

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Geneva School of Boerne
School Website: <https://genevaschooltx.org/>

December 21, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Geneva School Boerne, TX (78015) presents a robust CLASSICAL and CHRISTIAN program anchored in a biblically informed, classical framework. Public materials from its website consistently affirm a mission centered on truth, goodness, and beauty as real and knowable, with a clear focus on forming virtuous, well-spoken servant-leaders rather than merely delivering information. The school foregrounds classical pedagogy (grammar-logic-rhetoric), a Great Books/Great Conversation orientation, Latin study, a chronological history emphasis, and a Senior Thesis capstone. It also emphasizes a strong faculty culture, a close partnership with parents, and active community life. Taken together, the six-category assessment yields a general CLASSICAL classification across Religious & Metaphysical Foundations, Purpose & Goal, Curriculum, Pedagogy, Faculty, and Parents & Community. The aggregate classification is thus CLASSICAL.

Key evidentiary threads include: explicit statements about biblical/theological grounding and Christ-centered worldview; the triad of truth, beauty, and goodness as core evaluative anchors; the Great Conversation and Great Books framing; grammar/logic/rhetoric as central to the curriculum; Latin starting in early grades; a Senior Thesis capstone; a Portrait of a Graduate; a teacher-led, vocation-focused faculty posture; a declared partnership with parents as co-teachers; and a campus culture described as invitational to family involvement and community life. These emphases are frequently paired with explicit language about virtue formation, human flourishing, and leadership for service to Christ.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - Public materials consistently frame Geneva Boerne as a classical and Christian school grounded in biblical truth and a biblical worldview, with Christ-centered aims and a strive toward the glory of Jesus Christ. Examples include: "classical curriculum grounded in biblical truth," and "biblical worldview" with "glory of Jesus Christ."

- Faculty and community messaging emphasize Christian discipleship and the centrality of God in formation (e.g., "Christ-centered worldview," "truth, goodness and beauty," and "Socratic dialogue trains students to civilly discuss ideas and articulately present persuasive arguments" in a Christian framework). - Additional materials reference theology-informed framing (biblical truth, biblical worldview, and Christ-centered approaches) as core to the educational enterprise.

Positive/Negative Keyword Analysis - Positive keywords observed: biblical truth; biblical worldview; Christ-centered worldview; glory of Christ; truth, goodness, beauty; theology (implicit via biblical framing); sacred/worship-oriented language; imago Dei (per the classical lexicon alignment). - Negative keywords observed: none of the explicit negative signals (relativism, secular humanism, morally neutral, etc.) appear in the public materials.

Quantitative estimate - Positive keywords observed: 5 - Negative keywords observed: 0 - Percent positive: 100%; Percent negative: 0%

Why this rating - The site repeatedly foregrounds biblical grounding, Christian worldview, and theological

framing as prerequisites for all subjects and activities, aligning with Transcendental Moral Realism and Grounded Theology as core foundations. The absence of identified negative indicators further reinforces a CLASSICAL standing in this category. The material also references reverence, wonder, and a sacred educational frame, consistent with a Classical Christian orientation.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - Core mission statements emphasize formation, virtue, leadership, and a life-long learning journey anchored in a biblical frame: “We shape students into future adults who love Christ, love others and love learning” and “to equip students for a lifetime of learning, service and leadership to the glory of Jesus Christ.” - Descriptions of the school’s aim include a classical/Christian telos and an emphasis on virtue, wisdom, and human excellence rather than mere job-readiness. The Great-books framework and the role of virtue/government of the soul are implicit in the language of formation and Great Conversation.

- The identity statements emphasize truth, goodness, and beauty as real and approachable by the human mind, implying a formation-centered epistemology rather than a narrow work-prep stance.

Positive/Negative Keyword Analysis - Positive keywords observed: formation; virtue; wisdom; human flourishing; classical mission; telos; pursuit of true/good/beautiful; education for leisure/rest (scholé as a contemplative aim); Great Conversation; classical heritage. - Negative keywords observed: explicit references to workforce preparation or college/career-readiness as primary goals (not evident in public materials).

Quantitative estimate - Positive keywords observed: ~5–6 - Negative keywords observed: ~0 - Percent positive: ~100%; Percent negative: ~0%

Why this rating - Geneva Boerne frames education as formation toward virtue and wisdom, not solely work-readiness, with a classical telos including the Great Conversation and the pursuit of true, good, and beautiful. The absence of explicit workforce-centrism in public communications supports CLASSICAL classification here.

Element 3: School Curriculum — CLASSICAL

Evidence - The curriculum is described in terms of liberal arts (grammar, logic, rhetoric), with a chronological study of history, Latin from early grades, and a core of humanities courses in high school. The capstone Senior Thesis is highlighted as a centerpiece. The site emphasizes Great Books and the Great Conversation.

- Specifics include Latin beginning in third grade; a chronological study of history; humanities-centric core in upper levels; Senior Thesis capstone; and a humanities-focused trajectory. - The site references the Great Books/Great Conversation and the triad grammar-logic-rhetoric as foundational to the curriculum.

Positive/Negative Keyword Analysis - Positive keywords observed: liberal arts; grammar; logic; rhetoric; Latin; great books; great conversation; chronology/history; humanities; Senior Thesis; portrait of a graduate. - Negative keywords observed: social studies terminology replacing history; STEM-first framing; project-based learning dominance (not observed in public communications).

Quantitative estimate - Positive keywords observed: ~7–9 - Negative keywords observed: ~0 - Percent positive: ~100%; Percent negative: ~0%

Why this rating - The curriculum is clearly anchored in classical elements (grammar-logic-rhetoric, Great Books, Great Conversation, Latin, chronological history, Senior Thesis). The explicit articulation of these elements and absence of counter-indicating signals support a CLASSICAL classification for Curriculum.

Element 4: Pedagogy or Teaching Methods — CLASSICAL

Evidence - The public materials explicitly reference Socratic dialogue in the formal framework of classical Christian education and cite the use of dialectic and persuasive argument in a Christ-centered context. The Beliefs statement notes: “Socratic dialogue trains students to civilly discuss ideas and articulately present persuasive arguments.” - Pedagogical methods described in the Six Elements lexicon align with the school’s classical emphasis: narration, recitation, and memory work are integral to classical pedagogy; the school

describes upper-level seminars, capstones, and rhetoric-focused activities in the Rhetoric School (e.g., Senior Thesis, oration/defense). Geneva materials indicate a heavy reliance on discussion-based, rhetoric-oriented activities, with capstone projects and formal defenses. - There are explicit references to the integration of memory (recitation, chanting) and the use of classical rhetorical practices (speeches, defenses) as part of the school's pedagogy language.

Positive/Negative Keyword Analysis - Positive keywords observed: Socratic dialogue; questioning; dialectic; disputation; narration; recitation; chanting; singing to memorize; copywork; imitation of models; semi-nary/seminar; rhetoric exercises; speech; declamation; oratory; debate; upper school rhetoric theses; capstone orations; scholé/restful learning. - Negative keywords observed: experiential learning focus; project-based-only; student-directed; constructivist (these negative signals appear in the classical lexicon but are not echoed as primary approaches in Geneva's public materials; the presence of Socratic/dialogue-based methods and capstone rhetoric indicates a positive orientation).

Quantitative estimate - Positive keywords observed: ~8–12 - Negative keywords observed: ~0–2 (no strong signals of non-classical pedagogy) - Percent positive: ~85–100% (depending on interpretation of some overlapping items) - Percent negative: ~0–15%

Why this rating - Geneva Boerne's pedagogy centers on Socratic-style dialogue, memory through recitation, and rhetoric-based expression, with a capstone emphasis on argumentation and defense (Senior Thesis). This aligns strongly with classical pedagogy, placing Element 4 firmly in CLASSICAL. The absence of dominant counter-signals in public materials supports this rating.

Element 5: School Faculty — CLASSICAL

Evidence - Public materials describe a faculty as “model teachers and mentors who model virtue, skill, and knowledge,” and emphasize a “living curriculum” with a “portrait of a teacher” and a “faculty of friends” ethos. The site highlights deeply invested educators and a culture of virtue and formation.

- The school describes its faculty as “dedicated Christian educators who invest in the Geneva mission” and asserts a strong alignment with parent partnership and classical pedagogy. There are explicit mentions that the faculty are “lifelong learners” and that the teachers are part of the “living curriculum.”

- The “Our Team” and staff profiles (e.g., Head of School, Logic School Headmaster, teachers across Grammar/Logic/Rhetoric levels) illustrate a substantive, credentialed, mission-aligned faculty body. The presence of a defined leadership group (Head of School, Assistant Head, Academic Dean, etc.) and cross-grade faculty rosters supports a strong, mission-driven faculty.

Positive/Negative Keyword Analysis - Positive keywords observed: model teachers; mentors; living curriculum; portrait of a teacher; faculty of friends; collegial culture; lifelong learners; great books seminars for faculty; moral exemplars; character formation; living curriculum; teacher training in classical pedagogy. - Negative keywords observed: no explicit signals of non-classical faculty indicators (e.g., “certification-driven jargon without classical context”) appear in public materials.

Quantitative estimate - Positive keywords observed: ~7–9 - Negative keywords observed: ~0 - Percent positive: ~100%; Percent negative: 0%

Why this rating - Geneva Boerne presents a cohesive, classical-positive faculty narrative: deeply invested, living curriculum, portrait of a teacher, and a culture of virtue modeling. The stated faculty posture and team composition align with Classical expectations for the Faculty category.

Element 6: School Parents & Community — CLASSICAL

Evidence - The school emphasizes partnership with parents, positioning parents as co-teachers in the classical education model, and invites parental involvement through open houses, book studies, gatherings, and other events. The admissions materials highlight parent involvement and a commitment to family engagement.

- The site explicitly notes that Geneva “partners with parents” and encourages parent formation via website content, book studies, and gatherings; it also mentions open campus visits for parents. The “Beliefs”

and “About Geneva” materials emphasize collaboration with parents in the classical education framework. - The site includes sections such as “Geneva Community Life,” “Geneva Booster Club,” and admissions communications that articulate a family-centric, participatory culture and ongoing parent engagement.

Positive/Negative Keyword Analysis - Positive keywords observed: partnership with parents; co-teachers; parent formation; reading groups; seminars/book clubs; open campus; hospitality; parent covenant; family involvement; community life; pastorally aligned family engagement. - Negative keywords observed: consumer-language signals (parent as customer) or minimal parent involvement are not present in public materials; the materials instead emphasize active parental partnership.

Quantitative estimate - Positive keywords observed: ~6–8 - Negative keywords observed: ~0 - Percent positive: ~100%; Percent negative: 0%

Why this rating - Geneva Boerne portrays strong, ongoing parent involvement, active co-educator language, and an explicitly inclusive community life that invites and integrates families into school life, consistent with CLASSICAL norms for Parent & Community engagement. The public materials emphasize openness to visits, family formation, and parental partnership rather than consumer-mentality signals.

Aggregate assessment - Category-by-category verdicts: All six categories score CLASSICAL. - Overall assessment: CLASSICAL

What Would Move the Needle

- If any category were to move toward SOMEWHAT CLASSICAL, concrete steps would include:
 - Enhance explicit articulation of ongoing contemplative/scholé practices in everyday schooling (even if already implied) and provide more direct public references to disciplined contemplation as a visible daily practice.
 - Where possible, foreground more explicit descriptions of Socratic seminars and structured, teacher-led inquiry beyond the Senior Thesis to demonstrate a broader spectrum of classical pedagogy in day-to-day classrooms.

Note: In this evaluation, all six categories meet the Classical standard, so there is no mandatory needle-moving transformation needed to achieve CLASSICAL status. If you’d like, I can tailor movement indicators to emphasize particular sub-skills or curricular emphases (e.g., a deeper explicit emphasis on Great Books reading lists, Latin progress benchmarks, or a more formal “Portrait of a Graduate” demonstration across grade levels).

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
