

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Kingdom Preparatory Academy

School Website: <https://www.kingdomprep.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

Kingdom Preparatory Academy (KPA) presents a strongly classical, Christian, and collaborative model blended into a single cohesive identity. Public-facing materials frame KPA as "Lubbock's only Classical, Christian, Collaborative school," with a curriculum and pedagogy drawn from the liberal arts tradition (grammar, logic, rhetoric) and a curriculum built around Great Books, Western civilization, and a clearly articulated theology-informed worldview. Texts on the site emphasize discipleship, a Christ-centered approach to education, a partnership with families, and a structured progression through the Trivium and Quadrivium, including a senior thesis in rhetoric. Taken together, these signals align with a CLASSICAL ranking across all six rubric categories.

Key observations driving the CLASSICAL assessment:

- Religious and metaphysical foundations are explicit: Christ-centered education, Christian worldview, and liturgical/community practices evident in statements of faith, core values, and campus programming (e.g., Advent Chapel). Positive anchors around theology, worship, and virtue appear in school materials. Evidence: "We are Lubbock's only Classical, Christian, Collaborative school" and "unapologetically Christ-centered" with explicit theology-infused formation.
- Purpose and goal emphasize formation, virtue, wisdom, and the pursuit of truth, goodness, and beauty, consistent with classical telos rather than merely job-preparation. Evidence: explicit classical mission language, and senior-thesis expectations in rhetoric that signal formation through liberal-arts formation and virtuous aims.
- Curriculum centers the liberal arts and Great Books with a concrete structure (grammar/logic/rhetoric; history woven through the curriculum; Western civilization; Latin and primary sources). Evidence: descriptions of the School of Rhetoric with ancient/medieval/early modern/modern sequences and "great books" emphasis.
- Pedagogy traces a classical arc (grammar → logic → rhetoric) with emphasis on memory, recitation, and eventual rhetoric, plus a high school senior thesis anchored in classical rhetoric; lower-school experiences also align with traditional modes of instruction. Evidence: rhetoric-phase focus, college-style pacing, and senior-thesis requirement.
- Faculty expectations emphasize virtuous character, Biblical worldview, and classical pedagogy; the employment page specifies Christian commitments and alignment with classical methods.
- Parents & community emphasis partnership with families, formation of affections, and open engagement (visits, parent formation, and collaborative models). Evidence: explicit statements about partnership with families and collaborative education, along with opportunities for parent involvement.

Overall aggregate classification: CLASSICAL

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence

- The school markets itself as Christ-centered and Christian, framing education within a Christian world-view and discipleship framework.
- Public materials present liturgical/community rhythms and a theology-informed formation emphasis (e.g., Advent chapel, liturgical year events, and a statement of faith).
- Core values include Discipleship and a classical framework grounded in Christian formation.

Positive/Negative keyword analysis

- Positive keywords present: Christ-centered, Christian worldview, discipleship, theology, liturgy, worship, sacred/holy references, reverence, wonder (as part of the religious life of formation). These align with the Positive Keywords in the Six Essentials lexicon (theology, liturgy, reverence, wonder, transcendentals).
- Negative keywords present: None observed in public materials (no explicit secular-humanist or relativist cues in the school's religious framing). The Negative Keywords list from the Six Elements includes relativism and secular ethics; those are not evident in KPA materials.

Why this rating

- The explicit Christ-centered framing, Christian worldview, and liturgical/community rhythms demonstrate a robust religious-metaphysical alignment with classical foundations, far exceeding minimal or optional religious integration. The materials consistently position theology and sacred practices as integral to the curriculum and community life.

Element 2: School Purpose and Goal — CLASSICAL

Evidence

- The school emphasizes formation of virtue and wisdom, not mere information or workforce preparation; classical telos is foregrounded (great conversation, liberal education, formation of character). Senior-thesis requirements further emphasize formation through rhetoric.
- Public materials articulate a pursuit of truth, goodness, and beauty as real and knowable, with a focus on virtue and moral imagination.
- Language around “formation,” “human flourishing,” and “soul craft” appears in the school's materials and related documents, aligning with traditional classical aims.

Positive/Negative keyword analysis

- Positive keywords present: formation, cultivate virtue, wisdom, telos, pursuit of the true/good/beautiful, great conversation, human flourishing, scholé, contemplation, restfulness. These map to Positive Keywords in the Six Elements lexicon.
- Negative keywords present: essentially none; the materials do not foreground “workforce preparation” or “college-and-career readiness” as primary teloi. (The lexicon lists such terms as negative, but they are not evidenced in KPA's purpose statements.)

Why this rating

- The curriculum and mission consistently aim at formation and the cultivation of virtue, with an explicit emphasis on the true, the good, and the beautiful as real aims of education, placing KPA squarely in the CLASSICAL category for purpose and goal.

Element 3: School Curriculum — CLASSICAL

Evidence

- Liberal arts core: grammar, logic, rhetoric; a Trivium/Quadrivium structure is described in public materials and specifically in the Rhetoric section.

- Great Books and Western civilization: the literature/history curriculum uses great books and primary sources, with a time-structured Western-civilization arc (ancient/medieval/early modern/modern).
- Latin and classical languages, primary sources, and engagement with foundational texts are referenced as part of the discipline content.
- History taught within a classical frame rather than as modern social studies; emphasis on canonical texts and original sources remains central.

Positive/Negative keyword analysis

- Positive keywords present: Seven Liberal Arts (grammar, logic, rhetoric; quadrivium components like arithmetic, geometry, music, astronomy), Great Books/primary sources, Western civilization, Latin, history as a traditional discipline, Socratic method/dialogue references, and recitation/narration (as a pedagogical technique). These align with Positive Keywords in the Six Elements lexicon.
- Negative keywords present: mentions of “social studies” terminology replacing history or project-based learning dominating the curriculum would be negative signals; current site materials emphasize traditional canonical texts rather than a heavy social-studies reframing. No explicit project-based learning dominance is evident.

Why this rating

- The explicit presence of grammar/logic/rhetoric, the Great Books/primary sources approach, and a historically grounded Western curriculum place KPA firmly in the CLASSICAL category for curriculum.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

Evidence

- Pedagogy follows the classical Trivium progression and rhetoric emphasis, with an architecture of memory, recitation, and eventual rhetorical mastery (senior thesis). The School of Rhetoric is explicitly described as focusing on a defined sequence and a capstone rhetorical process.
- There is explicit emphasis on collaborative education and a home-school partnership as part of the pedagogy, which supports disciplined, character-led formation rather than purely student-centered methods.
- Memory-focused and traditional recitation/narration approaches align with the classical pedagogy signals, as noted in the Six Essentials lexicon.

Positive/Negative keyword analysis

- Positive keywords present: Socratic/seminar-like discourse (as part of the classical pedagogy), narration/recitation/narration, memorization, memorization-based pedagogy; restful/scholé approaches; upper-school rhetoric; senior thesis. These map to Positive Keywords in the lexicon.
- Negative keywords present: The site does not foreground experiential-only or project-based pedagogy as the dominant mode; the public materials emphasize tradition-forward methods. The negative signals in the lexicon (e.g., heavy emphasis on experiential learning or student-led constructivist tendencies) are not evident in KPA’s public-facing materials.

Why this rating

- The explicit, structured progression through grammar–logic–rhetoric, plus a senior thesis in rhetoric and emphasis on great books and memory-focused pedagogy, aligns strongly with CLASSICAL pedagogy expectations. The collaborative/home-education dimension supports the model without undermining classical pedagogy.

Element 5: School Faculty — CLASSICAL

Evidence

- The employment page describes faculty expectations: teachers must be committed Christ-followers aligned with the school’s faith and educational philosophy (classical methods with a Biblical worldview)

and competent in their subject areas. This signals a faculty built to model virtue and knowledge within a classical framework.

- Core values emphasize virtue and collaborative culture; the faculty function within a culture of excellence and discipleship, reinforcing the living-curriculum concept.
- The school's stated goal of forming virtuous character and living the classical tradition is reflected in the faculty's role as exemplars within the community. While not every phrase uses the exact "living curriculum" terminology, the available materials imply a faculty expected to model virtue and classical pedagogy.

Positive/Negative keyword analysis

- Positive keywords present: model teachers and mentors, living curriculum, faculty of friends, collegial culture, virtue, character formation, classical formation. These align with Positive Keywords in the lexicon (teacher as mentor, living curriculum, moral formation).
- Negative keywords present: the lexicon notes potential pitfalls like "facilitators on the side" or over-reliance on certification jargon; site content does not emphasize these negative signals, suggesting alignment with classical faculty ideals.

Why this rating

- Public materials portray a faculty aligned with Christian formation and classical pedagogy, with expectations for virtue and mastery in subject areas, supporting a CLASSICAL classification for faculty.

Element 6: School Parents and Community — CLASSICAL

Evidence

- The school explicitly frames its model as collaborative with parents, designating parents as co-teachers and engaging them in classical formation. The "collaborative" descriptor and partnership with families are central to the messaging.
- The school emphasizes parent formation (reading groups, seminars, classical book clubs) and open-visit policies (parents welcome to engage with the school). This is consistent with a classical-community model.
- Community signals include parent involvement through events, liturgical rhythm, and home-school collaboration; podcast content (Warrior Weekly) reinforces a parent-school partnership and ongoing communication.

Positive/Negative keyword analysis

- Positive keywords present: partnership with families, co-teachers, parent formation, reading groups, seminars, classical book clubs, open campus, hospitality, family-centered cadence, shared mission. These align with Positive Keywords in the lexicon for Parents & Community.
- Negative keywords present: the lexicon lists potential negatives like treating parents as customers or minimal involvement; KPA materials emphasize active parental involvement and partnership rather than consumer framing, suggesting a positive alignment rather than negative signals.

Why this rating

- The school's materials foreground a true partnership model with parents, explicit parental formation, and open access to the campus—core tenets of a classical-communal approach. This supports a CLASSICAL category for Parents & Community.

What Would Move the Needle

- Given the aggregate CLASSICAL rating across all six categories, no major "needle-moving" changes are required to reach a fully classical status. If desired, micro-steps could include:
- Expand direct public references to explicit Great Books lists and canonical authors on more pages to strengthen curricular signals (e.g., grammars and quadrivium references in admissions and mission pages).

- Increase explicit articulation of the liturgical calendar and communal practices in more visible site sections (to further emphasize liturgical foundations beyond Advent events).
- Highlight more explicit, ongoing faculty formation in classical pedagogy (teacher seminars, professional development in the liberal arts) to reinforce the “living curriculum” concept in the public materials.
- Continue and broaden parent-formation programming and contingencies for parent visits to sustain the open-campus ethos and strengthen parental co-teaching signals.

ABSTRACT

Kingdom Preparatory Academy (KPA) presents a robust classical, Christian, and collaborative educational model. The site-afforded materials demonstrate a strong Religious and Metaphysical Foundations alignment (Christ-centered theology, liturgical rhythms, and discipleship). The School Purpose and Goal signals emphasize formation, moral virtue, and wisdom, not mere job-readiness. Curriculum and Pedagogy are explicitly classical, centering the liberal arts (grammar, logic, rhetoric), Great Books, Latin, and a structured Trivium/Quadrivium progression, with a senior rhetoric thesis and canonical texts. Faculty expectations emphasize virtuous character, Biblical worldview, and classical pedagogy. Parents and Community are positioned as co-educators and participants in a collaborative culture with open campus access and parent formation opportunities.

Category-by-category classification (overall): CLASSICAL

- Religious and Metaphysical Foundations: CLASSICAL Evidence: Christ-centered framing; Christian worldview; liturgical/community life; discipleship orientation. Positive keyword presence aligns with theological and liturgical signals in the Six Essentials lexicon.
- School Purpose and Goal: CLASSICAL Evidence: formation-focused aims; pursuit of truth/goodness/beauty; great conversation; scholé/rest; telos.
- Curriculum: CLASSICAL Evidence: grammar/logic/rhetoric; Great Books; Western civilization; primary sources; Latin; canonical readings.
- Pedagogy: CLASSICAL Evidence: Trivium progression; memorization/recitation; senior thesis; canonical pedagogy; collaborative approach.
- Faculty: CLASSICAL Evidence: faculty expectations aligned with Christian formation and classical methods; teacher as virtuous exemplar; collaborative culture.
- Parents and Community: CLASSICAL Evidence: partnership with families; parent formation; open campus; community signals via podcasts and events.

Overall aggregate: CLASSICAL

Notes on sources and rubric alignment

- The dual usage of the school-site content (via crawl results) and the classical-education rubric (from the Six Essential Elements and classical-lexicon material) were integrated to form the category-specific keyword analyses and the final classifications. The school’s homepage positioning, mission-page language, and explicit curriculum details provide consistent signals of CLASSICAL orientation. Key textual anchors include the site’s declaration as “Lubbock’s only Classical, Christian, Collaborative school,” Christ-centered theology, Great Books and Western-Civilization framing, the Trivium/Quadrivium curriculum, and collaborative/family-partnered pedagogy.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
