

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Crosspoint Academy

School Website: <https://crosspointacademy.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Crosspoint Academy California (CCA) presents a notable integration of Christian formation within its K–12 program, with explicit religious instruction, devotional practices, and a Christian worldview embedded across school life. Public materials emphasize Bible study, chapel, community service, and a Christian ethos in athletics and academics. While these elements strongly reflect a religious foundation and formation-focused aims, explicit classical-pedagogy signals (e.g., a structured Trivium, Great Books program, or Socratic seminars) are less evident in the available materials. Taken together, Crosspoint Academy CA 94545 lands primarily in the SOMEWHAT CLASSICAL zone across the six-category rubric, with clear CLASSICAL alignment in some domains (Religious and Metaphysical Foundations; School Purpose and Goal) and more modest alignment in other domains (Curriculum; Pedagogy; Faculty; Parents & Community), plus a cautious notch toward NOT CLASSICAL in Pedagogy due to limited explicit classical teaching methods in public-facing materials.

Key evidentiary notes:

- Religious and metaphysical foundations are strongly present: Bible classes, daily devotions, chapel, and a Christian worldview permeate curricular and co-curricular life (examples include daily prayer/devotions and integration of faith with study).
- The school's stated purpose leans toward formation, virtue, and a teleology tied to truth/beauty within a Christian framework (formation via Bible-based instruction and community service).
- Curricular signals show limited explicit Great-Books/Trivium/Quadrivium language, though there are occasional classical references (e.g., a summer program reference to The Odyssey and Greek history) rather than a formal Great Books framework.
- Pedagogy signals point to liturgical and devotional practices and community life, with limited explicit evidence of Socratic seminars, rigorous memory work, or the full Schola/Scholé pedagogy typically associated with classical education in public-facing content.
- Faculty materials show credentialed leadership and a staff structure (Academics Director, Principal roles, etc.) within an affirmed Christian-education milieu (ACSI alignment noted) rather than a fully articulated "living curriculum" classical profile publicly stated.
- Parent and community engagement exists (family portals, open houses, and opportunities for parent involvement), though explicit classical-parent partnerships and formal parent-education programs are less visible in the public content (some signals of family involvement through admissions and events).

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — **CLASSICAL**

Evidence

- Bible classes are standard across the curriculum, with a stated aim to learn biblical truths as they relate to every discipline and life (Bible instruction coupled with moral formation).
- Daily devotional practices and chapel experiences are described as central to student life (morning devotion and prayer; chapel-based activities).
- A Christian worldview is explicitly integrated into subject lessons in K–5 and beyond, indicating a strong theological/metaphysical orientation in daily learning.
- References to glory to God within athletic/recreation programs emphasize liturgical-cultural practices and sacred orientation (philosophy of athletics: “glory to God”).

Positive/Negative keyword analysis

- Positive keywords present: theology, liturgy, worship, devotion, chapel, Christian worldview, glory to God, biblical instruction, virtue/ethics/morality in a theocentric frame.
- Negative keywords: none observed in public materials.

Why this rating

- The school’s public materials consistently foreground religious formation and liturgical/community worship practices, which align with Positive Keyword indicators for Relational Foundations (transcendent truths, sacred practices, and theological grounding).

ABSOLUTE QUANTIFICATION (approx.)

- Positive indicators present: multiple explicit references (Bible class; morning devotion; chapel; Christian worldview; glory to God). Estimated positive keyword presence: high.
- Negative indicators: none detected in public content. Estimated negative keyword presence: negligible.
- Classification justification: Strong alignment with Religious and Metaphysical Foundations in a theocentric framework; no evident opposing signals.

Citations: Bible-based formation and devotional life evidenced in multiple pages (e.g., Bible classes and Christian worldview).

Element 2: School Purpose and Goal — CLASSICAL

Evidence

- Explicit formation-oriented language appears through Bible-centered instruction, daily devotional life, and the aim of nurturing moral and spiritual formation in students (character, ethics, and morality integrated with Christian worldview).
- The presence of community-service elements and a coherent Christian worldview across disciplines supports the aim of forming virtue and wisdom rather than pure job-readiness or information transfer.
- Public statements indicate that education is integrated with faith and moral aims rather than solely technical prep; the athletics philosophy emphasizes glorifying God, signaling a teleological orientation toward virtue and the good Life in community.

Positive/Negative keyword analysis

- Positive keywords present: formation, virtue, wisdom, truth/goodness/beauty (via transcendentals in classical lexicon), Christian worldview, moral character, sanctified learning, contemplation of divine order.
- Negative keywords: none observed in public materials; absence of explicit workforce-prep or secular-only framing.

Why this rating

- The public materials consistently stress formation and virtue within a theistic framework, aligning with the Classical School’s aims around formation (as opposed to information-only) and the pursuit of the true, good, and beautiful through a Christian lens.

Citations: Bible-centered formation; Christian worldview integration; virtue/ethics language across life of the school.

Element 3: School Curriculum — SOMEWHAT CLASSICAL

Evidence

- Some classical content signals appear in limited form, including occasional references to The Odyssey and Greek history during a Summer Program discussion, suggesting some exposure to classical literature and intertextual study rather than a formal Great Books curriculum.
- The explicit classical-curriculum pillars (Seven Liberal Arts: grammar, logic, rhetoric; Great Books; Great Conversation; full Trivium/Quadrivium) are not clearly articulated in public content; the curriculum emphasizes Biblical/worldview integration and Christian-based studies rather than a canonical Great Books/liberal-arts framework.
- The school notes strong religious formation through Bible study and Christian worldview in multiple grade bands; history and other disciplines are integrated under a Christian lens, but there is limited public mention of universal liberal-arts scaffolds (grammar, logic, rhetoric) or the full Great Conversation approach.

Positive/Negative keyword analysis

- Positive keywords present: Great Books, Great Conversation (not widely evidenced on site), history as a discipline; liberal-arts scaffolding is not overt, but inter-disciplinary integration exists within a Christian framework; references to historical study appear in a limited scope (Odyssey; Greek history).
- Negative keywords present: lack of explicit “Great Books,” lack of overt Trivium/Quadrivium language, lack of explicit Socratic seminars in public-facing content.

Why this rating

- The presence of some classical-literary touchpoints (Odyssey, Greek history) indicates occasional exposure to classical content, but the lack of explicit Great Books, Trivium/Quadrivium framing, and explicit classical pedagogy in public materials supports a SOMEWHAT CLASSICAL classification rather than CLASSICAL.

Citations: Odyssey/Greek-history reference in Summer content; explicit Great Books/Trivium language not evident in public-facing pages.

Element 4: Pedagogy or Teaching Methods — NOT CLASSICAL

Evidence

- Pedagogical cues center on devotional life, community formation, and Christian worldview integration rather than explicit classical methods (Socratic seminars, rigorous memory work, or recitation) in public content.
- There are clear liturgical and communal practices (morning devotions, chapel) and a focus on character formation, but explicit public-facing references to Socratic dialogue, scholé days, or classical memory practices are not shown in the website materials.
- The presence of structured leadership and credentialing (Academics Director, Principal roles, etc.) indicates attention to program quality, yet not explicit adoption of classical pedagogy signals (e.g., Harkness-style seminars, memorization regimes) in public pages.

Positive/Negative keyword analysis

- Positive keywords present: chanting/memorization (not evidenced publicly), Socratic dialogue (not evidenced publicly), scholé (not evidenced publicly), liturgy and memory within a religious framework (somewhat aligned with pedagogical memory practices but not explicit classical usage).

- Negative keywords present: explicit non-classical pedagogy signals (project-based, experiential learning emphasis) are not clearly promoted as the sole or primary method on public pages; however, the absence of explicit classical pedagogy signals is notable.

Why this rating

- The public content emphasizes religious formation and pastoral, liturgical elements rather than explicit classical teaching methods (e.g., Socratic seminars, rigorous memory work, or a structured grammar-logic-rhetoric sequence). While that does not preclude classical aims, the lack of explicit pedagogy signals places it outside the classical pedagogy norm in public-facing materials.

Citations: Morning devotion/chapel; Christian worldview integration; absence of explicit classical pedagogy claims in public content.

Element 5: School Faculty — SOMEWHAT CLASSICAL

Evidence

- A staff-structure with named roles (Academics Director, Principal, Development Director, Superintendent, etc.) exists, with credentialed backgrounds described for administrators and teachers (e.g., TEFL credentials, MA Leadership, teaching credentials) and a framework aligned with ACSI accreditation language.
- The school highlights the faculty as key players in curriculum development, instruction, and student achievement (e.g., Academics Director overseeing curriculum and instruction) — this indicates a living, invested faculty structure, though not explicitly described as “the living curriculum” or “portrait of teacher” in public pages.
- The presence of a formal, credentialed faculty and alignment with accrediting bodies (ACSI) signals a professional, virtue-oriented teaching culture, which resonates with some classical expectations (mentoring, teacher as exemplar) but without explicit Classical-faculty language in public content.

Positive/Negative keyword analysis

- Positive keywords present: model teachers/mentors, living curriculum (conceptually via Academics Director and staff leadership), portrait of teacher (not explicit, but implied via staff profiles), collegiality (implied through administrative collaboration).
- Negative keywords present: none explicit in public content (no explicit claim that faculty are purely “facilitators” or that classical faculty structures are absent).

Why this rating

- The public material demonstrates a professional, credentialed faculty culture with leadership anchored in Christian-education networks (ACSI). While not explicitly claiming “the living curriculum” as a classical norm, the faculty’s central role in curriculum development and instruction aligns with classical expectations around virtuous, capable teachers who model excellence.

Citations: Academics Director and staff roles; credentialing and ACSI alignment statements.

Element 6: School Parents and Community — SOMEWHAT CLASSICAL

Evidence

- The school explicitly provides parent-facing portals (Admissions/Registrar portals in the public site), and events such as Open House and Back-to-School Night indicate active parent involvement and opportunities to engage with the school (parent visitation and involvement signals).
- Public pages describe partnerships with families in the sense of community engagement and parental involvement in school life (though not always using the classical phrase “parents as co-teachers”); there are also Spanish-language family pages, which indicate outreach to families in the community.

- While explicit classical-pedagogical parent-education programs are not clearly outlined in public content, the presence of family portals, admissions processes, and open-campus events signals ongoing parental involvement and education beyond mere enrollment.

Positive/Negative keyword analysis

- Positive keywords present: partnership with families, parental engagement, home-school connection, parent formation (as a classical keyword set) appears in the lexicon and is echoed in family portals and events.
- Negative keywords present: none explicit in the public content; however, the exact classical phrasing “parents as co-teachers” is not overtly stated.

Why this rating

- There is clear engagement with families and opportunities for parental involvement, aligning with the “Parents and Community” domain, but the classical framing of parents as co-educators or formal parent-education initiatives is not strongly evidenced in public-facing content. This yields SOMEWHAT CLASSICAL rather than CLASSICAL.

Citations: Admissions portal; Open House/Family pages; family-focused content in bilingual pages.

Aggregate Assessment

- Element 1: CLASSICAL
- Element 2: CLASSICAL
- Element 3: SOMEWHAT CLASSICAL
- Element 4: NOT CLASSICAL
- Element 5: SOMEWHAT CLASSICAL
- Element 6: SOMEWHAT CLASSICAL

Overall classification: SOMEWHAT CLASSICAL

What Would Move the Needle

- Explicitly publish and implement a formal Great Books/Trivium-based curriculum with clear articulation of grammar, logic, and rhetoric across grade bands, including a public-facing statement of the Great Conversation and canonical texts.
- Introduce and document explicit classical pedagogies (e.g., Socratic seminars in upper grades, systematic memory work/recitation, and Scholé-inspired contemplative days) and provide examples of how these are woven into daily instruction.
- Strengthen the “living curriculum” concept by documenting teacher profiles as exemplars of classical virtues, and publish a faculty portrait that aligns with the “teacher as mentor” archetype in classical education.
- Deepen parent partnership by articulating a formal “parents as co-educators” framework, including structured parent seminars/book studies that connect classical philosophy, theology, and pedagogy to home-life formation.
- Expand cross-curricular integration showing explicit connections among grammar/logic/rhetoric, history, literature, and the sciences within a Western-civilization/humanities framework, with explicit reference to the Seven Liberal Arts and Great Books where appropriate.
- Publicly document liturgical and communal practices as integrated curricular experiences, including a recognizably structured liturgical calendar that aligns with academic content and fosters reverence and wonder in all grades.

ABSTRACT

Crosspoint Academy California CA 94545 demonstrates strong Religious and Metaphysical Foundations through explicit Bible study, daily devotions, chapel, and a Christian worldview integrated across disciplines. The School Purpose and Goal reflect formation-oriented aims with virtue and moral education embedded

in daily life. The Curriculum shows some classical touchpoints (e.g., Odyssey/Greek history references) but lacks explicit Great Books and Trivium/Quadrivium framing in publicly available content. Pedagogy appears to center on liturgical and devotional practice with limited public evidence of classical methods (e.g., Socratic seminars, scholé) in daily instruction. Faculty structure is credentialed and aligned with Christian accreditation, suggesting a strong faculty culture, but without explicit Classical-faculty lexicon in public materials. Parent and Community engagement is present via admissions portals and events, though the explicit classical-parent partnership language is not widely articulated.

Overall, Crosspoint Academy CA 94545 sits in the SOMEWHAT CLASSICAL category: it strongly embodies religious formation and formation-centered aims, with partial alignment to classical pedagogy and curriculum signals, and moderate evidence of parent-community collaboration. The most impactful needle-moving steps would be to publicly codify and implement explicit classical pedagogy, liberal-arts curriculum (grammar-logic-rhetoric; Great Books), and a formal parent-education partnership, thereby elevating all categories to CLASSICAL.

Citations throughout reference the school's public materials and the Classical Elements lexicon and criteria used in this evaluation:

- Religious foundations and devotional practices, Christian worldview integration, and chapel/devotions (evidence from public pages).
- Summer Odyssey/Greek history reference indicating some classical literary content.
- Faculty structure, credentials, and ACSI alignment.
- Parent/admissions portals and family engagement signals.

Note: This evaluation integrates the Classical School Six Essential Elements rubric with the knowledge-base lexicon and the Crosspoint Academy CA 94545 public materials provided in the crawl, applying keyword analysis (positive/negative indicators) to determine category placements and aggregate classification.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
