

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: LEAP Academy
School Website: <https://leapaca.org>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS STARTUP

Any school that belongs to the Association of Classical Christian Schools (ACCS) is, by definition, recognized as a classical school because ACCS require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Leap Academy, Georgia 30103 presents a robustly Christian, classical veneer and positions itself as a covenantal, classical Christian school with a stated aim to cultivate a Biblical worldview and virtue in students. Public materials emphasize a Christ-centered, faith-integrated formation, paideia (the upbringing and education of the soul), and a mission to train students to lead with excellence within a Biblical framework. There is clear language about truth, goodness, and beauty, and explicit partnerships with families and church communities, including a stated belief in forming students for life rather than solely for work.

Overall, Leap Academy demonstrates substantial classical elements—especially around religious/theological foundations, formation-oriented goals, and active parent/community partnership. However, the public materials do not consistently articulate explicit Great Books engagement, a formal Trivium/Quadrivium curriculum, or explicit Socratic pedagogy in the way the strict classical rubric envisions. Taken together, Leap Academy aligns more with **SOMEWHAT CLASSICAL** than fully **CLASSICAL**, with some strong classical cues and some gaps that, if addressed with a more explicit, text-based, traditional classical curriculum and pedagogy, would push it toward full **CLASSICAL**.

Executive Summary — Element-by-Element Snapshot

- Element 1: Religious and Metaphysical Foundations — **CLASSICAL**
- Element 2: Purpose and Goal — **CLASSICAL**
- Element 3: Curriculum — **SOMEWHAT CLASSICAL**
- Element 4: Pedagogy — **NOT CLASSICAL**
- Element 5: Faculty — **NOT CLASSICAL**
- Element 6: Parents & Community — **CLASSICAL**

What would move the needle - Codify and publish an explicit Great Books program and Great Conversation framework (with primary texts and guided discussions) beyond broad allusions to "great philosophers" and paideia. - Make explicit the Trivium (grammar, logic, rhetoric) and Quadrivium elements in the curriculum, including Latin or classical language study, and formal memory work where appropriate. - Introduce and document explicit Socratic/Scholé-based pedagogy at the upper levels, including seminars, dialectic discussions, and student-led rhetoric training. - Elevate a clearly defined, publicly shared faculty formation narrative (the living curriculum) with teacher portraits and mentorship structures. - Expand and articulate parent education offerings (book studies, seminars, parent formation) as a formal, ongoing program beyond occasional events.

Note: The Needle-Mover section applies only where Leap Academy is **SOMEWHAT CLASSICAL**. If you want any further refinement or a different needle-moving plan, I can tailor it.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - Leap presents itself as a covenantal, classical Christian school with a stated Biblical worldview and Christ-centered education. Public materials describe LEAP Academy as a “classical Christian school” with aims to educate “academically and spiritually” to serve God’s Kingdom (e.g., “covenantal, classical Christian school... to prepare their children not just for their career, but for life” and “centrality of the Bible in education”). - Mission statements explicitly reference cultivating a Biblical worldview and leading with excellence within a Classical Christian framework. - Public content references Paideia (the Greek concept of upbringing/education) and teaching through a Christian lens, with explicit emphasis on “truth, goodness, and beauty” as educational aims.

Positive/Negative keyword analysis - Positive keywords present: truth, goodness, beauty; theology; biblical worldview; Christ-centered; covenantal; Paideia; sacred/scriptural framing. Examples include “truth, goodness, and beauty” and explicit statements about Biblical worldview and Jesus Christ. - Negative keywords: None notably evident in public materials (no clear signaling of secularism, anti-theology, or relativism).

Why this rating - The school clearly foregrounds religious/metaphysical foundations, integrates theology into its identity, and embeds communal activities (prayer-related content and church partnership) as part of school life. The explicit Christ-centered framing, Biblical worldview, and Paideia orientation align with CLASSICAL in this category.

Element 2: Purpose and Goal — CLASSICAL

Evidence - The published mission emphasizes formation of virtue and a Biblical worldview, rather than mere information or job preparation. The school proclaims formation of character, leadership, and service in a classical Christian context. - The school frames education as formation of the whole person—spiritual, intellectual, moral—through a classical lens (e.g., “classical Christian educational environment,” “lead with excellence,” “serve with compassion”). - There are explicit statements about aiming to cultivate truth, goodness, and beauty, and about forming students to think and act with virtue within a long-standing classical tradition.

Positive/Negative keyword analysis - Positive keywords present: formation, virtue, wisdom, human flourishing, moral imagination, contemplation, teleology, Logos, moral order, virtue ethics, leadership, excellence, love of learning, sacred tradition, and embodied formation (as per the classical rubric’s lexicon). Leap materials explicitly reference formation of character, virtue, and a teleological, virtue-centered aim. - Negative keywords: The materials do not emphasize work-preparation, workforce-readiness, or 21st-century skills as primary aims; in fact, the opposite framing is present (formation over information). This aligns with CLASSICAL.

Why this rating - Leap Academy’s stated goals center on virtue formation, moral development, and a transcendent aim (truth, goodness, beauty) consistent with classical education’s telos. The textual emphasis on formation over information and on a classical Christian orientation supports CLASSICAL here.

Element 3: Curriculum — SOMEWHAT CLASSICAL

Evidence - The school uses Paideia language and frames its curriculum around a classical Christian approach, with emphasis on “truth, goodness, and beauty” and the integration of faith across academics. The presence of “Paideia” and “great conversation” in the narrative signals classical curricular aims, though explicit Great Books lists or a formal Trivium/Quadrivium structure are not consistently presented in the public materials. - Admissions and academics references include classical education framing and integration of faith, with mentions of foundational texts and the Great Conversation more broadly (e.g., admissions resources that cite classical education and the Great Books lineage). - Public materials emphasize a biblically informed curriculum and an aim to form the whole child, with statements about “investigation of truth” and “the education of the great philosophers” as part of the historical classical tradition.

Positive/Negative keyword analysis - Positive keywords present: Paideia, great conversation, great books (implied through references to classical education and “great philosophers”), truth, goodness, beauty, formation, liberal arts framing. - Negative keywords present: There is limited, if any, explicit mention of a complete Seven Liberal Arts (Trivium/Quadrivium) curriculum, Latin/Greek study, or a formal, book-length Great Books program beyond general references. This signals a partial alignment rather than full CLASSICAL curriculum.

Why this rating - Leap Academy clearly signals classical aims through Paideia and a focus on formation and truth, but the public materials do not consistently show a complete classical curriculum (e.g., explicit Trivium/Quadrivium, Great Books program, or a robust Great Conversation framing). This leaves Curriculum in the SOMEWHAT CLASSICAL range rather than fully CLASSICAL.

Element 4: Pedagogy or Teaching Methods — NOT CLASSICAL

Evidence - Public materials do not consistently describe a formal, high-visibility Socratic seminar program, rigorous upper-level rhetoric instruction, or a sustained practice of memory work, recitation, or chant as core pedagogy. There are elements of formation and contemplation, but explicit evidence of traditional classical pedagogy (Socratic seminars, memorization, recitation, or the master-apprentice model) is not clearly presented. - There are mentions of “Christian formation” and integration of faith, which implies a holistic approach, but explicit canonical classical pedagogical methods (Scholé days, formal chant/memory work, or a clear progression from grammar to logic to rhetoric) are not clearly documented in the public materials.

Positive/Negative keyword analysis - Positive keywords present: contemplative/Scholé concepts are referenced implicitly through formation language, but explicit keywords such as Socratic seminar, narration, or formal memorization/recitation are not clearly present in Leap’s public materials. The Paideia framing hints at classical pedagogy in spirit, but the explicit pedagogical indicators are not robustly documented. - Negative keywords present: The explicit traditional pedagogy signals (Socratic dialogue, memorization/recitation, classical rhetoric practice) are not strongly evidenced; thus, negative signals related to these specific pedagogical practices are present by omission.

Why this rating - Given the lack of explicit, strong documentation of core classical teaching methods such as Socratic seminars, formal memorization/recitation, or a clearly defined Scholé-based approach in public materials, Pedagogy is best categorized as NOT CLASSICAL at this time, despite the classical intent in other areas.

Element 5: Faculty — NOT CLASSICAL

Evidence - Public materials do not present a defined “living curriculum” faculty model, portrait of teacher, or explicit articulation of teacher formation, mentorship, or collegial culture. There is no clearly articulated faculty profile or explicit statements about teachers as moral exemplars or mentors in the public content. - The materials emphasize partnership with families and a community orientation but do not provide a formalized, public-facing description of teacher roles as models of virtue or a “faculty as the living curriculum.”

Positive/Negative keyword analysis - Positive keywords present: Mentorship, living curriculum, and teacher exemplars are listed in the Six Elements lexicon as desirable features; Leap’s public materials do not strongly map to these keywords in a documented way. - Negative keywords present: The absence of explicit “model teachers” or “portrait of teacher” language in Leap’s public-facing content signals a gap relative to classical expectations for Faculty as articulated in classical criteria.

Why this rating - Although Leap Academy communicates strong religious/cultural aims and parent partnership, the public materials do not present a clearly defined faculty as living curriculum, mentor-teacher culture, or explicit teacher portraits, which is a significant missing piece for a full CLASSICAL alignment in the Faculty category.

Element 6: Parents & Community — CLASSICAL

Evidence - Leap Academy emphasizes partnering with families and views parents as co-teachers/partners, with open pathways for parental involvement and education. The organization uses language of partnership with families, co-educators, and parental formation. There are references to book selections and seminars and to family involvement through “Think! a children’s book,” pastor/family engagement, and parent-facing content (e.g., GA Tax Credit materials, donor/friendship materials). - The school highlights collaboration with church communities (NorthPointe Church hosting), prayer teams, and community events, indicating a strong community orientation and family involvement. - Opportunities for families to engage with classical education through reading lists and seminars are present on the site (e.g., “Shaping Hearts and Minds” and admissions resources that reference classical education).

Positive/Negative keyword analysis - Positive keywords present: partnership with families, co-teachers, parental engagement, family formation, home–school connection, community of learners, and parental leadership. The Leap materials frequently emphasize parent involvement and family partnership, which are core signals of CLASSICAL alignment in this category. - Negative keywords: None significant in public materials; the materials emphasize open campus and parental access, which reduce negative signals in this category.

Why this rating - Leap Academy presents a strong, explicit commitment to parent partnership, family formation, and community engagement, which aligns with the CLASSICAL criteria for Parents & Community.

Abstract scoring and overall assessment

- Element 1: CLASSICAL
- Element 2: CLASSICAL
- Element 3: SOMEWHAT CLASSICAL
- Element 4: NOT CLASSICAL
- Element 5: NOT CLASSICAL
- Element 6: CLASSICAL

Aggregate assessment: SOMEWHAT CLASSICAL

Rationale: Leap Academy demonstrates strong classical-intent signals in Religious/Metaphysical Foundations, Purpose/Goal, and Parents & Community. It shows partial alignment in Curriculum and has some formative classical language (Paideia, truth/goodness/beauty), but Pedagogy and Faculty lack explicit classical method documentation and the Curriculum, while strong in vision, does not consistently present the full Seven Liberal Arts, Great Books engagement, or explicit Trivium/Quadrivium and Socratic pedagogy. Taken together, Leap Academy aligns with SOMEWHAT CLASSICAL rather than fully CLASSICAL, though it leans toward CLASSICAL on several axes.

What Would Move the Needle

- Publish and implement a formal Great Books program and Great Conversation framework with canonical texts and guided dialogue across grades K–12.
- Codify a complete Trivium/Quadrivium framework (grammar, logic, rhetoric; arithmetic, geometry, music, astronomy) with explicit language study (Latin or other classical languages) and a clear sequence from grammar to rhetoric.
- Publicly document explicit Socratic pedagogy and memory-based practices (recitation, chant, copy-work) in lower and upper grades, including a formal plan for scholē days and contemplative learning periods.
- Develop and publicly share a “Living Curriculum” profile for faculty—portrait of teachers, mentorship roles, professional development, and teacher-led exemplars of virtue and scholarship.
- Expand parent/teacher education programming with regular, structured book studies and seminars tied to classical education principles to deepen family formation and home-school alignment.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
