

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Eukarya Christian Academy
School Website: <https://eukaryaacademy.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Eukarya Christian Academy (Stephens City, VA, 22655) presents a clearly Christian-influenced classical framework, with explicit triadic Trivium pedagogy (grammar, dialectic, rhetoric) and a program that emphasizes formation, virtue, and a Christian worldview. Public materials show a Christ-centered program, biblical pedagogy, and a curriculum described as classical (grammar/dialectic/rhetoric) with an Omnibus cross-curricular approach. Still, while the school demonstrates several core classical signals (notably in pedagogy and curricular structure), certain elements (notably explicit Great Books emphasis, formal community/parent partnerships, and a fully articulated faculty-formation narrative) are less overt in public materials. Overall, the school aligns most closely with **SOMEWHAT CLASSICAL**, with strong Classical signals in religion, purpose, and pedagogy, and partial signals in curriculum and community engagement. The school could move toward **CLASSICAL** by foregrounding explicit Great Books engagement, strengthening explicit living- curriculum language for faculty, and expanding visible parental partnership practices.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — **SOMEWHAT CLASSICAL**

- Evidence
- The school presents itself as Christian and biblically grounded: a private, non-denominational Christian academy (About Eukarya) and explicit Christian worldview integration in curriculum (grammar/dialectic/rhetoric taught through a Christian worldview) .
- Biblical framing appears in curricular descriptions (biblically inspired content in lower grades) and explicit Christian/biblical worldview language throughout curriculum descriptions .
- Positive/Negative keyword analysis
- Positive keywords present: Christ-centered, Christian worldview, biblical/biblically inspired, non-denominational Christian academy.
- Negative keywords: None evident in public materials (no secular or relativistic framing detected publicly).
- Why this rating
- The school foregrounds Christian faith and biblical framing as central to education, meeting the Religious/Metaphysical Foundations criterion in spirit and language, though more explicit liturgical/communal practice signals are less visible in the public pages. Overall, strong theological grounding supports **CLASSICAL** signals here, but the absence of explicit liturgical/community-worship language keeps this category from a firmer **CLASSICAL** label.

Cited elements:

- Non-denominational Christian academy description and Christian worldview framing in curriculum .

- Biblically inspired material across grade levels ,.

Element 2: School Purpose and Goal — CLASSICAL

- Evidence
- Public statements contrast modern education's "worker formation" with classical aims of independence, virtue, and enduring principles; classical education framed as formation of character and wisdom rather than mere information transfer.
- There is explicit emphasis on formation (habits of the heart, contemplation) and the telos of truth, goodness, and beauty in the classical frame; the site references the classical mission and the pursuit of lasting understandings beyond career-readiness (formation-oriented language).
- The curriculum language points toward Great Conversation/Great Books and a broader classical intellectual heritage (Omnibus Curriculum and cross-curricular engagement) rather than a purely vocational focus.
- Positive/Negative keyword analysis
- Positive keywords present: formation, virtue, wisdom, liberal education, great conversation, telos, true/good/beautiful, contemplation, formation through the arts, living books.
- Negative keywords (restricted in public materials): college/career readiness emphasis that dominates non-classical approaches; no explicit focus on workforce-first framing in the public text.
- Why this rating
- The site differentiates classical aims (formation, virtue, wisdom, true/good/beautiful) from modern workforce prep, and emphasizes the classical telos and formation over mere information. This aligns with CLASSICAL in Purpose and Goal criteria.

Cited elements:

- Formation vs. job-preparation framing.
- Great Conversation and broader classical mission cues in Omnibus and curriculum descriptions.

Element 3: Curriculum — SOMEWHAT CLASSICAL

- Evidence
- The curriculum is explicitly Trivium-based: grammar stage, dialectic stage, rhetoric stage are described, with a Christian worldview and cross-curricular application (Stage One/Grammar; Stage Two/Dialectic; Stage Three/Rhetoric).
- The Omnibus Curriculum indicates cross-curricular integration across history, culture, literature, and social sciences, with activity-based, dialogue-driven application (cross-curricular projects).
- There are concrete grade-band curricula (grammar/dialectic/rhetoric pathways) and emphasis on memorization, chanting, and memory work in lower levels, aligning with classical pedagogy (recitation/memory).
- Some classical signals (e.g., Seven Liberal Arts framing, fields like Latin/Greek, and integration with Christian worldview) appear in the site materials and curriculum pages (e.g., K-8 content; Omnibus; Latin emphasis) ,.
- Positive/Negative keyword analysis
- Positive keywords present: grammar, logic, rhetoric; Trivium; Omnibus; Great conversation (and related language in classical lexicon); history integrated across subjects; memorization/recitation; liturgy-based learning signals appear in some materials.
- Negative keywords present: some elements commonly associated with non-classical paradigms (e.g., heavy emphasis on project-based experiential learning, if present outside classical signals) are not the dominant framing here; however, explicit Great Books emphasis appears less overt than in canonical Great Books programs (public materials emphasize Omnibus rather than direct Great Books lists).
- Why this rating
- The program strongly signals classical curriculum architecture (grammar/dialectic/rhetoric) and cross-curricular, historically grounded study. It aligns with CLASSICAL expectations for curriculum in structure and aims, but some canonical elements (e.g., explicit Great Books lists and unambiguous Great

Conversation emphasis) are not as strongly foregrounded in the public content as in some classical programs. This yields a SOMEWHAT CLASSICAL rating rather than a definitive CLASSICAL in Curriculum.

Cited elements:

- Trivium stages and Christian worldview with Omnibus cross-curricular engagement.
- Lower/middle/high-school curriculum details including grammar/dialectic/rhetoric, and memory/recitation practices.

Element 4: Pedagogy or Teaching Methods — CLASSICAL

- Evidence
- The public materials describe a mix of contemplative/restful (Scholé) elements and active Socratic/seminal seminar-style modalities in upper grades (Socratic discussion, seminars, debates; rhetoric training; opportunities for speeches).
- Lower grades emphasize memorization, chanting, singing to deepen memory (repetition-based pedagogy common in classical education).
- The pedagogy explicitly includes formation through imitation and practice, outlining master-teacher models, living exemplars, and classical rhetorical training in upper grades, which aligns with classical teaching methods.
- Positive/Negative keyword analysis
- Positive keywords present: Socratic dialogue, dialectic, Scholé (restful learning), memorization/recitation, chanting, imitation, master-teacher model, living curriculum, rhetorical training, public speaking, debates, seminar, and “great conversation.”
- Negative keywords present: terms signaling non-classical approaches (e.g., solely project-based or purely experiential constructs) are not the dominant framing in the public content; the site emphasizes classic methods more than non-classical approaches.
- Why this rating
- Pedagogical approaches strongly reflect classical practices: Socratic/seminal discussions in higher grades, rhetoric-focused training, and memory-based lower-grade practices, with rest and contemplation interwoven. This is a robust CLASSICAL signal.

Cited elements:

- Socratic/dialectic seminars, rhetoric, and upper-school debate; memory work and recitation; restful Scholé concepts (positive pedagogy keywords).
- Lower-level singing/chanting and memorization in grammar-stage pedagogy.

Element 5: Faculty — SOMEWHAT CLASSICAL

- Evidence
- The site features named faculty pages (Upper School Faculty, individual faculty profiles) indicating a visible, engaged teaching staff; examples include Luke Christian Smith (senior student profile highlighting debate and speech training, and Christian character leadership) and Jody Shippa (faculty listing).
- The presence of a “faculty” section and described teachers as advocates of classical/classical pedagogy signals a living-curriculum approach to some degree; however, public statements about faculty formation, mentorship models, or a formal “portrait of what a teacher should be” are less explicit in the public-facing content.
- Positive/Negative keyword analysis
- Positive keywords present: living curriculum, faculty as mentors/curriculum, master-teacher style theme (as evidenced by named faculty and the sense of teacher leadership in profiles).
- Negative keywords present: explicit statements about a “portrait of teacher” and “faculty as the core living curriculum” are not strongly articulated in public pages; there is not a fully explicit “profile of what a teacher should be” language in the public-facing materials beyond examples.

- Why this rating
- The school demonstrates visible, engaged faculty and examples of teachers as leaders, which signals classical faculty culture, but the lack of explicit, formalized statements about the living curriculum and a teacher-ideal portrait in public materials keeps this at SOMEWHAT CLASSICAL rather than CLASSICAL.

Cited elements:

- Faculty pages and staff profiles (Luke Smith, Jody Shippa, etc.) ,.
- The general presence of a “faculty” section and teacher leadership in public materials rather than a fully explicit portrait language.

Element 6: Parents & Community — SOMEWHAT CLASSICAL

- Evidence
- The school maintains a Homeschool Academy page and parent-facing materials that describe partnerships with families and ongoing formation opportunities for families, indicating a community orientation and family involvement (Homeschool Academy page).
- Additional parent/community signals appear in mission statements that emphasize forming families, marriages, and community life (From About/Eukarya Family Center values) and the broader emphasis on a family-centered approach to classical formation, though explicit “co-teacher” language is less visible in public pages.
- Positive/Negative keyword analysis
- Positive keywords present: partnership with families, parent formation, family involvement, home-life alignment, community living tradition.
- Negative keywords present: explicit “parent as co-teacher” language and very explicit “open campus/visit” signals are not clearly stated in public materials; there is limited direct public-facing language about a formal parent-co-teacher role.
- Why this rating
- There are clear signs of family involvement and a family-centered approach (Homeschool Academy, family-centered values), but the public materials do not consistently foreground robust parent-as-co-teachers language or frequent parent gatherings beyond the homeschool context. This yields a SOMEWHAT CLASSICAL rating for Parents & Community.

Cited elements:

- Homeschool Academy page and related parent-family offerings.
- Family-centered values stated in the About/Eukarya materials (non-denominational Christian, community focus).

Aggregate Assessment

- Element 1: CLASSICAL
- Element 2: CLASSICAL
- Element 3: SOMEWHAT CLASSICAL
- Element 4: CLASSICAL
- Element 5: SOMEWHAT CLASSICAL
- Element 6: SOMEWHAT CLASSICAL

Overall ranking: SOMEWHAT CLASSICAL

Notes on the aggregate: The categories most clearly aligned with classical education are Religious/Metaphysical Foundations, Purpose and Goal, and Pedagogy, which carry strong classical signals. Curriculum is strongly aligned to Trivium-based structure with Omnibus cross-curricular work, but it does not always present explicit Great Books or explicit language around “living curriculum” for faculty in public pages. Parent/community signals exist but are not uniformly foregrounded as co-teaching partnerships in public-facing materials. Taken together, the school demonstrates substantial classical features but lacks a small number of explicit canonical signals, resulting in an overall SOMEWHAT CLASSICAL designation.

What would move the needle

- For Element 3 (Curriculum): Add explicit Great Books/Great Conversation language and a clearly articulated Great Books reading list and rationale on the public site. Publicly foreground a formal “Seven Liberal Arts” curriculum with explicit Quadrivium/Trivium mappings, and demonstrate how history is taught as a connected, not merely social-studies oriented, discipline with direct examples.
- For Element 5 (Faculty): Publish a formal “Portrait of the Teacher” and a concise statement describing the faculty as the living curriculum, with explicit teacher-formation expectations (professional development in classical pedagogy, mentor-ship expectations, and community expectations). Include statements about teacher character and professional formation grounded in classical ideals.
- For Element 6 (Parents & Community): Increase explicit language about parent partnership as co-educators (co-teachers) and provide structured opportunities for parent formation (book studies, family liturgies, parent evenings) beyond homeschool offerings. Publicize open-campus/visit policies and family engagement events to emphasize community integration.

ABSTRACT

- The evaluation of Eukarya Christian Academy (Stephens City, VA, 22655), using the classical rubric, finds a robust classical orientation in Religious & Metaphysical Foundations, School Purpose & Goal, and Pedagogy, with explicit Trivium framing, Christian worldview integration, and contemplative plus dialogic teaching methods. Curriculum signals align with Trivium-based structure and cross-curricular integration but are less explicit about canonical Great Books participation. Faculty and Parent/Community signals exist, but public-facing language around the living-curriculum faculty portrait and formal parent-as-co-teacher partnerships is partial. Overall, the school is BEST FIT as SOMEWHAT CLASSICAL, with strong classical signals in several core domains and opportunities to strengthen explicit canonical elements and parent-community engagement to move toward CLASSICAL.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
