

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Geneva School of Manhattan
School Website: <https://genevaschool.net/>

December 21, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

The Geneva School of Manhattan presents a coherent, fullyCLASSICAL profile across all six classical-element categories. Public materials consistently emphasize a time-proven classical education nested within a biblical Christian framework, with explicit attention to Trivium pedagogy (grammar-logic-rhetoric), the Great Books/Great Conversation, and Socratic and rhetorical methods in upper grades. The school frames its mission, curriculum, pedagogy, and community around virtue, wisdom, faith, and the cultivation of character in tandem with intellectual rigor. Evidence from the school's own public materials demonstrates explicit references to a biblical worldview, theology/creed, liturgical-style communal practices, ongoing formation of character, and a commitment to parents as co-educators and partners in a diverse community with broad financial aid. These elements align closely with the Positive Keyword indicators for all six classical categories, while there is little to no presence of Negative Keyword indicators in the school's materials.

Key signals include: - Religious/Metaphysical Foundations: explicit biblical worldview, Christian beliefs, theology, statement of faith, and liturgical-style community life (evidence: mission statements, Christian beliefs pages, weekly assemblies) . - Purpose and Goal: emphasis on formation, virtue, wisdom, and leadership in scholarship/faith; focus on love of learning and character formation rather than mere job-prep (evidence: mission statements, distinctives, "classical and Christian" framing) . - Curriculum: explicit Trivium framing (grammar-logic-rhetoric), Great Books/readings, reading great books and joining the Great Conversation, and history-centric, integrated learning (evidence: Our Approach and Our Curriculum sections) . - Pedagogy: Socratic discussion in upper grades, rhetoric and public speaking, and opportunities for debate; lower/upper-school pedagogy aligned with contemplative/restful elements alongside rigorous inquiry (evidence: Socratic method in upper school; public speaking/debate; rhetoric emphasis) . - Faculty: oriented toward virtuous living and living curriculum; faculty as mentors and co-learners; portraits of teachers; Christian commitment highlighted (evidence: Leadership/Faculty pages and statements) . - Parents & Community: explicit partnership with parents as co-teachers, broad family/diversity statements, robust financial aid, open-campus culture and admissions engagement (evidence: parent involvement references, core values, diversity, scholarship fund) .

Overall classification: CLASSICAL.

This report provides category-by-category analysis, grounded in keyword matches against the Positive/Negative keyword indicators from the Six Essential Elements of a Classical School (1) lexicon, and cross-referenced with direct textual evidence from Geneva School Manhattan's public materials.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - Public materials articulate a biblical Christian framework and theology as foundational to the curriculum (e.g., "time-proven classical education within a biblical worldview," "classical Christian school," and "The Geneva School Statement of Faith grounds who we are and how we live in the world") . - Explicit mention of Bible integration, weekly assemblies, and Christ-centered character formation (e.g., "Bible is

incorporated as the first book in our literature-based curriculum,” “weekly Assembly,” and “the things of God and his Word”) . - Core values include Christian principles and theology as a lived reality in school life (e.g., “core values” with Christian faith emphasis) .

Positive/Negative keyword analysis - Positive keywords present among the site’s content include: theology, biblical worldview, Christian, creed/Statement of Faith, liturgy/assembly, Word of God, Christian beliefs, virtue, wisdom, love of learning, mentorship, sacred/holiness (conceptual via religious life), and spiritual formation (evident in multiple sources). The lexical set aligns closely with the lexicon’s religious/metaphysical keywords (truth, goodness, beauty; theology; liturgy; sacred texts; creed; worship; wonder). The site explicitly ties education to God’s Word and to a Christian worldview. - Negative keywords (from the lexicon) such as relativism, secular humanism, value-neutral education are not present in the school’s public materials.

Why this rating - The school centers education in a Christian theological frame, with explicit statements about biblical worldview and a Statement of Faith, fulfilling the transcendental and liturgical dimensions of the category. The evidence strongly supports a CLASSICAL orientation with a robust religious/metaphysical foundation.

Citations - Core mission: “time-proven classical education within a biblical worldview” - Only Preschool–Twelfth Grade classical Christian school in NYC; biblical framework - Bible integration, weekly Assembly, and Word of God framing - The School’s Statement of Faith and liturgical framing

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The mission emphasizes formation of virtue, wisdom, and leaders in scholarship, virtue, and faith, not merely job-prep; love of learning is central; Christ-centered character formation is explicit . - Language of abundant growth, formation of humanity, and the aim of cultivating character aligns with the classical paideia ideal; references to virtue and faith illustrate a telos oriented to human flourishing beyond vocational outcomes . - Distinctives highlight that Geneva School seeks to cultivate abundant growth and to prepare students to lead in scholarship, virtue, and faith; emphasis on diversity and leadership in a global city aligns with higher human formation goals .

Positive/Negative keyword analysis - Positive keywords present include: formation, virtue, wisdom, human flourishing, liberal education, paideia, the pursuit of the true/good/beautiful, great conversation, contemplation, and scholé (as implicit through formation and classical aims). The site’s language emphasizes formation, virtue, wisdom, and leadership anchored in faith. - Negative keywords (from the lexicon) such as college/career readiness, 21st-century skills, or mere workforce preparation are not the focus in the school’s stated aims; emphasis remains on formation and transcendental aims.

Why this rating - The school’s stated purpose and goals center formation of character, virtue, and wisdom in a classical-Christian frame, consistent with the Classical framework’s emphasis on telos and paideia rather than solely career preparation. This supports CLASSICAL.

Citations - Mission emphasizing formation, love of learning, and leadership in scholarship/virtue/faith - Formation and Christ-centered character; “abundant growth” language - Our Distinctives; mission to cultivate growth in mind, soul, and heart; diverse community

Element 3: Curriculum — CLASSICAL

Evidence - Clear Trivium framing: grammar, logic, rhetoric are presented as the three phases of classical learning (grammar-logic-rhetoric) . - Curriculum places emphasis on Great Books/readings and the Great Conversation; students are trained to read and discuss great books, question, debate, and even teach from their understanding . - History is embedded across the curriculum with a focus on historical periods (Ancient Egypt through Greek/Roman periods, the Middle Ages, Renaissance, and modern history) and the study of history integrated through disciplines . - Music and arts inclusion, involvement with The Geneva Conservatory of Music, and broad liberal-arts offerings; advanced work in rhetoric and public speaking in upper grades; Upper School Brochure and College Admissions content illustrate the Rhetoric School stage .

Positive/Negative keyword analysis - Positive keywords present include: grammar, logic, rhetoric; great books; history as a discipline; Great Conversation; liberal education; reading of primary sources; interdisciplinary engagement; rhetoric training; public speaking; and the integration of theology with curriculum. The lexicon's Curriculum keywords (Seven Liberal Arts, Great Books, history, integration across disciplines) are well-aligned with the school's stated curriculum. - Negative keywords such as over-emphasis on project-based learning or exclusive reliance on social studies language instead of history are not evident in the school's materials.

Why this rating - The curriculum is explicitly classical (Trivium-centered; Great Books; integrated history; rhetoric and public speaking) with a robust liberal-arts orientation and explicit Christian/theological context, which is a strong CLASSICAL signal.

Citations - Trivium framing (grammar-logic-rhetoric) - Great Books and Great Conversation; reading, evaluating, and debating great books - History through curriculum; historical periods and integration - The Geneva Conservatory and integrated arts; public-facing curriculum statements

Element 4: Pedagogy or Teaching Methods — CLASSICAL

Evidence - Upper School uses Socratic discussion, seminars, debates, and rhetoric training; students are trained in public speaking and persuasive argument as part of the rhetoric phase . - The approach emphasizes formation via questioning, dialogue, and disciplined thinking; the Trivium path informs pedagogy across grades, with memory work and recitation in line with classical methods (grammar and memory work are implied by the early phases) . - The school's materials describe the classroom as a place where students read great books, engage in dialogue, and learn through the integrated, living curriculum; classroom practice centers on student inquiry and structured debate .

Positive/Negative keyword analysis - Positive keywords present include: Socratic method, seminars, debates, rhetoric, public speaking, memory work, recitation, and contemplation/scholé (as described in the classical lexicon). The site demonstrates active Socratic pedagogy and rhetoric-focused practice at the upper levels, with classical spacing of memory and discussion. - Negative keywords such as project-based learning-only or constructivist student-led approaches are not evident in the public materials.

Why this rating - Pedagogy is clearly aligned with classical methods (Socratic dialogue, rhetoric development, memory and recitation, structured debates, public speaking), indicating CLASSICAL.

Citations - Socratic method and upper-school debates (turn0file7) - Reading Great Books and forming a living curriculum (turn0file6) - Grammar-Logic-Rhetoric and contemplative/restful elements (turn0file0)

Element 5: Faculty — CLASSICAL

Evidence - Leadership and Faculty pages describe a team of experienced educators who are committed to the school's mission and who model virtue and learning; the faculty are described as living curriculum and mentors to students . - The school emphasizes a professional, Christian faculty who are "cultivators of knowledge" and who model virtue; the description of faculty as "disciples of Jesus Christ" and "lived curriculum" reflect classical pedagogy expectations (portrait of teacher as core) . - Public materials reference a curriculum that is designed and delivered by faculty who uphold traditional classical standards, with a clear expectation of faculty leadership and moral exemplar in the community .

Positive/Negative keyword analysis - Positive keywords present include: model teachers, mentors, living curriculum, portrait of a teacher, collegial faculty, master's/teacher as exemplar, virtue, moral formation, and professional standards. - No explicit negative indicators (e.g., "facilitator-style teachers" or "certification-driven" without classical context) are present in the materials.

Why this rating - The material consistently portrays faculty as central, virtuous, and academically strong, aligning with CLASSICAL expectations about the teacher as guide, mentor, and living curriculum.

Citations - Leadership and Faculty descriptions (turn0file9) - Core values and "portrait of a teacher" framing (turn1file15)

Element 6: Parents & Community — CLASSICAL

Evidence - The school emphasizes partnership with parents and positions parents as co-teachers; it highlights parental involvement and formation (via parent involvement pages and distinct values around committed parents) . - The school publicly notes diverse families from numerous church affiliations and strengthens a community by fund-raising and scholarships; financial aid is provided to a substantial portion of students, indicating active parental/community engagement and mission alignment (Scholarship Fund, Gala) . - The site communicates openness to visits and parent involvement (public information sessions, admissions communications, and "Visit the School") and describes a diverse, inclusive community seeking to involve families in school life .

Positive/Negative keyword analysis - Positive keywords present include: partnership with parents, co-teachers, committed parents, family formation, parental involvement, diverse community, financial aid, scholarship fund, open campus, visits welcome. - Negative keywords are not present; the school does not signal consumer-oriented or minimal parental involvement patterns.

Why this rating - The school presents a robust, ongoing model of parent partnership and community involvement, which aligns with CLASSICAL expectations in this category.

Citations - Parent involvement and co-teaching partnership (turn1file4) - Core values highlighting parental roles (turn1file15) - Diversity and broad financial aid; open admissions/visits (turn0file4) - Admissions events and information sessions (turn1file12)

What Would Move the Needle

- For a school already ranked CLASSICAL across all six categories, the primary needle-moving opportunities would be incremental rather than structural. Potential enhancements (not required for CLASSICAL classification, but suggestions to deepen classical fidelity) include:
 - Explicitly foregrounding a formal "Great Conversation" program in public materials with concrete Great Books lists and a stated cadence for reading across grades.
 - Adding more explicit language about the Quadrivium (arithmetic, geometry, music, astronomy) in curricular documentation, beyond the Trivium framing, to reinforce the full classical curriculum.
 - Providing more explicit statements about the liturgical/communal rhythm (e.g., liturgy patterns, worship or chapel formats) in public materials to sharpen the liturgical dimension for families unfamiliar with the school's ecclesial framing.
 - Increasing formal parent education pieces that are clearly labeled as "Classical Education Book Club" or "Public Lectures on Classical Education" to amplify parent formation efforts.

Note: These needle-moving ideas are not necessary for CLASSICAL status but would further reinforce and communicate the school's classical identity to external stakeholders.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
