

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Commission Leadership Academy

School Website: <https://commissionleadershipacademy.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

Commission Leadership Academy (CLA) presents a strongly classical, Christian educational orientation anchored in the University-Model framework that partners with families. Public-facing CLA materials consistently emphasize a Christian worldview, the formation of character, and a curriculum and pedagogy aligned with classical aims (grammar/logic/rhetoric; quadrivium; great books; memorization; and a living, faith-integrated pedagogy). The school explicitly frames its mission around partnership with parents, catechesis at home, and a shared mission to form virtuous, wisdom-seeking students under a Christ-centered framework. This aligns CLA with a Classical / Highly Classical orientation in several key areas, though some pedagogical and community facets reflect a modern, home-education-centric implementation (University-Model) that may diversify exposure to traditional "Socratic" and scholé-oriented practices.

Key evidence from CLA materials shows:

- A stated identity as a Classical, Christian, University-Model School that partners with parents and centers the home as part of discipleship and schooling. This is explicitly stated in CLA's public messaging.
- A curriculum and worldview that foregrounds classical education (grammar/logic/rhetoric; quadrivium), plus the integration of Biblical worldview and theology across disciplines.
- Direct articulation of Trivium/Quadrivium pedagogy and a Christian formation aim, with emphasis on virtue, moral imagination, and the pursuit of truth, goodness, and beauty.

Overall assessment: CLASSICAL.

Executive Summary — Element-by-Element Snapshot

- **Element 1: Religious and Metaphysical Foundations** — CLASSICAL Evidence: Clear Christian framing, Biblical worldview, and theological grounding; explicit integration of faith into curriculum and daily life. Positive/Negative keyword analysis: Positive terms such as Christian, Biblical worldview, theology, Kingdom of God, and Scripture-driven integration are present; few or no negative signals detected in public materials. Why this rating: The school centers faith as a foundational influence on education, dispositions, and communal life.
- **Element 2: School Purpose and Goal** — CLASSICAL Evidence: Formation and virtue orientation; emphasis on shaping moral imagination and love of truth/good/beauty; critique of mere information transfer. Positive/Negative keyword analysis: Positive terms include formation, virtue, wisdom, truth/goodness/beauty, moral imagination. Negative terms (e.g., workforce-first framing) are not prominently used in CLA messaging. Why this rating: The public materials stress formation and virtue over mere information or job-preparation orientations.
- **Element 3: Curriculum** — CLASSICAL Evidence: Explicit reference to grammar/logic/rhetoric (Trivium) and arithmetic/geometry/astronomy/music (Quadrivium); emphasis on classical texts and "great con-

versation” framing via classical canon and Western civilization. Positive/Negative keyword analysis: Positive terms include Trivium, Quadrivium, grammar, logic, rhetoric, great books, Christian worldview; limited evidence of modern “social studies-first” framing in public materials. Negative indicators from the lexicon (e.g., project-based dominance) do not appear in CLA’s core public messaging. Why this rating: Curriculum emphasis aligns closely with classical essentials, though the live-home/University-Model implementation adds a modern twist to delivery.

- Element 4: Pedagogy — SOMEWHAT CLASSICAL Evidence: University-Model pedagogy (on-campus days with home study, co-teaching with parents) and structured partnerships with families. Some classical pedagogy elements (grammar/logic/rhetoric; rigorous study of foundational disciplines) appear, but the explicit invocation of traditional “Socratic seminars” or scholé-style contemplative pedagogy is not strongly evidenced in the public materials. Positive/Negative keyword analysis: Positive indicators include co-teaching partnership, formation through classical pedagogy, and integration of timeless disciplines; negative indicators include a lack of explicit, sustained mention of Socratic seminars, chanting, or restfulness (scholé) pedagogy in visible content. Why this rating: The model is classical in its content (Trivium/Quadrivium) but the delivery (University-Model with home study) does not consistently foreground classical contemplative methods in public messaging.
- Element 5: Faculty — NOT CLASSICAL Evidence: Public materials emphasize partnerships with families and a culture of parent involvement; explicit statements about “living curriculum” or teacher portraits are not clearly articulated in the accessible site content. Some classical ideals are present, but explicit faculty posture language (model teachers, mentors, living curriculum, or a formal faculty portrait) is not robustly evidenced in the public materials. Positive/Negative keyword analysis: Positive terms for Faculty (model teachers, living curriculum, portrait of teacher) are part of the classical lexicon, but CLA’s public pages do not prominently display these exact phrases; lack of explicit faculty archetype language is noted. Negative signals are not evident in CLA’s content. Why this rating: While the school clearly aspires toward high-caliber, virtuous teachers in the Classical model, explicit “model teacher”/“living curriculum” language is not strongly evidenced in classroom-facing materials.
- Element 6: Parents & Community — CLASSICAL Evidence: The school publicly foregrounds partnership with parents, parent training, and a home-school culture; explicit calls for parents as co-educators and primary spiritual/academic guides are present. Positive/Negative keyword analysis: Strong positive indicators: partnership with families, parent formation, home-school collaboration, open campus, and familial participation; few negative signals detected in available materials. Why this rating: CLA’s model centers parental partnership and family engagement as core to its classical mission.

Aggregate Ranking: CLASSICAL

What would move the needle (only if SOMEWHAT CLASSICAL)

- Not applicable here since the aggregate classification is CLASSICAL. If you’d like, I can outline concrete steps to further enhance or codify the Pedagogy and Faculty dimensions toward a more explicit, traditional scholé/Socratic alignment.

CATEGORY 1: RELIGIOUS AND METAPHYSICAL FOUNDATIONS — CLASSICAL

Evidence

- CLA identifies itself as a Classical, Christian school with a University Model, and emphasizes faith-integrated learning and a Christian worldview. For example, the homepage description positions CLA as “the Triangle’s first Classical, Christian, University Model School that ‘partners with parents, to shepherd the hearts of their children, for the Kingdom of God’,” highlighting a faith-centered mission and a declaration of Biblical grounding.
- Public materials describe a Christian worldview and Biblical standards across school life, including “Classical educators seek to cultivate wisdom and virtue” within a Christian framework, and discuss the integration of Biblical standards of conduct in all areas of school life.

- A “Christ-Centered Approach to Education” is explicitly stated, with emphasis on faith-integrated inquiry across disciplines rather than segregated “faith class” experiences.

Positive/Negative keyword analysis

- Positive indicators present in CLA materials: Christian, Biblical Worldview, theology, Kingdom of God, Biblical standards, Christ-centered, and integration of faith with discipline.
- Negative indicators are not evident in the public materials (no strong signals of secularism, relativism, or value-neutral ethics within the CLA public messaging). The lexicon’s negative signals (e.g., secular humanism, relativism) are not visible in CLA’s public materials.

Why this rating

- The school’s public-facing content centers theological commitments and liturgical/community rhythms as part of the educational project, aligning with Transcendental Moral Realism and a Theology-grounded approach. The materials consistently place faith at the core of curriculum, practice, and parental partnership, matching the Positive keywords associated with religious/metaphysical foundations in the classical rubric.

CATEGORY 2: SCHOOL PURPOSE AND GOAL — CLASSICAL

Evidence

- CLA emphasizes formation and virtue as central aims, not merely information or career preparation. A published articulation notes that education at CLA is about forming a mature person whose thoughts, emotions, and desires reflect truth, and that the school seeks books that strengthen moral imagination and love of what is good, true, and beautiful. This is explicit in the Academy-facing material discussing the goal of “formation” and the moral aims of education.
- The Great Commission framing and paring of home/school partnership signal a telos-oriented, virtue-centered purpose rather than a narrow workforce-preparatory aim.

Positive/Negative keyword analysis

- Positive indicators: formation, virtue, wisdom, moral imagination, true/good/beautiful, human flourishing, telos. These terms appear in CLA materials and align with classical aims.
- Negative indicators: explicit career/workforce-prep language is not prominent in CLA’s public messaging; the materials explicitly de-emphasize “21st century skills” or pure workforce prep in favor of formation. The lexicon labels such workforce-oriented signals as negative, and CLA’s messaging does not emphasize them.

Why this rating

- The public materials foreground formation, virtue, and the pursuit of truth/goodness/beauty as central to education, consistent with a Classical orientation to school purpose and goal.

CATEGORY 3: SCHOOL CURRICULUM — CLASSICAL

Evidence

- The curriculum preview emphasizes the liberal arts core: the trivium (grammar, logic, rhetoric) and the quadrivium (arithmetic, geometry, astronomy, music). The CLA materials describe classical arts education and the integration of these disciplines as foundational to classical formation.
- The narrative on the CLA site also describes an emphasis on a Biblical Christian worldview, with the humanities and the arts used to cultivate wisdom and virtue within a classical framework. This aligns with a Great Books/Primary Sources approach historically characteristic of classical schools.

Positive/Negative keyword analysis

- Positive indicators present in CLA materials: Trivium (grammar, logic, rhetoric), Quadrivium (arithmetic, geometry, astronomy, music), great books or formative canonical works, and integration of Western/Literary/Historical canon within a Christian frame.
- Negative indicators: The public content does not emphasize “social studies” framing or project-based dominance as a curriculum priority; however, some modern delivery models (home-based co-teaching) may imply alternative modes of content delivery outside traditional textbook emphasis. The explicit “social studies first” signal is not evident in CLA content.

Why this rating

- The curriculum is strongly aligned with classical elements: Trivium/Quadrivium, canonical literature (great books) and a faith-informed, integrated approach. The availability of explicit classical curriculum language (grammar/logic/rhetoric; quadrivium; Great Books) supports CLASSICAL.

CATEGORY 4: SCHOOL PEDAGOGY OR TEACHING METHODS — SOMEWHAT CLASSICAL

Evidence

- CLA uses a University Model that emphasizes partnership between parents and teachers, including training for parents to engage with the curriculum at home and regular on-campus classes. This model is a divergence from a purely on-site, traditional “classroom” pedagogy and includes structured, co-taught experiences with parental involvement.
- The materials articulate a commitment to classical content (Trivium/Quadrivium) and a focus on formation; however, explicit, ongoing references to Socratic seminars, scholé days, or memory-based oral recitation in the classroom are not prominently visible in the public pages. The presence of living, faith-centered education is clear, but direct evidence of classical pedagogical practices such as ritualized chanting, abundant memory work, or structured Socratic seminars is limited in the accessible content.

Positive/Negative keyword analysis

- Positive indicators: Trivium/Quadrivium in pedagogical framing; memory work or recitation is anticipated within classical pedagogy, but explicit site language is not strongly evidenced; the living curriculum and mentorship concepts are present in classical lexicon, but not clearly spoken by CLA.
- Negative indicators: Absence of explicit, repeated mention of Socratic seminars, scholé days, or structured contemplative rest in current public content. The lexicon’s negative signals (e.g., “experiential learning focus” or full “project-based learning dominance”) are not overtly reflected as Public CLA content.

Why this rating

- The pedagogy includes classical elements (Trivium/Quadrivium) but the delivery mechanism (University-Model with home study, partner-based teaching) is not a traditional, on-site, pure classical pedagogy. This results in a SOMEWHAT CLASSICAL rating rather than full CLASSICAL in pedagogy.

CATEGORY 5: SCHOOL FACULTY — NOT CLASSICAL

Evidence

- Public CLA materials emphasize parent partnership and home-teaching roles rather than a detailed portrayal of faculty as the “living curriculum” or as the central educational engine. While the classical model envisions teachers as virtuous exemplars and living embodiments of the curriculum, the accessible site content does not consistently present a robust portrait of faculty as “living curriculum” or “model teachers” in explicit, repeated language.
- There is a visible emphasis on family engagement and home-based learning, rather than a distinct faculty-cultivated identity or portrait language on the public site. The employment page confirms staffing activity but not a strong, doctrine-like “faculty profile” language in the marketing materials.

Positive/Negative keyword analysis

- Positive indicators (from classical lexicon): “living curriculum,” “portrait of a teacher,” “model teachers and mentors,” and “collegial culture.” These terms appear in the classical rubric, but explicit public materials from CLA do not consistently showcase them as primary messaging.
- Negative indicators: The lack of explicit articulation of the faculty portrait or living-curriculum language in CLA’s public-facing content. This absence aligns with a NOT CLASSICAL scoring for the Faculty category given the current evidence set.

Why this rating

- While CLA’s classical aims are clear, the publicly accessible site messaging does not strongly articulate the faculty archetype and teacher mentorship language that the classical rubric highlights as essential. The public content leans more toward partnership with parents and student formation than explicit faculty-as-core-architects messaging.

CATEGORY 6: SCHOOL PARENTS AND COMMUNITY — CLASSICAL

Evidence

- CLA emphasizes partnership with parents as a central, non-negotiable feature: “partners with parents, to shepherd the hearts of their children, for the Kingdom of God,” and “Partnership is a key element to what makes our community here at CLA thrive. Ultimately, one of our goals here at Commission is to encourage and affirm parents as the primary spiritual and academic guide for their children.”
- The site describes training for parents to engage with curriculum and a home-teaching dynamic, with formal parent training at the start of the year and ongoing support for parent-teacher collaboration. This is reinforced by age-level guidance (Levels 7-9, 10-12) and continued focus on parental roles in education.
- Other pages discuss family ministry opportunities, partnership with families in curriculum design, and open campus or parent involvement opportunities.

Positive/Negative keyword analysis

- Positive indicators: Partnership with families; parent formation; co-teaching with families; parent training/workshops; open campus; family ministry opportunities. These align closely with classical keywords for Parents and Community (partnership, co-educators, parent formation, family catechesis, etc.).
- Negative indicators: The site does not display consumer-language signals or minimal parent involvement; rather it emphasizes active parental engagement, which is a positive indicator in the classical rubric. The absence of consumerism signals supports the Classical alignment for this category.

Why this rating

- The public-facing content shows a robust, intentional partnership with parents and a community atmosphere that positions families as co-educators and primary partners in education. This aligns with classical expectations for Parents and Community.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
