

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Centurion Christian Classical School

School Website: <https://centurionschool.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Centurion Christian Classical School CA 94533 presents a distinctly classical Christian program. Across public materials on its site, the school foregrounds Christian orthodoxy (catechesis, confessional grounding, and Scripture memorization), a classical liberal arts curriculum (Trivium, Quadrivium, Great Books, Great Conversation), and a formation-focused mission (virtue, wisdom, human flourishing) centered on serving Christian families. The pedagogical language emphasizes both reverence for tradition and memory work, with explicit emphasis on theology as foundational to all subjects. Based on the Six Essential Elements framework, the school aligns strongly with CLASSICAL elements in most domains, with a clearly articulated formation focus, confessional theology, classic curriculum, and community partnerships with families and churches. The strongest alignments occur in religious/metaphysical foundations, school purpose/goal, curriculum, faculty orientation, and parent/community collaboration. Pedagogy shows substantial classical signals (catechesis, memory work, trivium-informed structure), though explicit mention of high-school Socratic seminars or extended upper-school rhetoric seminars is less visible in the material reviewed. Overall, Centurion would be classified as CLASSICAL, with a notable strength in theological integration and Great Books/the Great Conversation, and a potential needle-mover opportunity around expanding explicit Socratic pedagogy in upper grades.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — **CLASSICAL**

- Evidence
- The school's materials emphasize a confessional, theologically anchored foundation (Second London Baptist Confession of Faith, Apostles' Creed, Nicene Creed) and catechetical instruction as a core method.
- The mission explicitly anchors education in a Christian framework, with catechesis and theology described as central to curriculum integration.
- The governance/vision statements reference liturgical/theological framing (the crown and cornerstone of theology; training in biblical questions and memorization).
- Positive/Negative keyword analysis
- Present: truth, goodness, beauty; theology; catechesis; confessional grounding; memory of Scripture; liturgical/theological framing; wonder.
- Negative: no clear signaling of secular relativism or value-neutral ethics; no strong "morally neutral" language found.
- Quantitative: Positive keywords present ~7; Negative keywords present ~0; roughly 100% positive among identified signals for this category.
- Why this rating

- The materials consistently position faith, objective truth in theological terms, liturgical/congregational orientation, and catechesis as central to formation, aligning strongly with CLASSICAL expectations in religious/metaphysical foundations.

Element 2: School Purpose and Goal — CLASSICAL

- Evidence
- The school states its goal as formation toward virtue and wisdom, not merely job-prep, with explicit emphasis on “formation” and “virtue” as telos.
- The mission highlights a Christian, classical liberal-arts framing, focusing on truth/goodness/beauty and human flourishing within a theologically grounded teleology.
- Public statements reference a deliberate move away from purely instrumental outcomes toward the classical aims of a liberal arts education.
- Positive/Negative keyword analysis
- Present: formation; virtue; wisdom; liberal arts; telos; great conversation; truth/goodness/beauty; contemplation/rest (Scholé).
- Negative: no emphasis on workforce-prep as primary goal; rather, a formation-first aim.
- Quantitative: Positive ~5–6 keywords; Negative ~0; ~100% positive signals among identified terms.
- Why this rating
- The materials frame education as formation toward virtue and wisdom, anchored in truth and beauty, with a teleological view of human flourishing consistent with classical aims. This matches the CLASSICAL profile for purpose/goals.

Element 3: Curriculum — CLASSICAL

- Evidence
- Explicit reference to the liberal arts framework: grammar, logic, rhetoric (Trivium) and the Quadrivium (arithmetic, geometry, music, astronomy).
- Emphasis on Great Books and the Great Conversation; integration across historical/philosophical texts; a classical canon orientation.
- Repeated statements about studying history within a Western-civilization frame and integrating theology across disciplines; focus on wonder and integrated learning.
- Positive/Negative keyword analysis
- Present: Seven Liberal Arts; Trivium/Quadrivium; Great Books; Great Conversation; history as classical/historical study; integration/wonder; classical pedagogy.
- Negative: no replacement with “social studies” framing; no project-based-first orientation indicated in core materials.
- Quantitative: Positive ~6–8 keywords; Negative ~0; ~100% positive signals for this category.
- Why this rating
- The curriculum is clearly framed around the classical liberal-arts schema, great books, and integrated study—hallmarks of CLASSICAL education.

Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

- Evidence
- Catechesis, memory-work, and scripture memorization appear as central practices (lower-grammar phases, memorization; catechetical method).
- A strong emphasis on formation through imitation and the living curriculum; a policy emphasis on unity of theology with all disciplines.
- The materials describe a classical structure (grammar/logic/rhetoric phases) and a disciplined discipline around memorization, with a church-centered, catechetical approach.
- Explicit upper-grade discussions, Socratic/seminar formats or formal rhetoric seminars are not clearly documented in the public materials (though rhetoric is referenced as an aim in the classical program, explicit high-school Socratic seminars are not described in the public content available here).

- Positive/Negative keyword analysis
- Present: catechesis; memorization/recitation; formation; imitation; memory-work; sacred/ liturgical integration (where described); great books engagement; rhetoric preparation.
- Negative: explicit, high-school Socratic seminars or sustained upper-grade seminars are not clearly described in the publicly accessible content.
- Quantitative: Positive ~4–6 keywords; Negative ~0–1 explicit signals (lack of explicit high-school Socratic seminars in the public materials). This yields a leaning toward CLASSICAL, but with some ambiguity (hence SOMEWHAT CLASSICAL).
- Why this rating
- The school strongly embodies classical pedagogy elements (memory work, catechesis, imitation, Trivium/Quadrivium) but does not (in the public content) unambiguously document consistent, explicit Socratic seminars or upper-school seminar formats. This nuance places Element 4 in the SOMEWHAT CLASSICAL range.

Element 5: Faculty — CLASSICAL

- Evidence
- The public materials describe the faculty/leadership as central to the school's mission, with a "living curriculum" concept and a community-oriented, mentor-like teacher culture.
- The governance model emphasizes a core of teachers anchored in theology and classical formation, with a local church affiliation and catechetical approach as a guiding influence.
- The school highlights a close-knit, formation-focused teacher-student relationship and a community of mentors aligned with the classical liberal-arts approach.
- Positive/Negative keyword analysis
- Present: living curriculum; portrait of teacher; missionary/formation orientation; teacher as mentor; collegial/near-peer culture.
- Negative: no explicit listing of teacher certification patterns or non-classical staffing descriptors; no negative signals detected.
- Quantitative: Positive ~4–5 keywords; Negative ~0; ~100% positive signals for the faculty category.
- Why this rating
- The public materials stress teachers as central, virtuous exemplars who enact the curriculum, with formation-oriented expectations—consistent with CLASSICAL expectations for faculty.

Element 6: Parents & Community — CLASSICAL

- Evidence
- The school explicitly positions parents as co-teachers and emphasizes partnership with Christian families; it also describes formation of affections and cultural transmission as core aims.
- There are multiple references to parent formation opportunities, book/gathering formats, and family engagement, including calls for parental involvement and open campus access.
- The materials emphasize a robust church-centered model and the role of families as primary educators in the home alongside the school.
- Positive/Negative keyword analysis
- Present: partnership with families; parent formation; home-school partnership; open campus; parent formation opportunities; church-family integration.
- Negative: none evident in public materials; no customer-service language or minimal-parent engagement signals.
- Quantitative: Positive ~5–6 keywords; Negative ~0; ~100% positive signals for this category.
- Why this rating
- The materials show a deliberate, ongoing collaboration with parents and churches as co-educators and community partners, aligning with CLASSICAL expectations for parent/community involvement.

What Would Move the Needle

- If any category were NOT CLASSICAL or SOMEWHAT CLASSICAL, concrete changes would be suggested here. Since Element 4 is SOMEWHAT CLASSICAL, the following needle-moving steps could move the school toward full CLASSICAL alignment:
- Implement explicit, regular upper-grade Socratic seminars or seminars with formal rhetoric/speech components to showcase the upper-level classical pedagogy in practice (documented in curriculum guides and annual planning). This would strengthen the Pedagogy signal from SOMEWHAT to CLASSICAL.
- Expand explicit references to organized “Scholé” or contemplative slow-learning days in all grade bands, with published schedules and outcomes to reinforce Restful Learning as a formal component of daily practice.
- Publish a formal “Teachers as living curriculum” handbook with concrete exemplars of teacher modeling, mentorship roles, and ongoing classical pedagogy professional development to reinforce Faculty signals.
- Increase public documentation of great books lists and history-integrated units across all grade bands, including detailed scope-and-sequence maps that demonstrate the integration of Trivium/Quadrivium with Great Books across the curriculum.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
