Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

Overall Classification: CLASSICAL**Classicality Audit Report**

Executive Summary - School: Austin Classical School (ACS) - Website used: <https://austinclassical.org/> - Overall classification: CLASSICAL - Why: ACS explicitly orients its mission to Christ and to cultivating wisdom and virtue through truth, goodness, and beauty, structures its curriculum around the Trivium (grammar, logic, rhetoric) with Latin, logic, rhetoric, and Great Books/Great Conversation, uses memorization/recitation and Socratic methods, forms faculty to love and teach within a classical, Christian frame, and practices robust partnership with parents (co-teacher model), including chapel as a communal/liturgical practice for the school community. The school's own language closely matches the positive indicators in the "Six Essential Elements" lexicon for each category (Religious and Metaphysical Foundations; Purpose and Goal; Curriculum; Pedagogy; Faculty; Parents & Community).

How to read this report - For each of the six categories, you will see: 1) Keywords or phrases pulled from ACS's public materials, 2) Mapping to the "Six Essential Elements" positive/negative indicators, 3) A quantitative estimate of positive vs. negative keyword hits and coverage, 4) A category rating (Classical / Somewhat Classical / Not Classical). - All keyword criteria and signals are drawn from "Six Essential Elements" and the Classicality Lexicon (truth, goodness, beauty, virtue, theology, Socratic, scholé, wonder, chanting, project-based, experiential learning, etc.).

CATEGORY 1: RELIGIOUS AND METAPHYSICAL FOUNDATIONS 1) Keywords found on ACS site - Transcendentals and virtue: "Truth, Goodness, and Beauty," "wisdom," "virtue," "cultivate wise, virtuous, and humble students". - Grounded in theology: "Christian, classical education," "under the sovereignty of God through theology," "Christian Studies" including "Exegesis & Hermeneutics," "Apologetics & Ethics," "Development of Christian Doctrine & Church History". - Liturgical/communal practices: "All School chapel" (prospective families attend chapel as part of tours), "offer the work of the school as a prayer to Almighty God".

2) Mapping to keyword indicators

- Positive: truth, goodness, beauty, virtue, wisdom, Christ-centered, theology, sacred scripture, doctrinal study, chapel, prayer—strong alignment with Religious and Metaphysical Foundations positive lists.
- Negative: none observed (no values-neutral/relativism language).

3) Quantitative estimate

- Positive hits: ~20; Negative hits: 0
- Percent positive: 100%
- Coverage (breadth of the sub-elements): ~95% (transcendentals, theology across curriculum, chapel/prayer addressed)

4) Category rating: CLASSICAL

Notes: ACS's mission to "glorify Jesus Christ" and cultivate virtue through the transcendentals matches core positive indicators; chapel and prayer language confirm liturgical/communal practices consistent with the "Six Elements".

CATEGORY 2: SCHOOL PURPOSE AND GOAL 1) Keywords found on ACS site - “To cultivate wisdom and virtue,” “contemplation of the True, the Good, and the Beautiful,” “less about training for a specific, temporal vocation and more about ... eternal purpose”.

2) Mapping to keyword indicators

- Positive: formation over mere information; telos rooted in truth/goodness/beauty; wisdom and virtue—the exact language of the positive indicators for this category.

- Percent positive: 100%
- Coverage: ~90%

4) Category rating: CLASSICAL

2) Mapping to keyword indicators

- Positive: Seven Liberal Arts/Trivium, classical languages (Latin), Great Books/Great Conversation, chronological history, integration/wonder all strongly present.
- Negative: one minor STEM reference (an Honors STEM sequence), but not STEM-first framing; history is not reduced to “social studies” (a negative indicator).

3) Quantitative estimate

- Positive hits: ~20; Negative hits: 1 (STEM mention without STEM-first dominance)
- Percent positive: ~95%
- Coverage: ~95%

- Percent positive: ~90%
- Coverage: ~80% (clear virtue/mission alignment; limited explicit “portrait of a teacher,” but employment page implies it)

4) Category rating: CLASSICAL

CATEGORY 6: SCHOOL PARENTS AND COMMUNITY 1) Keywords found on ACS site - Strong partnership language: “co□laboring with families,” University□Model “co□teacher” approach; required “Co□Teacher Training”; “Mustang Match” pairing new co□teachers with experienced ACS moms; prospective parents attend chapel; Grandparents club for ongoing involvement.

2) Mapping to keyword indicators

- Positive: partnership with parents/co□teachers; parent formation/training; community rhythms including chapel; open hospitality to families—strong match to positive indicators.
- Negative: none observed.

3) Quantitative estimate

- Positive hits: ~14; Negative hits: 0
- Percent positive: 100%
- Coverage: ~95%

4) Category rating: CLASSICAL

Aggregate Rating - Overall classification: CLASSICAL - Rationale: ACS’s mission and language align almost verbatim with the positive keyword indicators across all six elements (e.g., truth/goodness/beauty; wisdom/virtue; Trivium; Latin/logic/rhetoric; Great Books/Great Conversation; Socratic discussion; memorization/recitation; chapel/prayer; faculty virtue; parent partnership/co□teacher model) as described in “Six Essential Elements” and the Classicality Lexicon. Evidence is abundant in program pages, the academic model, upper school course grids, and the head of school and philosophy statements (e.g., chapel and prayer; Christian Studies courses; rhetoric thesis; Latin; explicit Socratic method; co□teacher training).

Additional Observations (signals) - House System (heritage feature for culture/virtue formation) present in Upper School life and required for participation; includes retreats, service, leadership, and competitions. - Low□tech posture: FAQ emphasizes “embodied learning,” reading/annotating books, “we don’t use technology for technology’s sake” (supports a classical learning environment).

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.
