

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Abilene Classical Academy
School Website: <https://www.abileneclassical.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Abilene Classical Academy (ACA) presents a predominantly CLASSICAL orientation across its public materials. The school explicitly identifies a Christian, classical education framework (the Trivium: grammar, logic, rhetoric) and emphasizes cultivation of truth, goodness, and beauty, alongside a worldview formed by Scripture. Public materials highlight: a Christ-centered, classical mission; a curriculum built on Great Books sensibilities; classical languages (Latin) and history-centered study; and a distinctive teacher-families-home partnership in pedagogy. The school furthermore foregrounds parental partnership (parents as co-teachers on home days) and a structure that ties home, church, and school together in formation of disciples. These features align closely with the core Positive Keyword indicators of classical education while showing limited signs of the negative indicators in the classical lexicon.

Overall classification by category: - Religious and Metaphysical Foundations: CLASSICAL - School Purpose and Goal: CLASSICAL - Curriculum: CLASSICAL - Pedagogy: SOMEWHAT CLASSICAL - Faculty: NOT CLASSICAL - Parents & Community: CLASSICAL

Aggregate: CLASSICAL

Key insights: - ACA's public materials consistently foreground truth, goodness, beauty; a Christ-centered frame; theological grounding; and the Trivium (grammar, logic, rhetoric) as the backbone of the curriculum. Evidence includes explicit statements about a classical, Trivium-based approach and a biblical worldview shaping instruction (Worldview-Driven Instruction; Word/theology language; Statement of Faith). - Great Books and manned by "living curriculum" style aims appear through phrases like "Discipleship through great books" and emphasis on reading great books to form thinkers. The site also highlights Latin, Saxon Math, and Story of the World as core curricular components. - A distinctive home-school collaboration model positions parents as co-teachers on home days, signaling a strong partnership with families and a community-centric approach that is central to classical education in practice. - The absence or minimal emphasis on explicit Socratic seminars in the high school context is noted as a potential area to strengthen; however, the presence of high-school rhetoric study and the Trivium framework supports at least SOMEWHAT to CLASSICAL in Pedagogy. - Faculty language is not as prominently described in the public materials as the other categories (e.g., "living curriculum," "portrait of a teacher") which reduces the strength of the Faculty signal in the classical rubric. This keeps Element 5 from achieving a full CLASSICAL rating.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - Mission ties truth, beauty, and goodness to a Christ-centered, classical education. - Explicit Trivium framework (grammar, logic, rhetoric) referenced as pedagogy. - The Word of God, a Triune God, and biblical worldview are foregrounded in statements about faith, scripture, and worldview-driven instruction. - Worldview-driven instruction and biblical worldview framing are explicit.

Positive/Negative keyword analysis - Positive keywords observed: truth, beauty, goodness; Christ-centered; biblical worldview; Trinity; Word; theology-related framing. Estimated hits: 6–7 distinct positive indicators. - Negative keywords observed: None evident in public materials (no explicit relativism, secular humanism, or morally neutral framing detected).

Why this rating - ACA's public materials place transcendentals (truth, goodness, beauty) in a theological, Christ-centered frame with explicit biblical worldview formation and a Christ-centered mission. This lines up strongly with CLASSICAL indicators in the Religious and Metaphysical Foundations category, including liturgical/community possibilities via worship-language and communal formation. The presence of a stated theology-driven program and a "Word"/Scripture foundation supports a CLASSICAL rating here.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - Explicit aim: cultivation of virtue and wisdom via formation (God-given purpose), not merely job-prep; formation of students as disciples and lovers of learning. - Emphasis on formation over mere information; emphasis on virtue formation and human excellence; large emphasis on Great Books and classical mission. - Public statements about a purpose rooted in virtue, wisdom, and a classical telos; alignment with the home/church to form disciples.

Positive/Negative keyword analysis - Positive keywords: formation, great books, classical, virtue (implied via "fully formed disciples" and virtue-centered aims), wisdom, liberal education (via classical mission framing). Estimated hits: 4–5. - Negative keywords: none clearly present in the public materials (no "career readiness" or purely workforce-centric framing detected).

Why this rating - The school's stated aims center formation of character and wisdom, the notion of true, good, beautiful realities, and a classic educational telos. The explicit connection to Great Books and classical mission reinforces CLASSICAL signaling in Element 2.

Element 3: School Curriculum — CLASSICAL

Evidence - Clear Trivium framing: grammar (K-6), logic (7-9), rhetoric (10-12). - Curriculum highlights: Great Books direction (Discipleship through great books), Latin, Story of the World, Saxon Math, and Well-Ordered Language; a history-forward, integrated approach. - History-focused approach and integration with classical humanities; Great Books emphasis. - Explicit attention to Latin and classical languages; emphasis on classical canon.

Positive/Negative keyword analysis - Positive keywords observed: grammar, logic, rhetoric, Great Books, Latin, history, Story of the World, classical, education for leisure/scholé (implied in mission). Estimated hits: 6–8. - Negative keywords observed: none detected (no "STEM-first," no replacement of history with social studies language noted).

Why this rating - ACA's curriculum is anchored in standard classical curricular constructs (grammar/logic/rhetoric) and includes Great Books and classical languages. The evidence strongly meets CLASSICAL criteria for Curriculum.

Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

Evidence - Trivium-based structure for instruction is explicit, with grammar/logic/rhetoric segmentation by grade bands. This is a central pedagogical hallmark of classical education. - Some elements of contemplative/restful learning and memory work are implied by classical pedagogy (e.g., recitation, memory in language, and "formation through great books"). The explicit lower-grade singing/chanting or scholé-like cycles are not clearly documented in ACA's public materials, though "singing" or chanted traditions are common in some classical schools (noted in standard lexicon rather than ACA's explicit statements). - Explicit Socratic/seminar-style pedagogy in upper grades is not clearly evidenced in ACA's public materials (though high-school rhetoric and argumentation are referenced). The absence of transparent Socratic seminar language places the Pedagogy signal below a full CLASSICAL level, but the Trivium-based structure and emphasis on rhetoric indicate classical pedagogy in practice.

Positive/Negative keyword analysis - Positive keywords observed: Socratic seminar/dialogue (mentioned in general classical lexicon; not clearly evidenced on ACA site), rhetoric, recitation, memory work, seminar,

debate (some rhetorical training implied by the high-school rhetoric and capstone emphasis). Positive hits: 2–4 (explicitly mentioned: rhetoric; capstone orations; recitation implied by classical pedagogy; memory work implied by recitation). - Negative keywords observed: experiential learning focus, project-based-only, student-directed (not evident in ACA materials; home-teaching model shows structure rather than pure student-directed learning).

Why this rating - ACA demonstrates a classical scaffold (grammar/logic/rhetoric) and rhetoric practice in high school, but the absence of explicit, public evidence of Socratic seminars in upper grades or explicit scholē cycles means Pedagogy signals are strong but not fully CLASSICAL. This justifies SOMEWHAT CLASSICAL here.

Element 5: School Faculty — NOT CLASSICAL

Evidence - The public materials focus on mission, process, and governance (e.g., Board of Directors) but do not include explicit public characterizations of faculty as “living curriculum,” “model teachers,” or “portrait of the teacher” language. The materials emphasize collaboration with families and the home-church partnership but do not present a robust faculty-culture narrative. - No explicit statements about faculty as living curriculum, mentorship culture, or a clearly defined teacher profile in the public content (beyond generic statements about teachers and admissions).

Positive/Negative keyword analysis - Positive keywords observed: model teachers; living curriculum; portrait of a teacher; collegial culture (these are classical lexicon indicators, but not explicitly endorsed in ACA's public materials). The site lacks explicit statements of such faculty roles in the public-facing content reviewed. Positive hits: 0–1 (if counting any indirect mention of teachers, which is minimal). - Negative keywords observed: none explicitly stated in ACA's public materials, but the absence of explicit “living curriculum” language reduces the category signal.

Why this rating - Given the lack of explicit public-facing statements about faculty as the core living curriculum or teacher-model, the category does not reach CLASSICAL and cannot be confidently rated as SOMEWHAT CLASSICAL. The best-supported stance from ACA's public materials is NOT CLASSICAL in the Faculty category per the provided rubric.

Element 6: Parents & Community — CLASSICAL

Evidence - Strong explicit partnership with parents: “ACA partners with Christian parents to connect students to truth, beauty, and goodness through a Christ-centered and classical education” and a stated goal to come alongside the home and church. - Parental co-teaching model: “ACA provides three days on-campus plus two days of parent-led instruction at home,” with parents acting as co-teachers and providing grading/planning support. - Opportunities for parent formation and engagement are implied through the admissions/process materials and the overall family-centric approach; open opportunities for families to participate appear through the home-school collaboration and the community-building statements.

Positive/Negative keyword analysis - Positive keywords observed: partnership with families, parents as co-teachers, parental formation, home-school collaboration, family involvement, community. Positive hits: 4–5 (explicit: partnership with families; co-teachers; family involvement; parental formation; open campus/community language appears in the lexicon). - Negative keywords observed: consumer language; parent as customer; minimal parent involvement (not evident in ACA's public materials; instead, ACA emphasizes active parental partnership).

Why this rating - ACA's public materials strongly emphasize parent partnership and family engagement, consistent with classical education models that treat parents as co-educators and emphasize formation within families. This strongly supports CLASSICAL signaling in the Parents & Community category.

Aggregate assessment

- Element 1: CLASSICAL
- Element 2: CLASSICAL
- Element 3: CLASSICAL
- Element 4: SOMEWHAT CLASSICAL

- Element 5: NOT CLASSICAL
- Element 6: CLASSICAL

Overall: CLASSICAL

What Would Move the Needle

Not applicable here, because the aggregate rating is CLASSICAL. (If you'd like a plan to push the "Pedagogy" or "Faculty" categories from SOMEWHAT/NOT toward CLASSICAL, I can provide concrete steps.)

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
