INSTITUTE

Six Elements of Classical Education School Website Audit

School: Artesia Classical Academy
School Website: <https://artesiaclassicalacademy.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Classicality Audit: Artesia Classical Academy

School URL audited: <https://artesiaclassicalacademy.org/>

Executive Summary

Overall classification: **CLASSICAL**

Artesia Classical Academy presents as a distinctly classical Christian school. The website explicitly anchors learning in a Christian worldview across all subjects and asserts moral and metaphysical claims about truth and the absence of neutrality. It highlights the Trivium (Grammar, Logic, Rhetoric), Latin, great works of Western civilization, integrated studies, and Socratic/debate-centered pedagogy, with memory work via songs and chants in the lower grades. The school also emphasizes partnership with parents and provides parent-facing formation resources. Two areas show thinner evidence: explicit articulation of the school's philosophical goal using the hallmark "truth, goodness, beauty/virtue" language, and an explicit faculty philosophy describing teachers as mentors and moral exemplars.

Key strengths: - Clear theological integration throughout the curriculum with explicit "no neutrality" language and "biblical truth" claims and Christ-centered framing. - Robust curriculum markers of classical education: Trivium, Latin, Western Civilization, great books, integration, and Socratic/discussion pedagogy with debate and memory work via "songs, chants, and movement". - Partnering with parents and promoting parent formation through recommended readings and explicit "In Partnership with Parents" language.

Primary gaps to strengthen: - Make the telos of education more explicit in classical terms: "cultivation of wisdom and virtue," and the transcendentals "truth, goodness, beauty," while avoiding college/career-first framing that appears on one page (standardized tests; college and vocation success). - Publish a succinct "portrait of a teacher"/faculty philosophy highlighting teachers as mentors and models of virtue.

CATEGORY 1: RELIGIOUS AND METAPHYSICAL FOUNDATIONS

Mandatory keyword scan: - Keywords found on site (examples): "Christian," "Bible," "biblical worldview," "God's creation," "God's order," "Church history," "truth," "Christ-centered," "biblical truth," "God's sovereign will and decree," "integrated into every subject" (e.g., "There is no neutrality... our classical curriculum is based on biblical truth... integrated into every subject"); "All stages of learning place God at the center of all subject matter". - Match to positive lexicon: theology, sacred scripture, Christian worldview, faith and reason, divine order, Christ-centered education, catechesis/integration across disciplines (Six Essential Elements

keyword framework) ; see also consolidated lexicon list. - Liturgical/communal practices: no explicit “chapel,” “liturgy,” “hymnody” references observed.

Quantification: - Positive hits: 11 - Negative hits: 0 - Percent positive: 1.00 - Coverage of sub-elements (3 total: moral realism; grounded in theology; liturgical/communal): $2/3 = 0.67$

Rating: CLASSICAL Justification: Strong, explicit theological integration and moral realism language; liturgical specifics not evidenced.

CATEGORY 2: SCHOOL PURPOSE AND GOAL

Mandatory keyword scan: - Keywords/phrases found on site: “cultivates thoughtful, articulate students,” “teach students how to learn,” “independent scholarship, critical thinking, logical analysis, and a love for learning” ; “knowledge and wisdom” via Western Civ framing ; “depth of their character” in selecting education as a “worthwhile choice”. - Match to positive lexicon: formation, cultivate virtue and wisdom, love of learning, pursuit of truth (goal-language per Six Elements). - Potential negatives found: references to “standardized achievement tests” and outcomes like “successful in life, at college, and in their chosen vocations” (signals of college/career emphasis and achievement metrics) ; these are negative indicators in the Six Elements lists (“college and career readiness,” “standardized testing” emphasis).

Quantification: - Positive hits: 8 - Negative hits: 2 - Percent positive: 0.80 - Coverage of sub-elements (3 total: virtue/wisdom; formation not information; truth, goodness, beauty): $2/3 = 0.67$

Rating: SOMEWHAT CLASSICAL Justification: The formation/“teach them to think” purpose is clear, but the site does not frequently deploy the hallmark “truth, goodness, beauty/virtue” telos language and includes some college/test framing that dilutes the classical purpose signal.

CATEGORY 3: SCHOOL CURRICULUM

Mandatory keyword scan: - Keywords/phrases found on site: “Trivium,” “Grammar Stage,” “Logic Stage,” “Rhetoric Stage” with descriptions; “Latin,” “formal logic and rhetoric,” “Socratic (discussion-oriented) teaching,” “integrates literature, history, language, art, math, and science,” “students read the great works of Western literature and philosophy,” “Western Civilization,” “Church history and world history,” “memorizing... songs, chants, movement”. - Match to positive lexicon: trivium, Latin/classical languages, great books, Western civilization/history (not “social studies”), integrated approach, wonder/beauty-in-learning (partially implicit). - Negative lexicon signals not observed (e.g., “social studies” replacing history; STEM-first; project-based dominance).

Quantification: - Positive hits: 15 - Negative hits: 0 - Percent positive: 1.00 - Coverage of sub-elements (4 total: liberal arts; great books; integrated harmony; wonder): $3/4 = 0.75$

Rating: CLASSICAL Justification: Exemplar classical curricular signals with strong trivium, Latin, primary sources/great books in Western civ, and integrated studies; “wonder” language is implicit rather than explicit.

CATEGORY 4: SCHOOL PEDAGOGY (TEACHING METHODS)

Mandatory keyword scan: - Keywords/phrases found on site: “memorizing... songs, chants, movement” (lower school memory work) ; “debates,” “Socratic (discussion-oriented) teaching,” “oral and written speech” in rhetoric stage. - Match to positive lexicon: chanting/singing, memorization/recitation, Socratic seminar/disputation, debate/oratory/rhetoric exercises; contemplative/restful learning (scholé) not explicitly stated; “vigorous academic standards” appears once (a potential signal opposite of “restful learning”).

Quantification: - Positive hits: 9 - Negative hits: 1 (possible “lack of scholé” signal via “vigorous academic standards” phrasing) - Percent positive: 0.90 - Coverage of sub-elements (5 total: restful learning; lower-school chanting; wonder in K-8; Socratic/dialectic in upper; rhetoric/speeches): Evidence for chanting, Socratic/debate, rhetoric; not explicit for scholé/wonder → $3/5 = 0.60$

Rating: CLASSICAL Justification: Strong evidence for memory work, Socratic discussion, debate, and rhetoric exercises; no explicit scholé/wonder language, but classical methods are prominent.

CATEGORY 5: FACULTY

Mandatory keyword scan: - Site evidence: Staff/faculty listing with roles; Head of School bio; “Small classes and dedicated teachers ensure that teachers know their students”. - Match to positive lexicon: partial alignment to “mentorship”/“teachers know students” and leadership; however, little explicit “teachers as models of virtue,” “faculty of friends,” or “portrait of a teacher” language is present in public materials.

Quantification: - Positive hits: 3 - Negative hits: 0 - Percent positive: 1.00 - Coverage of sub-elements (e.g., teachers as models of virtue; mentorship/collegiality; portrait of teacher): $\sim 1/4$ narrative elements evidenced = 0.25

Rating: SOMEWHAT CLASSICAL Justification: The faculty section provides people and roles but lacks explicit classical faculty philosophy (modeling virtue, collegial pursuit of wisdom, portrait of a teacher/student).

CATEGORY 6: PARENTS AND COMMUNITY

Mandatory keyword scan: - Keywords/phrases found on site: “In Partnership with Parents... collaborative learning community of parents and teachers...”; small classes; explicit parent formation via recommended readings; calendar shows parent-teacher conference date. - Match to positive lexicon: partnership with families; parent formation/reading groups; intentional community; hospitality/communication. - “Open campus/visits anytime” language not found.

Quantification: - Positive hits: 4 - Negative hits: 0 - Percent positive: 1.00 - Coverage of sub-elements (3 total: partnership; parent formation; open visits): $2/3 = 0.67$

Rating: CLASSICAL Justification: Clear emphasis on partnering with parents and educating them about classical education; open-visit language not seen.

Aggregate Assessment

- Category ratings: [C1 CLASSICAL, C2 SOMEWHAT CLASSICAL, C3 CLASSICAL, C4 CLASSICAL, C5 SOMEWHAT CLASSICAL, C6 CLASSICAL]
- Overall classification: CLASSICAL

Rationale: The school exhibits strong theological foundations, classical curriculum and pedagogy, and parent partnership. Some aim/telos language and faculty philosophy could be made more explicit in classical terms.

What would move the needle

Because some categories scored SOMEWHAT CLASSICAL, the following concrete updates would likely elevate those areas:

- Purpose/Goal: Add a concise mission statement that foregrounds “the cultivation of wisdom and virtue” and the pursuit of “truth, goodness, and beauty” as real and knowable ends of education. Reduce or context-balance references to standardized testing and college/career outcomes so they are clearly subordinate to formation aims (aligned to Six Elements positive indicators).
 - Faculty: Publish a “Portrait of a Teacher” outlining teachers as mentors and models of virtue who embody prudence, justice, temperance, fortitude, and intellectual humility; include notes on collegiality/faculty formation (reading seminars, great books for faculty).
 - Religious/Liturgical life: If applicable, add references to communal worship rhythms (e.g., morning prayer/chapel, hymnody) to make the liturgical dimension visible in public materials (a positive signal in the Six Elements lexicon).
 - Pedagogy: Consider articulating the scholé/restful learning dimension and “wonder” explicitly (e.g., language about contemplation, delight, and unhurried depth).
-

Evidence highlights (from the school site)

- “There is no neutrality. For this reason, our classical curriculum is based on biblical truth... Integrated into every subject” (Christian worldview across the curriculum).
 - Trivium overview with Grammar/Logic/Rhetoric stages; “All stages of learning place God at the center of all subject matter”.
 - “Students read the great works of Western literature and philosophy... Classical teaching methods range from class lectures, to debates, to Socratic (discussion-oriented) teaching”.
 - Latin rationale and Western Civilization emphasis.
 - Parent partnership and reading recommendations for families.
 - Contact/location and staff listings (Head of School/teachers).
-

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
