Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Classicality Audit: Carden Memorial School (Salt Lake City, UT)

Website audited: <https://www.cardenmemorialschool.com/>

Executive Summary

Overall classification: CLASSICAL

Carden Memorial School presents a robust classical Christian identity and practice. The website repeatedly affirms a classical purpose (cultivating "wisdom" and "virtue") and transcendental aims ("truth" and "beauty"), integrates theology across the curriculum, and maintains liturgical/communal devotional practices. The curriculum foregrounds the Trivium, Latin, Great Books/primary texts, and chronological history; pedagogy includes Socratic discussion, structured debate, and substantial use of memorization/recitation and singing. Parent partnership is explicit and active (weekly devotionals open to parents, community events, parent education content). The faculty section is the least explicit relative to the "teachers as models/mentors" and "faculty collegium" language in the classical lexicon, but testimonials and tour pages still show strong teacher formation and care. On balance, the school's public materials satisfy the Six Elements framework for a CLASSICAL judgment. Key pages: homepage and hero ("Classical Education for Children PreK-8th"), Trivium/logic/Socratic content, Latin and Great Books, weekly devotionals, parent resources and events.

Note on method: Keywords and criteria are drawn from "Six Essential Elements of a Classical School," including positive/negative indicators (e.g., truth, goodness, beauty, theology, liturgy; vs. values-neutrality, project-based/experiential-only), and the classicality lexicon referenced herein.

Aggregate Judgment

- Category ratings: Religious/Metaphysical (CLASSICAL), Purpose/Goal (CLASSICAL), Curriculum (CLASSICAL), Pedagogy (CLASSICAL), Faculty (SOMEWHAT CLASSICAL), Parents/Community (CLASSICAL)
- Overall classification: CLASSICAL

Why: The school's public materials align closely with the Six Elements' positive indicators across identity, purpose, curriculum, pedagogy, and community. Faculty language is supportive but less explicit relative to the classical lexicon, which slightly tempers that category only.

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.
