

The Humanitas Institute

## Six Elements of Classical Education School Website Audit

School: Chelsea Academy

School Website: <https://www.chelseaacademy.org/>

December 22, 2025

---

**Disclaimer**

*This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.*

**ACCS Member School**

*Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.*

## Executive Summary

Chelsea Academy Va 22630 presents a clearly Catholic, character-oriented program that integrates classical ideals into a K–12 liberal-arts framework. Public materials emphasize formation of virtue, a Catholic world-view, reverence for truth, and engagement with great books and a classical sensibility, while also detailing modern capabilities (accreditation, campus facilities, college-preparatory work). Overall, the school demonstrates strong classical commitments in religious/metaphysical foundations, school purpose/goals, faculty, and parent/community engagement, with solid if not fully explicit signals in curriculum and pedagogy. The aggregate assessment leans toward CLASSICAL, with several category elements clearly CLASSICAL and a couple that show MOSTLY classical alignment with room for fuller explicit articulation of traditional classical curriculum components (e.g., explicit grammar/logic/rhetoric pedagogy in public-facing materials).

Key takeaways: - Religious and Metaphysical Foundations: Strong Catholic identity, liturgical life, and explicit references to truth, virtue, and sacred practice. Evidence includes Mass, St. Thomas More Chapel, atrium-based religious formation, and statements invoking a Catholic liberal-arts mission. - Purpose and Goal: Emphasis on formation, virtue, wisdom, and the cultivation of human excellence within a liberal-arts and theologically grounded frame. Public materials foreground transformation, character formation, and a "Great Books/Western-Civilization" orientation in practice. - Curriculum: The school markets itself as a Catholic liberal-arts institution; supporting documents reference liberal arts, Western-Civilization-style study, and Great Books through coursework like English offerings and literature lists. Some explicit classical-curriculum cues (liberal-arts emphasis; Great Books) are present, but fully explicit articulation of the classic Trivium/Quadrivium pathway is not consistently foregrounded in site content. □filecite□turn0file0□turn0file18□turn0file6□ - Pedagogy: Signals of contemplative/wonder-based approaches (e.g., Atrium, memory work, chants, ritual life) exist alongside more dialogic elements (e.g., upper-school opportunities for rhetoric and public speaking are referenced, but explicit Socratic seminars are not uniformly documented across public pages). □filecite□turn0file9□turn0file16□ - Faculty: The faculty are framed as living exemplars and mentors, with language emphasizing faith-filled teaching, virtue, and the "living curriculum." Featured content highlights leadership and a team-oriented, faith-centered approach. - Parents & Community: Strong emphasis on parent partnership, parent formation via the website, book discussions, and open-campus ethos, with explicit references to parent involvement and engagement.

Executive category-by-category snapshot (CLASSICAL / SOMEWHAT CLASSICAL / NOT CLASSICAL) follows, with explicit keyword analysis and justification.

## Executive Summary — Element-by-Element Snapshot

### Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - The school presents a robust Catholic identity and liturgical life: references to Catholic mission, the St. Thomas More Chapel, and Mass, sacred rites, and catechesis are documented on mission/philosophy pages and in campus life descriptions. - Public materials describe formation of virtue within a Catholic liberal-arts framework and emphasize realities like truth and God's truth. Statements about shaping souls

---

within a Catholic tradition and a motto anchored in a biblical passage appear in mission-focused pages. - Atrium experiences and prayers are described in lower-school life as part of sacred tradition and religious formation.

Positive/Negative Keyword Analysis - Positive indicators present from the religious-metaphysical lexicon (truth, virtue, theology, liturgy, Mass, prayer, sacred tradition, sacred music, chant, wonder, imago Dei) are found across Chelsea's public materials: "authentic Catholic Liberal Arts tradition," "Forming Saints, Scholars, and Servant Leaders," the Mass and chapel, and theatrical liturgical life. This aligns with the lexicon's Catholic/ liturgical/ theological signals. □filecite□turn0file0□turn0file3□turn0file16□ - Negative indicators (relativism, secular humanism, values clarification) are not evident in the public materials reviewed for this school. The absence of these signals supports a CLASSICAL rating for this category. (Referenced lexicon notes negative signals to watch for; these do not appear in Chelsea's public materials.)

Why this rating - Chelsea Academy's public-facing materials foreground a trans-cending moral order anchored in Catholic theology, liturgy, and sacred life, which strongly aligns with transcendental realism and liturgical/community practice described in the classical rubric. The presence of the St. Thomas More Chapel, Mass, the atrium, and explicit language about pursuing truth through a Catholic lens all support a CLASSICAL designation in this domain. □filecite□turn0file16□turn0file9□turn0file0□

## **Element 2: School Purpose and Goal — CLASSICAL**

Evidence - Public materials describe formation as the aim of education—cultivating virtue, wisdom, and human flourishing, rather than merely preparing for work. "Forming Saints, Scholars, and Servant Leaders" and language about forming the whole person reflect this telos. - The mission emphasizes enduring truth and a liberal-arts/Western-Civilization orientation, aligning with the classic aim of education as paideia and cultivation of the soul. - "Transformative" education and the idea of forming virtuous leaders are repeatedly highlighted, indicating a formation-focused goal beyond information transfer.

Positive/Negative Keyword Analysis - Positive keywords drawn from the lexicon: formation, virtue, human flourishing, wisdom, liberal education, paideia, telos, pursuit of the true/good/beautiful, great conversation, scholé. Chelsea's materials explicitly reference formation, virtue, and liberal-arts orientation; the phrase "Transformative Lives" and "Forming Saints, Scholars, and Servant Leaders" map directly to these positive indicators. □filecite□turn0file3□turn0file13□ - Negative signals (workforce-readiness, 21st-century skills) are not present as a primary framing in Chelsea's public materials; the emphasis remains on formation and virtue rather than short-term job-readiness discourse. The lexicon notes these as potential negative signals when present; they do not appear here.

Why this rating - The school consistently frames education as formation toward virtue and wisdom within a Catholic liberal-arts framework, aligning with the classical aim for human excellence and the true/good/beautiful telos. This supports CLASSICAL designation for this category. □filecite□turn0file3□turn0file0□

## **Element 3: School Curriculum — SOMEWHAT CLASSICAL**

Evidence - Chelsea positions itself as a Catholic liberal-arts institution, referencing liberal arts as the curricular backbone and citing engagement with Western tradition and study of great books/literature (e.g., English course lists including classic works; descriptions of classical study and a "great books" orientation implied through the emphasis on canonical literature). □filecite□turn0file0□turn0file18□ - Supporting materials (ICE pamphlet and classical-curriculum lexicon) outline the Trivium/Quadrivium, Latin/Greek, history, and great books as core curricular elements of classical education; these elements provide a framework for what a classical curriculum should include. Chelsea's materials reference liberal arts education and canonical literature (e.g., book lists featuring classic titles). - The curriculum content in Chelsea materials shows emphasis on literature and Western civilization through graded reading lists and course choices (e.g., English IV, History, Theology). The presence of classic works and a heavy humanities emphasis is evident.

Positive/Negative Keyword Analysis - Positive indicators present: liberal arts, great books, classics, history (as in Western Civilization framing), and canonical literature (e.g., *The Great Gatsby*, *The Scarlet Letter*, etc.).

---

Chelsea publicly references classical education through its mission and course materials; these map onto the lexicon's expected curricular signals. [filecite\turn0file0\turn0file18](#) - Explicit Trivium/Quadrivium vocabulary (grammar, logic, rhetoric) is not consistently foregrounded in public Chelsea pages; the formal articulation of these components is more implied through "liberal arts" and canonical literature rather than explicit Trivium/Quadrivium naming in site content. The lexicon warns that lack of these explicit terms can signal a weaker alignment; Chelsea's site does not frequently spell them out, though the broader liberal-arts/western-civilization emphasis remains strong.

Why this rating - Chelsea clearly embraces a liberal-arts, canon-focused curriculum and a Great Books/Western-Civilization orientation, which are core classical markers. However, the public-facing materials do not consistently spell out the full Trivium/Quadrivium pathway or the explicit "Great Conversation" framing in a way that would guarantee a full classical-curriculum declaration. Given that, the category is best described as SOMEWHAT CLASSICAL, with strong classical signals but not complete, explicit pedagogy/curriculum articulation in every public-facing piece. [filecite\turn0file0\turn0file18](#)

#### **Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL**

Evidence - The school features contemplative, ritualized elements (atrium classes, liturgical life, and memory-based routines) alongside more traditional, dialogic expressions (upper-school rhetoric and public speaking). The presence of Atrium programs and prayer/memory-based practices aligns with scholé (restful/wonderful learning) signals in the classical lexicon. - Public materials reference opportunities for writing, speaking, and leadership (e.g., senior theses, public addresses, and headmaster communications) suggesting rhetoric/eloquence training in the upper grades. [filecite\turn0file13\turn0file10](#) - There is evidence of classical pedagogy signals (memory work, recitation, chant, and a strong emphasis on reverence and wonder) in lower-school experiences and liturgical life; this aligns with some of the pedagogical signals in the lexicon.

Positive/Negative Keyword Analysis - Positive indicators present: scholé (contemplative/restful learning), memory work/recitation or chant (even if not named explicitly as such in every page), singing, and a semantically canonical path (Upper School rhetoric/debate opportunities). The lower-school Atrium and the liturgical/ritual life support a contemplative dimension. [filecite\turn0file9\turn0file7](#) - Negative signals in the public-facing data are not prominent; however, explicit, canonical Socratic seminars and a comprehensive articulation of classical dialogic pedagogy in every grade are not consistently documented in site pages. This limits a full CLASSICAL rating for pedagogy.

Why this rating - Chelsea demonstrates several classical pedagogical signals (contemplative/reverent learning, memory/chant practices, and high-school rhetoric opportunities). Yet, the site does not consistently present a full, explicit Socratic/seminar-based pedagogy across the upper grades in public-facing materials. Therefore, SOMEWHAT CLASSICAL is appropriate here, with room to bolster explicit Socratic/seminar pedagogy and scholé-centered practice documentation. [filecite\turn0file9\turn0file13](#)

#### **Element 5: Faculty — CLASSICAL**

Evidence - The public materials frame teachers as virtuous mentors, living the faith, and central to student formation. There is emphasis on teachers as models, living curriculum, and collaborative, faith-driven professional culture. - The leadership narrative (headmasters, faculty leadership, and faculty directories) and statements about teachers living the faith and loving their craft point to a faculty culture that is aligned with classical expectations of mentors and guides. - The school's communications emphasize a "faculty of friends" and a portrait of what teachers should be, consistent with classical elements of a strong, virtuous teaching staff.

Positive/Negative Keyword Analysis - Positive keywords from the lexicon include: living curriculum, portrait of a teacher, model teachers and mentors, collegial culture, and teachers as sages/guides. Chelsea's site content reflects these ideas in mission statements and faculty pages. [filecite\turn0file0\turn0file7](#) - Negative keywords (e.g., "facilitators on the side," over-emphasis on credentialing without classical context) do not appear in the Chelsea materials; the faculty portrayal aligns with classical expectations.

---

Why this rating - The site consistently frames faculty as central, virtuous exemplars and living curriculum, with strong, faith-centered professional identity. This matches the classical faculty criterion well, supporting a CLASSICAL rating for this category. □filecite□turn0file0□turn0file7□

### **Element 6: Parents & Community — CLASSICAL**

Evidence - Chelsea emphasizes partnership with parents, viewing them as co-teachers and engaging them in formation through the site (parent book clubs, formation opportunities, and campus visits). The public materials reference parent engagement and an open-campus ethos. - The site presents parents as integral to Chelsea's mission, including support structures through the Chelsea Academy Foundation and annual events that invite family participation. - Public content references accessibility to campus visits and parent testimonials, underscoring the community-oriented model Chelsea advocates.

Positive/Negative Keyword Analysis - Positive indicators present: partnership with parents, parent formation (book clubs, seminars), open-campus visits, and parent involvement. These terms map directly to the lexicon's signals for a healthy classical-education community. - Negative signals (e.g., "consumer" parent language, minimal parental involvement) do not appear; the site portrays active parental engagement and partnership.

Why this rating - Chelsea presents a robust, partnership-driven parent/community model typical of classical schools, with explicit calls for parent involvement and formation. This supports a CLASSICAL designation for Element 6.

#### **Aggregate Assessment**

- Element 1: CLASSICAL
- Element 2: CLASSICAL
- Element 3: SOMEWHAT CLASSICAL
- Element 4: SOMEWHAT CLASSICAL
- Element 5: CLASSICAL
- Element 6: CLASSICAL

Overall, the school's alignment is CLASSICAL. The strongest signals appear in Religious & Metaphysical Foundations, School Purpose/Goal, Faculty, and Parents/Community. Curriculum and Pedagogy show clear classical intent but with room for more explicit articulation of full Trivium/Quadrivium pedagogy and a more explicit Great Books/Great Conversation framing in public materials. The aggregate assessment therefore sits in CLASSICAL, with two areas showings of SOMEWHAT CLASSICAL (Curriculum and Pedagogy) that could be expanded to push those categories toward full CLASSICAL alignment.

### **What Would Move the Needle**

- Element 3 (Curriculum): Explicitly name and map Trivium components (grammar, logic, rhetoric) and Quadrivium elements within public-facing curriculum descriptions; foreground Great Books/Great Conversation language and canonical Western literature studies as core, not merely implied. Include explicit references to classical history methodologies and canonical authors beyond select course lists.
- Element 4 (Pedagogy): Provide clearer, public-facing descriptions of Socratic/seminar-based pedagogy in upper grades and a more explicit articulation of scholé/restful learning practices (e.g., dedicated scholé days, contemplative inquiry models) in site content.
- Element 2 (Purpose/Goal) and Element 5 (Faculty) already strong, but could benefit from more explicit articulation of telos in program materials (e.g., a stated aim to cultivate logos/wisdom/virtue across all disciplines and a more explicit portrait of teacher-mentors beyond general statements).

---

# Appendix

## ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

### Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
