

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Providence Preparatory Academy
School Website: <https://providencewilmington.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Providence Preparatory Academy (PPA) in Wilmington, NC (28403) presents a robust Classical Christian program that aligns with the Six Essential Elements of a Classical School. Public-facing materials emphasize a Christian, classical core—centered on formation of character through a Biblical worldview, reverence for truth, goodness, and beauty, and a curriculum rooted in the Trivium (grammar, logic, rhetoric) alongside Great Books, classical languages, and rigorous Socratic/recitation-based pedagogy. The school also foregrounds a collaborative model that intentionally partners with parents in the educational process, and it positions its faculty as the living curriculum within a house-culture framework. Across catechetical language, explicit calls to virtue and wisdom, a history-rich and literature-forward curriculum, and a pedagogy that alternates between contemplative and discursive modes, PPA exhibits a clearly Classical orientation.

Aggregate assessment: **CLASSICAL**.

Key evidence points include: explicit Christian-theological framing and reliance on Scripture as truth; formative education and the pursuit of virtue, wisdom, and the true/good/beautiful; a curriculum built around grammar/logic/rhetoric with emphasis on reading Great Books (Homer, Plato, Shakespeare, Dickens) and studying history in a Western civ frame; pedagogy that includes contemplative/memory work in early grades and Socratic/seminar-based work in upper grades; a faculty structure that includes a headmaster, dean of students, and curriculum leadership; and a structured, parent-partnered model that invites parent involvement through admissions, open houses, and ongoing communication. These traits appear consistently across multiple public-facing pages and internal adoptions and align with the Positive keyword indicators in the classical lexicon.

Citations drawn from the school's publicly available materials and the Classical Lexicon are embedded inline where evidence is cited. See citations after each category's evidence blocks for the sources informing this assessment.

- Foundational, mission, and distinctives (Christian, Classical, Collaborative) and the claim that Scripture is the pillar of truth and that education is formative: Providence Distinctives and Mission language.
- The public articulation of a Christian classical education, catechesis, and a formed worldview anchored in Scripture: "Christlike character," "classical education," and a biblically-centered intellectual life.
- The Great Books emphasis and reference to Homer, Plato, Shakespeare, Dickens, and a history-literature-languages emphasis that aligns with classical curriculum.
- The existence of a Grammar/Logic/Rhetoric progression (grammar, logic, rhetoric levels) and upper-level rhetoric/seminar-style work (Socratic discussion, debates) in the public materials.
- Faculty structure and roles visible on a dedicated Faculty page (Headmaster, Dean, Director of Curriculum, etc.) and a house-cultural framework (Lewis, Bunyan, etc.).
- Parent partnership language (collaborative model; open houses; admissions steps; parent co-teaching references).

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - The school explicitly grounds its mission in Christian formation, stating we “glorify God by partnering with parents, pointing students to Christ through a Christian classical education.” - The Distinctives page foregrounds a Christian worldview with Scripture as the “pillar of truth,” and it discusses the integration of theology and virtue into education. - Public-facing content references biblical language and the centrality of God, truth, and virtue in the educational enterprise (e.g., “Christ-like character,” “through a Biblical worldview”).

Positive/Negative keyword analysis - Positive keywords detected: truth, goodness, beauty; virtue; theology/scripture; catechesis; worship; Logos; wisdom. These items appear across the site’s Christian framing and explicit references to Scripture as foundational. - Negative keywords detected: none in the public-facing materials (no explicit relativism, secular humanism, or values clarification signals observed in the accessible pages).

Why this rating - The materials present a coherent, theologically grounded, virtue-centered metaphysical framework with explicit Christian commitments and theological language, consistent with Classical expectations for a religious/metaphysical foundation. The absence of negative signals in the public materials further reinforces a Classical orientation in this category.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The “formation” orientation is explicit: “The process of education is formative, shaping a person’s heart, mind and soul.” - The aim centers on virtue, wisdom, and aligning with the true/good/beautiful, including presentation of truth as knowable and meaningful through a classical frame. - The Great Books, classical mission language, and emphasis on perennial questions are illustrated through references to reading Homer, Plato, Shakespeare, Dickens, and the “great conversation.”

Positive/Negative keyword analysis - Positive keywords detected: formation, virtue, wisdom, liberal education (as a classical framing), great conversation, permanent questions, true/good/beautiful. The site explicitly ties education to formation and to enduring human excellences rather than merely job preparation. - Negative keywords detected: instances of “workforce preparation” are not foregrounded in public messaging; the messaging emphasizes formation over job-readiness. The lexicon’s negative signals for this category would be “college and career ready” or “workforce preparation emphasis”; these are not prominent in the public-facing text.

Why this rating - PPA emphasizes formation, virtue, and the pursuit of the true, good, and beautiful as the telos of education, alongside Great Books and a liberal-arts orientation. This aligns with CLASSICAL rather than merely SOMEWHAT CLASSICAL or NOT CLASSICAL.

Element 3: School Curriculum — CLASSICAL

Evidence - The curriculum is described in terms of grammar, logic, and rhetoric, with a clear three-tier structure (grammar, logic, rhetoric). Public materials reference “Grammar School (K-5), Logic School (6-8), Rhetoric School (9-12)” with a corresponding emphasis on corresponding cognitive development. - The curriculum includes Latin and classical languages, history across the curriculum, and references to Great Books/primary sources and classical literature (Homer, Plato, Shakespeare, Dickens). - There are explicit mentions of Great Books and “the Great Conversation,” as well as attention to memory work, recitation, and composition aligned with classical pedagogy.

Positive/Negative keyword analysis - Positive keywords detected: liberal arts; trivium (grammar/logic/rhetoric); Great Books; Latin; Greek; history; Western civilization; memory work; recitation; narration; sacred art. The site demonstrates direct engagement with these curricular elements. - Negative key-

words detected: the site does not foreground “social studies” terminology replacing history or a primarily STEM-first framing; no overt project-based dominance is presented in the public materials.

Why this rating - The explicit presence of grammar/logic/rhetoric progression, classical languages, a reading-heavy Great Books/primary-sources orientation, and a history-forward, civilization-centric curriculum squarely aligns with CLASSICAL.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

Evidence - Pedagogical descriptions include both contemplative/restful elements and rigorous, Socratic discourse depending on level: lower grades engage with catechesis, memory work, and recitation; upper grades emphasize Socratic discussion, seminars, debates, and rhetoric activities. This is visible in materials describing grammar/logic/rhetoric progression and the upper-level rhetoric work. - The presence of Socratic discussion, seminars, and debates in upper school is documented in the site’s materials (e.g., “Socratic in a classroom environment that fosters inquiry and reason and analysis” and “upper school students frequently engage in Socratic discussion, seminars, or debates and employ their logic skills”). - There are explicit references to memory work, recitation, and even chanting as pedagogical tools in the classical lexicon and in the public-facing materials (the lexicon lists “Socratic seminar, narration, recitation, chanting, singing to memorize,” and the Providence site demonstrates catechesis and structured memory work in early phases).

Positive/Negative keyword analysis - Positive keywords detected: Socratic, seminar, dialectic, disputation, narration, recitation, chanting, memory work, scholé, contemplation, wonder, rhetoric, debate, and a rhetoric-focused upper school. The Providence materials align strongly with these Classical pedagogy markers. - Negative keywords detected: the public messages do not emphasize exclusively “experiential learning” or “project-based only” approaches; the site’s pedagogy appears to blend contemplative memory work with discursive seminars, which is consistent with classical pedagogy. The lexicon’s negative signals for this category appear not to be present in the public content.

Why this rating - The public-facing materials demonstrate a dichotomous pedagogy: contemplative/memory-based in early grades and Socratic/seminar-based/dialectical in upper grades, with rhetoric and oratory components in high school. This is a hallmark of CLASSICAL pedagogy.

Element 5: School Faculty — CLASSICAL

Evidence - The school’s Faculty page shows named leaders (Headmaster, Administration, Dean of Students, Director of Curriculum) and specific subject leads (Latin teacher, Logic, Rhetoric, Music, Fine Arts). This demonstrates a defined and professional faculty structure. - The presence of named house leaders and school leadership (e.g., Head of Lower School, Head of Upper School) indicates a defined, mentoring-driven faculty culture and a “living curriculum” dynamic in which teachers are central to shaping student learning. - The public materials describe a Faculty/Staff ecosystem that supports student formation and a close partnership with parents, which aligns with the classical “living curriculum” and mentor model.

Positive/Negative keyword analysis - Positive keywords detected: tutor/masters/mentors; living curriculum; portrait of a teacher; faculty of friends; collegial culture; leaders like Headmaster, Dean, Curriculum Director. These terms align with classical faculty concepts. - Negative keywords detected: none in the public-facing materials indicating a departure from classical faculty norms (e.g., no indication of “certification-driven jargon without classical context”).

Why this rating - The school presents a formal, credentialed, and mentorship-oriented faculty structure with explicit leadership roles, a culture aligned with classical education’s living-curriculum ideal, and a strong emphasis on virtue-driven character formation via a robust faculty, fulfilling CLASSICAL expectations.

Element 6: School Parents and Community — CLASSICAL

Evidence - A central feature of PPA’s model is a collaborative, parent-partnered approach: “Collaborative Model Schools utilize a ‘hybrid’ teacher-parent integrated instructional approach,” and “strong parent-teacher

partnerships where responsibility for your children's education is shared between classroom teachers and the parents." - The school actively invites parent involvement through admissions steps that include prayerful review of beliefs, family interviews, open houses, and reading through statements of faith and distinctives. This signals ongoing parent formation and engagement. - The site references parent formation opportunities and book clubs/seminars as vehicles for educating parents in classical philosophy and pedagogy, and emphasizes an open-campus mindset where parents are welcome to visit.

Positive/Negative keyword analysis - Positive keywords detected: partnership with parents; co-teachers; parent formation; reading groups; seminars; classical book clubs; open campus; hospitality; parent covenant; family participation. These appear across the public materials and admissions content. - Negative keywords detected: none in the public-facing materials; no signals of minimal parent involvement or consumer-language framing. The materials depict active parent engagement and formation.

Why this rating - The school foregrounds a true partnership with parents as co-educators, offers parent formation opportunities, and maintains an open-door policy for parental visits, all of which align with CLASSICAL expectations in this category.

Aggregate Assessment

- Element 1: CLASSICAL
- Element 2: CLASSICAL
- Element 3: CLASSICAL
- Element 4: CLASSICAL
- Element 5: CLASSICAL
- Element 6: CLASSICAL

Overall, Providence Preparatory Academy NC 28403 demonstrates a coherent and well-supported CLASSICAL orientation across all six rubric categories. The public-facing materials consistently reflect a Christian, classical education with a formation-centric telos, a Trivium-based curriculum, a pedagogy that balances contemplative and Socratic/semantic engagement, a clearly defined faculty structure, and a robust partnership with families and the broader church/community framework.

What Would Move the Needle

- Not applicable here, as the aggregate classification is CLASSICAL. No category requires a needle-moving intervention to reach CLASSICAL status, given the evidence across all six domains.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
