

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Katy Classical Academy

School Website: <https://katyclassicalacademy.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

Katy Classical Academy (KCA) demonstrates a robust CLASSICAL orientation across all six rubric categories. Public materials from the school's website emphasize a Biblical worldview, formation of character and virtue, a clearly defined liberal-arts curriculum (grammar, dialectic, rhetoric) organized around a four-year history arc, and pedagogy that blends memory work, chanting, discussion, and Socratic-style inquiry as students advance into upper grades. The faculty is framed as partners in a living curriculum, and parents are positioned as co-teachers in a formal partnership, with explicit references to In Loco Parentis and ongoing parental involvement. Taken together, the evidence indicates a cohesive Classical Christian approach, with strong signals in every category that align with the Six Essential Elements framework for classical education. The aggregate ranking is CLASSICAL.

Key evidentiary signals include: a stated Biblical worldview and Christ-centered orientation across shifts in perspective, mission, and program materials; explicit description of the Trivium (Grammar; Dialectic/Logic; Rhetoric) and a four-year historical curriculum cycle; memory-work, chanting, and Socratic/dialogic practices in upper grades; a staff described as a "passionate team" and a living curriculum; and a clear emphasis on partnership with parents, including In Loco Parentis language and co-teacher modeling.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - Public materials emphasize a Biblical worldview and Christian education integrated with classical curriculum. For example, the program is described as providing a Christian education utilizing classical curriculum and a Biblical worldview. - The materials reiterate a Biblical worldview as foundational to the curriculum, with phrases like "biblical worldview," "Christ-centered worldview," and references to God, the Lord, and prayer-related language. - The mission and statements reference the Lord's guidance and aim to equip students to defend their faith, highlighting theology-related framing and a liturgical/communal sense (e.g., Psalm 19:1 and worship references in campus life).

Positive/Negative Keyword Analysis - Positive keywords present: Biblical worldview, Christ-centered worldview, God, Lord, worship, Psalm 19:1, theology-inflected language, sacred music, reverence/wonder, truth, beauty, goodness (explicit or implied in religious framing). - Negative keywords present: None detected in the public materials submitted for this category (e.g., relativism, secular humanism, morally neutral).

Why this rating - The school consistently roots its program in a Christian theological frame and explicitly links formation of character to transcendentals and worship-related language. This aligns strongly with the Positive keywords for Religious and Metaphysical Foundations and shows clear evidence of a transcendental moral realism and liturgical/community practices in service of a theologically grounded pedagogy. The

absence of explicit negative signals further supports CLASSICAL rather than SOMEWHAT CLASSICAL or NOT CLASSICAL.

Citations: Biblical worldview and Christian framing are explicit in multiple pages, including Shift In Perspective and Who We Are, with direct language about Biblical worldview and Christ-centered worldview.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The program emphasizes forming character, virtue, and wisdom through a classical framework and a partnership with parents, not merely job- or college-readiness. Language such as “partner with parents in the education of their children,” “co-teachers,” and a focus on virtuous formation appears in mission statements and admissions copy. - Materials describe education as formation and the cultivation of lifelong learning, with aims to equip students to defend faith with love and discernment. This reflects the classical telos of human flourishing through virtue and wisdom rather than a narrow workforce-prep emphasis. - The Great Conversation/Great Books approach and the emphasis on truth, goodness, and beauty as real and knowable are referenced through statements about classical education, discussion, and literature with a biblical worldview.

Positive/Negative Keyword Analysis - Positive keywords present: formation, virtue, wisdom, classical mission, true/good/beautiful, telos, great conversation, liberal education, education for leisure (scholé), etc. - Negative keywords present: None clearly indicated in public materials for this category (e.g., “workforce preparation” or “21st-century skills” as framing).

Why this rating - The materials consistently frame education as formation toward virtue and wisdom, rooted in a classical tradition and a Christian worldview, rather than mere job preparation. The presence of language around formation, virtue, and the Great Conversation supports a CLASSICAL rating.

Citations: Mission/partnership with parents and formation-oriented language appear in Who We Are and the KCA mission content.

Element 3: School Curriculum — CLASSICAL

Evidence - The curriculum is explicitly organized around the Trivium: Grammar (K–6), Dialectic (6–9), and Rhetoric (9–12). This is spelled out on the curriculum/levels page. - A four-year world-history cycle governs coursework (Year 1–4: Ancient World to present), with literature, geography, fine arts, and history integrated around the historical periods. All students study the same time period at their level, reinforcing a cohesive classical approach. - The program emphasizes Latin and other classical languages, along with “classical curriculum” per the site. The program’s own description notes Latin as part of the curriculum and the “classical disciplines of art, history, logic, rhetoric, and apologetics.” - The Great Books/Great Conversation orientation is referenced through statements about studying literature and the historical context, and the same four-year cycle reinforces reading across grades.

Positive/Negative Keyword Analysis - Positive keywords present: grammar, dialectic/logic, rhetoric, great books (and the Great Conversation), history, Latin, classical curriculum, literature, geography, logic, apologetics. - Negative keywords present: None detected in public materials for this category (e.g., social studies-as-history substitution; project-based emphasis that would signal a move away from classical pedagogy).

Why this rating - The explicit articulation of the Trivium, the four-year history cycle, and classical-language components strongly align with Element 3’s criteria and the Six Elements positive indicators, yielding a CLASSICAL rating.

Citations: Grammar/Dialectic/Rhetoric levels are described on the Curriculum/Learning Levels page; World History cycle and cross-grade unity are described in the program materials.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

Evidence - Pedagogical practices include a blend of memory work, chanting, recitation, and question-and-answer formats, with a focus on memory and liturgical-like repetition in lower grades; this is documented in detailed public descriptions of classroom practice. - In upper grades, there is an emphasis on Socratic discussion, dialogue, critical thinking, and rhetoric, with explicit mention of dialectic and debate-like activities as students progress. The dialectic phase (middle/early high school) emphasizes analysis and argument. - The material notes that education should involve wonder and contemplative moments (scholé-like learning) and that some aspects of education should be restful, not overly rigorous at all times.

Positive/Negative Keyword Analysis - Positive keywords present: memory work, chanting, recitation, narration, dialectic/seminar, rhetoric, discussion, contemplative/scholé, wonder, inquiry, debates. - Negative keywords present: None detected in the public materials for this category (e.g., “project-based learning” as a sole driver or fully constructivist approaches).

Why this rating - The pedagogy described aligns well with classical methods (memory work and chanting in lower grades; Socratic/dialectic seminars and rhetoric in upper grades; contemplative/restful moments) and thus supports a CLASSICAL rating.

Citations: Pedagogical practices described in the lower-school chant/memory passages; dialectic/upper-level discussion and rhetoric described in the curriculum-level pages.

Element 5: School Faculty — CLASSICAL

Evidence - The faculty is described as a “passionate team” committed to helping students learn and to building community, signaling high teacher engagement and role-modeling of virtue and skill. - The leadership pages and staff listings describe a team of teachers and administrators who are experts in their subjects (science team lead, upper school English, etc.), with emphasis on their role in guiding students within a classical framework. - The school emphasizes a “collaborative partnership” between professional teachers and parents, with the teachers forming the core of the school’s approach and the living curriculum concept implied by staff-led lesson design and classical pedagogy.

Positive/Negative Keyword Analysis - Positive keywords present: model teachers and mentors, living curriculum, faculty as core, collaborative partnership, passionate staff, instruction in classical disciplines (art, history, logic, rhetoric, apologetics). - Negative keywords present: None detected in public materials for this category (no signals of “facilitator” roles without classical context or credential-only framing).

Why this rating - The public materials portray a committed, subject-matter-expert faculty who embody and deliver the classical pedagogy, consistent with a CLASSICAL rating for the Faculty category.

Citations: Explicit statements about the staff’s commitment and leadership roles, plus the “collaborative partnership” language.

Element 6: School Parents & Community — CLASSICAL

Evidence - The school presents a formal partnership with parents as co-teachers, with language that frames parents as central to the educational process and engaged in transcript training and graduation processes. In loco parentis language signals a deep parental role during school activity. - The culture emphasizes parent involvement and community-building, with statements about a collaborative learning community and partnerships with families to educate and train children. - The school invites parental participation, and the admissions/overview materials describe a program designed to partner with parents, including home-based assignments and a five-day model designed to integrate home and school life.

Positive/Negative Keyword Analysis - Positive keywords present: partnership with parents, co-teachers, In Loco Parentis, parent formation, family involvement, open campus/visitor-friendly culture, parental leadership in transcripts/graduation. - Negative keywords present: None detected; no consumer/customer-focused minimal parent involvement signals.

Why this rating - The explicit emphasis on parent partnership, co-teaching, and active parental involvement aligns with the CLASSICAL framework's expectations for strong parent-community integration.

Citations: In loco parentis language and parent-teacher partnership statements; admissions/"Who We Are" parental involvement language.

Aggregate Ranking

- Overall classification: CLASSICAL

Rationale: Each of the six categories shows clear alignment with the Six Essential Elements' Positive Keyword indicators (truth, virtue, knowledge of the true/good/beautiful; Trinity of grammar/dialectic/rhetoric; Great Books/Great Conversation; Socratic pedagogy with memory work; living faculty; partnered parents). The school's public materials repeatedly emphasize Biblical-Christian grounding, formation of character, a Trivium-based curriculum, a combination of memory/chanting and Socratic/lectured pedagogy, and a structured parent partnership, with minimal to no signaling of negative indicators in the public materials provided. The knowledge-lexicon-based scoring supports this assessment as well, given the presence of terms like truth, beauty, virtue, theology, liturgy, worship, scholé, wonder, and great books, and the absence of clear negative signals in the school's materials.

What Would Move the Needle

- Not required for this SCHOOL since the aggregate assessment is CLASSICAL. If desired, minor enhancements could include explicit public articulation of "Scholé days" and contemplative tempos in more pages, and a more explicit emphasis on Great Books/Great Conversation as ongoing student experiences across grades beyond the stated four-year history cycle.

(If you'd like, I can add a brief addendum outlining potential enhancements aligned with the Six Elements that would further consolidate CLASSICAL signals.)

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
