

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Faith Christian School
School Website: <https://faithchristianpsj.net/>

December 21, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Faith Christian School FI 32456 presents a clearly Christian, classical-leaning educational program conducted within a Christ-centered environment. Public-facing materials emphasize a Biblically integrated curriculum, a Trivium-based framework (grammar, logic, rhetoric), and a stated mission to educate the mind, body, and spirit. The school also foregrounds theology and doctrinal commitments through a formal Statement of Faith, a church affiliation, and explicit articulation of biblical authority. Taken together, these signals establish a framework that is strongly religious and oriented toward classical formation, though some classical elements (notably explicit Great Books/Great Conversation language and some faculty-community formation signals) are less clearly stated. The aggregate impression from the public materials is best described as SOMEWHAT CLASSICAL, with clear CLASSICAL commitments in Religion, Curriculum, and portions of Pedagogy, and more modest emission in Faculty and explicit Parent/Community formation.

Executive-level takeaway per category: - Religious and Metaphysical Foundations: CLASSICAL - Purpose and Goal: SOMEWHAT CLASSICAL - Curriculum: SOMEWHAT CLASSICAL - Pedagogy: SOMEWHAT CLASSICAL - Faculty: NOT CLASSICAL - Parents & Community: SOMEWHAT CLASSICAL

What would move the needle: To tip toward full CLASSICAL, the school could foreground explicit Great Books/Great Conversation language, demonstrate the living-curriculum teacher model (faculty as mentors and living curriculum), formalize parent formation and school-wide liturgical or communal practices, and more clearly document classical pedagogy signals (e.g., scholé days, chanting, or memory work as a staple across grades). See "What Would Move the Needle" after Element 1 and throughout Category sections.

Note: All category signals below are grounded in the school's public materials and cross-walked with the Six Essential Elements of a Classical School rubric. Citations reference the school content available in the crawl and the knowledge-base lexicon.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - The school presents a formal Statement of Faith detailing biblical inerrancy, the Trinity, and salvation through Christ (Bible as the Word of God; inerrancy; Holy Spirit). This is accessible through the site's Statement of Faith page. - The homepage notes that Faith Christian School is "A Ministry of Faith Bible Church," situating education within a church-centered, liturgical community context. - The mission phrase "Educating the Mind, Body, and Spirit" signals a triune emphasis aligned with a sacred-knit educational vision. - The admission policy describes the school as a Protestant, non-denominational Christian institution, with Bible fundamentals taught openly.

Positive/Negative keyword analysis - Positive keywords aligned to the Lexicon: theology, sacred scripture, creed, liturgy, worship, sacred tradition, imago Dei, Logos (theological vocabulary signaled by doctrinal statements), Word of God, Trinity, church, ministry. - The site explicitly deploys Bible-focused, doctrinal language (Word of God, Scripture, Holy Spirit, Trinity, church, ministerial context), and a liturgical/choral-flavored communal frame (church affiliation and prayers). Negative keywords such as relativism or secular

humanism do not appear in these passages. - Estimated hits: multiple explicit positives (Word of God, Bible, Trinity, Holy Spirit, creed/theology) and no explicit negatives in the core religious-definitional passages. 4–6 distinct positive signals vs 0 negative signals observed in the core passages.

Why this rating - Strong, explicit theistic foundation with a formal Statement of Faith and church affiliation. The presence of doctrinal content and biblically anchored authority aligns squarely with CLASSICAL in the Religious and Metaphysical Foundations category.

What would move the needle - If the school explicitly documents liturgical practices (e.g., daily chapel, liturgical calendar, or communal worship rhythms with regularity) beyond institutional affiliation, the category would deepen toward full CLASSICAL. - Explicit references to reverence, sacred music, chant, or communal prayer as systematic elements of daily schooling would strengthen the liturgical-communal dimension.

Citations - Statement of Faith and biblically anchored theology. - Ministry of Faith Bible Church and church-centered framing. - Our Mission and the triune emphasis in the mission statement. - Open-admission policy with biblical content emphasis.

Element 2: School Purpose and Goal — SOMEWHAT CLASSICAL

Evidence - The school positions itself as a Classical Christian school, signaling formation as a central aim rather than simply job preparation. The stated mission “Educating the Mind, Body, and Spirit” emphasizes formation across domains rather than purely utilitarian outcomes. - The doctrinal-pedagogical emphasis (biblical integration with classical pedagogy) and the explicit connection to virtue-centered goals are implied in the combination of classical structure (grammar/logic/rhetoric) with a Christian frame (Statement of Faith).

Positive/Negative keyword analysis - Positive keywords present: formation, liberal education (via classical framing and Trivium pedagogy), telos (implied by purpose around truth/virtue in a theologically anchored program), classical heritage; contemplation/wonder is alluded to in the broader classical project. - Negative keywords present: none explicit in the core public-facing materials (e.g., “workforce readiness” or “21st-century skills” language is not used in the provided public-facing content).

Quantitative estimate - Positive keyword hits: several core signs (formation, classical, telos) appear in mission and program language; Negative keyword hits: 0 observed in core statements. - Qualitative proportion: predominantly positive signals with no direct negative signals in the public materials for this category.

Why this rating - The program’s claim to classical Christian formation and the language surrounding “formation” and “classical” orientation support a SOMEWHAT CLASSICAL categorization. However, explicit articulation of virtue/wisdom as telos and a fully elaborated formation framework (beyond the phrase “Educating the Mind, Body, and Spirit”) is less overt than in some canonical classical schools.

What would move the needle - Add explicit statements about virtue, wisdom, and the telos of education with concrete examples (e.g., virtues like truth, goodness, beauty; a stated aim for human flourishing) and connect them to daily practice. - Include explicit references to “Great Books” or “Great Conversation” or a formal history of formation to align more tightly with the classical-pedagogical ideal. - Document parent formation or school-wide liturgical activities to strengthen the metaphysical dimension.

Citations - Mission framing and classical/pedagogical orientation. - Classical pedagogy and grammar/logic/rhetoric in Academics.

Element 3: School Curriculum — SOMEWHAT CLASSICAL

Evidence - Core curriculum description explicitly cites the classical Trivium: grammar, logic, rhetoric, with a three-stage approach to learning (grammar stage: memorization/recitation; logic stage: how/why; rhetoric stage: clear expression). This is a strong signal of classical curriculum design. - The curriculum is described as Biblically integrated and classically oriented; the site repeatedly emphasizes a “classical teaching” model. - The site notes the three-stages approach and positions the curriculum around history and core classical skills; history is present as a subject area within the curriculum and not merely social studies (per the general classical framework).

Positive/Negative keyword analysis - Positive keywords present: grammar, logic, rhetoric; classical, history (as a subject integrated across curricula); Great Books/Great Conversation language is not explicitly used, which limits full classical-curriculum signaling from the lexicon. - The Great Books/Great Conversation signals are not explicit in the public content. This absence reduces the strength of “fully classical” on the curriculum axis. - Negative keywords: not observed in the curricular-facing passages.

Quantitative estimate - Positive keyword hits: grammar, logic, rhetoric, classical, history (as a curriculum element) = 4–5 salient signals. - Negative keyword hits: 0 observed in the core curriculum passages.

Why this rating - The school clearly implements the Trivium and a Bible-integrated classical approach, but the explicit Great Books/Great Conversation language and other explicit Great-Books signals are not present in the visible public content. This places the school in SOMEWHAT CLASSICAL rather than CLASSICAL in Curriculum.

What would move the needle - Include explicit statements about Great Books (titles or authors in core reading) and the Great Conversation framework. - Publicly articulate a more explicit history of Western civilization through primary sources and classical authors, alongside explicit mention of Great Books and canonical readings.

Citations - Three-stage Trivium (grammar, logic, rhetoric) and classical framing. - Biblically integrated curriculum with classical methodology.

Element 4: School Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

Evidence - Pedagogical approach centers on the Trivium (grammar, logic, rhetoric) with memory-based work in the grammar stage and higher-order expression in rhetoric at upper levels. The description emphasizes memorization/recitation in the grammar stage and reasoning and clear articulation at higher stages. - The lower-school pedagogy includes memory-based activities (recitation, memorization) and a foundation in wonder (though explicit “Scholé” language is not used, the contemplative/restful aspect is suggested through the classical method). The public-facing content references the memory-centered aspects of the grammar stage. - Upper school pedagogy mentions structured rhetoric and the ability to present and argue (rhetoric-focused training).

Positive/Negative keyword analysis - Positive keywords present: grammar, logic, rhetoric, recitation, memory work, rhetoric training, seminars/debates signals (through the rhetoric emphasis). Note: explicit “Socrates/Scholé/paideia/seminars” language is not widely shown; the content does not clearly describe Socratic seminars or Paideia-style seminars within the public-facing materials. - Negative keywords: lack of explicit experiential learning- or project-based-only pedagogy signals in the core materials; no strong negative indicators.

Quantitative estimate - Positive keyword hits: grammar, logic, rhetoric, recitation/memory work, rhetoric-training signals = 4–5. - Negative keyword hits: 0 explicit in core pedagogy passages.

Why this rating - The program is clearly built on a classical pedagogy (grammar-logic-rhetoric with memory work and upper-level rhetoric). The absence of explicit Socratic seminars or “Scholé days” in public-facing content lowers it from CLASSICAL to SOMEWHAT CLASSICAL.

What would move the needle - Publicly describe Socratic discussions, seminars, or Paideia-style seminars in upper grades; include examples of student-led inquiry or collaborative inquiry (e.g., Socratic dialogues or Declamations) in the high school program. - Include a formal articulation of contemplative or scholé-friendly cycles (restful learning periods, memory rituals) across the academic calendar.

Citations - Trivium-based pedagogy (grammar, logic, rhetoric) and associated memory/recitation emphasis.

Element 5: School Faculty — NOT CLASSICAL

Evidence - The public-facing materials show faculty as staff and teachers but do not include explicit language about the faculty as the “living curriculum,” “portrait of a teacher,” or “faculty as mentors” that are central to the

classical model. There is no visible textual emphasis on a “portrait of what a teacher should be” or “faculty as living exemplars” in the accessible pages. - The pages present standard staff listings (e.g., preschool staff profiles) and generic statements about education quality, but do not foreground a classical-faculty formation identity as a core programmatic element.

Positive/Negative keyword analysis - Positive signals (classical) in Faculty category would be words like “living curriculum,” “model teachers,” “mentors,” “portrait of a teacher,” “faculty as friends,” “collegial culture.” None of these explicit phrases appear in the accessible content. - The content provides generic educator descriptions and doesn’t foreground the living-curriculum or classic-faculty identity signals. - Negative signals: none directly, but the absence of classical-faculty framing is a negative signal for CLASSICAL in this category.

Quantitative estimate - Positive keyword hits: 0–1 (no explicit classical-faculty signals in the accessible content). - Negative keyword hits: 0 (no explicit negative signals in the section, but absence of expected classical-faculty language is noted).

Why this rating - Without explicit articulation of a “living curriculum” faculty model, the category does not reach CLASSICAL; it sits at NOT CLASSICAL within the public-facing content, given the lack of classical-faculty signals.

What would move the needle - Publish and highlight a formal Faculty profile that describes teachers as “living curriculum” and as mentors who embody classical virtues; articulate a collegial-faculty culture and professional development in classical pedagogy. - Include a public-facing portrait of teacher candidates and professional growth aligned with classical pedagogy (e.g., seminars for faculty, ongoing teacher formation in classical methods).

Citations - Faculty pages exist, but explicit classical-faculty framing is not foregrounded in the visible materials.

Element 6: School Parents & Community — SOMEWHAT CLASSICAL

Evidence - The school notes an open-admission policy and a Christ-centered environment led by a church affiliation, with a strong emphasis on biblical instruction and formation within the school. This signals an involvement framework with parents as part of a church-supported educational ecosystem. - There are references to scholarships and funding (Step Up for Students, Family Empowerment Scholarship) that show parental access to financial support and engagement with external programs; this can be linked to parent involvement in education decisions. - The school’s contact and admission pages provide formal channels for parent communication and engagement (contact forms, admissions processes).

Positive/Negative keyword analysis - Positive keywords present: partnership with parents (implied by a church-ministry model and the expectation that biblical formation occurs within the family’s context), parent access to information (admissions and scholarships), open campus concepts (parents to visit). - The lexicon emphasizes “parents as co-teachers” and “parent formation” in the Six Elements framework; the site content supports a partnership model but does not explicitly use the exact language of “parents as co-teachers” or formal parent-education programs beyond general information flow and classroom involvement. - Negative keywords: none explicit, but the explicit “parents as co-teachers” language is not used in the visible content.

Quantitative estimate - Positive keyword hits: several signals supporting parent engagement (admissions, scholarships, church partnership) = 3–4 signals. - Negative keyword hits: 0 explicit negative signals.

Why this rating - The school demonstrates a model of parent involvement through church affiliation, admissions, and financial-aid programs, but explicit formalization of parent formation or parent-as-co-teachers language is not explicit in the public content. This places it in SOMEWHAT CLASSICAL for Parents & Community.

What would move the needle - Publicly articulate a formal parent-formation program (book studies, classical-education book clubs, parent seminars) and explicitly declare a co-teaching/co-learning partnership model

with parents. - Add scheduled parent visitation days and documented pathways for parental engagement in the Great Conversation or classical curriculum discussions.

Citations - Open admission and Biblical instruction in a church context. - Scholarships and funding signals for parental access.

What Would Move the Needle

- Explicit Great Books / Great Conversation language and reading lists across grades, and an announced plan for canonical reading and discussion forums.
- Public articulation of the “living curriculum” faculty model (faculty as mentors and exemplars) and a portrait of teacher standards aligned with classical pedagogy.
- Structured parent-formation programming (book clubs, study groups, workshops) and explicit “parents as co-teachers” language.
- Clear, public-facing rituals or liturgical practices (daily chapel, liturgical calendar, sacred music, common prayer) synched with the school calendar.
- Strengthened emphasis on Socratic/seminar pedagogy in upper grades or a formal Paideia-inspired plan.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
