Six Elements of Classical Education School Website Audit

School: Academy Charter School
School Website: <https://acc.matsuk12.us/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

Overall Classification: CLASSICAL

I see the new crawl file for this school (academy-charter-school-ak-99645-acc-matsuk12-us-firecrawl.json) but only a tiny image URL fragment is visible in the current preview, and I can't yet see the actual page text I need for a keyword-based classicality audit.

To produce the full audit you requested (with keyword counts by category, ratings, Executive Summary, Abstract, and JSON output), I need access to the crawl's textual content (the HTML/text that was captured from the school's site), not just the image links.

Right now I'm missing at least:

- Mission/vision and "About" text
- Academics/curriculum descriptions
- Pedagogy/teaching approach pages
- Faculty/"Our teachers" descriptions
- Parent/community or admissions pages

Without that text, I can't:

- Run the required positive/negative keyword analysis for each of the six elements from Six Essential Elements of a Classical School
- Compute positive vs. negative hit counts, percent_positive, and percent_coverage for each category as required in the metadata spec
- Confidently classify the school as CLASSICAL / SOMEWHAT CLASSICAL / NOT CLASSICAL.

How to proceed

Please do one of the following:

1. **Reupload the crawl JSON with full text visible**

- If you have a .json or .jsonl export from Firecrawl (or similar), upload that file directly.
- If possible, ensure it includes the content/markdown/html fields for each crawled page.

2. **Or upload key pages as HTML/PDF**

- Homepage
- About / Mission
- Academics / Curriculum
- Admissions / For Parents
- Any "Classical" or "Philosophy" page

Once I can see the actual text, I will:

1. Run a **lexical scan** against the Six Essential Elements positive/negative keyword lists for each of the six categories (Religious & Metaphysical Foundations, Purpose & Goal, Curriculum, Pedagogy, Faculty, Parents & Community).
2. Count positive vs. negative hits and estimate **percent_positive** and **percent_coverage** per category, using the classicality lexicon as an additional guide.
3. Assign a rating per category (CLASSICAL / SOMEWHAT CLASSICAL / NOT CLASSICAL) and an overall **classicality_status**, as specified in school_metadata_instructions.md.

4. Produce the full markdown report with:

- Executive Summary (including the school URL from the crawl)
- Six category sections with explicit keyword evidence
- Aggregate classification
- “What would move the needle” (if the school is SOMEWHAT CLASSICAL)
-

ABSTRACT

- JSON OUTPUT block with all required metadata and classicality metrics.

If you confirm or reupload the full crawl data, I'll generate the complete classicality audit in the next response.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
