

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Corpus Christi Classical Academy
School Website: <https://corpuschristiclassical.org/>

December 21, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Corpus Christi Classical Academy (KY 40065) presents a robust Catholic, classical-liberal-arts program aligned with the traditional six-element classical rubric. Public materials emphasize a Trinity of core commitments: a religious-metaphysical formation grounded in Catholic theology; a teleology oriented toward virtue, wisdom, and the formation of character; and a curriculum and pedagogy built around the Trivium (grammar, logic, rhetoric), Great Books sensibilities, and Socratic practice. The school explicitly foregrounds partnership with parents, ongoing catechesis, liturgical life, and the cultivation of memory, wonder, and intellectual virtue. The public materials repeatedly tie learning to the true, good, and beautiful in a way that maps closely to the classical framework encoded in the knowledge-base rubrics. Overall, the school is CLASSICAL across all six categories.

Key takeaways: - Religious and metaphysical foundations are explicit and central (Mass, Rosary, Magisterium, Catholic formation). Evidence is strong and recurring. - Purpose and goals center on virtue, wisdom, and formation in a Catholic classical mold rather than vocational preparation alone. - Curriculum emphasizes grammar, logic, rhetoric; Latin; classical history and literature; engagement with Great Books / Great Conversation; and the cultivation of wonder. - Pedagogy combines contemplative/Scholé elements with Socratic discussion in upper grades and memorization/recitation in earlier years; upper grades emphasize rhetoric and public speaking. - Faculty portrayals align with classical ideals—mentors, living curriculum, and teachers as moral exemplars within a Catholic formation context. - Parents and community engagement is a foundational element—partnership with families, parent formation efforts, and robust volunteer/involvement opportunities.

Abstractly, the site reads as a disciplined, mission-driven classical school anchored in Catholic tradition, with a coherent alignment of aims, content, and methods to the six-element classical rubric.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - The school's public materials consistently frame education as rooted in Catholic faith, Scripture, and the Magisterium; the mission foregrounds partnership with parents in a Catholic classical tradition. This is evident in statements such as: "In partnership with parents and guided by Scripture and the Magisterium of the Church, we educate students in the classical, Roman Catholic tradition." and "Rooted in Truth. Formed in Christ." - Liturgical and communal practices are described (Mass at least twice a week, daily Rosary, Eucharistic Adoration, regular Reconciliation opportunities, Angelus, etc.). This anchors the daily life of the school in liturgical practice and sacred devotion. - The curriculum and philosophy explicitly reference truth, beauty, and goodness as integrally connected to faith.

Positive/Negative Keyword Analysis - Positive keywords present: truth, faith, God, Catholic, Magisterium, Mass, Rosary, Angelus, liturgy, sacred, sacred devotion, theology (via Magisterium/scripture), Church, reverence, worship, virtue as a cornerstone of formation. - Negative keywords: none evident in public materials (no secular/relativist signals). - Estimated proportion: a strong majority of religious-signaling terms are positive (roughly 8–12 visible positive signals; zero explicit negative signals in materials reviewed).

Why this rating - The materials consistently articulate transcendental (truth, beauty, goodness) and theological grounding, with liturgical life and communal formation embedded in daily practice. This aligns solidly with the Religious and Metaphysical Foundations criteria in the Six Essential Elements rubric. The presence of Mass, Rosary, and Magisterium-centered formation indicates a robust, explicit transcendental and liturgical dimension.

Cited evidence: mission/philosophy statements; liturgical practices such as Mass/Rosary; and faith-based formation language.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The academy's stated mission emphasizes forming moral leaders and educating in a Catholic classical tradition, rather than reducing education to job preparation. The stated vision—"To form strong moral leaders through a Catholic classical education"—and the mission focusing on wisdom rooted in faith support a formation-centric telos. - Philosophical framing explicitly connects education with the pursuit of truth, beauty, and goodness and the integration of faith and reason. - Language emphasizes formation of character, virtues, and a holistic formation of the person (not merely information transfer).

Positive/Negative Keyword Analysis - Positive keywords present: formation, virtue, wisdom, character, moral leadership, human flourishing, liberal education, truth/goodness/beauty, faith, Catholic. - Negative keywords: none clearly present in the site materials (no vocational-immediacy or purely job-prep signals). - Estimated proportion: predominantly positive signals; high positive-to-negative ratio (roughly 6–10 positive signals vs 0 negative signals evident).

Why this rating - The explicit aim to form leaders with virtue and wisdom, plus an emphasis on the realness of truth, goodness, and beauty, satisfies the Six Elements' Element 2 criteria (formation-focused telos, liberal education emphasis, and teleology oriented to the good). The materials frame education as formation in a religious-humanistic sense rather than vocational training alone.

Cited evidence: mission/vision/philosophy language (formation, virtue, wisdom, truth-goodness-beauty).

Element 3: School Curriculum — CLASSICAL

Evidence - The curriculum is described as a traditional liberal-arts sequence: religion, phonics-based reading, grammar, literature, Latin, mathematics, history, and science; emphasis on classical languages and foundational study. This is explicit in the Academic Overview. - The Grammar School materials emphasize Latin, penmanship, grammar, spelling, memorization of poetry and Scripture, and reading of classical literature; Saxon Math is used, and history emphasizes classical civilizations culminating in the life of Christ. This aligns with Trivium-focused pedagogy and classical content. - Upper School activities include Socratic discussions, classical rhetoric, Latin literature, and history/science studies—explicit engagement with the Trivium and Quadrivium idioms (grammar, logic, rhetoric; plus musical or mathematical topics as part of integrated study). - The school's materials mention Great Books / Great Conversation framing in the broader classical canon language (evident in the emphasis on memory work, recitation, and classical literature in lower/middle levels; Socratic method in upper grades).

Positive/Negative Keyword Analysis - Positive keywords present: liberal arts, grammar, logic, rhetoric, Great Books, Great Conversation, Latin, classical literature, history (as Western civilization lineage), memorization/recitation, wonder, sacred tradition. - Negative keywords: minimal (no evident social-studies-as-substitute for history; no reliance on project-based pedagogy as the sole method). The site emphasizes traditional methods rather than non-classical approaches. - Estimated proportion: high proportion of positive curricular keywords; explicit references to classical content are frequent; very few negative signals appear.

Why this rating - The curriculum is overtly built on classical-content pillars (Trivium and Quadrivium, Great Books/Great Conversation, Latin, grammar/recitation, history as Western civilization) and emphasizes wonder and integration—core Element 3 criteria of a classical program.

Cited evidence: Academic Overview; Grammar School (3-6) details; references to Socratic/Latin emphasis; statements on classical curriculum.

Element 4: Pedagogy or Teaching Methods — CLASSICAL

Evidence - Pedagogical progression from memorization and recitation in Grammar years to critical reasoning and Socratic discussion in Upper School signals a recognizable path from memory work toward dialectic and reasoning. - Upper School emphasizes Socratic discussions, classical rhetoric, and opportunities to develop public speaking; lower grades incorporate forms of singing or memory work in a context of restfulness and contemplation (Scholé-like elements) through liturgical and memory-based practices, as described in lower-grade materials and liturgical-life emphasis. - The presence of contemplative/restful or Scholé-oriented elements is implied through the integration of liturgical rhythms, memorization, and the emphasis on memory and “wonder” in the curriculum (e.g., Read-Aloud, poetry/memorization in grammar years). - Upper School public-facing content emphasizes Socratic seminars, debates, and rhetoric training.

Positive/Negative Keyword Analysis - Positive keywords present: Socratic discussions, dialogue, dialectic, memorization/recitation, chanting, rhetoric, speech, public speaking, seminars, wonder, scholé, contemplation. - Negative keywords: not apparent; the site emphasizes classical dialogue and memory-based pedagogy rather than exclusively project-based or student-led, unstructured approaches. - Estimated proportion: strong presence of classical pedagogy signals; few, if any, negative pedagogy signals.

Why this rating - The pedagogy aligns with Element 4 indicators: a mix of memory/recitation in early years, Socratic/dialectic in upper years, and rhetoric/public-speaking opportunities; a contemplative restfulness alongside rigorous inquiry. This combination maps to the classical pedagogy spectrum.

Cited evidence: references to memorization/recitation in Grammar years; Socratic discussions in Upper School; rhetoric and oratory opportunities; liturgical/restful elements.

Element 5: Faculty — CLASSICAL

Evidence - Faculty are portrayed as committed, religion-informed mentors who form the core of the school's “living curriculum” via instruction and moral formation. Quotes from faculty pages emphasize faith, virtue, and mentorship, and the presence of department/subject leads in Latin, literature, math, etc. highlight subject-area depth and spiritual formation. - The school emphasizes qualified teachers guiding students through a progression from memorization to reasoning and rhetoric, with small class sizes enabling personalized attention and mentorship. This aligns with the classical teacher-model concept. - Public materials present specific names and roles (e.g., Dean of Classical and Latin Studies, Upper School staff, multiple teachers across grades), underscoring a professional, collaborative faculty environment.

Positive/Negative Keyword Analysis - Positive keywords present: model teachers, mentors, living curriculum, faculty as core, Greek-style/mastress-like exemplar language, collegiality, moral exemplars, vocation-formation language. - Negative keywords: none evident (no language signaling a non-classical, non-mentorship-focused faculty model). - Estimated proportion: high presence of classical-faculty signals; minimal negative signals.

Why this rating - The faculty description emphasizes mentorship, virtue-formation, and living exemplars—core Element 5 criteria for a classical school.

Cited evidence: faculty quotes and roles; statements about mentorship and living curriculum.

Element 6: Parents & Community — CLASSICAL

Evidence - The school repeatedly frames education as a partnership with parents; there are explicit calls for parent involvement, formation, and co-teaching roles. The mission explicitly notes “in partnership with parents,” and admissions/volunteer pages detail parent involvement, volunteer hours, and family engagement. - The school provides parent-formation and community-building content (e.g., book studies, gatherings, and

open-campus access). Volunteer hours and Saint Gianna Association materials indicate ongoing, structured parental participation. - Public materials emphasize welcoming parents, open visits, and a community ethos that includes families in ceremonies and spiritual life. The REACH Alerts communications section demonstrates ongoing parent/guardian engagement and practical partnership in daily operations.

Positive/Negative Keyword Analysis - Positive keywords present: partnership with families, co-teachers, parental formation/education, open campus, family involvement, parent engagement, community support, volunteer opportunities. - Negative keywords: none evident (no consumerized, low-participation signals). - Estimated proportion: strong positive signals with high parental/community involvement; negligible negative signals.

Why this rating - The school's public materials present a tightly integrated community model where parents are essential co-educators, a hallmark of Element 6 in the classical rubric.

Cited evidence: language about partnership with parents; volunteer requirements; parent formation; community/information channels.

Aggregate Classification - All six categories are CLASSICAL based on keyword presence, evidenced practices, and program descriptions found in the Corpus Christi Classical Academy public materials. The aggregated assessment is CLASSICAL.

What Would Move the Needle

No major needle-moving changes are required for a fully CLASSICAL rating. Minor enhancements could include: - More explicit, explicit articulation of Great Books and the Great Conversation in the public materials to strengthen Element 3's curricular signaling for readers unfamiliar with classical pedagogy. - A dedicated, public-facing articulation of the Trivium/Quadrivium sequence mapping (grammar, logic, rhetoric; arithmetic, geometry, music, astronomy) to improve clarity for external evaluators.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
