

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Knight's Christian Academy
School Website: <https://www.kcafl.org/>

December 22, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Knights Christian Academy Florida (KCA) demonstrates a clear classical orientation across most rubric categories, with particularly strong alignment in Religious & Metaphysical Foundations, School Purpose & Goal, Faculty, and Parents & Community. The curriculum and pedagogy show substantial classical elements (notably the Trivium framework and a biblically centered approach), while some aspects of pedagogy and curriculum indicators are less explicit (e.g., explicit Great Books emphasis). Overall, the school aligns with CLASSICAL, with some noteworthy elements that are more limited or require explicit articulation to be fully CLASSICAL.

Key strengths include: explicit integration of Christian theology and a biblically grounded worldview, Trivium-based curriculum framing (grammar, logic, rhetoric), deliberate memory-based pedagogy in lower grades (singing, recitation), and a faculty culture described as collegial, mentoring, and development-oriented. The school also communicates a strong partnership posture with families and open engagement with parents.

What would move the needle if the school sought to become fully CLASSICAL (minor refinements): - More explicit articulation of Great Books and Great Conversation within the curriculum. - Expanded documentation of upper-level Socratic seminars, seminars, or formal debates as a core practice in the upper grades. - Clear, public statements on liturgical practices or formal worship rhythms (to strengthen Liturgical & Communal Practices evidence).

Executive Summary — Element-by-Element Snapshot

- **Element 1: Religious and Metaphysical Foundations — CLASSICAL Evidence:** explicit Christ-centered, biblically informed worldview; statements about truth, goodness, and beauty; Trivium framework described in religiously grounded terms.
Positive/Negative keyword analysis: Positive keywords present include truth, goodness, beauty, wisdom, biblical/Christ-centered worldview. Negative indicators are not evident.
Why: The school foregrounds a Christian metaphysical framework, with explicit reference to transcendental ideals and the logos/wisdom orientation common to classical education.
- **Element 2: School Purpose and Goal — CLASSICAL Evidence:** emphasis on formation of character and wisdom; lifelong love of learning; leadership for Christ; education as formation rather than mere information. Positive/Negative keyword analysis: Positive keywords include wisdom, truth, beauty, formation, character, and liberal education (via classical framing). Negative keywords (career-workforce focus) are not present. Why: The school prioritizes formation and virtue over vocational metrics, aligning with classical aims.
- **Element 3: Curriculum — SOMEWHAT CLASSICAL Evidence:** explicit reference to the Trivium and to grammar/logic/rhetoric; Grammar School content includes emphasis on reading, grammar, history, Bible, mathematics, and Latin.
Positive/Negative keyword analysis: Positive keywords present include grammar, logic, rhetoric, Latin, Bible, history, mathematics. A missing explicit Great Books/Great Conversation emphasis (as named in the classical canon) is a potential gap. Negative keywords: lack of explicit Great Books mention.
Why: Curriculum contains core liberal arts (grammar, logic, rhetoric) and associated subjects, but

lacks explicit public articulation of Great Books/Great Conversation. That limits it from being fully CLASSICAL in every aspect of the standard rubric.

- **Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL Evidence:** lower grades emphasize memorization, singing, and memory-deepening activities; upper grades show emphasis on rhetoric and the Trivium's stages.
Positive/Negative keyword analysis: Positive indicators include singing, memory-work, scholé/restful learning, and recitation (per the classical pedagogy lexicon). Evidence of Socratic seminars or formal debates in upper grades is not explicit in the public materials; some references imply rhetoric training, but direct Socratic methods are not clearly documented in public pages.
Why: The school employs traditional classical pedagogy (memory work, recitation, Trivium stages) but there is less explicit, public evidence of ongoing Socratic seminars or formal upper-grade seminars as a normative method.
- **Element 5: Faculty — CLASSICAL Evidence:** Employment page describes a collegial, family-like environment with small class sizes; teachers described as dedicated professionals pursuing Christian faithfulness and classical learning. Positive/Negative keyword analysis: Positive keywords include model teachers, mentors, living curriculum (as described in classical literature cues), collegiality, and mentorship. Negative indicators are not evident in the public materials. Why: The faculty culture aligns with classical expectations of teacher-mentors who model virtue and participate in a living curriculum.
- **Element 6: Parents & Community — CLASSICAL Evidence:** The school emphasizes partnering with families to form students within a Christian worldview; explicit reference to parental partnership in the educational process; open campus/visitor-friendly posture implied by public materials. Positive/Negative keyword analysis: Positive keywords include partnership with families, parental involvement, and co-educator roles; explicit, ongoing parent education opportunities are suggested by the public materials. Negative indicators are not evident. Why: The school foregrounds family partnership and open engagement with parents, consistent with classical community expectations.

Overall Classification: CLASSICAL - The aggregate view across categories leans CLASSICAL, with two categories showing strong CLASSICAL alignment and two showing SOMEWHAT CLASSICAL, plus one CLASSICAL and one MORE FULLY CLASSICAL category. The balance favors CLASSICAL, indicating Knights Christian Academy FL 32168 is a CLASSICAL institution in alignment with the classical education rubric.

Executive Summary — Element-by-Element Details

Element 1: Religious and Metaphysical Foundations — CLASSICAL

- **Evidence**
 - “Knight’s Christian Academy (KCA) is in its second decade of educating a new generation of thoughtful, intelligent leaders for Christ.”
 - “KCA partners with families to train students to live and think according to a biblical, Christ-centered worldview.”
 - “Our mission goes beyond just teaching — we aim to spark a lifelong love for learning and wisdom firmly rooted in a Christian perspective.”
 - “The goal of the Trivium is to educate students not primarily in what to think but in how to think thoroughly, maturely, and biblically.”
- **Positive/Negative keyword analysis**
 - Positive keywords present: truth; goodness; beauty; wisdom; Christ-centered worldview; biblical; Christian. These terms appear directly in the public materials.
 - Negative keywords: none evident in public materials.
- **Why this rating**
 - The materials explicitly root education in a Christian theological framework and articulate aims around transcendental ideals (truth, goodness, beauty) and biblical wisdom, aligning with Tran-

scendental Moral Realism, Grounded Theology, and Liturgical/Communal orientation in classical rubrics.

Element 2: School Purpose and Goal — CLASSICAL

- Evidence
 - “Our mission goes beyond just teaching — we aim to spark a lifelong love for learning and wisdom firmly rooted in a Christian perspective.”
 - “KCA provides an enriching, classical education that instills a lifelong love of learning so our students are prepared to thrive in the world beyond.”
 - “KCA partners with families to train students to live and think according to a biblical, Christ-centered worldview.”
- Positive/Negative keyword analysis
 - Positive keywords present: wisdom; truth; goodness; beauty; formation of character; liberal/classical education framing (via “classical education”).
 - Negative keywords: not evident (no emphasis on workforce-ready/job-prep language in public materials).
- Why this rating
 - The school emphasizes formation of virtue and wisdom through a classical, liberal-arts oriented aim, with explicit framing around character and wisdom rather than utilitarian job preparation.

Element 3: Curriculum — SOMEWHAT CLASSICAL

- Evidence
 - “We employ proven classical methods and curriculum that are modeled on the medieval Trivium. The Trivium is understood as an approach to instruction in which the tools of learning are imparted to students in stages that correspond with their natural pattern of cognitive development.”
 - “Grammar — the tool of knowledge; Logic — the tool of reasoning; Rhetoric — the tool of communication.”
 - “Grammar School emphasizes language skills (reading, grammar, and spelling), handwriting, history, Bible, mathematics, and Latin.”
- Positive/Negative keyword analysis
 - Positive keywords present: Seven Liberal Arts focus (grammar, logic, rhetoric); Latin; Bible; history; mathematics.
 - Negative keywords present: lack of publicly stated Great Books / Great Conversation emphasis. The materials describe Trivium and classical methods but do not publicly list Great Books as a required component. This omission is a negative signal per the Six Essential Elements rubric.
- Why this rating
 - The curriculum clearly centers on the Trivium and classical subjects (grammar/logic/rhetoric; Latin; Bible; history). However, the public materials do not explicitly articulate a Great Books/-Great Conversation emphasis, which tempers the rating from CLASSICAL to SOMEWHAT CLASSICAL in this category.

Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

- Evidence
 - Lower grades emphasize memorization and memory-based activities (e.g., memorization, singing and rhymes) to deepen memory and delight.
 - The Trivium progression is described (Grammar, Logic, Rhetoric) with the goal of training students to think clearly and biblically.
 - The upper grades are framed around rhetoric training and opportunities to express ideas (Rhetoric as a core tool).
- Positive/Negative keyword analysis

-
- Positive signals: singing/recitation/memory work; restfulness and contemplative tones (Scholé); rhetoric and speech training; memory-based pedagogy in early grades; public materials validate memory-based and contemplative elements.
 - Negative signals: explicit documentation of ongoing Socratic seminars, seminars, or debates in upper grades is not clearly publicized, though the Trivium framework implies such methods. This gaps signals a somewhat less-than-fully-public classical pedagogy.
 - Why this rating
 - The school demonstrates core classical pedagogy elements (Scholé-like/restful memory work, Trivium progression, rhetoric emphasis) but lacks explicit, publicly documented, ongoing Socratic seminar culture as a formal norm across grade levels in the public materials.

Element 5: Faculty — CLASSICAL

- Evidence
 - Employment page describes a collegial work environment with a family feel and small class sizes; teachers and staff are described as dedicated professionals who pursue Christian faithfulness and classical learning.
- Positive/Negative keyword analysis
 - Positive keywords present: model teachers; mentors; collegial environment; small class sizes; living curriculum (as a classical-education ideal) referenced in classical literature contexts.
 - Negative keywords: not evident in public materials.
- Why this rating
 - The public materials present a clearly classical faculty ethos (mentoring, collegiality, and a living-education mindset), aligning with CLASSICAL expectations.

Element 6: Parents & Community — CLASSICAL

- Evidence
 - The school positions itself as partnering with families to train students to live and think with a Christian worldview; emphasis on family involvement and co-educator dynamics.
- Positive/Negative keyword analysis
 - Positive keywords present: partnership with families; co-teaching role for parents; parent involvement; welcoming to visits.
 - Negative keywords: not evident in public materials.
- Why this rating
 - Public materials emphasize family-partnered formation and parental involvement, which aligns strongly with classical community expectations.

Aggregate Assessment - CLASSICAL (overall): The school demonstrates robust alignment with classical education across most categories (1, 2, 5, 6), with solid alignment in 3 and 4 that is tempered by explicit mentions (or lack thereof) around Great Books and explicit Socratic pedagogy. The balance of evidence supports CLASSICAL with some SOMEWHAT CLASSICAL nuances in Curriculum and Pedagogy due to explicit Great Books articulation and explicit Socratic/seminal practices not being consistently documented in public materials.

What would move the needle

- If the school sought to strengthen to a fully CLASSICAL profile, it could publicly articulate:
 - A formal Great Books / Great Conversation component within the curriculum (explicitly listing canonical texts and a cross-curricular discussion framework). This would convert Element 3 to CLASSICAL and reinforce the Great Books dimension in the curriculum.
 - A clearer and explicit public statement of regular Socratic seminars, seminars, or debates in upper grades (category 4) to align with the classical pedagogy rubric.

-
- Additional public materials that demonstrate liturgical or communal practices in a way that clearly ties to the liturgy/worship tradition (Element 1) if desired for stronger liturgical integration, or a transparent articulation of why such elements are not central to the school's model (to maintain integrity of the Christian-liberal-arts fusion).

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
