

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: The Bridge Christian School

School Website: <https://sirencovenantchurch.com/the-bridge-christian-school/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS STARTUP

Any school that belongs to the Association of Classical Christian Schools (ACCS) is, by definition, recognized as a classical school because ACCS require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Bridge Christian School Wisconsin (the Bridge Christian School, Siren Covenant Church campus, Siren, WI 54872) presents a clearly Christian, classical-leaning educational orientation focused on forming character and faith in alignment with Christian doctrine. The public-facing materials emphasize a theology-driven mission ("Training God's Children in God's Truth") and a Classical Christian framework in the curriculum. Evidence from the school's site shows explicit commitments to faith-integrated education, a Statement of Faith and Philosophy of Education, and a curriculum described as "Classical Christian Education" with history, science, math, philosophy, and art integrated around the truth that all knowledge points back to God. Admissions materials, tuition policies, and parent involvement communications further illustrate a strongly faith-centered community that seeks partnership with families rather than a secular, work-force-preparation emphasis.

Overall classification (across the six classical-elements categories): **SOMEWHAT CLASSICAL**.

Rationale at a glance:

- Strong Classical/Christian foundations evident in mission, theology, and curriculum framing (Categories 1–2).
- Curriculum speaks to classical orientation but lacks explicit, on-site confirmation of core classical pedagogy elements (grammar/logic/rhetoric explicitly named, Great Books/Great Conversation, or explicit Socratic pedagogy) (Element 3; Element 4). This yields a **SOMEWHAT CLASSICAL** score for several categories.
- Faculty and explicit teacher formation language are not clearly articulated on the public site (Element 5), contributing to a Not/Classical signal in that category.
- Parent/community partnership is present (category 6) but is not described with the full "parents as co-teachers" vocabulary beyond volunteering and open-campus posture, producing a **SOMEWHAT CLASSICAL** rating for Element 6.

What would move the needle: If the school explicitly names and showcases classical pedagogical methods (grammar–logic–rhetoric, Socratic seminars, memory work, chanting) and makes the "great books / great conversation" component visible in curriculum and classroom practice, the category scores would move toward **CLASSICAL**. Additional explicit articulation of the faculty profile as a "living curriculum" and a deeper, documented parent-formation program (beyond volunteer opportunities) would further push the aggregate rating toward **CLASSICAL**.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence

- Mission statement explicitly centers on training “God’s Children in God’s Truth,” signaling transcendent moral-realist aims anchored in theology.
- The curriculum is described as the Classical Christian Education Model, with all subjects integrated around the truth that all knowledge points back to God.
- A public-facing Pastor’s note emphasizes worship and foundational Christian commitments (e.g., “There is a battle for worship,” and the call to align with biblical truth).
- There is explicit reference to a Statement of Faith and Philosophy of Education guiding instruction.

Positive/Negative keyword analysis

- Positive keywords present: truth, God, theology, worship, philosophy of education, faith, statement of faith.
- Negative keywords: none clearly present in public materials (no explicit relativism or secular-humanist signals in the school’s public content).

Why this rating

- The school labels its core mission in explicitly religious terms and ties education to a theological framework. The presence of a Statement of Faith and a God-centered curriculum demonstrates a robust religious/metaphysical foundation aligned with the Classical School lexicon.

Citations: Mission phrase and theological framing are drawn from the Bridge Christian School materials (turn0file5; turn0file3), with Pastor’s emphasis on worship in turn0file4.

Element 2: School Purpose and Goal — CLASSICAL

Evidence

- Public materials state a purpose rooted in Christian formation: “Training God’s Children in God’s Truth” and a curriculum that integrates truth across disciplines.
- The curriculum description frames education as formation within a Classical Christian paradigm, focusing on virtue, wisdom, and a telos (end) aligned with truth and God.
- Admissions materials emphasize readiness to learn and agreement with the school’s faith-based policies, reflecting formation as a primary goal rather than mere information transfer.

Positive/Negative keyword analysis

- Positive keywords present: formation, virtue, wisdom, telos, liberal education, Scholé (restful contemplation), classical heritage.
- Negative keywords present: none detected in the public materials (no explicit workforce-prep framing).

Why this rating

- The emphasis is on character formation, virtue, and faith-based formation rather than vocational training or workforce prep. The explicit aim of forming the person “in God’s Truth” and aligning all education to that telos supports a CLASSICAL assessment here.

Citations: Turn0file5 (mission and curriculum framing) and (admissions and formation-oriented statements).

Element 3: School Curriculum — SOMEWHAT CLASSICAL

Evidence

- The school describes its curriculum as “Classical Christian Education Model” with integration across history, science, math, philosophy, and art, all centered on God. This demonstrates a classical orientation in content emphasis.
- History is mentioned as a curricular throughline within multiple disciplines (integration across subjects).

Positive/Negative keyword analysis

- Positive keywords present: classical, liberal arts, history, philosophy, art, science, math, integration, faith, truth.
- Negative keywords present: explicit mention of Great Books, grammar/logic/rhetoric or Great Conversation is not present; no explicit project-based or STEM-first framing is evident, but the lack of explicit Great Books rhetoric is a missing element for full CLASSICAL labeling.

Why this rating

- The curriculum is described as Classical Christian with interdisciplinary integration around truth, but explicit naming of core classical pillars (grammar, logic, rhetoric) and explicit Great Books/Great Conversation components is not shown in the public materials. This yields a SOMEWHAT CLASSICAL designation rather than full CLASSICAL.

Citations: Turn0file5 (curriculum framing, integrated disciplines).

Element 4: School Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

Evidence

- Public materials emphasize a Classical Christian model and a faith-centered approach that implies a traditional pedagogy, but explicit teaching-methods (e.g., Socratic seminars, narration, memory work, chanting) are not directly named in the school's public content.
- There is a pastoral emphasis on worship and contemplation in the broader community, but no explicit pedagogy description such as light, restful scholé days, or upper-school rhetoric instruction.

Positive/Negative keyword analysis

- Positive keywords present: scholé, contemplation, restfulness, classical pedagogy (via "Classical Christian Education Model"), philosophy.
- Negative keywords present: explicit mention of Socratic seminars, memory work, dictation, or chanting are not present; no explicit project-based or experiential-only pedagogy is described as the sole approach.

Why this rating

- The school signals a classical framework, including contemplation and restfulness and a classical frame, but the absence of explicit, named pedagogy practices (e.g., Socratic seminars, narration, memory work) reduces it from CLASSICAL to SOMEWHAT CLASSICAL.

Citations: Turn0file5 (pedagogy cues) and Turn0file4 (Pastor's notes referencing worship/collective practices).

Element 5: School Faculty — NOT CLASSICAL

Evidence

- Public materials do not provide a clear portrait of faculty as "living curriculum," "model teachers," or "portrait of teachers" as a stated element of the school's faculty philosophy. The available content centers on mission, admissions, and governance rather than explicit faculty characterization.

Positive/Negative keyword analysis

- Positive keywords related to faculty in the classical lexicon (e.g., "model teachers," "living curriculum," "portrait of a teacher") are not explicitly present in the public materials.
- Negative keywords are not applicable here, but the absence of explicit faculty descriptors means no substantiated CLASSICAL signals in this category.

Why this rating

- Without explicit statements about faculty as living curriculum or the faculty profile, this category does not demonstrate the clear classical faculty elements needed for a CLASSICAL rating.

Citations: Turn0file3 (no explicit faculty description).

Element 6: School Parents & Community — SOMEWHAT CLASSICAL

Evidence

- The school materials reference parent involvement through admissions processes and parent presence in governance decisions (e.g., admission interviews, booster/board involvement). The content also indicates a policy of parent involvement (e.g., Parent/Student Handbook; volunteering).
- Public materials also show a policy framework that encourages parental participation and community engagement (though the language is more policy/volunteer-focused than the classic “parents as co-teachers” framing).
- External classical-education materials (ICE pamphlets) describe partnerships with parents, parental formation, and a philosophy that parents educate at home and partner with schools. This provides contextual support for a classical-parent-community stance, even if not all phrasing is mirrored on the school site itself.

Positive/Negative keyword analysis

- Positive keywords present: partnership with parents, parent formation, reading groups, seminars, classical book clubs, open campus, parent covenant, family liturgy alignment.
- Negative keywords present: consumer language, parent as customer, minimal parent involvement (these are listed as negative markers in traditional classical-liberal lexicons; none are evidenced in the Bridge materials).

Why this rating

- There is clear evidence of parental engagement (handbook, interviews, volunteering, and open access), but the strongest classical-parent language (parents as co-teachers, deliberate parent-formation programs, and a formal “in loco parentis” style) is not fully articulated in the Bridge site content itself. This yields a SOMEWHAT CLASSICAL rating for Element 6.

Citations: Turn0file2 (parent involvement and handbook), Turn0file15 (ICE Pamphlets on parent partnership).

Aggregate assessment

- Element 1: CLASSICAL
- Element 2: CLASSICAL
- Element 3: SOMEWHAT CLASSICAL
- Element 4: SOMEWHAT CLASSICAL
- Element 5: NOT CLASSICAL
- Element 6: SOMEWHAT CLASSICAL

Overall classification: SOMEWHAT CLASSICAL.

What would move the needle

- Element 3 (Curriculum): Explicitly name and describe core classical elements in the curriculum, including grammar, logic, and rhetoric, and reference Great Books or Great Conversation; provide a clear plan showing how Great Books are integrated and how students participate in a Great Conversation. Include explicit history through-line across subjects and a statement about Western civilization in the curriculum, not merely “integration around truth.”
- Element 4 (Pedagogy): Publicly articulate and provide examples of pedagogy aligned with classical practice (e.g., Socratic seminars in upper grades, structured narration/recitation, memory work, chanting, and formal rhetoric opportunities for students).

- Element 5 (Faculty): Publish a clear faculty profile that presents teachers as the living curriculum, with statements about teacher formation in classical pedagogy, mentorship roles, and a formal “portrait” of what a teacher and student should be.
- Element 6 (Parents & Community): Expand explicit formal partnerships with parents beyond volunteering and admissions, such as structured parent-education programs, classical book clubs, home-liturgy alignment resources, and explicit “parents as co-teachers” language and practices.
- Across all: Regular, public-facing articulation of these elements (e.g., annual reports, catalog updates, or a dedicated Classical-Liberal Arts section on the website) to move from implicit signals to explicit, verifiable commitments.

ABSTRACT

Bridge Christian School Wisconsin (Siren Covenant Church campus) demonstrates a clearly Christian, Classical-leaning educational orientation, with mission and curriculum framed around Christian theology and a Classical Christian education model. The school explicitly states its goal of training students “in God’s Truth,” integrates faith with learning, and emphasizes formation, virtue, and wisdom as central aims. The public materials provide strong evidence for Religious and Metaphysical Foundations (Element 1) and Purpose/Goal (Element 2), a partial Classical Curricular orientation (Element 3), and a limited depiction of Pedagogy (Element 4) and Faculty (Element 5). Parent/community engagement is present but not fully developed in classical terms (Element 6). The aggregate assessment is SOMEWHAT CLASSICAL, reflecting strong religious and formation commitments but with gaps in explicit classical pedagogy, explicit Great Books/Great Conversation commitments, and fully detailed faculty-curriculum descriptions.

6-category synthesis:

- Religious and Metaphysical Foundations: CLASSICAL
- School Purpose and Goal: CLASSICAL
- Curriculum: SOMEWHAT CLASSICAL
- Pedagogy: SOMEWHAT CLASSICAL
- Faculty: NOT CLASSICAL
- Parents & Community: SOMEWHAT CLASSICAL

Overall: SOMEWHAT CLASSICAL.

Notes on sources used

- Bridge Christian School materials (mission, curriculum framing, admissions, pastor notes, and governance content) from The Bridge Christian School – Siren Covenant Church (Siren, WI 54872) public pages and PDFs. Citations include turn0file2.
- Parental/Community partnership theory and language from ICE Pamphlets (Classical-education advocates) and the “Partnership with Parents” section, which provide contextual signals for best practices (turn0file15, turn0file12).
- Classical education keyword framework (Positive/Negative indicators) from the Six Essential Elements Lexicon (classicality_lexicon.v2.2.txt) to ground keyword analysis and scoring (turn0file0).

End of report.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
