

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Grove City Christian Academy
School Website: <https://grovecitychristianacademy.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Grove City Christian Academy (GCCA) presents a robust Classical Christian profile across its public-facing materials. The school foregrounds a Christian worldview integrated with classical education through the Trivium (grammar, logic, rhetoric), a strong emphasis on Great Conversations with classical authors, and explicit reference to Latin study, rhetoric, and foundational liberal-arts training. Public materials repeatedly describe GCCA as "a Christian education in the classical tradition" and emphasize a community oriented around Christ, Scripture, and worship-like practices, with notable acknowledgment of Great Books/Great Conversation and the Great Conversation as central to its identity. The school also highlights parent leadership and partnership, a multi-campus structure, and a history rooted in classical Christian pedagogy. Taken together, these signals align GCCA with a Classical education model in a way that meets core criteria across multiple categories.

- Evidentiary anchors include explicit statements about Christ-centered, Word-of-God grounded education, the Trivium, Great Conversation with Homer, Dante, Augustine, Tolkien, Lewis, and the Great Books tradition, and a clearly stated formation-focused aim (learning for a lifetime; virtuous formation through rhetoric and logic). See sources describing the Christian/framework base, Trivium and Great Conversation, and explicit references to Latin, logic, rhetoric, and classical literature.
- The organization also shows a strong parental-partner model (Parent-Sponsored; parent board governance), which aligns with the classical emphasis on the partnership between family and school in the formation of character.
- At a glance, GCCA demonstrates consistent alignment with the classical rubric's core elements (religious/metaphysical, formation-focused purpose, Trivium-based curriculum, contemplative/rigor balance in pedagogy, clearly defined faculty/community norms, and active parent/community engagement).

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — **CLASSICAL**

Evidence - GCCA explicitly presents a Christ-centered, Word-of-God grounded education and frames its work as Christian formation within a classical framework (e.g., "A Christian education in the classical tradition," "Christ-centered education," and "the Word of God"). - Colossians 1:16-17 is cited as part of the school's worldview framing, reinforcing a theologically grounded metaphysical view. - Public materials emphasize worshipful/communal expressions through music and liturgical cadence in practice (e.g., choir/musical offerings that serve spiritual aims). - Statements such as "Soli Deo Gloria" and references to a Gospel-centered mission appear in the school's public materials.

Positive/Negative keyword analysis - Positive keywords present: Christ-centered; Word of God; Colossians

1:16-17; Christian education; Great Conversation (spiritual/intellectual integration); liturgical/musical communal practice (choral expression). The keywords reflect the positive indicators of religious/metaphysical foundations (truth, goodness, beauty as rooted in a sacred order). - Negative keywords: None evident in the public materials (no explicit relativism, secularism, or value-neutral framing observed in the materials provided).

Quantitative estimate - Positive keywords present: approximately 5–6 distinct religious/metaphysical indicators identified. - Negative keywords present: 0. - Positive keyword frequency: 100% (within the identified set).

Why this rating - The school foregrounds a theologically grounded framework and explicitly ties education to Christian formation and a sacred-order worldview. This aligns with the Positive Indicators for Transcendental moral realism, Theology, Liturgical/Communal Practices, and the Logos-anchored order described in the classical rubric. The absence of explicit negative signals in the public materials supports a CLASSICAL reading for this category.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - Public materials describe formation over mere information: a focus on forming virtue and wisdom through the Trivium; education framed as formation of character and intellect, not solely job-readiness. The Great Conversation and engagement with truth, goodness, and beauty are foregrounded. - The school explicitly ties long-term formation to a lifetime of learning (education “to equip its students with the tools of learning so students can learn for a lifetime”). - The Great Conversation with canonical authors and the pursuit of the true, the good, and the beautiful are central themes.

Positive/Negative keyword analysis - Positive keywords present: formation; virtue; wisdom; Great Conversation; truth/goodness/beauty; liberal education; scholé (where invoked by the lexicon) although not all terms appear verbatim, the concepts are strongly signaled (formation, virtue, Great Conversation, truth/goodness/beauty). - Negative keywords: None observed in the public-facing materials.

Quantitative estimate - Positive keywords present: 5–6 core indicators (formation, virtue, Great Conversation, truth/goodness/beauty, liberal education). - Negative keywords present: 0. - Positive keyword frequency: 100%.

Why this rating - The materials consistently position education as formation, rooted in virtue and wisdom, with a telos toward human flourishing and the integration of truth, goodness, and beauty. This aligns strongly with CLASSICAL signals in the School Purpose and Goal category (formation-focused telos, not just job-readiness).

Element 3: School Curriculum — CLASSICAL

Evidence - Explicit Trivium: the time-tested classical method of education known as the Trivium (grammar, logic, rhetoric) is named as the core method. Latin, logic, and rhetoric are repeatedly highlighted as central to the curriculum. - Foundational liberal-arts orientation: five years of Latin and two years of logic training are part of GCCA's core curriculum; students study ancient, medieval, and modern classical literature. - Great Conversation and Great Books: references to entering the Great Conversation and developing friendships with Homer, Dante, Augustine, Tolkien, Lewis, etc. indicate a canonical classical literary foundation. - History studied across the curriculum: public materials indicate engagement with classical literature and history, including explicit mention of classical literature spanning ancient to modern periods. - Multiple pathways and explicit curricular components (grammar/middle/high school progression; grammar school focus on language and memory; high school rhetoric/Thesis).

Positive/Negative keyword analysis - Positive keywords present: Trivium; grammar; logic; rhetoric; Latin; Great Conversation; Great Books; Western civilization/classical literature; history across curriculum. - Negative keywords: None observed in the public materials.

Quantitative estimate - Positive keywords present: 6–8 core curricular signals identified. - Negative keywords present: 0. - Positive keyword frequency: 100%.

Why this rating - GCCA's curriculum is framed around classical liberal-arts pillars (grammar/logic/rhetoric), language study (Latin), integration with Great Books/Great Conversation, and a history-laden curriculum, which are hallmark features of a CLASSICAL curriculum.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

Evidence - Lower grades emphasize contemplative/experiential approaches in alignment with Scholé (restful learning) through singing, memory, and recital-like elements (e.g., “In the grammar stage, we focus on teaching the main elements of music through singing, playing instruments and movement” and related memory-based activities). - Upper-school elements include rhetoric and public speaking opportunities (e.g., high school students create and defend a rhetoric thesis as a capstone). This tracks with the pedagogical shift from memory/recitation to rhetorical practice. - The school positions Trivium-based pedagogy and “Great Conversation” as central, which typically includes Socratic or seminar-style elements in higher grades (the site emphasizes reasoning and classical discourse in the context of rhetoric).

Positive/Negative keyword analysis - Positive keywords present: scholé/restful learning; memorization/recitation; singing/chanting/memory work (lower grades); Socratic/seminar discourse (as part of the high-school rhetorical emphasis); rhetoric and public speaking; master-teacher/mentorship motifs (implied in the classical pedagogy). - Negative keywords: None evident; no explicit emphasis on purely project-based or student-led only approaches that would signal a negative in this rubric.

Quantitative estimate - Positive keywords present: 4–6 core pedagogical indicators (Scholé, memory/recitation, singing in early grades, Socratic/seminar tendencies in upper grades, rhetoric/declamation opportunities, classroom memory/chanting signals). - Negative keywords present: 0. - Positive keyword frequency: 100%.

Why this rating - GCCA's pedagogy shows a clear blend of contemplative, memory-based elements in early years and Socratic/seminar-like rhetorical practice in later years, with explicit rhetoric/talk-based evaluation (e.g., rhetoric thesis). This combination maps well to CLASSICAL pedagogy expectations.

Element 5: School Faculty — CLASSICAL

Evidence - The school's public-facing materials acknowledge a substantial faculty complement (e.g., “12 full-time teachers, 14 part-time teachers, 4 teacher aides,” plus a staff structure highlighted on About pages). This aligns with the expectation of model teachers and mentors who form the living curriculum. - The site references “administration and staff” and “teachers and faculty” as part of the public-facing public materials, signaling a structured faculty leadership and mentorship emphasis.

Positive/Negative keyword analysis - Positive keywords present: living-curriculum potential (implied), model teachers and mentors (the public-facing framing of the staff as part of a Christ-centered, classical program), a defined faculty structure (12 full-time teachers; 14 part-time; 4 aides). - Negative keywords: None observed in the public materials.

Quantitative estimate - Positive keywords present: 2–3 explicit signals (faculty as core/mentors; staff structure; “teachers and faculty” pages indicate an engaged faculty framework). - Negative keywords present: 0. - Positive keyword frequency: 100%.

Why this rating - The combination of a defined faculty structure and the public framing of teachers as essential to the school's classical mission supports CLASSICAL for the Faculty category. The explicit “living curriculum” phrasing is not directly quoted, but the evidence of a robust, mission-aligned faculty corroborates a CLASSICAL reading.

Element 6: School Parents and Community — CLASSICAL

Evidence - GCCA presents a strong parental governance and partnership model: “The parents, through their elected board, make all policies and decisions regarding the school,” and “As a ‘Parent-Sponsored’ school, we labor with you in raising and teaching children in the admonition of the Lord.” These lines explicitly anchor parents as co-educators and primary partners in governance. - Additional evidence of parent engagement and an open campus ethos appears through public materials and a clear enrollment/admissions pathway that emphasizes family involvement. The school’s public materials reiterate a mission-and-history framing grounded in parental partnership.

Positive/Negative keyword analysis - Positive keywords present: Partnership with families; parent formation; parental engagement; open campus; co-teachers; home-school partnership; parental leadership. - Negative keywords: None observed in the public materials.

Quantitative estimate - Positive keywords present: 4–5 explicit signals (parental governance, parent partnership, parent formation activities, open campus/visits, family involvement). - Negative keywords: 0. - Positive keyword frequency: 100%.

Why this rating - The public materials consistently promote a deeply collaborative model with families, aligned with classical-education expectations for Parents & Community (co-teaching, family formation, and open involvement). This strongly supports CLASSICAL in this category.

Aggregate assessment - All six categories, based on the keyword analysis and explicit textual evidence from GCCA’s public materials, align with CLASSICAL. - Executive signal coherence across religious foundations, formation-focused purpose, a Trivium-centered curriculum, classical pedagogy, a robust faculty, and active parent/community partnership indicates GCCA is CLASSICAL overall.

What Would Move the Needle - Since the aggregate classification is CLASSICAL, no mandated needle-movers are required. However, further strengthening in the following areas could deepen alignment: - Expand explicit statements of “Socratic dialogue” and “scholé” in classroom practice in upper grades to make pedagogy even more transparent as a full embodiment of classical teaching methods. - Publicly document and publish a formal “faculty living-curriculum” description or portraits of teacher exemplars to crystallize the “living curriculum” concept in explicit terms for stakeholders. - Provide more explicit articulation of “Great Books” reading lists and direct quotes from canonical texts in course syllabi to reinforce Great Books alignment beyond references to the Great Conversation.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
