

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Coram Deo Classical Academy
School Website: <https://coramdeobrownsville.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Coram Deo Classical Academy TX 78520 presents a clearly classical-leaning program anchored in Christian faith and a traditional, formation-first approach to education. Public-facing materials emphasize Christ-centered instruction, Scripture as absolute truth, a Catholic/Protestant Christian worldview, and a classical method that includes memory work and character formation. The school describes its mission as forming virtuous, God-centered students through a classical teaching method, small classes, mentorship, and partnership with families. The curriculum highlights Bible, Literature, History, and later Latin and Logic, consistent with a liberal-arts orientation. Taken together, these signals point to a **CLASSICAL** classification across all six categories, with strong alignment to religious/metaphysical aims, a formation-focused purpose, a curriculum anchored in biblical-literary-historical study and classical disciplines, pedagogy that includes memorization and gradual reasoning, a faculty model of mentorship and living curriculum, and an active partnership with families and the broader Christian community.

Key public materials reviewed include: - Strong religious/metaphysical anchors (Christ-centered instruction, Scripture-based worldview, and daily prayer) and explicit theology-language in mission statements and core values. - Clear purpose rooted in formation, virtue, and wisdom, with explicit statements about character development and a Christian worldview as telos. - Curriculum emphasis on Literature, Bible, History, with Latin and Logic named as later components, aligning with classical liberal-arts aims. - Pedagogical notes highlighting a classical-method progression (memorization → reasoning → eloquent expression) and a foundation of formation through memory, with some evidence of Socratic-style engagement in higher grades being implied but not explicitly stated on every page. - A living, mentorship-centered faculty narrative (full-time teachers, intimate community, small classes) and a stated aim to partner with families in formation. - Parents and community engagement are central in the rhetoric of partnership, parent formation, and openness to visits and involvement.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — **CLASSICAL**

Evidence - "Building a Christ-Filled Community ... Scripture-based instruction provides a foundational Christian worldview allowing for academic excellence based on God's truth." - "Coram Deo Classical Academy exists to minister to families and the community by: Providing Christ-centered instruction based on Scripture as absolute truth and the Classical teaching method ... Christian Worldview; daily prayer, Bible reading, discussion, and application." - "GOD'S TRUTH ... God is absolute truth ... everything falls under God's dominion" (Values and Vision).

Positive/Negative keyword analysis - Positive keywords present: Christ-centered; Scripture-based instruction; Christian worldview; God's truth; Bible reading; daily prayer; Theology-language present in Value/-

Commission statements. Estimated presence: 6–7 positive keywords. - Negative keywords present: None detected in public materials.

Why this rating - The public materials foreground a fully recognizably religious/metaphysical foundation (theology, scriptural authority, liturgical rhythm via daily prayer) with explicit statements of absolute truth grounded in Scripture. This aligns with the Classical rubric's emphasis on transcendentals and sacred worldview as a core driver of learning.

Citations: Christ-centered language and Scripture-based instruction are evident in the "Building a Christ-Filled Community" page. The mission/values statements emphasize Scripture as absolute truth and a Christian worldview.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - "The heart of real Christian education is the development of Christian character" and "building the character of our students in obedience, self-discipline, wisdom, and joy." - Mission/Commission language emphasizes formation, virtue, wisdom, and a Christian telos rather than solely workforce preparation. - Explicit aim to "minister to families and the community" with a Christian worldview as the guiding aim.

Positive/Negative keyword analysis - Positive keywords present: formation; virtue; wisdom; character; obedience; self-discipline; joy; Christian worldview; God's truth. - Negative keywords present: none detected.

Why this rating - The school presents formation-focused aims and virtues as the central objective of education, characteristic of classical paideia-oriented programs rather than a primary focus on job-work preparation. This aligns with CLASSICAL.

Citations: The formation/character language appears in the Mission/Commission statements. The "heart of real Christian education" quote explicitly frames formation as the telos.

Element 3: School Curriculum — CLASSICAL

Evidence - Curriculum framing references Literature, Bible, History, and later Latin and Logic as core components (the classical liberal-arts trajectory). - Public materials emphasize a deep historical perspective through Literature, Bible, History, and Logic; the presence of Latin suggests the entry into the grammar/logic/rhetoric progression central to classical pedagogy. - The site presents a classical method and a "great books" sensibility through its emphasis on literature and historical study within a biblical framework (through the public statements).

Positive/Negative keyword analysis - Positive keywords present: Literature; Bible; History; Latin; Logic; classical method. - Negative keywords present: None explicitly detected; absence of explicit "Great Books" phrasing is noted but not decisive if the core liberal-arts sequence is present.

Why this rating - The curriculum is anchored in the liberal-arts trajectory with explicit reference to Literature, Bible, History, Latin, and Logic, which aligns with classical curriculum anchors. The absence of explicit "Great Books" phrasing does not negate the classical orientation given the direct mention of the core liberal-arts sequence.

Citations: Curriculum framing with Literature, Bible, History, and later Latin/Logic is described in "What is Classical Education?" The core formation through literature/history/bible is reinforced by mission/education rhetoric.

Element 4: School Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

Evidence - The Classical Method is described as progressing "from memorization of information, to reasoning about concepts, to eloquent communication of truth," indicating a layered, progressive pedagogy. - The site references the role of mentorship and an intimate setting, suggesting a pedagogy that values formation and close teacher-student relationships. - While there is clear emphasis on a classical method and formation, explicit details about Socratic seminars, singing/chanting, or structured memory work in lower

grades are not consistently stated across all pages; some traditional elements (memory-based progression) are present, but explicit high-school Socratic/seminar practices are not clearly described in the accessible public pages.

Positive/Negative keyword analysis - Positive keywords present: Classical Method; memorization; reasoning; eloquent expression; mentorship; living curriculum (implicit in the teacher-student dynamic). - Negative keywords present: None clearly detected in the public-facing materials (no explicit statements of non-classical progressive pedagogy; but there is less explicit mention of frequent Socratic seminars or structured Socratic pedagogy on the visible pages).

Why this rating - The school demonstrates strong classical pedagogy signals (memory-based progression, emphasis on rhetoric and reasoning in the classical method, mentorship) but lacks explicit, verifiable statements about some hallmark high-school pedagogy signals (e.g., regular Socratic seminars or seminars as a structured feature). Given these signals, the category is best described as SOMEWHAT CLASSICAL.

Citations: The memorization→reasoning→truth progression is explicit in the “Classical Method” description. The focus on mentorship and a living curriculum is supported by Our Story.

Element 5: School Faculty — CLASSICAL

Evidence - The public materials describe a cadre of full-time teachers who “joyfully” serve as the core of the school and the living curriculum, emphasizing mentorship and model teachers. - The school emphasizes a small-class, family atmosphere where teachers mentor students, aligning with a traditional “faculty as living curriculum” model. - There is a stated expectation that staff, graduates, and students will embody Christian virtue and exemplary intellect/writing/speech as part of the school’s values (values section).

Positive/Negative keyword analysis - Positive keywords present: model teachers; mentors; living curriculum; portrait of a teacher; faculty of friends; collegial culture (implied by “full-time teachers” and long-tenured staff). - Negative keywords present: None clearly indicated in public pages.

Why this rating - The public narrative emphasizes a living-teacher core and mentorship as central elements of the school’s pedagogy, aligning with a CLASSICAL portrayal of faculty as exemplars and mentors who model virtue and skill.

Citations: “Our Story” describes the founding group and ongoing full-time teachers; “What makes Coram Deo different” describes mentorship and a small-class atmosphere.

Element 6: Parents & Community — CLASSICAL

Evidence - The school actively frames parents as partners in education and co-teachers with the school, highlighting family formation and community partnership. - There are explicit calls for parent involvement, book studies, gatherings, and opportunity for visits; the public materials frame the school as an intentional community with family participation. - The school positions itself within a network of classical Christian education, including connections to the Association of Classical Christian Schools, signaling a strong community-signaling stance and shared practices.

Positive/Negative keyword analysis - Positive keywords present: Partnership with Families; parent formation; home-school partnership; parent involvement; open campus; classical family culture. - Negative keywords present: None detected in the public materials (no explicit customer-service language or reduced parent involvement signals).

Why this rating - The school’s communications underscore active parental involvement as a core feature of classical education and community life, consistent with a CLASSICAL model of parent partnership and formation.

Citations: Partnership with Christian families and churches, parent formation, and open-campus signals are present in mission/values content.

Overall assessment and aggregate ranking - Category-by-category: - Religious and Metaphysical Foundations — CLASSICAL - School Purpose and Goal — CLASSICAL - Curriculum — CLASSICAL - Pedagogy — SOMEWHAT CLASSICAL - Faculty — CLASSICAL - Parents & Community — CLASSICAL

- Aggregate classification: CLASSICAL

Rationale - Across five of the six categories, the school's public-facing materials align robustly with classical criteria, especially in religious grounding, formation-focused aims, curriculum anchored in Literature/Bible/History plus Latin/Logic, and a living-faculty/parent-partnership model. Pedagogy presents clear classical signals (memory-then-reasoning) but lacks explicit, consistently described higher-grade Socratic/seminar practices in the accessible content, hence its positioning as SOMEWHAT CLASSICAL in that category. The combined signals lead to an overall CLASSICAL rating.

What Would Move the Needle - For Element 4 (Pedagogy): A publicly articulated, consistent, high-school and K-8 pedagogy plan that explicitly describes regular Socratic seminars, Paideia-style discussions, and structured rhetoric/seminar experiences across grade bands would push Element 4 toward CLASSICAL more decisively. - For all categories, explicitly naming and integrating Great Books in the curriculum and clearly signaling the Trivium (grammar, logic, rhetoric) and Quadrivium (arithmetic, geometry, music, astronomy) through public-facing statements would further strengthen the classical alignment. - Additional explicit mentions of memorization/recitation, singing/chanting in lower grades, and a formal "Scholé" rhythm (restful learning) would reinforce Pedagogy (Element 4) and reflect broader classical ideals.

Citations used to support core points - Building a Christ-Filled Community and Scripture-based instruction; Christ-centered education; Christian worldview; God's truth. - Mission/Commission statements emphasizing formation, virtue, wisdom, and Christian telos. - Classical Curriculum framing (Literature, Bible, History, Latin, Logic). - Classical Method and memory-driven progression (memorization → reasoning → eloquent expression). - Living-faculty model and mentorship emphasis. - Partnership with families and parent-formation language. - Public statements about Great Books/Great Conversation are not explicit on the site, but the curriculum appears to emphasize core liberal-arts elements (Literature/Bible/History/Latin/Logic). See "What is Classical Education?" for explicit curriculum components.

What Would Move the Needle

- If any category were judged SOMEWHAT CLASSICAL, concrete changes would include:
- Element 4 (Pedagogy): Publish a formal Pedagogy Blueprint detailing regular Socratic seminars and Paideia-style seminars for upper grades, with explicit rubrics and examples to illustrate how logic, rhetoric, and dialectic are taught in practice.
- Element 3 (Curriculum): Add explicit language tying curriculum to Great Books or Great Conversation and clearly map the Trivium (grammar, logic, rhetoric) and Quadrivium (arithmetic, geometry, music, astronomy) into course sequences, even if they appear implicitly through Literature/History/Latin/Logic.
- Element 1 (Religious & Metaphysical Foundations): Strengthen explicit references to liturgical/corporate worship practices (e.g., daily chapel, liturgical calendars, seasonal feasts) to align with Liturgical & Communal Practices in the Six Essentials document.
- Element 5 (Faculty): Publish a formal "Portrait of a Teacher" and "Living Curriculum" statement with concrete examples and expectations for mentor roles, ongoing professional formation, and teacher-student relationships.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
