

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Logos Christian Academy
School Website: <https://logosclassical.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Logos Christian Academy AZ 85122 has not provided explicit public materials in the crawl that demonstrate a fully classical education framework (e.g., explicit Great Books emphasis, Trivium/Quadrivium sequencing, scholé/restful learning emphasis, or Socratic pedagogy from grades K–12). Based on the available public materials within the school-specific crawl (which returned no clear evidence of classical-program elements for this particular school) and using the classical rubric from the knowledge base, the school is classified as NOT CLASSICAL in aggregate.

Key context for this evaluation comes from the classical-education rubric and keyword lexicon, which frame a classical program around transcendental moral realism, theology as the Mistress Science, liturgical and communal practices, the Great Books/Great Conversation, the Trivium and Quadrivium, schooling as formation and virtuous cultivation, and a living, mentor-based faculty supported by engaged parents and community. The Positive/Negative keyword indicators drawn from the Six Essential Elements of a Classical School document provide the framework used to analyze public-facing material for Logos AZ. See the primary rubric source for the six elements and keyword indicators, and the lexicon used for positive/negative indicators.

What would move the needle if this assessment shifts to SOMEWHAT CLASSICAL is addressed at the end of this report, in a separate section.

Notes on sources used for this assessment: - The Six Essential Elements of a Classical School (1) document, including its Positive Keywords and Negative Keywords, which defines how to recognize classical features in a school's materials. - The Classuality Lexicon (Positive/Negative keyword indicators by category) used to ground the exact keyword analysis for categories 1–6. - Supplemental framing on classical education (Liberal Arts Tradition materials) used to interpret concepts like scholé, the Great Books, and the Paideia approach when discussing classical pedagogy.

Executive Summary — Element-by-Element Snapshot

- Element 1: Religious and Metaphysical Foundations — NOT CLASSICAL
- Element 2: School Purpose and Goal — NOT CLASSICAL
- Element 3: School Curriculum — NOT CLASSICAL
- Element 4: School Pedagogy or Teaching Methods — NOT CLASSICAL
- Element 5: School Faculty — NOT CLASSICAL
- Element 6: Parents & Community — NOT CLASSICAL

The following sections document how these conclusions were reached, category by category, including explicit keyword analysis and the justification for the final classification.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — NOT CLASSICAL

- Evidence
- Public materials for Logos AZ did not demonstrate the classical elements under this category as defined by the standard rubric (transcendental moral realism, liturgical/community practices, and theology integrated as the “Mistress Science”). The classical lexicon defines keywords related to transcendental realism, liturgy, theology, and communal worship as typical markers of classical religious/metaphysical grounding; without explicit alignment to that framework, the category is not evidenced as classical for this school in the available crawl. See the Positive Keywords for Religious and Metaphysical Foundations in the lexicon.
- Positive/Negative keyword analysis
- Positive keywords present: 0
- Negative keywords present: 0
- Percentage of positive vs. negative indicators observed: 0% positive, 0% negative
- Why this rating
- The category would be Classical if the school’s public materials clearly framed education as formation in truth, goodness, beauty with transcendent moral realism, grounded theology, and liturgical/community practices as integral and formative. The crawl results did not reveal such explicit alignment for Logos AZ; thus, NOT CLASSICAL for this category under the rubric.

Element 2: School Purpose and Goal — NOT CLASSICAL

- Evidence
- The classical framework emphasizes formation of virtue and wisdom, with education oriented toward the true, good, and beautiful as real, timeless aims. The lexical framework identifies these ideals (formation, virtue, scholé, pursuit of truth/goodness/beauty) as central markers of a classical program. The Logos AZ materials in the crawl did not demonstrate a clear articulation of these classical aims in the manner described by the standard.
- Positive/Negative keyword analysis
- Positive keywords present: 0
- Negative keywords present: 0
- Percentage: 0%
- Why this rating
- Without explicit articulation of virtue-based formation and the pursuit of the true/good/beautiful as telos, the school does not meet the classical standard for this category.

Element 3: School Curriculum — NOT CLASSICAL

- Evidence
- Classical curricula emphasize liberal arts (grammar, logic, rhetoric), universal study of Great Books, history as western civilization, and a program that fosters wonder through a Great Conversation. The lexical indicators define these features as essential markers of a classical curriculum. The Logos AZ crawl did not reveal explicit Great Books/Great Conversation study or formative engagement with the liberal-arts structure in the public materials accessible.
- Positive/Negative keyword analysis
- Positive keywords present: 0
- Negative keywords present: 0
- Percentage: 0%
- Why this rating
- The absence of explicit Great Books, the Trivium/Quadrivium organization, and the calling to join the Great Conversation in the public materials supports a NOT CLASSICAL rating for curriculum.

Element 4: School Pedagogy or Teaching Methods — NOT CLASSICAL

- Evidence
- Classical pedagogy includes contemplative/restful learning (scholé), lower-school singing/chanting for memory, upper-school Socratic seminars, and rhetorical training. The canonical indicators for pedagogy are defined in the lexicon. The Logos AZ public materials accessed in the crawl do not show these prescribed pedagogical forms in evidence (e.g., sustained Socratic seminars, structured rhetorical development, or explicit scholé-based practices).
- Positive/Negative keyword analysis
- Positive keywords present: 0
- Negative keywords present: 0
- Percentage: 0%
- Why this rating
- The absence of the specified classical pedagogical practices and structure results in NOT CLASSICAL for pedagogy.

Element 5: School Faculty — NOT CLASSICAL

- Evidence
- The classical rubric envisions faculty as living exemplars, mentors, and the central element of a living curriculum with a strong ethos and shared vision. The Logos AZ materials accessible did not demonstrate (in the crawl) a clearly articulated classical faculty profile with a “living curriculum” or explicit teacher-formation programs aligned with classical pedagogy.
- Positive/Negative keyword analysis
- Positive keywords present: 0
- Negative keywords present: 0
- Percentage: 0%
- Why this rating
- Without explicit public articulation of a classical faculty model (mentor-style, living curriculum, teacher formation around classical pedagogy), this category cannot be rated Classical.

Element 6: Parents & Community — NOT CLASSICAL

- Evidence
- Classical schools emphasize a deep partnership with parents, parent formation, and open-campus/community engagement. The public materials for Logos AZ did not demonstrate these classical-parenting features in the crawl (e.g., co-teaching model, parent education programs, or open-visit policies).
- Positive/Negative keyword analysis
- Positive keywords present: 0
- Negative keywords present: 0
- Percentage: 0%
- Why this rating
- The absence of explicit parent-partnership programs and community-formation signals leads to NOT CLASSICAL in this category.

Aggregate Ranking

- Overall classification: NOT CLASSICAL
- Rationale: Across all six categories, the public materials accessible in the school-specific crawl did not demonstrate the classical hallmarks described in the Six Essential Elements framework (Great Books/Great Conversation, Trivium/Quadrivium, scholé, living curriculum, etc.). The rubric shows how these features combine to form a classical program; the Logos AZ materials assessed did not show those elements in the available data. The keyword framework (positive/negative indicators) supported by the classicality lexicon indicates that the six categories are not evidenced as classical in the Logos

AZ materials retrieved. See the primary classical rubric and keyword lexicon for the categories and indicators used in this evaluation.

What would move the needle (only applicable if SOMEWHAT CLASSICAL)

- Not applicable in this NOT CLASSICAL classification. If Logos AZ were to move toward a SOMEWHAT CLASSICAL appraisal, concrete steps would include: adopting a formal liberal-arts curriculum with grammar–logic–rhetoric (Trivium) and arithmetic–geometry–astronomy–music (Quadrivium), incorporating Great Books and the Great Conversation into core content, implementing scholé/restful learning, training faculty in classical pedagogy, establishing a formal partnership with parents as co-educators, and introducing liturgical/community practices as a structured, regular part of the school day. These steps would be guided by the Positive/Negative Keyword indicators in the Six Essential Elements document.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
