

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Geneva Academy
School Website: <https://genevaclassical.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Geneva Academy (West Monroe, LA, 71291) (Geneva Academy) presents a distinctly classical Christian program centered on the Trivium (grammar, logic, rhetoric), robust theology, liturgical life, and a formation-focused mission. Public materials portray the school as a Christian ministry dedicated to forming virtuous, thoughtful, and wise students who pursue truth, goodness, and beauty within a reformational classical framework. The rhetoric and evidence point toward a CLASSICAL orientation in most categories, with Element 4 (Pedagogy) demonstrating strong classical methods (memorization, singing/chanting, and grammar-logic-rhetoric) but less explicit evidence of certain traditional classical practices (e.g., Socratic seminars or scholé language) in published public materials. Overall, Geneva Academy aligns with CLASSICAL education, with Element 4 as the most notable area for potential further alignment toward a fuller classical pedagogy.

Key insights: - Religious and metaphysical foundations are explicit and foundational (Triune God, worship, liturgical life). This anchors the school in theology and sacramental imagination as central to education. - The school foregrounds formation over mere information, and emphasizes formation of character, virtue, and wisdom in its mission and vision statements. - The curriculum is clearly framed around the classical Trivium (grammar, logic, rhetoric) with references to Latin and rhetoric; the school presents a Trivium-based methodology as central. - Pedagogy includes memorization and recitation, chant, and singing in lower grades, consistent with classical pedagogy, though explicit mention of Socratic seminars or scholé in public pages is less evident. - Faculty and governance reflect classical-mentorship ethos (faculty as living curriculum, mentorship; evidence of named teachers and a culture of training and formation). - Parent and community partnership is strong, with explicit calls for parental formation, open campus ethos, and co-teaching partnerships.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — **CLASSICAL**

Evidence - Mission statements position Geneva Academy as a Christian ministry focused on worship, God-centered formation, and the Triune God, with education as worship and love directed toward God. These lines articulate transcendental aims and a sustained theological framing. - Public materials explicitly reference the Triune God, theology, and worship as integral to education; phrases such as "all education is religious" and "homo adorans" demonstrate a theology-grounded, sacramental imagination in pedagogy. - Liturgical and communal elements are echoed in the school's music program and chapel life, signaling liturgical rhythms as part of education.

Positive/Negative Keyword Analysis - Positive keywords present: theology, worship, Triune God, liturgy, sacramental imagination, virtue, moral formation, wonder, reverence. - Negative keywords present: none

detected in public materials (no explicit secular relativism, no value-neutral ethics in mission statements). - Qualitative count: multiple explicit positive indicators; near-zero negative indicators in published content.

Why this rating - The materials consistently articulate transcendental truth-claims and a theologically grounded mission, with worship and communal liturgical life embedded in the program. This aligns strongly with the Positive Keyword indicators for Transcendental moral realism, Grounded Theology, and Liturgical/Communal Practices in the classical rubric. The combination of “Triune God,” “worship,” and a clearly stated theological frame gives Element 1 a CLASSICAL rating.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The mission/vision emphasizes formation of virtuous, mature, and wise students who live according to Christian truth (formation of character and affections as primary aims). The Vision section specifically describes graduates who think clearly, discern, reason persuasively, and live truthfully in submission to God. This signals formation over job-prep or mere information-transfer. - The school frames education as forming students in virtue and truth, with direct language about forming “tough minds and soft hearts” and a cruciform life of service to God and others.

Positive/Negative Keyword Analysis - Positive keywords present: formation, virtue, wisdom, truth, beauty, contemplation, moral imagination, formation through faith, teleology, moral order, human flourishing, sanctified education, Logos, virtue ethics. - Negative keywords present: none observed in public materials; the school does not emphasize workforce-prep or secular achievement metrics in its stated purpose. - Quantitative impression: High presence of Positive keywords with minimal or no Negative keyword signals.

Why this rating - The overarching goals center on character formation, virtue, wisdom, and eternal truths, not merely job-readiness or information delivery. This aligns with the classical criteria for School Purpose and Goal as CLASSICAL.

Element 3: School Curriculum — CLASSICAL

Evidence - Public materials explicitly articulate the Trivium as central (grammar, logic, rhetoric) and reference Latin and rhetoric as core subjects, with a three-stage structure for K–12. This mirrors the Seven Liberal Arts core and the Trivium-based curriculum. - The philosophy piece notes that the Trivium reflects a classical pedagogy, with the grammar/logic/rhetoric progression and scriptural/theological grounding shaping instructional design. - The school emphasizes a formation through the arts and integration of historical-literary learning (implied through the Trinity/triune framing and a classical approach to education). While explicit “Great Books” phrasing is not repeatedly foregrounded in public site text, the Trivium-based, Latin-centered, and historically rooted approach is clearly present. - Public materials describe the Fine Arts and Music as core components, indicating a holistic curriculum that integrates disciplines and aims at beauty and formation.

Positive/Negative Keyword Analysis - Positive keywords present: grammar, logic, rhetoric, Latin, great conversation (via classical tradition), seven liberal arts, Trivium, harmonious integration, wonder, beauty, sacred tradition, primary sources/history. - Negative keywords present: none in public site materials that indicate a shift away from classical aims (e.g., “project-based dominance” or “social studies substitution”). - Quantitative impression: Multiple positive indicators; no explicit negative signals in the public materials.

Why this rating - The explicit emphasis on the Trivium (grammar, logic, rhetoric), Latin, and a historically anchored curriculum, plus the integration of beauty and sacred tradition, aligns strongly with CLASSICAL curriculum criteria. The absence of explicit “Great Books” phrasing in the public pages does not substantially detract given the clear Trivium-centric and historical framework. Therefore, Element 3 is CLASSICAL.

Element 4: School Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

Evidence - Pedagogical methods explicitly include memorization, recitation, chanting, and singing as memory-formation tools in lower grades (memory work and chant-based learning). This is a hallmark of

classical pedagogy (Scholé and memory work). - Public materials describe the Trivium as the preferred method, with grammar, logic, and rhetoric guiding instruction across the grades. This aligns with classical pedagogy, e.g., structured progression from grammar to logic to rhetoric. - Upper-school pedagogy (Socratic seminars, debates, or rhetoric training) is not explicitly evidenced in the public site text; while the school emphasizes rhetoric and the three-fold Trivium, explicit statements about Socratic discussions or frequent upper-school seminars are not clearly shown on the public pages. This gap is a notable deviation from a fully classical pedagogy as described in the core document. - Additional elements such as liturgical music and ritualized chapel experiences reflect a classical pedagogy that integrates virtue and formation, but the absence of explicit public notes on Socratic seminars creates a partial alignment.

Positive/Negative Keyword Analysis - Positive keywords present: scholé, contemplation, memory work, recitation, chanting, singing, rhetoric, logic, grammar, memorization, great conversation (through classical tradition). - Negative keywords present: experiential learning focus, project-based learning, student-directed learning, and other terms associated with non-classical approaches are not prominently indicated in public texts; however, there is a lack of explicit mention of Socratic seminars or Harkness-style discussions in the public-facing materials. - Net: A solid classical pedagogy core is present (grammar–logic–rhetoric, memorization, chant) but with less explicit evidence of full Socratic/Scholé-based upper-school pedagogy in published pages.

Why this rating - The school clearly embraces classical pedagogy fundamentals (grammar-logic-rhetoric; memory work; liturgical/aftermath approach). However, the public materials do not consistently demonstrate explicit Socratic seminars or a fully articulated scholé framework across the upper grades. This places Element 4 at SOMEWHAT CLASSICAL, reflecting strong classical elements with room for fuller explicit Socratic/Scholé articulation in public communications.

Element 5: School Faculty — CLASSICAL

Evidence - The mission/vision and policy-language emphasize teachers as mentors and the living curriculum, with a focus on character formation and virtuous teaching. The materials describe a culture of mentoring, professional formation, and teachers who model virtue. - Public materials indicate ongoing professional formation and mentorship roles for faculty, and the leadership language stresses a teacher-centered approach to education, including a commitment to classical pedagogy and to training teachers in classical methods. - Visible examples include faculty additions and leadership in announcements (e.g., new teacher hires and scholarships) that illustrate a cultivated faculty culture and ongoing development.

Positive/Negative Keyword Analysis - Positive keywords present: mentors, living curriculum, teacher as exemplar, classical pedagogy, vocation, virtue, model teachers, pastoral/mentoring roles, professional development. - Negative keywords present: none evident in public materials. - Quantitative impression: Multiple positive indicators, no explicit negative signals in public materials.

Why this rating - The public-facing materials consistently describe a faculty culture that aligns with classical teaching ideals (mentorship, living curriculum, professional development, virtuous exemplars). This supports CLASSICAL for Element 5.

Element 6: School Parents & Community — CLASSICAL

Evidence - The school presents a strong parent-partnership model, describing parents as co-educators and emphasizing formation of parents through the school website, book studies, gatherings, and other activities. The public materials explicitly mention partnering with parents and forming parents to participate in classical education. - The school emphasizes welcoming parents for visits and open-campus practices (as part of a culture of parental involvement). The handbook and policy materials also emphasize communication and involvement of families in the educational mission. - The site discusses cultural transmission, Western heritage, and classical tradition as core values passed to families and students, aligning with the “partnership with families” and “formation of affections” themes in the Six Essentials.

Positive/Negative Keyword Analysis - Positive keywords present: partnership with families, co-teachers,

parental engagement, family formation, home-and-school connection, classical family culture, parental formation, culture transmission. - Negative keywords present: none evident in public materials. - Quantitative impression: Strong presence of positive keywords; no negative indicators.

Why this rating - Geneva Academy publicly frames parents as co-educators and emphasizes ongoing parent formation and strong school-parent partnerships, consistent with CLASSICAL in Element 6.

Aggregate Assessment

- Element 1: CLASSICAL
- Element 2: CLASSICAL
- Element 3: CLASSICAL
- Element 4: SOMEWHAT CLASSICAL
- Element 5: CLASSICAL
- Element 6: CLASSICAL

Overall, Geneva Academy (West Monroe, LA, 71291) is CLASSICAL. The strongest alignments are in Religious/Metaphysical Foundations, School Purpose/Goal, Curriculum (Trivium, Latin, history integration), Faculty, and Parents & Community. The Pedagogy category shows a robust classical core (recitation/chant/memory, Trivium) but lacks explicit public documentation of fully articulated Socratic seminars scholé language across all grades, hence the one area with a partial alignment (SOMEWHAT CLASSICAL).

What would move the needle (only relevant if SOMEWHAT CLASSICAL) - If selected as an explicit public articulation, publish clear language about scholé and contemplative pedagogy (Scholé) across grades, including explicit references to Socratic seminars in upper grades. - Add explicit statements about Great Books and Great Conversation in curriculum materials to reinforce the classical canon and direct engagement with primary sources. - Highlight formal Socratic or Harkness-style discussions in the upper school to deepen the dialectic component of the Trivium. - Strengthen explicit mentions of formal “lesson study” for teachers that ties living curriculum to concrete classroom practice.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
