

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Kenosha Christian School
School Website: <https://kca.school/>

December 28, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Kenosha Christian School (KCA) presents a Christian, relationally-centered approach to education with clear religious foundations and a community-oriented ethos. Based on public-facing materials from the school and applying the Six Essential Elements rubric (as captured in the classical education knowledge lexicon), the school demonstrates a recognizable Christian orientation and some classical features, but lacks explicit, orthogonal evidence of a fully classical curriculum and pedagogy (e.g., explicit Seven Liberal Arts, Great Books/Great Conversation, or sustained Socratic pedagogy across grades). Overall, the school is best described as SOMEWHAT CLASSICAL, with a strong religious and community formation component and room to deepen classical elements in curriculum and pedagogy.

Executive Summary — Element-by-Element Snapshot

- **Element 1: Religious and Metaphysical Foundations — CLASSICAL Evidence:** Public materials emphasize a Christian framework with "Spiritual Vibrancy" and "God at the center," signaling a theologically grounded, transcendental orientation. The lexicon for classical education identifies theology, liturgy, worship, and sacred orientation as core signals of classical religious foundations.
- **Element 2: Purpose and Goal — SOMEWHAT CLASSICAL Evidence:** The site foregrounds relational formation, community and spiritual aims, and the idea of educating for a larger good (church/community) beyond mere information. While not explicit in terms like "virtue/wisdom" in the public text, formation and affections are suggested through relational language and spiritual aims. Positive signals exist in the framework of formation and teleology, but explicit statements about virtue/wisdom are not foregrounded in the site content.
- **Element 3: Curriculum — NOT CLASSICAL Evidence:** The site materials emphasize relational, spiritual, and academic excellence without explicit mention of liberal arts core components (grammar/logic/rhetoric; Great Books; Great Conversation; history as Western civilization; Latin/Greek) that define a classical curriculum. The classical lexicon includes those curriculum signals; they are not visibly foregrounded in KCA's public materials.
- **Element 4: Pedagogy — NOT CLASSICAL Evidence:** Pedagogical signals in KCA's public content center on individualized interaction and team-building, with no explicit evidence of Socratic seminars, rigorous rhetoric training, or Schol -based contemplative pedagogy in the text. The classical pedagogy signals emphasize Socratic dialogue, memorization, and rest/Schol ; these are not foregrounded in the available site content.
- **Element 5: Faculty — NOT CLASSICAL Evidence:** The public materials do not present a fully developed "living curriculum" or explicit faculty portraits as described in classical rubrics. There is a focus on relationship and mentorship in a general sense, but specific classical faculty signaling (model teachers, living curriculum, professional collegiality as explicit "portrait of a teacher") is not clearly evidenced in the site text.
- **Element 6: Parents & Community — SOMEWHAT CLASSICAL Evidence:** The school emphasizes family orientation and relational partnering ("KCA is a family") and community engagement, which

aligns with the classical emphasis on partnership with families and formation of affections. However, explicit parent formation programs, open campus practices, or formalized “co-teaching with parents” language are not clearly enumerated in the public text. Positive signals exist, but the strongest explicit classical signals (e.g., formal parent formation, households catechesis) are not fully demonstrated in the public materials.

Overall Aggregate Ranking: SOMEWHAT CLASSICAL

- The school clearly embeds Christian religious foundations and community formation, which are central to classical education for many families. However, the explicit, canonical classical elements (Great Books, Seven Liberal Arts, rigorous Socratic pedagogy, living faculty as curriculum, formalized parent formation) are not consistently foregrounded in public materials. This yields a SOMEWHAT CLASSICAL overall assessment.

What would move the needle

- Make Great Books and Great Conversation explicit: Publicly articulate a liberal arts foundation (grammar/logic/rhetoric, Trivium/Quadrivium, Western canon, primary sources) and show how they integrate into history, literature, and philosophy units.
- Adopt and publicize classical pedagogy signals: Implement and showcase Socratic seminars, memoria/study practices (recitation/memory work), and opportunities for upper-school rhetoric and oratory; document a Scholé-based rhythm (deliberate, contemplative pace) throughout the program.
- Clarify and publish a formal “formation” framework: Explicitly map virtue formation, moral realism, and the pursuit of truth/goodness/beauty, with measurable signals (character education, ethical reasoning, mentorship models, and living-curriculum portraits of teachers).
- Expand faculty signals: Provide a clear “portrait of a teacher” and a “faculty living curriculum” narrative, including ongoing classical pedagogy training and faculty collaboration.
- Strengthen parent/community alignment: Publicly present a robust parent-formation program (book studies, seminars, family catechesis), plus open-campus visits and partnerships with families as co-educators.

Note: Where possible, the analysis references and aligns with the classical education lexicon and the Six Essential Elements framework to ground the assessment in established signals of classical orientation. The presence of explicit Christian-theological framing within a school’s public materials strongly influences the Religious and Metaphysical Foundations category and informs related categories.

The evaluation above is grounded in the school’s public-facing content and cross-walked against the classical-element lexicon and the Six Essential Elements framework’s positive/negative keywords. For explicit textual anchors from the school site, see the material describing “RELATIONAL FLOURISHING,” “ACADEMIC EXCELLENCE,” and “SPIRITUAL VIBRANCY” with the explicit statement that “KCA keeps God at the center,” as reported in the home page content.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

- Evidence
 - Public materials foreground “SPIRITUAL VIBRANCY” and that “KCA keeps God at the center,” signaling a theologically grounded education.
 - The classical lexicon identifies Grounded in Theology, liturgy, worship, and reverence as core signals of classical religious foundations.
- Positive/Negative keyword analysis
 - Present keywords: God, center, church, spiritual vitality (from the site text). The classical keyword lists include theology, liturgy, worship, sacred, reverence, and the Logos, among others (positive indicators for the Religious & Metaphysical Foundations category).
 - Negative signals: none evident in the public materials for this category.
- Why this rating

-
- The explicit emphasis on God-centered education and spiritual vitality aligns with the transcendental and theological signals in the Six Essential Elements lexicon, supporting a CLASSICAL rating for this category.

Element 2: School Purpose and Goal — SOMEWHAT CLASSICAL

- Evidence
 - The site emphasizes relational flourishing and formation in a community with spiritual aims, rather than a narrowly vocational or information-transfer focus. The public materials point to formation for community and faith, but do not explicitly foreground virtue/wisdom language in the way canonical classical sources would.
- Positive/Negative keyword analysis
 - Present keywords: formation, relational flourishing, good of the community, God-centered focus (formation-oriented language). The lexicon includes formation, virtue, wisdom, and telos as positive signals; while not all are explicitly stated, formation and teleology are tangentially present in the public text.
 - Negative signals: absence of explicit statements about virtue, wisdom, or Great Books in the public text; absence of explicit mentions of “college/career readiness” or “workforce preparation” signals (which would be negatives in classical categorization).
- Why this rating
 - The school exhibits formation-oriented aims and moral purpose within a Christian context, but lacks explicit, canonical classical language and aims (virtue/wisdom, Great Conversation, Great Books) in the public materials. These signals place Element 2 in the SOMEWHAT CLASSICAL range rather than fully CLASSICAL.

Element 3: School Curriculum — NOT CLASSICAL

- Evidence
 - The public materials do not foreground the liberal arts core (grammar/logic/rhetoric) or Great Books and Great Conversation, and do not clearly describe a history curriculum anchored in Western civilization or primary classical texts. The emphasis is on relational and spiritual aspects rather than explicit classical curriculum signals.
- Positive/Negative keyword analysis
 - Present keywords: none of the canonical “Seven Liberal Arts,” “Great Books,” “logic,” “rhetoric,” “Latin/Greek,” or “Socratic texts” appear in the public-facing text. The lexicon identifies these as strong positive signals for a classical curriculum; their absence in the site text supports NOT CLASSICAL for this category.
 - Negative signals: absence of classical curricular signals is itself a negative indicator for the Classical category.
- Why this rating
 - Without explicit public articulation of liberal arts foundations (grammar, logic, rhetoric) and Great Books/Great Conversation, the curriculum category does not meet the criteria for Classical.

Element 4: School Pedagogy or Teaching Methods — NOT CLASSICAL

- Evidence
 - The site highlights individualized interaction and teamwork, with no explicit reference to Socratic seminars, scholé-based contemplation, memorization/recitation, or upper-school rhetoric training that are central to classical pedagogy in the canonical sense.
- Positive/Negative keyword analysis
 - Present keywords: personalized interaction, mentorship-like language; however, there is no explicit mention of Socratic dialogue, recitation, or rhetoric-centric teaching methods in the public text (which would be strong positive signals if present). The classical pedagogy lexicon lists So-

cratic seminars, scholé, and memorization/recitation as positive indicators; their absence points toward NOT CLASSICAL for this category.

- Why this rating
 - Given the lack of explicit classical pedagogy signals in public materials, the pedagogy category aligns with NOT CLASSICAL.

Element 5: School Faculty — NOT CLASSICAL

- Evidence
 - The public text does not present a robust “living curriculum” or defined portrait of teachers as model virtuous mentors beyond general statements about one-on-one interactions and care. No explicit “portrait of a teacher” or formal statement about faculty as the core of the school is observed in the site content.
- Positive/Negative keyword analysis
 - Present keywords: “one-on-one interaction,” “teacher-student relationships” (implicit signals of mentorship), but the classical lexicon emphasizes explicit “model teachers,” “living curriculum,” and “portrait of a teacher.” The absence of these explicit signals supports NOT CLASSICAL for this category.
- Why this rating
 - The absence of explicit classical faculty signals in public content places Element 5 in NOT CLASSICAL.

Element 6: School Parents and Community — SOMEWHAT CLASSICAL

- Evidence
 - The site emphasizes family orientation and relational partnerships (e.g., “KCA is a family,” stories from families). This aligns with classical emphasis on partnership with families and formation of affections, though explicit programmatic signals for parent formation or formal parent as co-teachers are not clearly enumerated in public text.
- Positive/Negative keyword analysis
 - Present keywords: partnership with families, family environment, community involvement (positive signals in the lexicon for Parents & Community); absence of explicit “parent formation programs” or “open campus” language is noted. The lexicon includes explicit positive signals for parent partnership and family formation; these are partially present in the site language.
- Why this rating
 - The school shows a strong family-centered orientation, a core classical signal, but lacks fully explicit parent-formation and formal co-teaching language in public materials. This yields SOMEWHAT CLASSICAL rather than CLASSICAL for this category.

What Would Move the Needle

- Publicly articulate a clear classical curriculum framework (Seven Liberal Arts, Great Books/Great Conversation, Western historical canon) and map it to grade-level units.
- Implement and publicize explicit classical pedagogy (Socratic seminars, scholé-based pacing, memorization/recitation, and upper-school rhetoric).
- Build and publish a formal “portrait of a teacher” and “living curriculum” for faculty, including ongoing classical pedagogy professional development.
- Expand parent-facing programs (e.g., parent book studies, seminars, catechesis in home life) and provide more explicit evidence of parents as co-educators and the open-campus ethos.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
