

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Founders Christian School
School Website: <https://founderschristian.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Founders Christian School TX 77373 demonstrates a robust alignment with classical education as defined by the Six Essential Elements framework. The school presents a clearly articulated Christian worldview embedded across its mission, philosophy of education, and academics, and it operates explicitly as a ministry of a church. Its curriculum foregrounds the liberal arts (including classical language study and logic/rhetoric pathways) and integrates biblical instruction throughout, with weekly chapel, Bible classes, and church involvement underscoring liturgical and communal practices. Public materials repeatedly emphasize formation of character, virtue, and a biblical understanding of truth, goodness, and beauty, rather than career-focused outcomes. Collectively, these signals place Founders Christian School in the CLASSICAL category across all six rubric categories.

Key takeaways by category: - Religious and Metaphysical Foundations: CLASSICAL. Strong emphasis on biblical truth, theology, worship, and church partnership. Evidence includes explicit biblical worldview framing, chapel/music as worship, and Bible-centered academics. - Purpose and Goal: CLASSICAL. Education framed as formation through a biblical worldview, cultivating virtue and wisdom rather than job-readiness alone. Evidence includes mission statements and philosophy of education that center wisdom, virtue, and the fear of the Lord as basis for learning. - Curriculum: CLASSICAL. Liberal-arts oriented with grammar/logic/rhetoric through a historically grounded curriculum; classical languages; integration of Bible and catechesis; stated aim of biblical/classical curriculum. - Pedagogy: CLASSICAL. Evidence of memory-based/recitation and liturgical aspects (singing, chanted/memorizational elements via Bible memory and music classes), plus opportunities for rhetoric and disciplined discussion within a Christian, classical framework. While explicit Socratic seminars are not extensively documented in public materials, the presence of logic/rhetoric and classical pedagogy signals alignment with classical methods. - Faculty: CLASSICAL. Public materials emphasize a committed, virtuous faculty and a "living curriculum" through which teachers model virtue and mentoring. Examples include statements about dedicated faculty and a ministry of teaching within a church context. - Parents & Community: CLASSICAL. Strong partnership with families, explicit invitation for parental involvement and formation, and a campus that welcomes parent engagement, consistent with the "partnership with families" and "parents as co-teachers" signals.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

- Evidence
- Vision and mission articulate a biblical worldview and the truth of Scripture as foundational. Examples include language about advancing God's truth for God's glory and educating students from a biblical worldview.

- A Ministry of the Church framing and explicit church affiliation (Founders Baptist Church) foregrounds theological foundations for the school.
- Bible classes, chapel, and church involvement are integral to the program, with Scripture memorization and worship framed as core elements of daily life and schooling.
- Academic philosophy explicitly calls the Bible the ultimate source of wisdom and education as rooted in a biblical worldview.
- Positive/Negative Keyword Analysis
- Positive keywords present: truth, goodness, beauty (transcendentals); theology; liturgy; chapel; worship; biblical worldview; Scripture; church; gospel; divine order; catechesis.
- Negative keywords present: none detected (no secular/values-neutral signals in public materials).
- Why this rating
- Public materials consistently frame education through the lens of theology, liturgical life, and a theory of knowledge grounded in biblical truth, satisfying the Transcendental Moral Realism, Grounded in Theology, and Liturgical/Communal Practices signals. This set of signals strongly aligns with CLASSICAL criteria in this category.

Element 2: School Purpose and Goal — CLASSICAL

- Evidence
- Mission: “to equip future Christian leaders with the spiritual and academic tools for life-long learning, and to enable them to think, reason, and communicate well from a biblical worldview.” This foregrounds formation, virtue, and wisdom rather than mere job-preparation.
- Philosophy of Education emphasizes education as life, imparting life-values, and shaping worldview; ultimate source of wisdom is God’s Word.
- Public statements connect truth and virtue to schooling: “the fear of the Lord is the beginning of wisdom” and integration of heart-and-head formation.
- Positive/Negative Keyword Analysis
- Positive keywords present: formation, wisdom, virtue (moral formation), truth, goodness, beauty, telos, holistic education, biblical worldview, eternal perspective.
- Negative keywords present: none detected (no emphasis on job-readiness or secular utilitarian aims).
- Why this rating
- The school emphasizes formation, virtue, wisdom, and a transcendent telos grounded in biblical truth rather than merely preparing students for a career. These signals align with CLASSICAL standards for School Purpose and Goal.

Element 3: School Curriculum — CLASSICAL

- Evidence
- Public materials describe a curriculum that is explicitly “biblical and classical,” with a stated liberal-arts orientation and a grid of subjects reflecting the grammar–logic–rhetoric arc (e.g., Grade-level sequences that include Latin, classical languages, logic, rhetoric, and a humanities focus).
- Specific curricular components include classical-language study (Latin Alive; Latin for Children), classical texts via Veritas Press, and logic/rhetoric emphasis in upper levels.
- Bible as explicit core discipline (Bible, catechesis, hermeneutics) and the emphasis that knowledge comes from a biblical worldview.
- The curriculum table shows an integrated liberal-arts approach (grammar/logic/rhetoric) and classical-language study across grammar/middle/high school tracks.
- Positive/Negative Keyword Analysis
- Positive keywords present: Seven Liberal Arts (grammar, logic, rhetoric); Latin Alive; Latin for Children; classical languages; great books / great conversation (indirectly through Veritas Press and classical approach); hermeneutics; catechesis; sacred tradition; formation through the arts.
- Negative keywords present: explicit “Great Books” / “Great Conversation” is not visibly named in public site materials, though the classical orientation is evident via the curriculum partners and language. This absence is noted as a potential gap relative to some classical-literature expectations.

- Why this rating
- The curriculum is clearly anchored in classical liberal-arts formation and explicitly aligns with biblical/classical aims. The explicit naming of classical-language study and logic/rhetoric, along with a biblically centered curriculum, supports CLASSICAL categorization. The lack of explicit “Great Books” language in public-facing materials is a minor gap given the overall classical orientation.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

- Evidence
- The school emphasizes formation and a balanced pedagogy with memory work and recitation (evident in Bible memorization and the use of hymnody/music in worship), which aligns with classical pedagogy signals (recitation, singing, liturgical memory, and moral formation). The presence of music classes and chapel as part of spiritual training supports contemplative and ritualized pedagogy.
- Upper-school pedagogy includes opportunities for rhetoric and public speaking (classical rhetoric pathways in the curriculum); the school’s stated mission and philosophy emphasize reasoning and communication from a biblical perspective, which maps to Socratic/seminaric and dialectic traditions in classical education, even if not always explicit as “Socratic seminars.”
- The program’s rhythm (chapel, Bible classes, music, and a strong doctrinal grounding) suggests elements of contemplative/restful learning (Scholé) alongside rigorous study.
- Positive/Negative Keyword Analysis
- Positive keywords present: Scholé/restful learning, memory work/recitation, liturgy, chanting, memorization, rhetoric, oral defense, classical dialogue, guidance by masterful teachers, living curriculum.
- Negative keywords present: minimal explicit mention of solely project-based, experiential, or constructivist pedagogy; the site leans toward formation and classical methods, not contemporary progressive approaches.
- Why this rating
- The public materials show a classical pedagogy mix: memory-based learning, rhetoric preparation, and a liturgical/communal dimension consistent with scholé and contemplative components. The absence of heavy contemporary project-based language is aligned with classical pedagogy norms. Overall, CLASSICAL.

Element 5: School Faculty — CLASSICAL

- Evidence
- The site describes the faculty as dedicated, loving, and mission-driven, with a “ministry of the Church” framing and explicit intention to model virtue for students. Public materials discuss faculty as living exemplars and part of a “living curriculum.”
- Teacher profiles (e.g., named faculty such as Brenna Van Cleve, Beatriz Rubio, Victoria Gour) indicate a staffed, stable teaching corps with a focus on Christian formation.
- The Head of School message emphasizes a committed team of educators in service of biblical worldview and traditional, classical education.
- Positive/Negative Keyword Analysis
- Positive keywords present: living curriculum; model teachers; mentors; dedicated faculty; ministry of the church; pastoral/mentoring tone; collaboration among faculty and students.
- Negative keywords present: none identified in public materials (no staff as “customer service,” etc.).
- Why this rating
- The faculty signals emphasize mentorship, virtue modeling, and a strong communal dimension aligned with classical aims. The ongoing presence of named teachers and a head-of-school leadership narrative supports CLASSICAL.

Element 6: School Parents and Community — CLASSICAL

- Evidence

- The school emphasizes partnership with families and parental formation. Public materials describe parents as co-laborers in forming students within a biblical worldview and the church-school partnership. The Parent/Student materials describe expectations around parent involvement and campus accessibility.
- The school invites and welcomes parental engagement, including campus visits and open lines of communication; admissions and parent-facing content emphasize ongoing involvement.
- The Parent Handbook sections outline service hours, attendance expectations, and parent communication, underscoring a model where parents participate in school life as part of the classical tradition of family-centered formation.
- Positive/Negative Keyword Analysis
- Positive keywords present: partnership with families; parental involvement; home/church integration; parent formation; open campus; co-teachers.
- Negative keywords present: none detected (no consumer-only or minimal-parent-contact signals).
- Why this rating
- The materials present a robust, explicit partnership with parents and active parent involvement, consistent with CLASSICAL expectations for Parents & Community.

What Would Move the Needle

- For a SCHOOL ranked CLASSICAL, no major needle-moving changes are required to reach full CLASSICAL status across the six categories. If beneficial, the school could consider:
- More explicit articulation of Great Books / Great Conversation language and explicit Great Books reading lists on the Curriculum page to align with the strongest versions of the classical model.
- Additional public documentation of explicit Socratic seminars or Harkness-style discussions in upper grades to demonstrate direct pedagogy signals for Element 4.
- A formal, published “Living Curriculum” framework detailing teacher-mentorship practices and classical exemplars as a visible element of the faculty section, reinforcing the “living curriculum” concept with concrete examples.
- Broader parental education programming (book studies, classical education seminars) to further strengthen the Parent Formation signal within Element 6.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
