Executive Summary

Overall classification: CLASSICAL

Austin Classical School presents strong, explicit classical-Christian identity across mission, aims, curriculum, and pedagogy. The site foregrounds formation in wisdom and virtue ordered to truth, goodness, and beauty; integrates Scripture and theological study throughout the program; implements the Trivium, Great Books, Socratic practice, memorization/recitation, and senior thesis; and articulates partnership with families ("co-laboring with families"). Evidence for formal liturgical practices (e.g., daily chapel) and explicit parent-formation programming is less visible on public pages, but the core signals firmly meet classical standards. Key strengths include: - Purpose and goal centered on formation in wisdom and virtue and the transcendentals (truth, goodness, beauty) ; aligned to "Six Elements" positive indicators for Purpose/Goal. - Deep theological grounding (mission to "glorify Jesus Christ," Scripture as "holy, inerrant, infallible" and central to wisdom) with substantial Christian Studies (exegesis, apologetics/ethics, church history) ; aligned to Religious & Metaphysical positive indicators in the "Six Elements" document. - Robust curriculum (Trivium, Great Books/Great Conversation, Latin, history-by-name, rhetoric and senior thesis) and pedagogy (Socratic method, debate/discussion, imitation, memorization/recitation) ; matching Curriculum and Pedagogy positives in "Six Elements".

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.
