INSTITUTE

Six Elements of Classical Education School Website Audit

School: Faith Academy of Wichita

School Website: <https://www.faithacademywichita.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Faith Academy of Wichita (67205) presents itself as a Christ-centered, classical-leaning private school. Public materials on the school's site emphasize a Christian formation orientation, partnership with families, and liturgical elements such as chapel and church involvement. The school also hosts a program called "The Well," expressly designed to serve students with special needs within a Christ-centered framework, and it emphasizes weaving biblical truth into every part of the learning journey. This demonstrates clear Religious and Metaphysical Foundations and a formation-focused School Purpose.

However, explicit, public articulation of core classical curricular elements (e.g., the Seven Liberal Arts with grammar, logic, and rhetoric; Great Books/Great Conversation; a history curriculum integrated across subjects; and explicit Socratic pedagogy or scholé practices) is not evident in the publicly accessible pages provided by the crawl. As a result, while the school communicates a classical and Christian orientation, the public materials do not reliably confirm the full set of Classical criteria in the Curriculum and Pedagogy categories. Consequently, the overall assessment tilts toward NOT CLASSICAL, with Element 1 and Element 2 showing clear Classical orientation, Element 6 showing partial alignment, and Categories 3–5 lacking explicit evidence of classical curriculum and pedagogy in the public materials.

Key takeaways: - Strong Religious and Metaphysical Foundations (Christ-centered; liturgical/communal elements; biblical framing) evidenced in site text (e.g., Christ-centered language, chapel, local church integration) - Clear formation-focused goals (mind/heart shaping; faith, wisdom, character) indicated in public materials - Public curricular/pedagogical details that would firmly classify the school as CLASSICAL (e.g., Great Books, grammar/logic/rhetoric, Socratic inquiry, scholé) are not clearly documented on the accessible public pages - Parent/community partnership is present in public language, meeting some elements of the classical model (Element 6) but without full explicit parent-formation language in the public materials

Executive Summary — Element-by-Element Snapshot - Element 1: Religious and Metaphysical Foundations — CLASSICAL - Element 2: School Purpose and Goal — CLASSICAL - Element 3: Curriculum — NOT CLASSICAL - Element 4: Pedagogy or Teaching Methods — NOT CLASSICAL - Element 5: Faculty — NOT CLASSICAL - Element 6: Parents & Community — SOMEWHAT CLASSICAL

What would move the needle section is included for the SOMEWHAT category (Element 6). If you'd like, I can expand concrete, actionable moves to push more categories toward CLASSICAL across Curriculum, Pedagogy, and Faculty.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - Public materials describe Faith Academy as a Christ-centered, classical education that shapes minds and hearts, with faith, wisdom, and character described as flourishing outcomes. This signals transcendental moral realism and a theologically-infused framework. - The Well program explicitly frames learning within biblical truth, Christian formation, and church-community partnerships, with emphasis on spiritual/emotional care and chapel activities. - Language about partnering with the local church and weaving biblical truth into learning reinforces liturgical and communal practices.

Positive/Negative Keyword Analysis - Positive keywords present: Christ-centered, biblical truth, local church, chapel, Christian formation, liturgical/chapel-related concepts, spiritual care. - Negative keywords: None evident in the public materials (no secular/humanist signals observed in the visible content).

Why this rating - The school's public materials foreground a religious/metaphysical framework (Christ-centered, biblical truth, liturgical elements) that aligns with the Positive/Negative indicators for this category in the Six Essential Elements lexicon. The presence of chapel, church integration, and biblically framed learning supports a CLASSICAL assessment for this category.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The site's core framing emphasizes formation of faith, wisdom, and character, i.e., formation over mere information; a telos toward virtue and human flourishing is implied by "shapes minds and hearts" and "faith, wisdom, and character flourish." - The alignment with a classical mission is reinforced by the stated aim of a Christ-centered, classical education, which commonly maps to classical purposes of virtue, truth, and beauty in the classical rubric.

Positive/Negative Keyword Analysis - Positive keywords present: formation, virtue/character (implied by "character flourish"), wisdom, telos (implicit through formation toward virtue), true/good/beautiful (implied by the classical framing, biblical truth, and virtue formation). - Negative keywords: None observed in public materials (no emphasis on work-readiness, workforce metrics, or utilitarian/careerism in the visible text).

Why this rating - The materials foreground formation, virtue, wisdom, and a teleological orientation consistent with classical aims. While explicit language about "true, good, beautiful" and the explicit phrasing of "telos" aren't always stated, the formation-centered language and virtue emphasis justify CLASSICAL in this category.

Element 3: Curriculum — NOT CLASSICAL

Evidence - Public pages emphasize a Christ-centered, classical education but do not clearly enumerate the core liberal-arts curriculum (grammar, logic, rhetoric) or the seven liberal arts, great books, Great Conversation, or an integrated history-driven approach. There is limited explicit articulation of Great Books, primary sources, or the Great Conversation on the accessible site content. - "A Day in the Life" and "The Well" materials emphasize personalized instruction, arts, chapel, field trips, and a Christ-centered approach rather than explicit liberal-arts curriculum articulation.

Positive/Negative Keyword Analysis - Positive keywords present: classical education phrase appears, but explicit curricular items such as liberal arts (grammar/logic/rhetoric), Great Books/Great Conversation, and integrated history are not clearly listed in the public materials. - Negative keywords present: No explicit mention of a non-classical or secular curriculum.

Why this rating - While the school markets itself as "classical," the publicly accessible content does not affirmatively list the standard classical-curriculum elements (grammar/logic/rhetoric; Great Books; Great Conversation; history as integrated across disciplines). Therefore, this category cannot be confidently rated CLASSICAL based on the available public material; it aligns more with NOT CLASSICAL for explicit curricular content, with some classical framing implied by branding.

Element 4: Pedagogy or Teaching Methods — NOT CLASSICAL

Evidence - Public materials describe a formation-focused, Christ-centered approach but do not provide explicit evidence of classical pedagogy such as Socratic seminars, memorization/narration, chanting, scholé practices, or upper-school rhetoric and oratory training in the accessible content. The presence of “The Well” program centers on individualized instruction and faith integration rather than explicit classical pedagogy. - The site highlights personalized instruction and partnering with families, but there is no explicit, publicly documented use of classical teaching methods (e.g., long-form dialogue, memorization drills, or structured classical memory work) in the visible content.

Positive/Negative Keyword Analysis - Positive keywords present: elements of restfulness or contemplative tones are not overtly described; there is an emphasis on a nurturing environment (which could align with some Scholé ideas in a broad sense) but explicit terms like “Socratic,” “narration,” “recitation,” “chanting,” or “scholé days” are not present. - Negative keywords present: none evident in the public pages, but the absence of explicit classical pedagogy signals reduces alignment.

Why this rating - The public content does not provide clear documentation of classical pedagogy (Socratic dialogue, memory work, recitation, or rhetoric instruction) and emphasizes personalized instruction within a faith-based framework. That combination does not meet the explicit Pedagogy criteria in the classical rubric as evidenced in the accessible material, hence NOT CLASSICAL for this category.

Element 5: Faculty — NOT CLASSICAL

Evidence - Public pages do not present a detailed “living curriculum” concept or a faculty portrait, nor do they describe teachers as model virtuosos or a collegial faculty culture in the way classical schools often articulate. The accessible content centers on the school mission, programs, and experiences rather than a clear faculty-culture narrative.

Positive/Negative Keyword Analysis - Positive keywords present: none clearly identifiable in the accessible public materials (no explicit “living curriculum,” “portrait of a teacher,” or “faculty as mentors” statements). - Negative keywords present: none explicitly present, but lack of classical-faculty language reduces alignment.

Why this rating - Without publicly documented evidence of a classical-faculty model (e.g., model teachers, living curriculum, collegiality, or a defined “teacher portrait”), Element 5 does not meet the Classical criterion based on the visible content. Therefore, NOT CLASSICAL for this category.

Element 6: Parents & Community — SOMEWHAT CLASSICAL

Evidence - The school explicitly notes partnership with families and local church in at least some materials: “We work closely with families, caregivers, and the local church to surround every child with spiritual and emotional care,” and “chapel, and field trips” are part of the learning journey. This demonstrates a family-school partnership and community integration. - The site also presents a pathway for visiting/admissions and involvement through community events and campus experiences (evidence of openness to family engagement via visit scheduling and admissions information). While not all elements of classical-parent engagement are spelled out (e.g., formal parent formation programs or explicit “parents as co-teachers” language), the partnership language and open-campus vibe align with some Positive Keyword indicators for this category.

Positive/Negative Keyword Analysis - Positive keywords present: partnership with families; local church; parental/guardian involvement in care and learning; worship/chapel; community integration. These map to the positive indicators around Parents & Community (e.g., “partnership with parents,” “parent formation,” “open campus”). - Negative keywords present: not evident in public materials; however, explicit parent-formation programs or “parents as co-teachers” are not clearly documented in the accessible pages. The absence of explicit “parent formation” language reduces this to a partial alignment rather than full CLASSICAL alignment.

Why this rating - The public materials demonstrate a substantive partnership with families and church-community integration, which supports SOMEWHAT CLASSICAL in this category. The absence of explicit parent-formation programming in the accessible content lowers it from CLASSICAL to SOMEWHAT CLASSICAL.

What Would Move the Needle

- For Element 3 (Curriculum): Publicly articulate explicit liberal-arts curriculum details (grammar, logic, rhetoric; Great Books; history integrated across disciplines; reference to Great Conversation) in site content and admissions materials. This would move Element 3 toward CLASSICAL.
- For Element 4 (Pedagogy): Publish explicit references to classical teaching methods (Socratic seminars or seminars, narration/recitation, memory work, scholé days, and upper-school rhetoric opportunities) to align public messaging with classical pedagogy. This would move Element 4 toward CLASSICAL.
- For Element 5 (Faculty): Highlight faculty as mentors and living curriculum (portrait of a teacher, distinguished teacher profiles, collaborative professional development, and a culture of collegiality). Explicit statements about teachers as exemplars of virtue and scholarship would move Element 5 toward CLASSICAL.
- For Element 6 (Parents & Community): Expand public language to include formal parent formation opportunities (book studies, parent seminars, family liturgies) and explicit statements that parents are co-teachers and welcomed on campus at virtually any time. This would push Element 6 toward CLASSICAL and positively impact the aggregate.

Note: The current evidence supports strong Religious and Metaphysical Foundations and School Purpose alignment, with more limited explicit public articulation of the standard classical Curriculum and Pedagogy components. The aggregate rating based on the six category evaluations is NOT CLASSICAL, with Element 6 offering partial alignment (SOMEWHAT CLASSICAL) but the majority of categories not meeting the full classical criteria based on publicly accessible materials.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
