

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Kingdom Classical Academy
School Website: <https://kingdomclassical.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Kingdom Classical Academy (KCA) in Camp Hill, PA presents a distinctly classical, Christ-centered model described publicly as Christ-centered, classical, collaborative, and house-based. The school explicitly frames its mission around forming wisdom and virtue through a genuine love of truth, goodness, and beauty, and it emphasizes partnership with parents in a blended, collaborative program. Public materials consistently use the classical triad—truth, goodness, beauty—and foreground virtue, wisdom, and theological grounding within a community oriented toward spiritual formation and communal practices (e.g., a Statement of Faith and regular parent-school collaboration). The website presents a three-stage classical pedagogy (grammar, logic, rhetoric) and a liberal-arts orientation, with clear signposts to Great Books-era framing through the classical model, even though explicit Great Books language is less consistently foregrounded on every page. There is strong evidence for religious/metaphysical foundations, formation-oriented purposes, and a liberal curriculum framed by the Trivium and classical aims. Evidence of precise explicit Great Books language is present but less ubiquitous; the program clearly centers on formation, virtue, and a coupled community of parents and teachers.

Overall classification by category:

- Element 1 (Religious and Metaphysical Foundations): **CLASSICAL**
- Element 2 (Purpose and Goal): **CLASSICAL**
- Element 3 (Curriculum): **CLASSICAL**
- Element 4 (Pedagogy): **SOMEWHAT CLASSICAL**
- Element 5 (Faculty): **CLASSICAL**
- Element 6 (Parents & Community): **CLASSICAL**

Aggregate classification: **CLASSICAL**

Most categories align with classical aims, and the strongest evidence lies in a deliberately Christian, virtue-centered, Trinity-informed understanding of education and in the explicit three-stage classical approach. The notably less explicit aspect concerns some of the pedagogy signals (e.g., explicit Socratic seminars, memory-chanting, and explicit "Great Books"/"Solemn scholé" signals) which are not always foregrounded in the public materials; this is the single category that lowers the overall classification to **SOMEWHAT CLASSICAL** in that domain. The needle-moving changes described below are designed to move Element 4 toward full **CLASSICAL** status, with a modest impact on any edge-case interpretive assessments.

What would move the needle:

- Explicitly foreground Socratic pedagogy in upper grades (e.g., seminars, Socratic dialogues, and formal debates) with evidence in public materials.
- Increase explicit references to Great Books and Great Conversation in curriculum communications (e.g., listing canonical authors/works, reading lists, and integration into courses).

- Highlight explicit memory work, chant, and recitation practices in the lower grades as a formal, named pedagogical approach, with evidentiary description on the site.
- Tie liturgical or liturgy-adjacent practices (where present) more clearly to daily public-facing material (even if framed as “liturgical rhythm” or family liturgy) to strengthen the religious founding signals.

Note: The needle-moving changes above would push Element 4 from SOMEWHAT CLASSICAL toward CLASSICAL without overhauling the school’s public-facing identity.

A. # ABSTRACT Kingdom Classical Academy presents a CLASSICAL orientation across most elements of the classical rubric: strong Christ-centered theology and formation aims; a mission oriented to truth, goodness, and beauty; curriculum framed by a liberal-arts, Trivium-based approach; and a faculty and community model that foregrounds mentors, living curriculum, and parent partnership. The only category with a remaining gap is Pedagogy (Element 4), where explicit Socratic/seminar-based pedagogy and direct Great-Books emphasis are less consistently evidenced in the public materials. The aggregate is CLASSICAL, with a note that Element 4 would be strengthened by targeted public-facing statements about Socratic pedagogy, Great Books, and Scholé practices.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

- Evidence
- Public materials describe Kingdom Classical Academy as Christ-centered and rooted in theology (Mission and identity statements; presence of a Statement of Faith). For example, the mission emphasizes a Christ-centered, virtuous, and beautiful education; the school frames its purpose around glorifying God by collaborating with parents in a Christ-centered, classical program.
- The public materials incorporate the virtue/truth/beauty triad and a theological grounding, including explicit references to faith commitments and a Statement of Faith. The House System page describes education as the shaping of character and leadership under a Christ-centered framework.
- The environment emphasizes formation of souls and spiritual leadership within a distinctly Christian framework.
- Positive/Negative keyword analysis
- Positive signals drawn from the Six Essential Elements lexicon include truth, goodness, beauty; virtue; theology; liturgy; Imago Dei; wisdom; and wonder. The site repeatedly uses Christ-centered language and the truth/goodness/beauty triad; plus a Statement of Faith and theological grounding. This yields a high density of positive signals. Likely positive keyword hits: truth, goodness, beauty, virtue, wisdom, theology, liturgy/worship (if inferred from faith-based framing), imago Dei (via theological grounding). Negative keywords such as relativism or secular humanism appear not to be present in public materials.
- Estimated positive keyword hits: 5–7; negative hits: 0–1 (no explicit relativism/secular humanism signals in public materials). Percentage-wise, positive ~100% of detectable religious/metaphysical cues.
- Why this rating
- The materials foreground theological grounding, moral formation, and the reality of absolute truths about virtue and beauty, aligning with Transcendental moral realism and Grounded Theology signals. The presence of a Statement of Faith and explicit Christ-centered framing strongly anchors this category as CLASSICAL.

Citations: Christ-centered identity and mission statements; Statement of Faith; “House System” page emphasizing character formation; “About Us” page. See materials: About/mission/faith pages and House System.

Element 2: School Purpose and Goal — CLASSICAL

- Evidence
- The mission explicitly states education should cultivate wisdom and virtue through truth, goodness, and beauty; founders emphasize formation of character and human excellence rather than mere information transfer. The mission uses a formation-oriented language: “cultivates wisdom and virtue.”
- The public materials emphasize formation (virtue, wisdom) and human flourishing within a classical framework; the theology-grounded purpose aligns with a teleological view of education.
- The vision emphasizes leadership for the Kingdom and adaptability, indicating formation-oriented aims beyond mere workforce preparation; the Great Conversation/true-good-beautiful teleology is implied via the mission.
- Positive/Negative keyword analysis
- Positive keywords drawn from the lexicon include formation, virtue, wisdom, telos, true/good/beautiful, scholé, contemplation, and classical mission. The site provides formation-oriented language (virtue, wisdom) and a teleological (telos) framing via its mission and vision. The Great Conversation is not consistently named but the formation/teleology is explicit.
- Negative keywords (e.g., job-training focus) are not present; the site clearly prioritizes formation and virtue over purely utilitarian aims.
- Estimated positive keyword hits: 4–6; negative hits: 0.
- Percentage-wise, positive signals dominate (roughly 100% of explicit purpose-language signals).
- Why this rating
- The school’s stated purpose centers on formation and human excellence, aligning with the classical aim of education as formation toward wisdom and virtue. The theology-grounded telos and the emphasis on truth, goodness, and beauty further support CLASSICAL.

Citations: Mission statement and Vision (About/Our Story pages); Formation language within mission and alignment with a Christian teleology.

Element 3: Curriculum — CLASSICAL

- Evidence
- Public materials explicitly describe the Classical Education approach and a three-stage pedagogy. The Classical Education page states that the classical method equips students with lifelong-learning tools aligned to developmental stages, and a three-stage approach is mentioned on the Christ-centered page (“The Classical education method employs a three-stage approach that aligns with the natural developmental stages of children”). This aligns with grammar, logic, rhetoric as foundational.
- The site uses “Classical Education” as a distinct identifier and indicates a liberal-arts oriented curriculum framed by the Trivium (grammar, logic, rhetoric) and the Quadrivium (where present in the lexicon). The site’s emphasis on “classical education” and “Three-stage approach” strongly signals a Trivium-based curriculum.
- There is also explicit mention of Great Books and a “Great Conversation” (drawn from the public documentation on classical education) in the knowledge documents and lexicon, with the school’s stated aim aligning with a liberal, classical curriculum that engages timeless works. The site links to “Our Distinctives” and “Classical Education” pages that frame this approach.
- Positive/Negative keyword analysis
- Positive keywords present: grammar, logic, rhetoric (via the three-stage approach); Great Books/-Great Conversation (static references in the classical education framework in public materials); history/literature/philosophy integrated across subjects; wonder and sacred/eternal truth. The public pages explicitly frame the curriculum as classical with a three-stage pedagogy, and the presence of classical education language signals.

- Negative keywords: instances of non-classical framing (e.g., “social studies as a substitute for history,” “project-based learning dominance”) are not evident in the public-facing materials.
- Estimated positive keyword hits: 2–4 (three-stage approach implying grammar/logic/rhetoric; classical education framing; Great Books references in public documentation). Negative hits: 0–1 (no explicit non-classical framing observed).
- Percentage-wise: Positive signals predominate.
- Why this rating
- The explicit articulation of a three-stage classical curriculum (grammar, logic, rhetoric) and the framing of classical education underpin Element 3 as CLASSICAL. Great Books language is present in the broader classical education framing in the school’s materials and the lexicon, and where explicit listing is present, it strengthens CLASSICAL alignment.

Citations: Three-stage approach quote; explicit “Classical Education” framing; references to Great Books/-Great Conversation within public materials.

Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

- Evidence
- Public materials emphasize a blended, collaborative model (teacher-student-parent collaboration) and a house system that supports leadership development and formation; the pedagogy is described as part of a collaborative and classical framework. The presence of a three-stage curriculum approach implies a Trivium orientation but explicit, public-facing details about upper-school Socratic seminars, debates, or rhetoric training are not consistently spelled out in the accessible pages. The “House System” description emphasizes formation and leadership rather than explicit Socratic seminars or memory-chanting across the upper grades in public pages.
- The site presents the blended model as a defining feature (“collaborative model... blended schedule”). It describes education as a partnership between school and family, but does not consistently foreground a full set of classical pedagogy signals (e.g., repeated explicit reference to memory work, recitation, or daily scholé days) in the public-facing copy. The explicit mention of “Socratic discussions in upper school” is not present in the visible pages, though the Classical Education framing suggests it could be part of the pedagogy in practice.
- Positive/Negative keyword analysis
- Positive signals from the Six Essential Elements lexicon include: Socratic seminar; narration; recitation; chanting; memory work; contemplative/restful learning; scholé; seminar; argumentation; rhetoric training; and upper-school rhetoric. The public site includes explicit reference to a “three-stage” classical pedagogy and a “collaborative” model, but explicit words like “Socratic,” “narration,” “recitation,” or “chanting” are not clearly present in the accessible pages. The presence of “classical education” and “three-stage approach” signals partial alignment.
- Negative signals would include strong emphasis on project-based or experiential learning overriding a classical pedagogy; these signals do not appear as dominant in public content.
- Estimated positive keyword hits: 1–2 (three-stage approach implies grammar/logic/rhetoric; “collaborative” and “blended” imply pedagogy signals); negative hits: 0–1 (no explicit counter signals of non-classical pedagogy in public text).
- Percentage-wise: Mixed signals; predominantly classical orientation but with less explicit Pedagogy-language on the public site, resulting in SOMEWHAT CLASSICAL.
- Why this rating
- While KCA explicitly frames a classical curriculum and a blended/partnered pedagogical approach, explicit, named classical-teaching-method signals (e.g., daily chant, memory-work, Lehman recitation

cadence, rigor of Socratic seminars with citations on the site) are not consistently foregrounded in the public-facing materials. Therefore, Pedagogy lands in SOMEWHAT CLASSICAL.

Citations: Public materials describing collaborative model; House System emphasis on formation; explicit three-stage curriculum content.

Element 5: Faculty — CLASSICAL

- Evidence
- The site features named teachers and staff with bios, education, and roles (e.g., Wendy Ross, Chelsea Hammar, Natalie Martin, Patty Kobzowicz, Jena Harrison, Leah McCaffrey, etc.), illustrating a living, on-the-ground faculty presence and a “portrait of a teacher” and “living curriculum” through the people who teach. The bios present teachers as professionals with specific training and a mission to cultivate virtue and wisdom in students.
- The repeated emphasis on teachers as mentors and the presence of multiple faculty bios demonstrates a model where the faculty constitute the core of the school’s pedagogy and the public-facing “living curriculum.” The school’s materials emphasize that teachers embody the classical aims and the collaborative model (e.g., “teacher bios,” “Our Team”).
- Positive/Negative keyword analysis
- Positive signals from the lexicon include: model teachers; mentors; living curriculum; portrait of a teacher; faculty of friends; collegial culture; master/teacher ethos; and teachers as guides in a classical formation process. The school’s public materials align with these signals through explicit bios and emphasis on teacher leadership and mentorship.
- Negative signals (in the lexicon) would include “certification-driven jargon without classical context” or “facilitators on the sidelines” which do not appear in the public materials.
- Estimated positive keyword hits: 4–6 (mentor/teacher as living curriculum; portrait of teacher; collegial culture; master/MA-level training signals in bios); Negative hits: 0.
- Percentage-wise: Strong positive signals with no clear negative signals.
- Why this rating
- The faculty are presented as the core of the school’s classical formation, with explicit bios that emphasize virtue, mentorship, and living exemplars of classical education. This aligns strongly with CLASSICAL signals for Element 5.

Citations: Faculty bios and statements (Wendy Ross, Natalie Martin, Cammy Parks, Shea Andino, Leah McCaffrey, etc.).

Element 6: Parents and Community — CLASSICAL

- Evidence
- The school emphasizes a collaborative relationship with parents and includes language about partnering with parents to educate children; the “collaborative model” is a defining feature in the site’s “Distinctives.” The presence of parent-facing information (e.g., parent information meetings, admissions communications, and a parent portal) shows active parent involvement and formation.
- The site describes a second-order community formation with parents as co-teachers in a blended school model; it highlights practical steps for families to engage (e.g., meetings, admissions information, “read and pray,” philosophical statements about education, and family involvement). This aligns with the classical element that emphasizes parent formation and family liturgical alignment as part of the educational formation process.
- The presence of multiple references to “parent formation,” “co-teachers,” and “community shaped by faith” on the site strengthens Element 6’s alignment with CLASSICAL.

- Positive/Negative keyword analysis
- Positive keywords from the lexicon include partnership with parents, parental formation, reading groups, seminars, family liturgy alignment, and open-campus hospitality. The site repeatedly demonstrates a parental partnership model and opportunities for parent involvement (e.g., parent information meetings; collaboration with families; a parent-first approach to admissions and engagement).
- Negative signals would include consumerist framing or minimal parental involvement; these signs do not appear in the public materials.
- Estimated positive keyword hits: 4–6; Negative hits: 0.
- Percentage-wise: Positive signals predominate.
- Why this rating
- The school presents itself as a partner with parents, a core element of the classical approach (parents as co-teachers, formation outside the classroom, and open parent involvement). This aligns with CLASSICAL signals for Element 6.

Citations: Distinctives emphasizing collaboration with parents; parent information meetings; admissions communications; parent portal.

Aggregate assessment

- Element 1: CLASSICAL
- Element 2: CLASSICAL
- Element 3: CLASSICAL
- Element 4: SOMEWHAT CLASSICAL
- Element 5: CLASSICAL
- Element 6: CLASSICAL

Overall, Kingdom Classical Academy (Enola, PA, 17025) is CLASSICAL, with Element 4 (Pedagogy) representing the primary area for further needle-moving enhancements to reach a full CLASSICAL status in every category.

What would move the needle

- Provide explicit public-facing statements about:
- Socratic pedagogy in upper grades (with concrete examples, seminars, and debate formats) to strengthen Element 4.
- Explicit Great Books/Great Conversation language and lists in the curriculum communications to reinforce Element 3.
- Publicly document and highlight memory-work, chanting, and recitation practices (especially in lower grades) as formal pedagogical components, including sample daily routines.
- Explicitly connect liturgical or liturgy-adjacent practices to daily school life and a public narrative of religious formation for Element 1.

B. (Optional note for the abstract) The six-category framework supports a CLASSICAL conclusion; the suggested needle-movers would more fully align Pedagogy and strengthen the public alignment with classical pedagogy signals.

ABSTRACT

Kingdom Classical Academy (KCA) presents a CLASSICAL education model anchored in Christ-centered theology, formation, and a classical curriculum. The school's public language emphasizes a mission to cultivate wisdom and virtue through truth, goodness, and beauty, grounded in theology and a Statement of Faith. The curriculum is clearly framed by the classical Trivium (grammar, logic, rhetoric) and a three-stage approach to learning, with an emphasis on liberal arts and formation. The faculty are presented as

mentors and living curriculum; parent partnerships and a collaborative school model are central, supported by visible parent-facing channels (admissions information, parent meetings, etc.). Element 4 is the sole area where explicit classical pedagogy signals (e.g., Socratic seminars, chant/memory work) are not consistently foregrounded in public materials, rendering Element 4 SOMEWHAT CLASSICAL, while all other categories align with CLASSICAL. The aggregate assessment of Kingdom Classical Academy (Enola, PA, 17025) is CLASSICAL.

Key sources and evidence include:

- Public identity and Mission statements: Christ-centered, classical, collaborative; formation through truth, goodness, and beauty.
- Curriculum articulation: Classical Education; three-stage method (grammar, logic, rhetoric).
- Community and parents: Collaborative model; partnership with parents; open family involvement.
- Faculty: Bios and living-curriculum signals through Our Team pages.
- Foundational signals: House System and a broader claim about forming souls within a Christ-centered framework.

Appendix: Selected quotes and references

- About Us and Mission: “Kingdom Classical Academy is a distinctively Christ-centered, classical, collaborative educational program of excellence” and “exists to Glorify God by collaborating with parents to provide their children a distinctly Christ-centered, academically excellent, classical education that cultivates wisdom and virtue through a genuine love of truth, goodness, and beauty.”
- Curriculum (Three-Stage Classical method): “The Classical education method employs a three-stage approach that aligns with the natural developmental stages of children.”
- Catechesis of faith and theology: “Statement of Faith” link and Christ-centered framing.
- Faculty and living curriculum: Faculty bios (e.g., Wendy Ross; Natalie Martin; Cammy Parks; Shea Andino; Leah McCaffrey).
- Parent collaboration: Distinctives and admissions materials describing a blended, collaborative model and parent formation.

Note: All content above is drawn from the public-facing pages and internal materials exposed in the school’s crawl results and the Six Essential Elements lexicon in the knowledge base. Citations refer to specific content extracts in the crawl results and the classical-education keyword lexicon used for the analysis.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
