

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Ignite Classical School
School Website: <https://igniteclassical.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Ignite Classical School (Shreveport, LA, 71108) demonstrates a clearly Christian, classical orientation with strong evidence of religious/theological framing, formation-oriented aims, and a public-facing emphasis on community, family partnership, and a teacher-centered, relationship-rich approach. Overall, the school leans toward CLASSICAL in several components (notably Faculty and Parents/Community) but shows only partial alignment in others (notably explicit Great Books/Great Conversation emphasis and some specific pedagogical practices). The aggregate assessment lands in SOMEWHAT CLASSICAL.

Key drivers for CLASSICAL status

- **Religious and Metaphysical Foundations:** The school is explicitly Christ-centered and Christian, with language indicating theology grounds the program (Word of God, Christ-centered framing) and public statements that emphasize a Christ-centered education. This is strong evidence for a solid theological foundation within the classical rubric.
- **Faculty:** The site highlights a teacher-relationship model (small classes and long-term teacher relationships) and presents staff as a core part of the living curriculum, which aligns with classical norms of virtuous, exemplary mentors.
- **Parents & Community:** Parent involvement is foregrounded via a Parent Covenant and documented family-centered programming, a hallmark of classical culture in which parents are co-educators and partners in formation.

Categories that show evidence of Classical alignment but are not yet fully explicit in key classical terms (leading to SOMEWHAT CLASSICAL)

- **Purpose and Goal (formation, virtue, wisdom):** The school expresses formation of the soul and a Christ-centered mission that emphasizes character and curiosity within a classical frame, but explicit language about virtue, wisdom, truth, goodness, and beauty as transcendental aims is less visible in public materials than in the strongest classical programs. This yields a SOMEWHAT CLASSICAL signal.
- **Curriculum:** The curriculum is described as "all classical in nature" with explicit mention of Elemental Classical Science and other classical resources; however, the public materials do not consistently spell out Great Books/Great Conversation or the full Seven Liberal Arts framework in the same way as canonical classical schools. This result is SOMEWHAT CLASSICAL.
- **Pedagogy:** The public-facing pedagogy is framed around classical language (classical in nature) and multigrade structure, but explicit evidence of Socratic seminars, rigorous grammar-logic-rhetoric progression, or a sustained emphasis on Schol  -style contemplative practice is not consistently documented on the site. This yields a SOMEWHAT CLASSICAL reading.
- **History and Great Books emphasis:** While history and world-culture elements appear in curriculum

notes, explicit Great Books/Great Conversation language is not consistently evident in the public materials; the category thus receives a SOMEWHAT CLASSICAL signal.

- Great Books/Scholé (memory, chanting, contemplative learning): Public materials do not show recurring chanting/memorization rhythms or Scholé-driven contemplative pedagogy as a core feature, limiting a full classical fit in this category. A SOMEWHAT CLASSICAL designation is warranted.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — SOMEWHAT CLASSICAL

- Evidence
- The school is framed as Christ-centered and Christian, with public materials describing a Christ-centered education and a Word of God orientation in curriculum.
- Public materials also indicate a non-denominational Christian identity and foundational theology guiding the program.
- Positive/Negative keyword analysis
- Positive keywords present: Christ-centered, Word of God, private Christian school, nondenominational. (Evidence in public materials)
- Negative keywords present: None publicly evident in this domain.
- Count: Positive indicators ~4; Negative indicators ~0.
- Why this rating
- Strong theological grounding evidenced by explicit Christ-centered language and explicit references to the Word of God, plus a publicly stated Christian identity; however, the literature does not consistently demonstrate liturgical/community practices or transcendental metaphysical arguments in every material. This yields a CLASSICAL orientation, but not a fully explicit transcendental framework in all elements. The balance lands in SOMEWHAT CLASSICAL due to the strong religious base but incomplete explicit classical metaphysical scaffolding in every public cue.

Element 2: School Purpose and Goal — SOMEWHAT CLASSICAL

- Evidence
- Public materials emphasize formation of the soul, shaping the student, and Christ-centered aims; a clear formation orientation is present (e.g., “shape the soul,” “classical education rooted in Christ”).
- There is emphasis on service-learning and a community-oriented mission, aligning with humane formation values.
- Positive/Negative keyword analysis
- Positive keywords present: formation, Christ-centered, love of learning (from public materials in the Ignite narrative), soul formation, service learning.
- Negative keywords present: None clearly evident in public materials.
- Count: Positive indicators ~4; Negative indicators ~0.
- Why this rating
- The materials clearly articulate formation and moral/spiritual aims, aligning with the classical aim of cultivating virtue and wisdom over mere information or employment preparation. However, explicit articulation of virtue/wisdom as transcendental aims and direct language about truth/goodness/beauty as real teleological goals is less pronounced in the public copy, producing a SOMEWHAT CLASSICAL classification.

Element 3: School Curriculum — SOMEWHAT CLASSICAL

- Evidence
- Public materials state that the curriculum is “all classical in nature” and include elements like Elemental Classical Science; references to a classical-resource approach.
- There are explicit mentions of a liberal-arts-informed approach (grammar, logic, rhetoric) in the broader classical rubric, but not consistently spelled out as a complete Seven Liberal Arts program in the Ignite

site copy.

- Positive/Negative keyword analysis
- Positive keywords present: classical resources, Elemental Classical Science (and “classical in nature”).
- Negative keywords present: None explicit in public materials, but missing explicit Great Books/Great Conversation references reduces alignment with the full classical curriculum rubric.
- Count: Positive ~2; Negative ~0.
- Why this rating
- The curriculum is marketed as classical, and there are concrete classical components, yet the site does not consistently articulate the full Great Books/Great Conversation framework, nor a full Seven Liberal Arts articulation. This yields a SOMEWHAT CLASSICAL categorization.

Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

- Evidence
- The school describes itself as classical in nature and presents a multigrade structure, but explicit evidence of typical classical pedagogy (Socratic discussions, seminars, debates in upper grades; rigorous rhetoric training; Chanting/memory practices) is not consistently documented on the public site.
- The site emphasizes teacher-student relationships and a student-learning plan, which aligns with classical pedagogy’s emphasis on mentorship and formation.
- Positive/Negative keyword analysis
- Positive keywords present: classical in nature, multigrade education, teacher-student relationship, student learning plan.
- Negative keywords present: Lack of explicit Socratic/seminar practices in public materials; lack of explicit chanting/memorization cadence.
- Count: Positive ~4; Negative ~2.
- Why this rating
- A broadly classical posture is evident, with a focus on relationships and formation; however, the lack of explicit Socratic/Scholé pedagogy and explicit upper-grade rhetorical training reduces it from CLASSICAL to SOMEWHAT CLASSICAL.

Element 5: School Faculty — CLASSICAL

- Evidence
- The site features a clear emphasis on long-term teacher relationships (3-Year Teacher Relationships) and a living-curriculum concept in which faculty are central to the school’s ethos. The staff are positioned as core to the pedagogy and formation.
- The school presents staff as part of the “public face” of the school, with a dedicated staff page and a belief system that supports virtue, skill, and knowledge.
- Positive/Negative keyword analysis
- Positive keywords present: model teachers and mentors, living curriculum, faculty as core; staff portrait or profile; three-year teacher relationships.
- Negative keywords present: None evident in public materials.
- Count: Positive ~4; Negative ~0.
- Why this rating
- The public materials consistently present faculty as a strength and central to the educational vision, aligning well with classical expectations where teachers are mentors and living exemplars of virtue and knowledge. This solidly supports CLASSICAL.

Element 6: Parents & Community — CLASSICAL

- Evidence
- There is explicit engagement of parents via a Parent Covenant, admissions processes, and family-centered considerations; there is a public emphasis on family involvement and community service

through service-learning.

- Public materials present multiple channels for parental participation, visits, and involvement in the school, consistent with classical expectations of parent-teacher partnership.
- Positive/Negative keyword analysis
- Positive keywords present: Partnership with Families, Parent Covenant, family involvement, parent visits, service-learning, community involvement.
- Negative keywords present: None clearly evident.
- Count: Positive ~5; Negative ~0.
- Why this rating
- The school clearly positions parents as co-educators and emphasizes ongoing parental involvement and covenantal engagement, which aligns well with classical ideals for parent-community partnership. This yields a CLASSICAL rating for Element 6.

Aggregate Ranking and Judgment

- Overall, Ignite Classical School (Shreveport, LA, 71108) is CLASSICAL in Faculty and Parents & Community, SOMEWHAT CLASSICAL in Religious and Metaphysical Foundations, Purpose & Goal, Curriculum, and Pedagogy, with a blended CLASSICAL orientation in the overall program. The aggregate ranking, considering all six categories, is SOMEWHAT CLASSICAL.

What Would Move the Needle

- Element 2 (Purpose and Goal): Articulate explicit, transcendental aims around truth, goodness, beauty, and wisdom as real and knowable, with direct references to virtue formation, the good life, and teleology. A public articulation of virtue/wisdom as central aims would strengthen this dimension toward CLASSICAL.
- Concrete step: Publish a formal statement detailing how truth, goodness, and beauty are cultivated through formation, and connect this to measurable outcomes in virtue-based character formation.
- Element 3 (Curriculum): Explicitly articulate Great Books/Great Conversation and the Seven Liberal Arts (grammar, logic, rhetoric; maybe quadrivium elements) as core curricular objectives, with examples of reading lists, seminars, and classical-text integration across grade bands.
- Concrete step: Publish a clearly defined Great Books list or reading roster by grade bands and provide evidence of planned Socratic/seminar-based discussion and rhetoric practice.
- Element 4 (Pedagogy): Provide explicit public documentation of Socratic seminar-style practices, disciplined memory work (Scholé), memorization/recitation, and formal rhetoric training in upper grades; demonstrate how lower grades integrate singing/chanting or memory-friendly practices.
- Concrete step: Add a Pedagogy page detailing when and how Socratic discussions, memorization routines, and rhetoric instruction occur across K-12, with examples or sample lesson outlines.
- Element 5 (Faculty): Maintain and publicize a formal “teacher profile” standard that aligns with classical mentors modeling virtue, skill, and knowledge, including professional development and a clear description of the living-curriculum concept.
- Concrete step: Publish a faculty profile rubric and annual reflections illustrating how teachers embody classical virtue and pedagogical leadership.
- Element 6 (Parents & Community): Deepen explicit framing of parents as co-educators beyond the covenant; provide regular opportunities for parent education in classical methods (e.g., Great Books discussions, parent evenings on classical education, and home-curriculum guidance).
- Concrete step: Launch a quarterly “Parent Education Series” (books, lectures, discussions) tied to classical education principles, with open invitations and home-learning resources.
- Cross-cutting needle-movers (applicable across several categories)
- Add explicit language about Great Books/Great Conversation to curricula pages and presentations.

- Include explicit statements on Scholé and contemplative pacing, with examples of daily/weekly routines.
- Strengthen liturgical/community practices language (e.g., chapel, congregational song, or liturgical rhythms) in public materials to reinforce the metaphysical foundation.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
