Overall Classification: CLASSICAL**Classicality Audit: Berean Christian Academy (Katy, TX)**

Website used: <https://www.bereanchristianacademy.org>

Executive Summary

Overall classification: CLASSICAL

Why: Berean Christian Academy (BCA) explicitly grounds its mission in a Christ-centered worldview and the transcendentals of truth, goodness, and beauty; employs the seven liberal arts and the Trivium (Grammar–Logic–Rhetoric); emphasizes Great Books and primary texts; and gives clear evidence of classical pedagogy (Harkness/Socratic-style discussions, debate, rhetoric training, and a culminating senior thesis). The school articulates parent partnership (including parent interviews and required classical reading) and publishes a “Portrait of a Teacher” and “Portrait of a Graduate” that foreground virtue and wisdom. These align closely with the positive indicators in the Six Essential Elements framework and lexicon for classical schools.

Highlights - Mission: “Christ-centered worldview” to recognize “Truth, Goodness, and Beauty” and a stated partnership of “faculty and parents”. - Curriculum: Seven liberal arts; Trivium named and described; Great Books and original texts; Latin through upper levels; structured history sequence (Ancient–Medieval–Modern); Rhetoric I/II; Senior Thesis; Debate/Mock Trial; Apologetics and Theology. - Pedagogy: Harkness Table conversation, debate, formal logic, oratory, oral presentations, senior thesis defense—classical rhetoric in practice. - Community/Parents: Required parent interview and classical-reading orientation; tours; ECC integrates family worship/church life; housed within a community of faith; active parent association noted in the handbook.

Note on framework: Positive and negative keyword indicators and category criteria are drawn from “Six Essential Elements of a Classical School” and the classicality lexicon (e.g., truth/goodness/beauty; theology; Trivium/Quadrivium; Great Books; Socratic/Harkness; scholé; chanting/recitation; parent partnership; and negative signals like “values-neutral,” “project-based learning” dominance, “college and career ready” emphasis).

Overall Assessment

Aggregate result across the six categories: CLASSICAL

Rationale: Strong matches to the positive keyword indicators and criteria for (1) religious/metaphysical foundations, (2) purpose/goal, (3) curriculum, (5) faculty, and (6) parents/community; category (4) pedagogy is solid but lacks explicit public statements on chanting/recitation and scholé/restful learning. Even with that, the presence of Harkness/Socratic discussion, debate, rhetoric training, and a senior thesis keeps pedagogy clearly within the classical orbit.

What would move the needle (for Element 4: Pedagogy)

Although the overall rating is CLASSICAL, pedagogy was scored SOMEWHAT CLASSICAL due to missing explicit signals.

- Publicly articulate early-grades memory work practices—name “chanting,” “singing,” “recitation,” and “copywork/dictation” where used.
 - Publish language affirming scholé/restful learning and “wonder-based education,” indicating times/-contexts for contemplation in the school week or year.
 - Share examples of Socratic seminars across grades (not just Harkness in upper school) to show progression.

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.
