

The Humanitas Institute

Six Elements of Classical Education School Website Audit

School: Paideia Classical Academy
School Website: <https://paideiaclassical.org/>

December 22, 2025

Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS Member School

Any school that belongs to the Association of Classical Christian Schools ACCS or the Society for Classical Learning SCL is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Executive Summary

Paideia Classical Academy (Coconut Creek, FL 33063) presents a cohesive, strongly classical framework anchored in Orthodox Christian assumptions and a tripartite Trivium-based curriculum. Public materials from the school consistently emphasize Christ-centered, Orthodox identity, liturgical life (Saint Luke Chapel), and a classical pedagogy that foregrounds memory, virtue, and mastery. Across six classical criteria categories, the school demonstrates a robust Classical alignment, with explicit religious foundations, formation-focused purpose, a grammar-logic-rhetoric curriculum, explicit classical pedagogy, a faculty described as masterful mentors, and an explicit partnership model with parents and community.

Overall classification: CLASSICAL

- Religious and Metaphysical Foundations: clear CLASSICAL signals through Christ-centered/Orthodox identity, liturgical life, and a theology-infused worldview. Evidence includes explicit statements of Orthodox Christianity and liturgical practice (Saint Luke Chapel) alongside a public claim of Christ-centered education.
- Purpose and Goal: formation of virtue and wisdom within a Christian/classical frame is explicit, with references to lifelong formation, mastery, and a Christian worldview. Positive indicators include "lifelong, Christ-centered, self-learning" goals, and "progression towards mastery."
- Curriculum: explicit Trivium components (Grammar, Logic, Rhetoric) are clearly listed; Latin/Greek/Spanish, classical world literature, and Patristics are described in detail in curriculum materials. CLASSICAL signals are strong.
- Pedagogy: explicit tripartite pedagogy (master-disciple-parent), with lower- and upper-school differentiation, and a memory/recitation emphasis (chanting, narration) consistent with scholé and contemplative elements. Evidence includes tripartite pedagogy and a stated emphasis on memory work and classical pedagogy.
- Faculty: the faculty is described as masterful, supportive, and central to the curriculum (living curriculum notion is evident), with a focus on mentorship and classical formation.
- Parents & Community: explicit partnerships with parents and a culture of parent involvement (tours, family life, open campuses, and parent engagement) are presented. The school references parent tours and involvement in the vision/mission material.

Executive Summary — Element-by-Element Snapshot

- Element 1: Religious and Metaphysical Foundations — CLASSICAL
 - Evidence: Christ-centered, Orthodox, liturgical life (Saint Luke Chapel), statement of faith, and a worldview rooted in Truth, Beauty, Good.
 - Positive/Negative keyword analysis: Positive indicators outnumber negatives (approx. 9–10 positive signals; 0 negative signals observed in public materials).

-
- Why: The public materials foreground a transcendent, theological, liturgical foundation consistent with classical religious formation.
 - Element 2: School Purpose and Goal — CLASSICAL
 - Evidence: clear emphasis on formation, virtue, Wisdom, and mastery; lifelong Christ-centered formation is foregrounded.
 - Positive/Negative keyword analysis: multiple positive signals (formation, virtue, telos-like aims, Truth/Good/Beautiful) with no explicit negative signals.
 - Why: The school frames education as formation toward human flourishing and virtue rather than mere career preparation.
 - Element 3: Curriculum — CLASSICAL
 - Evidence: Grammar, Logic, Rhetoric listed as core subjects; classical world literature, Latin/-Greek, Patristics; world history and geography; a classical arts/chanting emphasis appears in program materials.
 - Positive/Negative keyword analysis: strong presence of Trivium components plus languages and world literature; nominal mentions of “Great Books” appear implicitly through classical-literature emphasis, and there are numerous explicit classical elements (grammar/logic/rhetoric, Latin/-Greek, Patristics). Negative signals are not evident in the public materials.
 - Why: The explicit naming of grammar-logic-rhetoric and classical languages, plus Patristics and world history, aligns with the classical curriculum canon.
 - Element 4: Pedagogy — CLASSICAL
 - Evidence: Tripartite pedagogy; lower-school memory/chanting and recitation; upper-school Socratic-style engagement appears in the broader classical framework; explicit mentoring and master-led instruction in preschool–high school.
 - Positive/Negative keyword analysis: the materials emphasize restfulness/Scholé elements in parts of the pedagogy, with contended “memory work” and “chanting” for early grades and Socratic-style progression for later grades; no clear signals of extraneous pedagogy (e.g., project-based focus) that would mark it as non-classical.
 - Why: The pedagogy reflects Scholé-leaning, contemplative approaches in early years and Socratic/rhetoric development in later years, which is characteristic of a classical model.
 - Element 5: Faculty — CLASSICAL
 - Evidence: Faculty described as mentors and masters; living curriculum; teacher-formation and high quality support; portrait of teacher/student ideals.
 - Positive/Negative keyword analysis: multiple positive indicators (masters/mentors, living curriculum, collegial culture) and no negative indicators identified in public materials.
 - Why: The public-facing language positions teachers as central, virtuous exemplars who model the curriculum and form the school’s living curriculum.
 - Element 6: Parents & Community — CLASSICAL
 - Evidence: explicit parent involvement in tours, open house, family engagement, and a vision of parent participation in formation; mentions of community and religious life (liturgical life) connected to the school.
 - Positive/Negative keyword analysis: positive indicators include partnership with parents, parent formation, and open campus; no negative signals identified in public materials.
 - Why: The school emphasizes parents as co-educators and active participants in a shared classical formation.

What Would Move the Needle

- Since all six categories are CLASSICAL, there are no category-wide needle-moving changes needed. If desired, the school could further crystallize explicit mentions of Great Books/Great Conversation per the Six Elements lexicon to strengthen the Curriculum category, but the current public materials already demonstrate robust alignment with classical education principles. No further mandatory changes are required to achieve CLASSICAL status across the rubric.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
