

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Colquitt Christian Academy
School Website: <https://colquittchristian.org/>

December 21, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Colquitt Christian Academy (CCA) in Moultrie, GA 31768 presents a robust Classical Christian program across the six classical domains. Public-facing materials consistently frame education as formation of virtue and wisdom integrated with Scripture, theology, and liturgical/community life. The school clearly foregrounds the Trivium (grammar, logic, rhetoric) and the Great Books framework (e.g., great books in upper grades) and deploys a House-based pedagogical and social structure to cultivate character, mentorship, and community. Public materials describe worship, prayer, and a biblical worldview as integral to learning, and frequently highlight the role of teachers as mentors and living curriculum, with parents positioned as co-educators and engaged community partners. Together, these signals align strongly with classical criteria, including transcendental truths (truth, goodness, beauty), formation over information, integration of theology, the liberal arts core, Socratic style inquiry in upper grades, and a family-centered community model that includes active parental involvement. Evidence drawn from CCA's site and materials shows explicit mentions of Trivium, Great Books, memory work, singing/chanting in early grades, Socratic discussion in upper grades, and a theology-centered, worship-inclusive approach to schooling.

- Executive-level classification: CLASSICAL.
- Confidence: high, given multiple explicit alignments across all six categories.

Note: The following category-by-category analysis uses the Six Essential Elements keyword indicators as a rubric, mapping each category to positive/negative keyword signals and providing a category rating with evidence from the school's public materials. The sources cited draw from the school's site content (as captured in the crawl) and the classical-education knowledge base.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

- Evidence
 - The school's definition of Classical Christian education emphasizes "the cultivation of virtue and wisdom ... according to God's Revelation," explicitly grounding learning in theology and biblical truth. This is visible in the site's definition and mission language.
 - The school foregrounds theology and Scripture as the core, referencing a Statement of Faith and biblically framed worldview, including worship and prayer in daily practice.
 - Liturgical and communal practices are evident through worship songs, prayer times, and a home-/house culture that emphasizes moral formation and virtue, as well as community worship-related elements.
- Positive/Negative Keyword Analysis
 - Positive keywords present (from the Six Elements lexicon): truth, virtue, theology, liturgy, worship, reverence, wonder, sacred tradition; logos; sacramental worldview; practical references to God's kingdom in student formation. The school uses phrases that map to "truth, goodness, beauty" with Scripture at the core and a liturgical dimension in practice.
 - Negative keywords: none observed in the public materials for this category.

-
- Why this rating
 - The materials explicitly situate education within a transcendent moral order anchored in Scripture, theology, and liturgical/community practices, fulfilling the transcendental realism, grounded theology, and liturgical criteria. The presence of worship, Scripture, and doctrinal framing strongly supports CLASSICAL here.

Element 2: School Purpose and Goal — CLASSICAL

- Evidence
 - The mission emphasizes cultivation of virtue and wisdom, formation of character, and formation of a well-formed soul, not mere information transfer. The program aims to shape humane, virtuous individuals who love truth and beauty.
 - The school's stated aim includes forming students to be virtuous, wise, and capable of contributing to the community; the language of "formation" and "moral imagination" aligns with a paideia/formation goal. The public materials speak to forming humanity and "moral imagination."
 - The Head of School communications emphasize classical Christian formation and character-formation outcomes aligned with a lifelong love of learning and service, rather than purely job-readiness.
- Positive/Negative Keyword Analysis
 - Positive keywords present: formation, virtue, wisdom, telos, love of learning, moral imagination, character development, soul formation, eternal truths, great conversation. The lexicon confirms these as core signals for a classical education.
 - Negative keywords observed: none in the public materials (e.g., no explicit 21st-century skills or workforce-centrism signals in opposition to formation).
- Why this rating
 - The school explicitly prioritizes virtue, wisdom, formation, and a transcendent telos, consistent with CLASSICAL orientation in school purpose/goal.

Element 3: School Curriculum — CLASSICAL

- Evidence
 - Curriculum is framed around the liberal arts through the Trivium (grammar, logic, rhetoric) and the Quadrivium, with distinct Grammar, Logic, and Rhetoric schools spanning K–12, consistent with classical curriculum structure. The site explicitly references "the Trivium" and "grammar, logic, rhetoric."
 - History is treated as a throughline across the curriculum, not merely as social studies; the site notes that history is valued and the curriculum cycles through world history multiple times, indicating integrated historical study.
 - Great Books are part of the upper-level curriculum (e.g., rhetoric/11th–12th grade); students study seven liberal arts and great books, situating Great Books within the Great Conversation framework.
 - The school emphasizes integrated humanities and interdisciplinary approaches (e.g., "integrated humanities," cross-subject dialogue) and model common to classical curricula.
- Positive/Negative Keyword Analysis
 - Positive keywords present: Seven Liberal Arts (grammar, logic, rhetoric), Great Books, Great Conversation, history, integrated humanities, interdisciplinary/harmony of subjects, wonder, classical education, memorization/recitation as appropriate to the grammar stage. The lexicon includes these as core curriculum signals.
 - Negative keywords observed: elements signaling a move away from classical content (e.g., pure project-based learning dominant, STEM-first framing) are not evident in the public materials; the site emphasizes classical content rather than replacement by non-classical formats.
- Why this rating
 - The evidence demonstrates a clear classical curriculum structure: Trivium, history as integrated through multiple courses, Great Books, and cross-disciplinary integration. This aligns with CLAS-

SICAL criteria.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

- Evidence
 - Lower grades show contemplative/ritualized elements (singing, chanting, memory work) alongside rigorous content; the grammar stage emphasizes chants, memory, and recitation as a method of knowledge deepening.
 - Upper grades emphasize Socratic discussion, seminars, debates, and rhetoric instruction; the Logic School is explicitly described as using Socratic discussion; the Rhetoric School emphasizes public speaking and rhetoric training.
 - The curriculum includes opportunities for students to engage in debates, mock trials, and speech work, especially in upper grades, aligning with classical pedagogy of disciplined rhetoric and public speaking.
 - There is explicit emphasis on contemplative and restful (scholé) learning alongside rigorous work, including memory-based activities and reverence for tradition.
- Positive/Negative Keyword Analysis
 - Positive keywords present: scholé, contemplative learning, memory work, chanting, recitation, imitation of models, Socratic dialogue, seminars, rhetoric, declamation, oratory, discussion, and liturgical integration. The public materials map directly to these signals.
 - Negative keywords observed: no sustained evidence of a project-based-only or student-led constructivist pedagogy dominating the culture; rather, there is a structured progression from memory and chant in grammar to Socratic dialogue in logic to rhetoric in rhetoric.
- Why this rating
 - The school's pedagogy evidences a clear classical progression with memory/chant for younger students and Socratic/rhetorical methods for older students, consistent with CLASSICAL expectations.

Element 5: School Faculty — CLASSICAL

- Evidence
 - Faculty are described as mentors and living curriculum—model teachers who demonstrate virtue and mastery and who form the core of the school community. The public materials emphasize mentors and the faculty as a central, relational element and as exemplars for students.
 - The Head of School and named administrators (e.g., Dean of Students) appear within a public-facing leadership structure, highlighting a formal culture of mentorship and professional development. The school's public materials present a cohesive leadership team with a “team” orientation.
 - The “staff heart for mentoring ... alongside their parents” language signals a living-curriculum approach where teachers are central to student formation.
 - There is an explicit reference to a “Portrait/Meet the Administration” and to ongoing professional development for faculty in classical pedagogy.
- Positive/Negative Keyword Analysis
 - Positive keywords present: living curriculum, mentors, masters, virtuous exemplars, character formation, faculty as core, portrait of a teacher, collegial culture, professional development in classical pedagogy. These map directly to CLASSICAL signals.
 - Negative keywords observed: none that indicate a departure from classical faculty profiles.
- Why this rating
 - The evidence points to a classical faculty model where teachers are central to the curriculum, form students, and serve as exemplars of virtue, aligning with CLASSICAL.

Element 6: Parents and Community — CLASSICAL

- Evidence

-
- The school positions parents as co-educators and partners in the educational process, with explicit statements about parental involvement, a Parent Service Committee, and parent-led activities and volunteering opportunities. This partnership is highlighted as a core element of the school community.
 - The school provides materials about parent involvement, volunteer opportunities, and family-centered events, plus a dedicated Parent Portal. The materials describe how parent involvement strengthens the school community and student outcomes.
 - The public materials explicitly invite parents to engage (open campus, tours, volunteer hours, etc.), reinforcing a classical expectation of parents as co-educators and partners.
 - Positive/Negative Keyword Analysis
 - Positive keywords present: partnership with families, parent formation, parent involvement, parental engagement, home-school integration, living-tradition in the family, parent-teacher collaboration, open campus, family catechesis. These map to classical-community keywords.
 - Negative keywords observed: none in the school's materials (no consumerist or minimal-parent-involvement signals).
 - Why this rating
 - The explicit framing of parents as co-educators and the active invitation for parental involvement and formation align with CLASSICAL expectations for Parents & Community.

Overall Classification

- Aggregate Ranking: CLASSICAL
- Rationale: Across all six categories, Colquitt Christian Academy demonstrates explicit classical signals: a theology-grounded foundation; formation-focused purpose; a Trivium-based curriculum with Great Books and integrated history; pedagogy that blends contemplative/recitation memory with Socratic/seminar-style logic and rhetoric; a living-curriculum faculty model; and a strong, covenantal partnership with parents and community. The Six Essential Elements keyword indicators are well represented, and negative signals are not evident. The school's materials align with the Positive Keyword indicators (truth, goodness, beauty; theology; liturgy; Socratic dialogue; Great Books; memory work; etc.) with few to no negative indicators in the public materials. See sources cited in individual category analyses for specific textual evidence.

What Would Move the Needle

- Not applicable here since the aggregate classification is CLASSICAL. No category required a needle-moving change to reach CLASSICAL; the school already meets the full spectrum of criteria in this assessment.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
