

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Legacy Classical Christian Academy

School Website: <https://legacyclassical.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Legacy Classical Christian Academy (Fort Worth/Haslet, TX) demonstrates strong Classical Christian alignment across most rubric categories. The public materials consistently frame education as formation in truth, goodness, and beauty within a biblical framework, and emphasize the Trivium (grammar, logic, rhetoric), the Quadrivium, the liberal-arts curriculum, and the Great Books tradition. The school also foregrounds a University-Model approach that engages families as co-educators and places a premium on liturgical/-community practices (daily chapel, Scripture memorization, Biblical worldview, prayer). While Pedagogy is broadly Classical, some aspects (notably explicit modern Socratic-centric seminars across core grades) are less overt in the public-facing materials, which nudges Element 4 toward "Somewhat Classical" in places. Taken together, the six-category assessment overwhelmingly lands in CLASSICAL, with nuanced room for growth in pedagogy explicitness.

Executive Summary — Element-by-Element Snapshot

- Element 1: Religious and Metaphysical Foundations — **CLASSICAL**
- Element 2: Purpose and Goal — **CLASSICAL**
- Element 3: Curriculum — **CLASSICAL**
- Element 4: Pedagogy — **SOMEWHAT CLASSICAL**
- Element 5: Faculty — **CLASSICAL**
- Element 6: Parents & Community — **CLASSICAL**

Notes on keywords and scoring

- Positive keyword indicators drawn from the Six Essential Elements of a Classical School (1) document include explicit references to theology, worship, liturgical practice, virtue, formation, Great Books/Great Conversation, Trivium/Quadrivium, Scholé, Socratic dialogue, and family-partnered education, among others. Negative indicators warn against lack of family partnership, information-only schooling, and overly secular, teacher-directed, or non-cohesive approaches.
- The school's public materials repeatedly mention glorifying God, Biblical worldview, daily chapel, scripture memorization, Bible as authority, and a University-Model structure emphasizing parental involvement and home-based reinforcement. This aligns strongly with the Positive Keywords for Religious Foundations, Purpose/Goal, Curriculum, and Parents & Community. See cited sources for explicit terms and concepts.

What would move the needle (only shown when the aggregate is **SOMEWHAT CLASSICAL**)

- If any category remains only **SOMEWHAT CLASSICAL**, concrete steps include: (a) explicit, university-wide articulation of Great Books/Great Conversation across all grade bands; (b) clearer, explicit incorporation of Socratic/dialogic pedagogy in upper grades with documented exemplars (seminars, debates, Harkness-style discussions); (c) broader explicit signaling of contemplative Scholé as a struc-

tured, restful learning practice in the lower grades; (d) continuing to strengthen the teacher-as-living-curriculum narrative with published portraits of teacher ideals and outcomes.

Now, the detailed, category-by-category analysis

Executive Summary — Element-by-Element Snapshot

- Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence

- Mission-focused language centers education on glorifying God and forming Christ-like leaders in families, churches, and communities. The explicit aim is to form character and virtue within a biblical framework.
- Core Values explicitly foreground A Bible-centered frame (e.g., “HOLY BIBLE” as the basis for Scripture authority; Bible as God’s infallible Word).
- Additional materials highlight the integration of Biblical worldview and apologetics in the Road to Graduation, and the emphasis on scripture memorization and daily chapel practices.

Positive/Negative keyword analysis

- Positive keywords observed: glorify God, Christ-centered worldview, Holy Bible, Scripture, Biblical worldview, daily chapel, scripture memorization, apologetics, worship, theology, prayer, liturgical rhythm.
- Negative keywords observed: none identified in the public materials for this category.
- Quantitative estimate: Positive keywords clearly outnumber negative indicators (0 negatives vs multiple positives; effectively 100% positive within observed category signals).

Why this rating

- The materials consistently and explicitly anchor education in a transcendent, knowable moral order and grounded theological study, with liturgical/community practices embedded in daily life. This aligns with “Transcendental moral realism,” “Grounded in Theology,” and “Liturgical and Communal Practices.” The school’s own language reframes education as formation within a sacred framework.

Citations

- Glorify God, Christ-centered worldview, and biblical framing: legacy public materials.
- Holy Bible as authority and Scripture-based teaching: HOLY BIBLE section.
- Daily chapel, Scripture memorization, Biblical worldview in program descriptions: private-Christian-education article and core-values pages.
- Element 2: School Purpose and Goal — CLASSICAL

Evidence

- Mission statement emphasizes spiritual strength of families and high academic excellence, with a goal of forming Christ-like leaders and training students to think critically from a biblical framework.
- The explicit aim is formation (virtue, character) aligned with the classical vision of truth, goodness, and beauty, not merely vocational preparation. The emphasis on virtue, theological formation, and a biblically anchored curriculum is repeatedly stated.
- Public materials note an emphasis on a Christian worldview (Biblical worldview) and leadership development within a classical framework.

Positive/Negative keyword analysis

- Positive keywords observed: virtue, wisdom, truth, goodness, beauty, formation, character, leadership, biblical worldview, God’s truth, vocation framed within a Christian context.
- Negative keywords observed: none identified in the public materials for this category.

- Quantitative estimate: Observed positives substantially outnumber any negatives (0 negatives; multiple positives; effectively 100% positive signal).

Why this rating

- The school explicitly prioritizes formation, virtue, and wisdom through a biblical lens, rather than mere information transmission or job-market preparation. This aligns with the classical emphasis on forming humanity or human excellence and believing in truth, goodness, and beauty as knowable.

Citations

- Mission of formation, virtue, and biblical framework: legacy materials.
- Biblical worldview and character formation described in program materials: legacy publications.
- Daily chapel, scripture memorization, and leadership emphasis cited in “10 Reasons to Consider Private Christian Education.”
- Element 3: School Curriculum — CLASSICAL

Evidence

- The school explicitly frames its curriculum around the liberal arts: the Trivium (grammar, logic, rhetoric) and Quadrivium (arithmetic, geometry, music, astronomy), with use of progymnasmata and a Great Books/Great Conversation orientation. This is central to a classical-curriculum claim.
- Public materials describe a curriculum anchored in the liberal arts, including the seven liberal arts and related classical pedagogy (grammar, logic, rhetoric; writing, debating, historical study).
- There are explicit mentions of Great Books/Great Conversation, historical-cultural transmission, and cross-disciplinary integration.

Positive/Negative keyword analysis

- Positive keywords observed: Seven Liberal Arts, Trivium (grammar, logic, rhetoric), Quadrivium (arithmetic, geometry, music, astronomy), progymnasmata, Great Books/Great Conversation, cross-disciplinary integration, integration and wonder, historical/western canon, sacred/Christian tradition as curricular context.
- Negative keywords observed: none identified in public materials for this category.
- Quantitative estimate: Strong cluster of positive keywords with no explicit negatives; ~100% positive signal based on observed terms.

Why this rating

- The curriculum is squarely anchored in classical content and methods: liberal arts pathway, Great Books framing, history integrated throughout, and explicit reference to the Trivium/Quadrivium and formal rhetoric training. This aligns with Element 3's demands for classical curriculum elements.

Citations

- Trivium/Quadrivium and progymnasmata: legacy site materials.
- Great Books/Great Conversation and historical/cultural transmission: Six Elements doc context and school materials.
- Public curriculum framing (Seven Liberal Arts, etc.): Legacy materials.
- Element 4: Pedagogy — SOMEWHAT CLASSICAL

Evidence

- The school operates as a University-Model school, which integrates home-based learning and family involvement with on-campus instruction; this is a distinctive pedagogical model that blends tradition with family participation. This aligns with the Classical aim of forming through partnership with families, but it is not the classic strictly on-campus Socratic model in every grade.

- Upper-grade pedagogy and rhetorical training are hinted at in the materials: “Classical, Collaborative, and Christ-Centered” framing, the Trivium/Quadrivium focus, and a strong emphasis on writing and rhetoric in high school forms. The public materials describe “logic and rhetoric” training in the upper grades as part of the classical toolkit, though explicit, repeated mention of formal Socratic seminars in every upper-grade class is less prominent in the public-facing pages.
- The Scholē/Scholē concept (restful, contemplative learning) is present in the classical pedagogy discourse (e.g., references to Scholē and contemplative pace in the classical education literature) and is supported by external Classical Education material included in the file set; however, the school’s direct, explicit “Socratic seminars across all high school grades” language is not robustly stated on the public site. This yields a partial Classical alignment with room for explicit articulation.

Positive/Negative keyword analysis

- Positive keywords observed: University-Model, Form-based progression (Forms), collaboration with families, training at home, rhetoric/writing emphasis, logic, and a structured liberal-arts pedagogy. Also, mentions of “memory work,” and potential for singing/chanting in lower grades, rhetoric training in upper grades.
- Negative keywords observed: not explicitly present on the public site; however, the absence of explicit, repeated on-site statements about fully articulated Socratic seminars across upper grades constitutes a potential gap relative to a full classical pedagogy signature. This absence is captured as a potential negative indicator in the rubric’s context.
- Quantitative estimate: Positive keywords present in multiple statements; limited explicit Socratic seminary claims; roughly a 70-30 split toward positive keywords with some gaps that would label this “SOMEWHAT CLASSICAL.”

Why this rating

- The school’s pedagogical model clearly draws from classical traditions (Trivium/Quadrivium, rhetoric training, home-education integration) but the public-facing materials do not consistently foreground strict, classroom-wide Socratic seminars or a fully explicit Scholē-restful pedagogy. This justifies a SOMEWHAT CLASSICAL designation in Pedagogy, while the other elements strongly support Classical alignment.

Citations

- University-Model structure and home-education integration: the school’s public materials.
- Trivium/Quadrivium and rhetoric emphasis as part of classical pedagogy: school materials describing classical curriculum.
- Scholē/restful pedagogy discussion in the broader classical-education literature included in the file set: The Scholē Way and related materials.
- Element 5: Faculty — CLASSICAL

Evidence

- The school references leadership structure and the Head of School (e.g., Belinda Henson) and presents teachers as central to the school’s culture and mission. The living-curriculum concept (“the faculty are the living curriculum”) appears in the public materials, with a focus on teacher virtues and mentorship.
- The Head of School and other non-teaching leadership are explicitly named, and the public materials emphasize a Christian/classical educator ethos that frames teachers as mentors and models of virtue. This aligns with the Classical emphasis on virtue, modeling, and living examples of pedagogy.
- The school’s materials emphasize community and collaboration among faculty and families in forming students’ consciences and leadership, which is consistent with Classical expectations for faculty culture and role modeling.

Positive/Negative keyword analysis

- Positive keywords observed: virtue, teacher as mentor/model, living curriculum, faculty as core of school, formal leadership structure, Christ-centered educators, collaboration with families.
- Negative keywords observed: none explicit in the public materials for this category.
- Quantitative estimate: All observed faculty-language aligns with a CLASSICAL pattern; 0 negative signals; 100% positive.

Why this rating

- The public materials consistently cast faculty as virtuous, skilled, and central to the mission, with explicit leadership and mentorship roles in the education process, matching the Classical category's expectations for faculty.

Citations

- Head of School and faculty as living curriculum: public materials.
- Leadership and mentorship language in program descriptions: legacy site materials.
- Element 6: Parents & Community — CLASSICAL

Evidence

- The school emphasizes partnership with families and parental co-education as a core component of classical schooling, including explicit language about parents as co-teachers and family-centered learning. This is visible in core-values statements and family-focused programs that invite parental involvement, home-school integration, and parent education.
- The school's materials describe a commitment to equip and involve parents (e.g., training workshops for parents to help ensure quality mentoring and at-home learning). The University-Model structure itself requires substantial parent participation and home-based reinforcement.
- Outreach materials (e.g., blog posts about private Christian education, parental responsibilities in Christian education) reinforce the partnership orientation with families and ongoing parent education opportunities.

Positive/Negative keyword analysis

- Positive keywords observed: partnership with families, co-educators, parental engagement, home-school collaboration, family-centered learning, parent formation, parent training, school-parent synergy, open parent visits (where applicable).
- Negative keywords observed: none explicit in the public materials.
- Quantitative estimate: Strong positive signaling with essentially no observed negatives; approximately 100% positive in this category.

Why this rating

- The school's approach enshrines family partnership and parent-teacher collaboration as foundational to the Classical model, aligning with the Six Elements' "Partnership with Families," "Formation of Affections," and "Cultural Transmission" keywords for community engagement.

Citations

- Partnership with families, co-educators, and home-school collaboration: legacy materials.
- Parent-education and training, home-based reinforcement: Legacy materials.
- Parental involvement in education (blogs and articles): Legacy site.

Aggregate assessment

- Overall, Legacy Classical Christian Academy's public-facing materials align predominantly with CLASSICAL criteria. The strongest continuities are in Religious & Metaphysical Foundations, Curriculum, Faculty, and Parents & Community, with a robust engagement in a biblical framework, classical curriculum, and family partnership. Pedagogy shows a strong Classical foundation (Trivium/Quadrivium, memory work, rhetoric) but lacks consistently explicit, fully articulated Socratic seminar pedagogy

across every grade in the public materials, yielding a SOMEWHAT CLASSICAL designation for that category.

Overall Ranking: CLASSICAL

What would move the needle (for SOMEWHAT CLASSICAL areas)

- Elevate explicit, campus-wide signaling of Socratic dialogue and Harkness-style seminars across upper grades, with public documentation of sample seminars, prompts, and assessment methods.
- Explicitly narrate a restorative Scholé/restful pedagogy in lower grades with a documented, school-wide plan (time blocks, rest periods, contemplative reading) to align more fully with Scholé language in the Six Elements.
- Add a cross-grade, explicit Great Books reading list and schedule with short, visible/public-facing examples of Great Conversation activities across key subjects and grades.

ABSTRACT

This evaluation finds Legacy Classical Christian Academy to be CLASSICAL overall, with the strongest alignment in Religious & Metaphysical Foundations, Curriculum, Faculty, and Parents & Community, driven by clear commitments to Biblical theology, virtue formation, and a classical curriculum (Trivium/Quadrivium) embedded in a University-Model structure that involves families as co-educators. The Pedagogy category shows meaningful Classical alignment but remains only SOMEWHAT CLASSICAL in public materials due to less explicit, campus-wide, ongoing Socratic/Scholé articulation. Collectively, the school presents a coherent Classical Christian model that emphasizes formation, truth-governed learning, and a shared mission among teachers, families, and students.

- Religious & Metaphysical Foundations: CLASSICAL Evidence: Glorification of God; Christ-centered worldview; Holy Bible; daily chapel; scripture memorization; Biblical worldview; prayer/worship.
- Purpose and Goal: CLASSICAL Evidence: Formation, virtue, wisdom; leadership; biblical framework for critical thinking; commitment to God-centered excellence.
- Curriculum: CLASSICAL Evidence: Seven Liberal Arts; Trivium/Quadrivium; progymnasmata; Great Books/Great Conversation; integrated history curriculum.
- Pedagogy: SOMEWHAT CLASSICAL Evidence: University-Model home-education integration; rhetoric/writing emphasis; structure for forms; but less explicit, public dual signaling of on-campus Socratic seminars across grades.
- Faculty: CLASSICAL Evidence: Faculty as living curriculum; leadership and mentorship emphasis; named leadership (Head of School); virtuous teacher model.
- Parents & Community: CLASSICAL Evidence: Formal partnership with families; parental co-education; home-school collaboration; parent training.

Note: The keyword framework used draws directly from the Six Essential Elements of a Classical School (1) document (Positive/Negative Keyword Indicators). See the document for the explicit lists of Positive Keywords (Partnership with Families; Formation of Affections; Cultural Transmission; Seven Liberal Arts; Great Books; Interdisciplinary; Scholé; Socratic Dialogue; etc.) and Negative Keywords (e.g., lack of family partnership; information-overload; secular drift).

- Abstract (summary of the six categories)
- Overall classification: CLASSICAL
- Primary strengths: Biblical/theological grounding; the Trivium/Quadrivium and Great Books orientation; strong family-partnering pedagogy; robust faculty culture; active parent involvement.
- Growth opportunities: make Socratic/Dialectic pedagogy explicit and widely documented; strengthen Scholé/restful pedagogy language and practices in public materials; publicly map cross-grade Great Books/Conversations and Socratic seminars.

END OF # ABSTRACT

Citations (key sources used in this evaluation)

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
