Six Elements of Classical Education School Website Audit

School: L.E.A.D. Academy Classical School
School Website: <https://www.leadacademylions.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

Overall Classification: CLASSICAL

Executive Summary

Lead Academy Classical School (L.E.A.D. Academy Lions, Pace, FL 32571) presents a robust classical Christian program rooted in a Christ-centered worldview. Public-facing materials consistently emphasize classical elements (grammar, logic, rhetoric), a biblical framework, and a strong emphasis on virtue, wisdom, and beauty. The school frames its mission around formation of character and the cultivation of truth, goodness, and beauty, with explicit statements about a biblical worldview, theology, and community-life practices. The curriculum highlights include biblically integrated content, Latin in the lower grades, and a broad co-curricular program that includes fine arts and athletics within a Christian framework. Public materials also signal a serious commitment to parent partnership and community life (e.g., “L.E.A.D. Families,” Joppa Project, prayer-related content, and parent resources).

Overall, and across all six categories, the evidence strongly supports CLASSICAL classification, with a consistently classical Christian orientation evidenced by explicit Trivium framing (grammar, logic, rhetoric), biblical and theological foundations, and a coherent classical-pedagogical approach. Where the site shows practical connections to modern supports (e.g., dual enrollment, scholarships, and fine arts programming), these are presented as adjuncts to the core classical formation rather than core vocational emphasis. Therefore, the aggregate rating is CLASSICAL.

Executive Summary — Element-by-Element Snapshot

- **Element 1: Religious and Metaphysical Foundations — CLASSICAL Evidence:** clear articulation of a Christ-centered, biblical worldview; theology as a grounding for curriculum; communal faith-life language. Positive keywords include Christ-centered, biblical worldview, faith-based, truth, goodness, beauty, Logos/theology references. Negative indicators (secular or relativistic signals) are not present in public materials. Why: The school explicitly grounds education in theology and transcendentals (truth, goodness, beauty) and ties learning to a liturgical-communal life through faith-based programming and prayer content.
- **Element 2: School Purpose and Goal — CLASSICAL Evidence:** formation of character and virtue emphasized; vision of education as formation, not mere information; commitment to truth, goodness, and beauty; occasional evidence of college-preparatory pathways (dual enrollment) but framed within a formation-first approach. Why: The materials foreground formation, virtue, and a teleological orientation, aligning with classical aims even when modern supports exist.
- **Element 3: School Curriculum — CLASSICAL Evidence:** explicit structuring of grammar, logic, rhetoric; Latin in lower grades; biblical/theological integration; history framed through Western/biblical worldview; references to Great Books are implied via classical approach, with an explicit emphasis on the Trivium and liberal arts orientation. Why: Core liberal-arts framing and language-centered pedagogy, plus Latin and Biblical integration, align strongly with classical curriculum norms.
- **Element 4: School Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL Evidence:** lower grades emphasize communal singing/choral activities (Ignite Chorus) and ritual/memory-oriented practices; upper grades show potential Socratic/ seminar-style opportunities, but explicit, consistent documentation of Socratic pedagogy is less prominent in public-facing materials than the program’s overall classical framing suggests. Positive keywords: Socratic dialogue (mentioned in classical lexicon as a pedagogy), memory/recitation, singing/chanting, rhetoric, seminars (as an eventual higher-school

mode). Negative indicators: project-based learning and other constructivist, student-led, or heavy experiential approaches are not foregrounded as primary, and there is limited explicit documentation of pervasive Socratic seminars across grades in the public materials. Why: The public-facing materials strongly emphasize classical methods (grammar-logic-rhetoric, memory work, choral/musical memory), with more explicit Socratic practice appearing in higher-level classical education literature rather than consistently documented on the site.

- Element 5: School Faculty — CLASSICAL Evidence: employment page emphasizes virtuous conduct, servant leadership, Christian formation, and mentoring; faculty described as living curriculum; strong emphasis on character modeling and spiritual formation. Why: The faculty is presented as moral exemplars and living curriculum, with explicit emphasis on virtue and character—central to classical education.
- Element 6: Parents & Community — CLASSICAL Evidence: explicit partnership with families (parents as co-teachers), parent formation via a “lead-parents” channel, community events (SHO, Joppa Project), and open campus visiting culture; scholarship information and family resources underscore ongoing parental involvement. Why: Public materials emphasize partnership with families, parental formation, and welcoming attitudes toward parents’ participation, aligning with classical-community expectations.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
