

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Covenant Christian School
School Website: <https://ccsconroe.org/>

December 21, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Classicality Audit: Bethel Classical Academy

URL audited: <https://bethelclassical.org/>

Executive Summary - Overall classification: CLASSICAL - Why: Bethel Classical Academy (BCA) explicitly centers education on truth, goodness, and beauty, employs the Trivium (grammar, logic, rhetoric), integrates a biblical/theological worldview across subjects, and emphasizes the cultivation of virtue and partnership with parents. Its public materials show extensive alignment with the "Six Essential Elements" positive keyword indicators, with especially strong evidence in Religious/Theological Foundations, Purpose/Goal, Curriculum, Faculty, and Parents/Community. Pedagogy is solid in logic/rhetoric/discussion and imitation but shows less published evidence for scholastic/restful learning and lower school chanting/recitation practices.

- Notes on method: The audit compares BCA's stated language against the Positive/Negative Keyword Indicators outlined in the "Six Essential Elements of a Classical School" and the classicality lexicon arranged by the six elements (religious foundations, purpose/goals, curriculum, pedagogy, faculty, parents/community) to quantify signal strength.

How to read the scores - Each category includes a keyword analysis (positive vs. negative indicators), a quantitative estimate (percent_positive and pos_neg_hits), coverage of required subcriteria (percent_coverage), and a rating (CLASSICAL / SOMEWHAT CLASSICAL / NOT CLASSICAL).

—
Element 1: Religious and Metaphysical Foundations - What we found in BCA's materials (keywords/phrases): - Positive: "truth, goodness, and beauty," "virtue," "glorify God," "Christ-centered," "biblical worldview," "Jesus Christ is Lord of all," "God is Creator," "inerrancy of the Bible," "God is Sovereign," "worship" (as an intellectual mandate)

- Negative: none observed (e.g., "value-neutral," "pluralistic," "religiously neutral," "relativism") - Comparison to Six Elements lexicon: - Strong matches to "transcendental moral realism" (truth, goodness, beauty), and "grounded in theology" (Christ-centered education, Christian worldview, doctrine) and some evidence of "liturgical/communal practices" via "worship" language. Less explicit is daily chapel/liturgy.

- Quantitative estimate: - pos_neg_hits: +11/-0 - percent_positive: 1.00 - percent_coverage: 0.67 (clear evidence for moral realism and theological grounding; limited explicit mention of chapel/liturgy) - Rating: CLASSICAL

Element 2: School Purpose and Goal - What we found: - Positive: "develops virtue," "raise lifelong learners who live to glorify God," "life-long love of learning," "truth, goodness, and beauty," "discipleship," formation of "minds, souls, and hearts"

- Negative: none notable (no "college-and-career ready," "workforce preparation" emphasis) per negative indicators. - Comparison: - Direct alignment with the lexicon's "cultivation of wisdom and virtue" and "pursuit of truth, goodness, and beauty," plus "formation, not information." - Quantitative estimate: - pos_neg_hits: +7/-0 - percent_positive: 1.00 - percent_coverage: 1.00 - Rating: CLASSICAL

Element 3: School Curriculum - What we found: - Positive: Trivium—"Grammar, Logic, and Rhetoric"; Latin; formal logic and advanced rhetoric; Western Canon; complete works over excerpts; integrated across

disciplines; chronological historical study; history/government (no “social studies” substitution); modern Romance language option.

- Negative: none of the major signals (e.g., “social studies” replacing history, “project-based dominance,” “STEM-first framing”) observed in the materials reviewed. - Comparison: - Strong alignment with Seven Liberal Arts (Trivium explicitly; Quadrivium implied via mathematics and sciences), Great Books/primary texts, historical engagement, and integrated/harmonized studies (with positive language on integration and full texts). “Wonder” is not named explicitly. - Quantitative estimate: - pos_neg_hits: +10/-0 - percent_positive: 1.00 - percent_coverage: 0.75 (Trivium, Great Books/Canon, history vs. social studies, integration—clear; “wonder” language not explicit) - Rating: CLASSICAL

Element 4: School Pedagogy (Teaching Methods) - What we found: - Positive: “discussion based” classes (Logic stage), debate, formal logic, advanced rhetoric (upper school), imitation (“learning from and imitating faithful Christ-followers”).

- Missing/weak: explicit “Socratic seminar” language (discussion is present, “Socratic” not named), little/no published mention of “memorization/recitation/chanting” in lower school, and no explicit “scholé/restful learning” language. - Potential negatives present in phrasing: “Academic Excellence and Rigor” (can signal less scholé if over-emphasized) and “hands-on science exploration” (can lean toward “experiential learning” if dominant; here it’s a component, not the driver).

- Comparison: - Matches lexicon positives for dialectic/discussion, debate, and rhetoric; matches “imitation” positively. Limited/absent signals for chanting/memory and scholé/restfulness. Some mild negative signals (“rigor,” “hands-on”) are present. - Quantitative estimate: - pos_neg_hits: +5/-2 - percent_positive: 0.71 - percent_coverage: 0.40 (of the five criteria: Socratic/discussion = yes; upper-school rhetoric = yes; imitation = yes; chanting/memory = weak; scholé/restful = absent) - Rating: SOMEWHAT CLASSICAL

Element 5: Faculty - What we found: - Positive: “Faculty that live out their faith and walk with Christ daily,” “believe in the inerrancy of the Bible,” “model Christ-like character,” “serve as mentors,” “nurture students’ minds, souls, and hearts,” small classes enabling relational mentorship.

- Negative: none observed (e.g., “facilitators only” framing). - Comparison: - Strong alignment to teachers as models of virtue and mentors; clear formation language. Less explicit: “portrait of a teacher” statement or “faculty of friends/collegial” phrasing. - Quantitative estimate: - pos_neg_hits: +6/-0 - percent_positive: 1.00 - percent_coverage: 0.50 - Rating: CLASSICAL

Element 6: Parents and Community - What we found: - Positive: “Parent Partnership” page; partnering with families; community language that invites participation; explicit parent formation via “ParentU” (Christopher Perrin video series on classical education, truth/goodness/beauty); ongoing community events (e.g., “Dads and Donuts”); open invitation to visit (School Tour).

- Negative: none observed that frame parents as mere customers. - Comparison: - Direct alignment with “partnership with parents,” “parent formation,” and a thick community ethos. - Quantitative estimate: - pos_neg_hits: +6/-0 - percent_positive: 1.00 - percent_coverage: 0.67 (strong partnership and parent education; “parents welcome anytime” language not explicit) - Rating: CLASSICAL

Overall Assessment: CLASSICAL - Strengths: Strong theological grounding; explicit affirmation of transcendental moral realism; robust Trivium/Latin/logic/rhetoric curriculum with Western Canon and integrated studies; teacher formation language and mentoring; genuine parent partnership and parent education.

- Growth areas (based on public materials): Publish more explicit references to scholé/restful learning, lower-school chanting/recitation and memory work, and (if present) liturgical/chapel rhythms to round out public evidence of classical pedagogy and liturgical formation.

Key Evidence (examples) - “centered on truth, goodness, and beauty” and the Trivium (Grammar, Logic, Rhetoric) - Christ-centered curriculum grounded in a biblical worldview; “Jesus Christ is Lord of all ... all knowledge ... points back to Him” - Latin, logic, rhetoric, Western Canon, complete works, integrated disciplines, discussion-based classes with debate and formal logic/rhetoric in upper grades - Faculty as mentors/models; discipleship and imitation of faithful Christ-followers; teachers nurture minds, souls, hearts - Parent partnership and parent formation (ParentU videos on classical education; “Retrieving & Renewing Truth, Goodness, and Beauty”)

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
