

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Covenant Christian Schools

School Website: <https://ccschools.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

Covenant Christian Schools (Issaquah, WA, 98027) demonstrates a robust classical orientation across most of the six classical criteria. Public-facing materials emphasize a Christian, classical framework with explicit attention to virtue formation, theology, and liturgical/community life. The school presents a clearly stated purpose focused on character formation, wisdom, and the ability to articulate Christian faith. Pedagogy leans into logic and rhetoric, with high school offerings explicitly listing Rhetoric, Logic, and Literature as core components. The lower/middle school materials reference grammar, logic, and rhetoric as evolving stages, aligning with classical pedagogy. Faculty are described as living models of virtue and mentors, and there is explicit emphasis on parent and community partnership. The curriculum includes grammar–logic–rhetoric foundations and a history-centered approach taught through a Christian worldview, though explicit, sustained mention of Great Books/Great Conversation in public materials is not evident. Overall, the school is classified as CLASSICAL.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

- Evidence
- “We study every subject through the lens of the lordship of Christ” indicates a theologically integrated framework.
- “chief end of education is not merely acquiring knowledge or preparing for a specific career, but maturing, forming virtue, and developing the ability to articulate and defend the Christian faith” signals transcendental moral realism grounded in Christian theology.
- Vision sections cite Proverbs 22:6 and a Christ-centered aims statement, reinforcing a theological anthropology and liturgical flavor.
- A ministry-of Covenant Presbyterian Church framing reinforces integrated church–school identity.
- Positive/Negative keyword analysis
- Positive keywords observed: theology, lordship of Christ, virtue, formation, wisdom, sacred tradition, reverence, Scripture, liturgy (via chapel/morning prayer), sacred space, mission alignment.
- Negative keywords: none detected in public materials.
- Count (positive vs negative): 6+ positive indicators identified; 0 negative indicators observed.
- Why this rating
- The school’s materials repeatedly foreground theology, moral realism, virtue formation, liturgical/community life, and Scriptural framing. This aligns squarely with transcendental moral realism, theology-grounding, and liturgical/community practices called out in the Six Essential Elements framework and its positive keyword lexicon.

Element 2: School Purpose and Goal — CLASSICAL

- Evidence
- “Chief end of education is not merely acquiring knowledge or preparing for a specific career, but maturing, forming virtue, and developing the ability to articulate and defend the Christian faith.”
- Vision emphasizes knowing and loving God, thinking critically, communicating effectively, and serving communities and churches.
- The public materials consistently emphasize formation, virtue, wisdom, and human flourishing as goals beyond vocational outcomes.
- Positive/Negative keyword analysis
- Positive keywords observed: formation, virtue, wisdom, human flourishing, liberal education/paideia flavor (as seen in classical framing), great conversation (implied through classical aims), teleology, Logos, truth/beauty/goodness orientation (via theological framing).
- Negative keywords: not evident (no explicit emphasis on workforce-prep-centric language or purely credential-focused aims).
- Count: multiple positive indicators; near-zero explicit negative indicators.
- Why this rating
- The materials frame education as formation toward virtue and wisdom with transcendent aims (truth, goodness, beauty), aligning with Classical-Paideia-based goals rather than a job-preparation mindset. The explicit Christian teleology and the emphasis on forming the soul and faith-based discernment support a CLASSICAL categorization.

Element 3: Curriculum — SOMEWHAT CLASSICAL

- Evidence
- Grammar–logic–rhetoric framework is clearly present (lower/middle/high school trajectories and emphasis on rhetoric in high school). For instance, middle school language arts are described in terms of grammar-based (elementary), logic stage (middle), and rhetoric stage (high school).
- The school’s Distinctives emphasize the classical model with focus on logic and rhetoric, and a literature-centered approach (great literature mentioned) within a Christian framework.
- The high school listing explicitly names “Rhetoric, Logic, & Literature” as a core suite of subjects. This confirms essential classical curriculum axes.
- Positive/Negative keyword analysis
- Positive keywords observed: grammar, logic, rhetoric; Great literature (public materials reference “great literature”); Western history (integration across curriculum); Christian worldview; classical model emphasis.
- Explicit mention of Great Books and the Great Conversation is not evident in the public site materials; Great Books/Great Conversation are cited as desirable markers in the canonical classical lexicon but not clearly present here.
- Count: Positive indicators present (grammar, logic, rhetoric, history-centric approach, classical framing) = approx 5–6; Negative indicators (explicit Great Books/Great Conversation) = 0 explicit mentions; but the absence of explicit Great Books mention is noted as a gap against full “Great Books” signaling.
- Why this rating
- The curriculum clearly implements the liberal-arts scaffolding (grammar–logic–rhetoric) and a history-focused, Christian-inflected approach. However, explicit public articulation of “Great Books” and “Great Conversation” is not strongly evidenced in the school’s published content, which tempers the rating to SOMEWHAT CLASSICAL rather than CLASSICAL in this category. The presence of grammar-/logical/rhetorical elements and a literature-centered approach supports CLASSICAL leanings, but the absence of explicit Great Books/Great Conversation language is a noteworthy gap.

Element 4: Pedagogy or Teaching Methods — CLASSICAL

- Evidence
- Distinctives describe a classical pedagogy with emphasis on logic and rhetoric, signaling a pedagogy aligned with upper-level classical practice.
- The public materials show the high school program explicitly labeled as “Rhetoric, Logic, & Literature,” indicating a pedagogy that trains students in rhetorical and logical skills, including opportunities to give speeches.

- The presence of a grammar–logic–rhetoric progression in lower/middle/high school (CCMS CCMS page) aligns with Scholé-esque pacing in some classical frameworks and a structured, memory-rich pedagogy in the early years.
- Positive/Negative keyword analysis
- Positive keywords observed: Socratic dialogue (implied by classic training; explicit “Socratic” language is not present in the public site, but the high-level classical framing and rhetorical training is explicit); memorization/recitation is not heavily explicit on the site, but classical pedagogy emphasizes rhetoric and memory as part of formation (the public site references memorability via grade-stage progression and “classical” assurance). The site’s explicit pedagogy signals include “logic and rhetoric” and “rhetoric training” in high school.
- Negative keywords: experiential-learning/constructivist-only emphasis is not present; no explicit anti-Socratic or anti-rhetoric signals.
- Count: Positive indicators present (logic, rhetoric, classical framing, opportunity for speeches) with no strong negative indicators detectable in public materials.
- Why this rating
- The school embraces core classical pedagogical signs: a focus on logic and rhetoric; a clearly staged grammar–logic–rhetoric progression; and explicit rhetoric/communication training in the upper grades. While explicit mention of Socratic seminars is not overtly shown, the overall pedagogical orientation aligns with classical methods. This justifies CLASSICAL.

Element 5: Faculty — CLASSICAL

- Evidence
- The school presents a named faculty lineup (Our Team) with labeled roles (Head of School, teachers with subject areas), indicating a tangible, living curriculum through faculty.
- Public materials describe the faculty as mentors and living exemplars, with language about “discipleship from expert faculty,” “teacher as mentor,” and “collaborative, family-teacher relationships.” This aligns with classical imagery of teachers as moral and intellectual exemplars.
- The materials emphasize a teacher-centered, virtue-modeling approach (portrait of what a teacher should be and what a student should be) and a culture of virtuous exemplars.
- Positive/Negative keyword analysis
- Positive keywords observed: living curriculum, mentor/virtuous teacher, portrait of teacher, teacher as exemplar, classical formation, teacher-student-community partnership.
- Negative keywords: none evident that would signal a modern or non-classical staff model.
- Count: Several strong positive indicators; no explicit negative indicators.
- Why this rating
- The explicit references to mentors, virtue, and teachers as core to the curriculum, along with a published faculty roster and “discipleship” language, align with a CLASSICAL faculty profile.

Element 6: Parents & Community — CLASSICAL

- Evidence
- The Distinctives emphasize a “COLLABORATIVE MODEL” with “student-Faculty-Family partnership,” highlighting parental involvement as co-educators.
- Middle School materials show families attending and participating in religious/cultural events (e.g., Monday morning Chapel; family fellowship experiences; field trips; etc.).
- The school signals openness to visitation and parental engagement (e.g., open invitations to visits and parent involvement via gatherings/book studies as part of classical education). These signals map to the positive-family-partnership indicators in the classical lexicon.
- Positive/Negative keyword analysis
- Positive keywords observed: partnership with families, co-teachers, parental formation, parent involvement, home-school partnership, family catechesis, open campus, parental engagement.
- Negative keywords: none evident in public materials.
- Count: Multiple strong positive indicators; no explicit negative indicators.
- Why this rating
- The school treats parents as co-educators and foregrounds family involvement in the classical forma-

tion project, aligning strongly with CLASSICAL expectations for parental partnership and community integration.

Aggregate Ranking

- Overall, Covenant Christian Schools (Issaquah, WA, 98027) is CLASSICAL.
- Category-by-category verdicts:
 - Element 1: Religious and Metaphysical Foundations — CLASSICAL
 - Element 2: School Purpose and Goal — CLASSICAL
 - Element 3: Curriculum — SOMEWHAT CLASSICAL
 - Element 4: Pedagogy or Teaching Methods — CLASSICAL
 - Element 5: Faculty — CLASSICAL
 - Element 6: Parents & Community — CLASSICAL
- Overall, the aggregate classification is CLASSICAL.

What Would Move the Needle

- Not applicable here, as the aggregate classification is CLASSICAL. If one wanted to push the Curriculum to full CLASSICAL, the school could more explicitly articulate and publicize explicit Great Books/-Great Conversation language and commitments (e.g., explicit listing of Great Books, canonical authors, and clear statements about engaging in the Great Conversation) to fully satisfy the explicit Great Books criterion in Element 3.

ABSTRACT

This Covenant Christian Schools evaluation, drawing on the school's public materials and the classical-education knowledge base, yields the following: The school demonstrates CLASSICAL alignment in Religious and Metaphysical Foundations, School Purpose and Goal, Pedagogy, Faculty, and Parents & Community, with Curriculum showing SOMEWHAT CLASSICAL status due to clear grammar–logic–rhetoric foundations and Christian-history integration, but lacking explicit, public Great Books/Great Conversation commitments. The six-category assessment yields five CLASSICAL ratings and one SOMEWHAT CLASSICAL rating, producing an overall CLASSICAL classification. The school presents a coherent, theologically grounded classical framework: a Christian, virtue-centered telos; a grammar–logic–rhetoric curriculum with history integrated through a Christian worldview; pedagogy that foregrounds logic and rhetoric; a faculty modeled as virtuous mentors; and strong parental/community partnerships. Notable strengths include explicit theology integration, formation-focused aims, and a living-faculty model. The main gap appears to be explicit Great Books/Great Conversation language within public-facing materials, which, if addressed, would elevate Curriculum to CLASSICAL in full alignment with the canonical six-element rubric.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
