

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Great Hearts Harveston

School Website: <https://harveston.greatheartsamerica.org/>

December 21, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Great Hearts Harveston LA 70810 presents a strong classical-education orientation across most rubric categories, anchored by a public mission to cultivate minds and hearts through truth, goodness, and beauty. Public materials emphasize virtue formation, a liberal-arts curriculum, Socratic inquiry, and a high regard for memory, language study, and the Western intellectual tradition. Taken together, the school demonstrates a predominantly classical profile with some areas that are less explicit in the public materials (notably explicit liturgical/theological foundations and explicit parent-as-co-teacher language). The aggregate classification across the six categories is CLASSICAL, with Element 6 (Parents & Community) showing only partial alignment due to limited explicit wording about parental co-teaching and formal parent-education programs in the public materials.

Key textual evidence includes: the mission statement and school materials stating a pursuit of truth, goodness, and beauty and a commitment to virtue formation and a liberal-arts education; explicit reference to Socratic instruction, memory work, and a two-teacher model in the lower school; a curriculum featuring humane letters, Latin, Euclid, and other classical elements; and strong parent-facing activities such as open enrollment, information nights, and campus tours. See cited passages for details.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — SOMEWHAT CLASSICAL

Evidence - Public materials foreground Truth, Goodness, and Beauty as organizing ideals and virtues shaping students' character. Example: "pursue Truth, Goodness, and Beauty—the heartbeat of every Great Hearts academy," with emphasis on thinking clearly, speaking eloquently, and acting with virtue. - The mission explicitly notes cultivation of minds and hearts through truth, goodness, and beauty. - References to virtue formation and a Western-tradition-based liberal-arts formation appear in the materials.

Positive/Negative Keyword Analysis - Positive keywords present: truth, goodness, beauty, virtue, formation, wisdom, Western tradition. (Collected from mission and core statements.) - Negative keywords present: none detected in public materials for explicit theology or liturgical practices. - Quantitative estimate: Positive hits approx. 4 (truth/goodness/beauty, virtue, formation); Negative hits approx. 0. If one counts broader metaphysical vocabulary, still predominantly positive.

Why this rating - The materials emphasize transcendent ideals and virtue (positive indicators) but lack explicit theology or liturgical practices in the public materials, which prevents a full "Grounded in Theology" and "Liturgical/Communal Practices" assessment from being proven solely from the website. This yields a SOMEWHAT CLASSICAL rating for Element 1.

Citations: Truth/Goodness/Beauty, virtue, and formation language are drawn from the mission and program pages.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The mission centers on cultivating minds and hearts through truth, goodness, and beauty, i.e., formation of virtue and wisdom rather than narrow job-preparation goals. - Public materials describe education as formation and character development, with an emphasis on virtue formation and a humane-letters-based liberal-arts approach. - The emphasis on enduring truths and a deep liberal-arts formation is repeatedly tied to long-term intellectual growth rather than vocational pathways.

Positive/Negative Keyword Analysis - Positive keywords present: formation, virtue, wisdom, truth, beauty, character, pursuit of excellence. - Negative keywords present: none explicit in the public materials (no explicit “career-first” or purely job-oriented language). - Quantitative estimate: Positive hits approx. 5–6; Negative hits approx. 0. 100% of identified category-appropriate terms align with classical-education aims.

Why this rating - The school’s stated goal centers on virtue/wisdom formation and the classical liberal-arts framework, not mere information transfer or vocational training, aligning solidly with CLASSICAL criteria for this category.

Citations: Mission and formation-focused language.

Element 3: School Curriculum — CLASSICAL

Evidence - The curriculum highlights the liberal arts frame with grammar, logic, and rhetoric (as part of the classical curriculum), and examples include humane letters, Latin, Euclid, and bar-model math; The materials describe a seamless K-12 progression rooted in Western-tradition liberal arts.

- Explicit mention of humane letters and Latin as core elements; early- to high-school progression includes Euclid, geometry, and a classical-language sequence. - The curriculum is presented as a rich, well-rounded liberal-arts program with literature, history, mathematics, science, and the arts taught in dialogue with great ideas of the Western tradition, designed to awaken wonder.

Positive/Negative Keyword Analysis - Positive keywords present: liberal arts, grammar, logic, rhetoric, humane letters, Great Books/Great Conversation (via Western-tradition dialogue), Latin, Euclid, memorization, wonder, unity of knowledge, integration. - Negative keywords present: none explicitly in the public materials (no vocational or purely information-transfer phrasing). - Quantitative estimate: Positive hits approx. 8–10; Negative hits approx. 0. 100% alignment with classical-curriculum indicators.

Why this rating - The materials clearly present a liberal-arts curriculum with classical elements (grammar, logic, rhetoric via humane letters; Latin; Euclid; memorization emphasis; wonder). This satisfies CLASSICAL criteria for Curriculum.

Citations: humane letters, Latin, Euclid, and the Western-tradition emphasis are shown in the curriculum-related pages; examples include the K-12 progression and specific courses.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

Evidence - Socratic instruction and virtue formation are stated as central elements of the education approach. - There is explicit mention of a two-teacher model in the lower school, which supports close guidance and memory-driven pedagogy. - The Lower School practices include singing, memorization, and a focus on wonder, memory, and delight in learning; upper-school pedagogy emphasizes seminars, debates, and rhetoric—i.e., classical discussion formats.

- The pedagogy explicitly ties to a calm, ordered campus culture and virtue-centered learning.

Positive/Negative Keyword Analysis - Positive keywords present: Socratic instruction, seminars, rhetoric, dialogue, memory (Schol -like practices), wonder, virtue formation, two-teacher model, formational discussion, classical discussion formats. - Negative keywords present: none explicit in public materials (no mention of “drill-and-kill” or purely test-driven pedagogy). - Quantitative estimate: Positive hits approx. 6–8; Negative hits approx. 0. 100% alignment with classical-pedagogy indicators.

Why this rating - The available materials consistently describe Socratic/seminar-based inquiry, rhetoric, and virtuous, contemplative memory work, aligning with classical-pedagogy expectations. The inclusion of a lower-school two-teacher model and an upper-school rhetoric emphasis strengthens the CLASSICAL rating for Pedagogy.

Citations: Socratic instruction and two-teacher model are described in mission and campus materials; lower/upper-school pedagogical practices are described in various pages.

Element 5: School Faculty — CLASSICAL

Evidence - The faculty is described as model teachers who serve as models of learning and character; the “living curriculum” concept and a culture of mentoring are invoked in the mission materials.

- A named faculty roster and upper-school faculty pages demonstrate the presence of subject-matter experts (e.g., Latin, history, science, etc.). - The school emphasizes teachers as “dedicated, enthusiastic, and intellectually excellent” role models and as the core of the school’s culture.

Positive/Negative Keyword Analysis - Positive keywords present: model teachers, living curriculum, mentors, virtuous/character formation, faculty as core of the school, dedicated and excellent teachers. - Negative keywords present: none explicit in public materials (no patronizing or authoritarian language; no hostile environment language). - Quantitative estimate: Positive hits approx. 5–6; Negative hits approx. 0. 100% alignment with classical-faculty indicators.

Why this rating - The district’s public materials strongly frame teachers as living exemplars of learning and character, with a stated “living curriculum” concept and a roster of qualified faculty. This aligns with CLASSICAL expectations for the Faculty category.

Citations: Mentions of living curriculum and model teachers; faculty listings; statements about teacher excellence.

Element 6: School Parents and Community — SOMEWHAT CLASSICAL

Evidence - Public materials show active parent-facing functions: on-campus tours, information nights, open enrollment, and opportunities to engage (e.g., “Open Enrollment for 26-27,” “Information Night,” “Take a Tour”). These reflect parent involvement, though they stop short of explicit “co-teacher” language. - The site emphasizes partnership with families and a mission that relies on families’ engagement in the school’s classical project (through events, information nights, and enrollment activities).

Positive/Negative Keyword Analysis - Positive keywords present: partnerships with families, parent involvement, information nights, campus tours, open enrollment, community events. - Negative keywords present: explicit language about parents as co-teachers or formal parent-education programs (e.g., book studies) is not clearly present in public materials. - Quantitative estimate: Positive hits approx. 4–5; Negative hits approx. 0; but the explicit co-teaching or formal parent-education language is not present, which reduces the strength of the category’s alignment. Overall, mixed but leaning toward SOMEWHAT CLASSICAL.

Why this rating - The school demonstrates meaningful parent engagement channels (tours, information nights, enrollment events) but does not explicitly present parents as co-teachers or provide structured parent-education programs in the public materials. This leads to a SOMEWHAT CLASSICAL rating for Parents & Community.

Citations: Open Enrollment and information-night content; campus-tour language.

Aggregate Rating (Across Categories) - Element 1: SOMEWHAT CLASSICAL - Element 2: CLASSICAL - Element 3: CLASSICAL - Element 4: CLASSICAL - Element 5: CLASSICAL - Element 6: SOMEWHAT CLASSICAL

Overall, the school’s aggregate profile is CLASSICAL.

What Would Move the Needle (Only relevant if SOMEWHAT CLASSICAL) - Not required here since the aggregate rating is CLASSICAL. If a needle were to be moved, potential steps would include: - Explicit ar-

ticulation of theology or liturgical practices in public materials to strengthen the Religious and Metaphysical Foundations category. - Clear wording about parents as co-teachers and the existence of formal parent-education programs (e.g., book studies) to strengthen Parents & Community alignment. - Additional explicit Great-Books/Great Conversation language and references to a public, canonical Great Books program within the curriculum narrative.

ABSTRACT - Great Hearts Harveston LA 70810 demonstrates a predominantly CLASSICAL profile, with strong alignment in Curriculum, Pedagogy, Faculty, and, to a slightly lesser extent, Religious Foundations and Parent engagement. Core features include a liberal-arts framework, humane letters, Latin, Euclid, and a Western-tradition curriculum; Socratic instruction; virtue formation; a two-teacher lower-school model; and a mission emphasizing truth, goodness, and beauty. Public materials reveal clear formation-focused goals and rigorous classical pedagogy, while explicit theology and liturgical practices are not overtly published, and parent-teacher-cooperation language is not strongly anchored in public materials. The aggregate evaluation classifies the school as CLASSICAL.

- Evidence highlights include:
 - The mission to cultivate minds and hearts via truth, goodness, and beauty, with emphasis on virtue formation.
 - A public-facing curriculum featuring humane letters, Latin, Euclid, and Western-tradition dialogue, plus a strong emphasis on wonder and integrated liberal-arts study.
 - Socratic instruction, rhetoric training, and a memory-focused lower-school program as described in campus materials.
 - Faculty as models of virtue and living curriculum; named Upper School faculty and a culture of mentorship.
 - Parent-facing engagement through enrollment events and information nights, with tours and community activities, though lacking explicit parent-co-teacher language in public materials.

Note: All quotes and claims are grounded in the cited Great Hearts Harveston materials and the classical-education rubric document (Six Essential Elements of a Classical School). The rubric-derived keyword framework is informed by the “Six Essential Elements of a Classical School (1)” document, including positive keywords (e.g., Great Books, Great Conversation, Seven Liberal Arts, wonder, unity of knowledge) and negative indicators (e.g., information-transfer-centric approaches). See the related knowledge-base document for the positive/negative keyword framework.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
