or liturgical grounding language in public materials to satisfy the religious/meta-physical pillar more robustly.
- Publicly articulate and demonstrate the Great Books/Great Conversation dimension (e.g., a published curriculum map showing canonical works, primary sources, and cross-disciplinary connections).
- Publish a formal “living curriculum” statement for faculty, including portraits of the teacher role, ongoing professional formation, and mentorship expectations.
- Create and publicize structured parent-formation initiatives (book clubs, study groups, and regular parent-education programs) that position parents as co-teachers in alignment with classical pedagogy.
- Provide concrete examples of Socratic/seminality pedagogy at the high school level, including sample seminars, debates, and public speaking opportunities.
- Increase visibility of liturgical or communal practices (if pursued) with a formal cadence (e.g., liturgical calendar, communal music, morning prayer rhythms) to strengthen scholé and reverence.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
