Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Classicality Audits (based on newly attached crawl data)

Below are complete audits for each school included in the uploaded crawl dataset. Each audit applies the Six Elements framework, performs a required keyword analysis per category, and provides category ratings plus an overall classification. Lexicon references for positive/negative indicators come from the Six Elements/lexicon documents in your library.

School 1: Berean Christian Academy (Katy, TX)

Executive Summary - Overall classification: CLASSICAL - Why: The school explicitly or strongly signals classical Christian commitments across all six elements—especially in Purpose/Goal, Curriculum, and Pedagogy (e.g., truth–goodness–beauty, trivium, great books, logic, rhetoric, Harkness, Senior Thesis). The only lighter areas are Faculty (less explicit “mentor/portrait” language) and liturgical specifics. - URL used: <https://bereanchristianacademy.org>

What Would Move the Needle (applies when overall rating is SOMEWHAT_CLASSICAL) - Not applicable; both schools rate as CLASSICAL overall. If desired, each could further strengthen Faculty and Parents/-Community: - Publish an explicit "portrait of a teacher," references to faculty as mentors/living curriculum, and ongoing faculty formation in classical pedagogy (reading groups, seminars) to align with Faculty positives. - Add visible parent-formation artifacts (classical book clubs, seminars) and express open/hospitality rhythms to deepen Parents/Community coverage.

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.
