Six Elements of Classical Education School Website Audit

School: Leman Academy of Excellence: Central Tucson
School Website: <https://lemanacademy.com/schools/arizona/central-tucson-k-8/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

Overall Classification: SOMEWHAT CLASSICAL

Executive Summary

Leman Academy Central Tucson presents as a clearly classical-leaning school with strong emphasis on virtue, character formation, and a public-charter, tuition-free model. Public materials describe a classical framework, close partnerships with families, and an intentionally small, community-oriented climate. The site explicitly foregrounds virtue, wisdom, and character, along with a foundation of timeless values, while also offering enrichment in the arts and languages (evident Latin instruction). However, explicit, text-level evidence of several core classical pedagogy elements—such as a stated triad of liberal arts (grammar, logic, rhetoric), regular Great Books / Great Conversation experiences, and liturgical or theological foundations—are not plainly visible in the public-facing materials. On balance, the school demonstrates a coherent classical orientation, but it does not consistently articulate all six elements at the depth expected for a full CLASSICAL rating. Overall, this evaluation places Leman Academy Central Tucson in the SOMEWHAT CLASSICAL category.

Executive Summary — Element-by-Element Snapshot

- **Element 1: Religious and Metaphysical Foundations — NOT CLASSICAL** Evidence: Public materials emphasize “timeless values,” virtue, and character, but do not explicitly reference theology, liturgical practice, or explicit metaphysical foundations. The site positions itself as a classical school focused on character formation rather than explicit theological integration. Positive keywords observed include virtue, wisdom, character, and timeless values; no explicit theology or liturgical practices are documented in the accessible materials. Why not classical? Absence of explicit theology, transcendental foundations, and liturgical/community faith practices in public-facing materials.

Positive/Negative keyword analysis: Positive keywords present: virtue, wisdom, character, timeless values. Negative keywords present: none identified in the public materials. Proportion: 4 positive matches vs 0 negative matches among observed terms. Rating justification: While there is clear emphasis on moral formation, the lack of explicit theological or liturgical framing leads to NOT CLASSICAL under the strict rubric.

- **Element 2: Purpose and Goal — CLASSICAL** Evidence: The school foregrounds the cultivation of virtue and wisdom and emphasizes formation of the whole person (knowledge and character) rather than mere job preparation. The materials stress timeless values and a foundation of wisdom and virtue. Positive keywords include virtue, character, wisdom, formation, timeless values. Negative keywords appear minimal or absent. Why this rating: The mission aligns with the classical emphasis on formation through virtue and truth rather than narrow utilitarian outcomes.

Positive/Negative keyword analysis: Positive: virtue, character, wisdom, formation, timeless values. Negative: none observed. Proportion: 4 positive vs 0 negative. Rating: CLASSICAL.

- **Element 3: Curriculum — SOMEWHAT CLASSICAL** Evidence: Public materials describe a tuition-free public charter offering a classical education and note enrichment in art, music, and athletics, plus a Latin language component in staff roles. The explicit listing of Great Books / Great Conversation or the specific liberal-arts trio (grammar, logic, rhetoric) is not clearly documented in the visible materials; however, there is a clear classical orientation and some liberal-arts flavor (Latin, reading/listening, and cross-disciplinary enrichment). Positive keywords observed include classical education, reading/list, Latin, art/music/athletics enrichment. Negative keywords observed: not clearly present (e.g., no explicit Great Books mandate or clear triad of grammar/logic/rhetoric). Quantitative note: several

positive signals but lacking explicit, full articulation of the traditional liberal-arts core. Why this rating: The school communicates classical aims and includes languages and liberal-arts sensibilities, but does not publicly confirm all canonical curriculum elements (grammar/logic/rhetoric, Great Books, Great Conversation) in accessible materials.

Positive/Negative keyword analysis: Positive keywords present: classical education, reading/list, Latin, art, music, athletics enrichment. Negative keywords present: none explicit. Proportion: 4 positive vs 0 negative among observed terms. Rating: SOMEWHAT CLASSICAL.

- Element 4: Pedagogy — NOT CLASSICAL Evidence: Public materials emphasize a collaborative, community-focused environment and enrichment experiences, with no explicit, widespread documentation of classical pedagogy features such as Socratic seminars, rigorous dialectic discourse, or a sequential emphasis on the Trivium/Quadrivium in lower/higher grades. The lower- and upper-school specifics (e.g., singing/chanting in lower grades; Socratic dialogue in upper grades) are not clearly documented in the accessible public content. Positive keywords observed: small-class feel, close-knit community, partnerships with families, teacher-student relationships. Negative keywords observed: explicit Socratic seminars or formal rhetoric training are not documented. Why this rating: The school shows a classical tilt and some memory- and language-based elements (Latin, reading), but the explicit pedagogy signals described in the classical rubric (Scholé-based, Socratic seminars, rhetoric training, etc.) are not clearly evidenced in the public materials.

Positive/Negative keyword analysis: Positive keywords present: close-knit classrooms, partnership with families, dedicated teachers, safe environment. Negative keywords present: absence of explicit Socratic/seminar/rhetoric deployments in public materials. Proportion: 3–4 positive keywords vs 1–2 implied negatives. Rating: NOT CLASSICAL (based on the absence of core pedagogy signals in public-facing content).

- Element 5: Faculty — SOMEWHAT CLASSICAL Evidence: The public materials portray teachers as dedicated and capable, with teachers who know each student and partner with families; staff listings show a range of specialists (Latin, art, music, health) and a focus on mentorship in a caring environment. Positive keywords observed: model teachers and mentors, living curriculum (implied by teacher-student relationships), teachers who know each scholar, caring educators, supportive staff. Negative keywords observed: not clearly stated as a formal “living curriculum” credential or explicit teacher portraits. Why this rating: There is meaningful evidence of virtuous, capable teachers who act as mentors and partner with families, but the public materials do not explicitly frame the faculty as the sole “living curriculum” or present a formal faculty profile standard.

Positive/Negative keyword analysis: Positive keywords present: model teachers and mentors; know each student; caring educators; partnership with families. Negative keywords present: none explicit. Proportion: 4 positive vs 0 negative. Rating: SOMEWHAT CLASSICAL.

- Element 6: Parents & Community — CLASSICAL Evidence: The materials repeatedly emphasize partnership with families, close cooperation between school and home, and a welcoming environment for parents (parents as co-educators, opportunities to engage with the school). Evidence of family involvement and a community orientation is explicit in statements about close partnerships, family engagement, and parent-teacher collaboration. Positive keywords observed: partnership with families, co-educators, family involvement, parent formation/engagement, welcoming to visits, home-school collaboration. Negative keywords observed: none evident. Why this rating: The public-facing content strongly supports family partnership and parental involvement, core to classical education’s emphasis on the school-parent partnership.

Positive/Negative keyword analysis: Positive keywords present: partnership with families; co-teachers; family involvement; parent engagement; welcoming visits. Negative keywords present: none. Proportion: 5 positive vs 0 negative. Rating: CLASSICAL.

Aggregate Ranking: SOMEWHAT CLASSICAL

Rationale for aggregate: Across categories, Leman Academy Central Tucson demonstrates a coherent classical orientation (emphasis on virtue, wisdom, and character; Latin language presence; small-community

feel; strong parent partnership). However, explicit articulation of several canonical classical pedagogy and curriculum elements—such as the explicit triad of liberal arts (grammar, logic, rhetoric), regular engagement with Great Books/Great Conversation, and liturgical/theological foundations—are not clearly documented in public materials. This combination yields a balanced, CLASSICAL-leaning but not fully CLASSICAL rating overall, i.e., SOMEWHAT CLASSICAL.

What Would Move the Needle

- Element 3 (Curriculum): Explicitly publish the full liberal-arts framing and Great Books components.
- Add a public-facing statement confirming the Trivium (grammar, logic, rhetoric) and, where appropriate, Quadrivium elements.
- Include explicit references to Great Books / Great Conversation and a planned reading list across grades.
- Clarify how the curriculum fosters wonder and integrated discovery with cross-curricular coherence.
- Element 4 (Pedagogy): Document and highlight explicit classical pedagogy practices in public materials.
- Describe the use of Socratic dialogue, seminars, and debates in upper grades with examples or sample rubrics.
- Outline how memory work, chant, or scholé (quiet study) appears in lower grades, with evidence of how these practices support deep memory and delight in learning.
- Element 5 (Faculty): Strengthen the “living curriculum” framing in public materials.
- Publish a faculty-profile standard that enumerates teacher virtues, professional development expectations, and how teachers model virtue and wisdom.
- Include testimonials or case studies that illustrate teachers acting as mentors and living exemplars of the curriculum.
- Element 1 (Religious and Metaphysical Foundations): If appropriate and aligned with the school’s mission, clarify theological or liturgical dimensions.
- If the school intends to integrate theology, clearly describe these aspects in public materials (e.g., liturgical rhythm, communal practices, or theological grounding) to align with the Positive Keyword framework.
- Element 6 (Parents & Community): Maintain and expand parent-education initiatives.
- Add regular parent book studies, workshops, and opportunities for parents to participate in the classical formation process as co-teachers, with schedules and topics published.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
