

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Grace Point Academy
School Website: <https://gracepointnw.org>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Grace Point Academy WA 98022 (GPA) presents a publicly visible profile that strongly foregrounds classical, Christian education, anchored by Hillsdale College's classical curriculum and a mission framed around formation, virtue, and the pursuit of truth, goodness, and beauty. The school positions itself as part of Grace Point Northwest and emphasizes partnering with families to educate toward a life of purpose, faith, and service to God and others. Public materials also emphasize a worshiping, church-connected community (liturgical/communal life) and explicit parent engagement as part of the school's ethos. Taken together, GPA demonstrates a Classical Christian orientation with clear teleology (formation toward virtue and wisdom) and a commitments to a shared spiritual milieu. However, explicit pedagogical methods associated with classical education (e.g., Socratic seminars, scholé, memorization/recitation, living curriculum) are not overtly described in the GPA materials, particularly for the lower grades. On balance, GPA is best described as **SOMEWHAT CLASSICAL**, with strong classical and theological framing and clear parent/community partnership, but less explicit documentation of canonical classical pedagogy in public-facing materials than the fullest classical model prescribes.

Key implications by category (high level):

- Religious and Metaphysical Foundations: Strong presence of theological framing and sacred language (Classical Christian, truth/virtue/beauty in a sacred frame; liturgical/community life implied via church affiliation). **CLASSICAL/STRONG** alignment.
- Purpose and Goal: Clear formation-oriented telos (virtue, wisdom, life of purpose). **CLASSICAL** alignment.
- Curriculum: Explicit use of Hillsdale College's classical curriculum; emphasis on classical orientation. **SOMEWHAT CLASSICAL** alignment (strong alignment, but with less overt Great Books/explicit Great Conversation language in public-facing text).
- Pedagogy: Public materials do not clearly articulate Socratic/seminar or scholé practices; lower grades' pedagogy not well documented. **NOT CLASSICAL** (based on explicit articulation gap) but could be considered **SOMEWHAT CLASSICAL** if one accepts Hillsdale's framework as encompassing classic pedagogy.
- Faculty: No explicit public-facing statements about teachers as "living curriculum" or mentorship models. **NOT CLASSICAL** (insufficient evidence in public materials).
- Parents & Community: Strong emphasis on partnership with families and open, welcoming community; explicit parental involvement in formation and events. **CLASSICAL** alignment.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — SOMEWHAT CLASSICAL**Evidence**

- GPA public materials label Grace Point Academy as a Classical Christian school and emphasize formation anchored in truth, goodness, and beauty, with a telos beyond mere credentialing (e.g., “education rooted in truth, goodness, and beauty—preparing students not just for college or career, but for a life of purpose, faith, and service to God and others”).
- The public materials connect GPA to a church context (Grace Point Northwest), including worship and church-life elements, implying liturgical/community practices as part of the broader ecosystem. This is visible in church-related pages (e.g., “We are the church,” worship/service content and community events).
- Public materials consistently frame the curriculum and mission in explicitly theological terms (Classical Christian, Hillsdale classical curriculum, truth/goodness/beauty).

Positive keyword analysis

- Positive indicators present: truth, goodness, beauty; virtue; Christian/theology language; classical education framing; liturgical/community life via church context; mission oriented toward faith and service.
- Cited phrases include: “classical curriculum,” “Classical Christian school,” and “rooted in truth, goodness, and beauty,” along with explicit church-context cues.

Negative keyword indicators

- None detected in the public-facing GPA materials for this category.

Why this rating

- The school explicitly positions itself within a theological/classical framework and ties education to sacred aims (truth, goodness, beauty) and church life. The absence of explicit, detailed liturgical practices within GPA’s own pages does not negate a strong liturgical/theological orientation given the church affiliation and explicit theological framing. The combination supports a CLASSICAL foundation with theological grounding, but the explicit articulation of liturgical routines or transcendence-centered practices beyond church context is not as clearly demonstrated in the GPA materials as some classical schools show. Hence, SOMEWHAT CLASSICAL rather than purely CLASSICAL.

Citations: The Hillsdale/classical-Christian framing and purpose statements appear directly in GPA materials. The church-context evidence (liturgical/community life) is visible in Grace Point Northwest materials.

Element 2: School Purpose and Goal — CLASSICAL**Evidence**

- Public materials assert formation as the primary aim, emphasizing cultivation of wisdom, virtue, and a love for learning, and explicitly state education rooted in truth, goodness, and beauty, with a teleology toward a life of purpose, faith, and service. This is a formation-centered statement rather than job-prep only.

Positive keyword analysis

- Positive indicators present: formation, virtue, wisdom, liberal education/paideia framing (as part of classical aims), truth/goodness/beauty as real aims, teleology/yet-to-be-actualized human flourishing, life of purpose.
- Direct phrases: “cultivating wisdom, virtue, and a love for learning”; “education rooted in truth, goodness, and beauty—preparing students not just for college or career, but for a life of purpose, faith, and service to God and others.”

Negative keyword indicators

- None detected in public GPA materials for this category.

Why this rating

- The emphasis on formation and a teleological understanding of education (truth/goodness/beauty, life of purpose) fits the Classical framework's Element 2 criteria very well. The explicit contrast to workforce-prep language (noting life of purpose and service) further supports a Classical orientation in terms of aim and telos.

Citations: Key phrases with formation and teleology are direct quotes in GPA public copy.

Element 3: School Curriculum — SOMEWHAT CLASSICAL

Evidence

- GPA explicitly uses Hillsdale College's classical curriculum, signaling a classical curricular framework. The site also communicates "Preschool-7th Grade," indicating a K–8 model with a classical spine. The explicit Great Books/Great Conversation language is not visible in the public GPA copy; the public materials emphasize the Hillsdale classical curriculum rather than detailed Great Books/narrative pedagogy.

Positive keyword analysis

- Positive indicators present: Hillsdale College classical curriculum; Classical school identity; mentions of "classical curriculum."
- Direct phrases: "...the Hillsdale College classical curriculum. As a Classical Christian school..." and "Preschool-7th Grade."

Negative keyword indicators

- The public-facing materials do not consistently reference Great Books, Great Conversation, or explicit seven liberal arts (grammar/logic/rhetoric, quadrivium) language. The absence of these explicit benchmarks reduces the example from a full canonical Classical curriculum to a strong classical orientation.
- No explicit "Great Books/Great Conversation" or direct listing of Trivium/Quadrivium appears in the public GPA materials.

Why this rating

- The curriculum evidence is strong (explicit Hillsdale classical curriculum), but the lack of explicit mention of the canonical Great Books, Great Conversation, and a more detailed seven-liberal-arts articulation in public materials moves the assessment from CLASSICAL toward SOMEWHAT CLASSICAL. The public materials do not provide enough explicit, category-wide evidence for all six curriculum criteria to be considered fully CLASSICAL, though the classical spine is clear.

Citations: The Hillsdale-classical curriculum language is the anchor here.

Element 4: Pedagogy or Teaching Methods — NOT CLASSICAL

Evidence

- Public GPA materials describe a classical curricular framework but do not provide explicit evidence of core classical pedagogical practices such as Socratic seminars, scholé (restful learning), memorization/recitation, or formation through imitation as a central, documented method in the lower grades. The public-facing content lacks explicit statements about these methods in the K–8 path. The presence of a classical curriculum does not by itself guarantee classical pedagogy when the teaching methods are not documented in public materials.

Positive keyword analysis

- Positive indicators (if present) would include: Socratic dialogue, scholé, memorization/recitation, chanting, and a teacher-led living curriculum.
- In GPA public materials, these terms are not clearly evidenced.

Negative keyword indicators

- The absence of explicit orchestration of:
- Socratic dialogue and dialectic
- Scholé (restful learning)
- Memorization/recitation
- Formation through imitation and practice is notable.

Why this rating

- The category criteria emphasize explicit pedagogy aligned with classical methods. While GPA presents a classical curriculum, the public materials do not substantiate explicit pedagogical practices in the six classical elements. This gap moves the Pedagogy assessment toward NOT CLASSICAL.

Citations: The lack of explicit pedagogy statements in GPA public materials is evident in the Hillsdale-based curriculum description without a parallel pedagogy section.

Element 5: School Faculty — NOT CLASSICAL

Evidence

- Public GPA materials do not show evidence of a “living curriculum” faculty model, a portrait of what faculty should be, or a described mentor-centered, church-aligned faculty culture. There is no explicit listing of faculty as exemplars or “model teachers” in GPA’s public materials. The absence of explicit faculty-lens language makes this category unclear or not demonstrated in the public-facing materials.

Positive keyword analysis

- Positive indicators would include: living curriculum, portrait of teacher, collegial mentor culture, faculty development aligning with classical pedagogy.
- These terms do not appear in GPA’s public-facing content.

Negative keyword indicators

- Absence of explicit “faculty as living curriculum” language, or “portrait of teacher/student” language in public GPA content.

Why this rating

- The lack of explicit public material describing faculty as living exemplars or a specifically classical faculty model suggests NOT CLASSICAL for this category until more explicit materials (e.g., faculty profiles, mission statements about teacher formation, or living-curriculum language) are provided.

Citations: Public materials referencing GPA curriculum do not include explicit faculty portraits; see public GPA content describing Hillsdale curriculum.

Element 6: School Parents & Community — CLASSICAL

Evidence

- GPA places emphasis on partnering with families and providing an education rooted in truth, goodness, and beauty, highlighting parental involvement and the idea of parents as co-educators in the classical project. The materials describe partnership with families and a welcoming campus culture, and public content invites parent participation and events. This aligns with the “Partnership with Families” and “Parent Formation” positives in the classical rubric.

Positive keyword analysis

- Positive indicators present: partnership with families; parent formation; open campus; community and parent involvement; shared mission; household rhythms (as a possible alignment with classical-education culture).

- In GPA materials: “to partner with families to provide an education rooted in truth, goodness, and beauty” and public-facing openness (plan your visit, events, etc.).

Negative keyword indicators

- None detected in the public GPA materials for this category.

Why this rating

- GPA's materials emphasize family partnership and community welcome, which matches the classical element of parents as co-teachers and a community-cultivating environment. The explicit call for family involvement and openness supports CLASSICAL alignment for this category.

Citations: The parent/community language appears in the GPA public copy emphasizing partnership with families and a family-friendly, welcoming environment.

Overall classification and aggregate assessment

- Classical components present: Religious/Theological framing; formation-focused purpose; explicit classical curriculum framing (Hillsdale classical curriculum); strong family/parent/community alignment.
- Gaps: Detailed classical pedagogy (Socratic, scholé, memory/recitation, living curriculum) and explicit faculty formation language are not publicly documented in GPA's materials.

Aggregate ranking: SOMEWHAT CLASSICAL

- Rationale: GPA clearly embodies classical, Christian formation and a curricular spine, with strong teleology and parent/community engagement. However, explicit pedagogy and faculty archetypes central to a full classical model are not publicly evidenced to the same degree, and some canonical classical pedagogy markers are not described in public materials. The school's classical identity is strong but not exhaustively documented in all six categories.

What would move the needle

- Public articulation of classical pedagogy:
- Add explicit statements or a dedicated section describing Socratic dialogue, Scholé (restful learning), memorization/recitation, and formation through imitation as core methods (especially in grades K–8, with a high-school articulation as appropriate).
- Include concrete examples of upper-grade seminars, debates, or rhetoric experience, with examples of student speeches and rhetorical practice.
- Greater Great Books/Great Conversation language:
- Include explicit references to Great Books, great conversation, and canonical texts in the curriculum description, outlining how primary sources and classical authors are integrated across disciplines.
- Living curriculum for faculty:
- Provide explicit language about the faculty as living curriculum, portraits of teachers, and a culture of collegial mentorship aligned with classical formation.
- Expanded evidence of integration:
- Document the integration of the Trivium (grammar, logic, rhetoric) and Quadrivium elements into concrete lesson structures and assessments, including memory work and recitation as a formal element.
- Strengthen parent formation programs:
- Expand parent formation offerings (book studies, seminars) and publish a regular calendar of parent-focused classical-education events to reinforce parental partnership as co-educators.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
