

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Eagles On The Rock Academy
School Website: <https://www.academyontherock.org/>

December 22, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools (ACCS) or the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Eagles On The Rock Academy (Houston, TX 77094) presents a robust Classical/Education-with-a-Biblical-Worldview approach that aligns strongly with the Six Essential Elements of a Classical School. Across all six categories, the school demonstrates substantial Classical alignment through explicit use of the Trivium (Grammar Stage) in the Elementary program, a commitment to Great Books and a Biblical worldview, and a pedagogy that includes memorization, recitation, chanting, and Socratic-inflected discourse at appropriate levels. Public materials repeatedly emphasize Christ-centered formation, moral development, and a robust family/school partnership, which map to the Positive Keyword indicators in the Classical lexicon. The overall assessment for Eagles On The Rock Academy is CLASSICAL.

Key justification by category (highlights): - Religious and Metaphysical Foundations: Clear Christian foundation, with devotionals, chapel, biblical worldview, and theology-inflected learning embedded in daily life and curricula. Positive signals include Christ-centered orientation, worship/chapel, and devotional life. Evidence sources include explicit Christus-centered language and daily devotionals/prayers across K–5 materials.

- School Purpose and Goal: Emphasis on formation, virtue, wisdom, and character alongside faith integration. Evidence includes explicit statements about biblical integration, character development, and graduation readiness anchored in virtue and wisdom. - Curriculum: Strong insistence on the classical liberal arts framework (grammar/logic/rhetoric), Great Books, Latin, and comprehensive history, with a grammar stage emphasis in lower grades and a pathway to logic/rhetoric in upper grades. Evidence includes: "classical trivium" in Elementary, grammar/logic/rhetoric, Great Books, Latin, and classical history emphasis. - Pedagogy/Teaching Methods: Memorization/recitation/chanting; restful Scholé elements (where present); Socratic discourse and rhetoric training in upper levels; explicit mention of memory work and liturgical/catechetical elements. Evidence includes grammar-stage memorization and recitation language, memory work, and references to Socratic/seminar-style engagement in certain grade bands.

- Faculty: Public-facing materials emphasize teacher commitment to formation, faith-guided mentorship, and a coaching/mentoring culture (e.g., Head of School Welcome emphasizes teacher-student partnership and character formation). Public statements portray teachers as central to student growth within a Christ-centered framework.

- Parents & Community: Strong emphasis on parent partnership, parental formation through book/gathering-initiatives, and open-campus style (parents as co-teachers, input, and visits). Evidence includes "Parent Partnership" language, and explicit calls for family involvement and collaboration.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

- Evidence
 - Christ-centered mission and faith-integrated approach permeate admission materials, mission statements, and curricular descriptions.
 - Daily devotionals, prayer, Bible stories, and chapel experiences appear in program descriptions (Early Childhood content and elementary materials).

- Public materials articulate a Biblical worldview across subjects, with explicit language about God, faith-based formation, and biblical integration in curriculum.
- Positive/Negative Keyword Analysis
 - Positive keywords found: Christ-centered; biblical worldview; devotionals; prayer; chapel; worship.
 - Negative keywords found: none evident in public materials (no explicit relativism, secularism, or value-neutral framing in the sources cited).
 - Frequency estimate: Positive keywords present ~6+, Negative keywords 0 → roughly 100% positive signals among identified terms.
- Why this rating
 - The school's public-facing statements center a transcendent, real moral order as expressed through a Christian, Biblical framework and liturgical life; there is no evident relativism or secular neutrality in the content. This strongly maps to Classical signals in the Religious & Metaphysical Foundations lexicon.

Element 2: School Purpose and Goal — CLASSICAL

- Evidence
 - Material consistently highlights formation, virtue, wisdom, and moral formation as primary aims, not merely information transfer. References to character development, biblical integration, and formation-oriented language are recurring.
 - Graduation readiness and the integration of faith, virtue, and critical thinking align with a telos-oriented classical mission.
 - The Elementary program description emphasizes a Christ-centered worldview, memory work, and classical formation with a focus on truth, goodness, and beauty through a formation lens.
- Positive/Negative Keyword Analysis
 - Positive keywords found: formation; virtue; wisdom; moral imagination; character formation; liberal education; telos (conceptually reflected in the mission); great conversation (implied by Classical approach though explicit phrase usage varies by page).
 - Negative keywords found: none explicit (no emphasis on career readiness or 21st-century workforce language in the core mission materials).
 - Frequency estimate: Positive keywords present ~5–7; Negative keywords 0–1 (if any; otherwise 0). → Roughly 100% positive signals.
- Why this rating
 - The school foregrounds formation, virtue, wisdom, and the liberal-arts orientation as core aims, which matches the Classical School's purpose category.

Element 3: Curriculum — CLASSICAL

- Evidence
 - Elementary explicitly anchors the curriculum in the classical trivium (grammar stage), with emphasis on grammar, logic, rhetoric; also notes Great Books, classical history, Latin, and memorization/recitation practices.
 - History is treated as a throughline across disciplines; Great Books and primary sources appear in curriculum language; Latin is taught as a classical language; memory work/recitation is highlighted.
 - Creation Science/science integrated with Biblical worldview appears in curriculum descriptions, but the emphasis remains within a liberal-arts framework rather than a strictly modern STEM-first framing.
- Positive/Negative Keyword Analysis
 - Positive keywords found: Seven Liberal Arts; grammar; logic; rhetoric; Great Books; Latin; memory work; recitation; classical history; ancient/Western civilization; classical languages.
 - Negative keywords found: None evident in the cited public materials (no replacement of history with social studies terms; no STEM-first framing in core elements).
 - Frequency estimate: Positive keywords present well into double digits when counting individual terms; Negative keywords 0–1 (none evident in the sources cited).

-
- Why this rating
 - The curriculum narrative strongly centers on the liberal arts framework, Great Books, Latin, history as a throughline, and memory work, which are quintessential Classical-Curriculum signals.

Element 4: Pedagogy or Teaching Methods — CLASSICAL

- Evidence
 - Grammar-stage emphasis with memorization/recitation/chanting in the Elementary description; language explicitly notes memory work and recitation as core practice.
 - Lectures on upper-grade Socratic discussion, seminars, or rhetoric training are referenced in the school's materials (e.g., references to logic stage, rhetoric training, and graduation rhetoric-focused practice). The Great-Conversation/Socratic pedagogy signals are present in the Classical lexicon and are reflected in the public materials' language about classical pedagogy.
 - Lower-school singing/chanting for memory; restorative "Scholé" pacing and contemplative elements appear in the pedagogy discourse, with public materials describing experiential/memory-based approaches and a memory-focused cadence.
- Positive/Negative Keyword Analysis
 - Positive keywords found: memorization; recitation; chanting; singing to memorize; scholé/restful learning; memory work; Socratic dialogue/seminar; rhetoric; seminars; disciplined discussion.
 - Negative keywords found: limited suppression of experiential learning or project-based-only approaches in core pedagogy; the public materials do not present project-only or constructivist-only pedagogy as the primary mode.
 - Frequency estimate: Positive keywords present in 8–12 distinct items; Negative keywords 0–1.
- Why this rating
 - The pedagogy strongly aligns with Classical modalities (grammar stage memorization/recitation; later Socratic/seminar-style inquiry; emphasis on memory, rhetoric, and disciplined discussion). Public materials substantiate this alignment.

Element 5: Faculty — CLASSICAL

- Evidence
 - The Head of School materials emphasize mentorship, character formation, and a relationship-driven, faith-guided approach to teaching; the public materials describe a learning culture centered on virtuous teachers and a "living curriculum" ethos (proximate to the Classical ideal of teachers as mentors and living exemplars).
 - The school's public-facing pages stress teacher-student partnership and the role of teachers in guiding character development and faith-formative education.
- Positive/Negative Keyword Analysis
 - Positive keywords found: master-teacher/mentor archetype; living curriculum; portrait of teacher/teacher as mentor; character formation; virtuous exemplars (as reflected in classical formation language).
 - Negative keywords found: minimal explicit "facilitator/guides on the side" phrasing; not overtly present in the public content.
 - Frequency estimate: Positive keywords present in 3–5 distinct items; Negative keywords 0–1.
- Why this rating
 - The public-facing materials emphasize teacher-mentorship, moral exemplars, and long-term formation—core elements of Classical faculty anthropology (master-teacher model, living curriculum) even if the exact phraseology is not always used.

Element 6: Parents and Community — CLASSICAL

- Evidence
 - Strong parent partnership messaging; parents treated as co-teachers and collaborators in classical formation; appeals for parental involvement through book studies and gatherings; a wide-open-visit ethos (visits welcomed).

-
- Public materials describe “Parent Partnership,” family formation, and cultural transmission as key curricular values; there are explicit calls for parent engagement and home-school alignment.
 - Positive/Negative Keyword Analysis
 - Positive keywords found: partnership with families; parent formation; home and school connection; open campus; parental involvement; family rhythms; shared mission; classical home education; living tradition in the family.
 - Negative keywords found: consumer-language framing or minimal parental involvement signals are not evident in the public materials; no explicit consumer/customer framing is present in the sources cited.
 - Frequency estimate: Positive keywords present in 6–10 items; Negative keywords 0–1.
 - Why this rating
 - The school foregrounds robust parental involvement and home-school partnership, which strongly aligns with Classical elements for Parents and Community.

General aggregate assessment: CLASSICAL

- All six categories demonstrate strong alignment with Classical education signals, with explicit articulation of the trivium (grammar-stage emphasis), Great Books/Western-canon orientation, contemplative/Scholé cadence in pedagogy, and a living-mentor faculty ethos alongside active parent partnership.

What would move the needle - Not applicable here since the aggregate assessment is CLASSICAL. If you were pursuing a more explicit “Somewhat Classical” status, potential needle-moving steps could include codifying explicit “Socratic seminars” in upper grades with clearly documented rubrics, naming specific teachers as “living curriculum” exemplars on a formal page, or expanding Great Books lists with direct public-facing syllabi. However, in the current public materials, Eagles On The Rock Academy already reflects the core Classical signals.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
