

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Regents School of Oxford
School Website: <https://www.regentsoxford.com>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Based on the available public-facing content for Regents School Oxford MS 38655, the school presents insufficient textual evidence to be classified as CLASSICAL by the Six Essential Elements rubric. The crawl data for the school site shows only a landing/lander URL, with no explicit statements about Great Books, the Trivium/Quadrivium, Scholé (restful learning), liturgical practices, or a stated Christian/theological framing on the page that is accessible in the dataset. In consequence, there is no demonstrable alignment with the core six-element criteria (Religious and Metaphysical Foundations; School Purpose and Goal; Curriculum; Pedagogy; Faculty; Parents & Community). The relevant public materials available do not reveal the vocabulary and practices that the classical rubric requires (e.g., truth/goodness/beauty as real; formation of character; Great Books and Great Conversation; Socratic pedagogy; liturgical/community life; parent partnership). This leads to a NOT CLASSICAL rating across all six categories, with an aggregate NOT CLASSICAL classification.

Public materials reviewed include the school's landing content showing the site URL and a lander page reference, not substantive programmatic language (<https://regentsoxford.com/lander>). This specific piece of evidence is cited to indicate the limited public textual content accessible in the crawl data.

For context, the Six Essential Elements rubric defines clear positive/negative keyword indicators across the six categories, including explicit terms like truth, virtue, theology, liturgy, great books, Socratic dialogue, scholé, wonder, and formation. The existence (or absence) of these terms on a school's public-facing materials is central to the keyword-driven assessment. The knowledge-base material lists these indicators in detail (e.g., truth, goodness, beauty; theology; liturgy; Great Books; Socratic dialogue; scholé; formation; partnership with families).

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — NOT CLASSICAL

Evidence - Public site content identified in the crawl shows no explicit statements about transcendental moral realism, theology, liturgical practice, or sacred communal rituals on the accessible landing page. The only identified item is a link to the site's lander, with no explanatory text visible in the crawl data.

Positive/Negative keyword analysis - Positive keywords present: 0 - Negative keywords present: 0

Why this rating - The rubric's Religious and Metaphysical Foundations criteria emphasize transcendental aims, theology, and liturgical/community practices. The accessible materials do not reveal such language or practice on the public-facing content (based on what is in the crawl). The absence aligns with NOT CLASSICAL rather than CLASSICAL. The knowledge-base keyword lists (e.g., truth/goodness/beauty; theology; liturgy) provide the frame; none appear in the accessible public content.

Element 2: School Purpose and Goal — NOT CLASSICAL

Evidence - No public statements about forming virtue and wisdom as the telos of education; no explicit emphasis on formation over information or the pursuit of truth/goodness/beauty as real. The crawl shows only a lander URL with no mission/goal language.

Positive/Negative keyword analysis - Positive keywords present: 0 - Negative keywords present: 0

Why this rating - The Six Elements articulate formation of character, wisdom, and the transcendent aims of life (virtue, human excellence, scholé). The school's public language in the crawl does not demonstrate these aims. Therefore NOT CLASSICAL by category 2 criteria. The known keyword lexicon highlights formation and telos as core; absence on public materials supports the NOT CLASSICAL rating.

Element 3: Curriculum — NOT CLASSICAL

Evidence - The site crawl does not reveal references to liberal arts as the Trivium/Quadrivium, Great Books, or Great Conversation, nor explicit claims about Western canon, original texts, or the integration of history/language/philosophy as a unified curriculum. The only visible element is a lander link.

Positive/Negative keyword analysis - Positive keywords present: 0 - Negative keywords present: 0

Why this rating - Classical curricula in the rubric are defined by a Seven Liberal Arts foundation, Great Books/Great Conversation, and an integrated history of Western civilization with an emphasis on wonder. Absence of such elements in the accessible public content yields NOT CLASSICAL for Curriculum. The knowledge-base lists these features as core; lack of them in the site content drives the Not Classical rating.

Element 4: Pedagogy or Teaching Methods — NOT CLASSICAL

Evidence - No public statements about Socratic seminars, scholé/restful learning, memorization/recitation, or imitation-based pedagogy on the accessible landing content. The crawl only shows a lander URL.

Positive/Negative keyword analysis - Positive keywords present: 0 - Negative keywords present: 0

Why this rating - The rubric highlights Socratic dialogue, scholé, memorization, and formation through imitation as hallmark pedagogies. Absence of such pedagogy on the accessible public materials leads to NOT CLASSICAL in this category as well. The knowledge-base lexicon confirms these pedagogical markers as essential; their absence in the school's public content supports the NOT CLASSICAL designation.

Element 5: Faculty — NOT CLASSICAL

Evidence - The school's public materials do not publicly describe faculty as "living curriculum," model-mentors, or a collaborative, virtuous-teacher culture in the accessible crawl data. The lander link on the site provides no detail.

Positive/Negative keyword analysis - Positive keywords present: 0 - Negative keywords present: 0

Why this rating - The Six Elements describe a faculty embodying virtue and mentorship, acting as a living curriculum and a collegial learning community. The current public crawl content lacks explicit mention of such a faculty identity or culture, resulting in NOT CLASSICAL for Faculty. The reference lexicon confirms these faculty attributes as part of the classical model.

Element 6: Parents & Community — NOT CLASSICAL

Evidence - The crawl contains no explicit statements about parent partnership, co-education, parent formation, open visits, or a community-centric model in the accessible landing content. The visible data is limited to the lander URL.

Positive/Negative keyword analysis - Positive keywords present: 0 - Negative keywords present: 0

Why this rating - The rubric emphasizes partnership with families, parental formation, and open campus/community involvement. The site content in the crawl does not reveal these elements, hence NOT CLASSICAL for Parents & Community. The Six Elements document and lexicon provide these as indicators of classical alignment; their absence in public content supports the NOT CLASSICAL result.

Aggregate assessment: The Regents School Oxford MS 38655 currently receives a NOT CLASSICAL rating across all six categories based on the lack of explicit public-facing evidence of classical elements (as defined by the Six Essential Elements rubric) in the crawl data available for analysis. The aggregated result is NOT CLASSICAL.

What Would Move the Needle

- If the school intends to move toward a CLASSICAL orientation, publicly articulate and implement the six-element program in concrete terms, including:
- Religious and Metaphysical Foundations: clearly state transcendental aims (truth/goodness/beauty), integrate theology where appropriate, and reference liturgical/community practices.
- School Purpose and Goal: articulate formation-focused telos (virtue, wisdom, human flourishing) over mere information or job-readiness; affirm the reality of truth/goodness/beauty.
- Curriculum: adopt and publicly document a Seven Liberal Arts framework (grammar, logic, rhetoric; plus Quadrivium), Great Books/Great Conversation, and history as a central through-line rather than only a social studies approach; cultivate wonder through integrated study.
- Pedagogy: include explicit contemplative/restful learning (Scholé), memorization/recitation practices, and Socratic/seminar-based inquiry in appropriate grade bands; demonstrate an integrated approach to classical pedagogy.
- Faculty: present teachers as mentors and living exemplars of virtue; establish a living-curriculum culture and a collegial faculty community.
- Parents & Community: publicly present a robust partnership model with families; offer parent education, book clubs, and open-campus events; invite parental involvement as co-educators.
- Concrete, textually explicit steps (to illustrate the needle-moving direction) drawn from the classical-education rubric include:
- Publish a mission and curriculum page that references Great Books, the Trivium/Quadrivium, and scholé as core design features. Cite the Classic/Liberal Arts framework and Great Conversation language.
- Create and share a faculty profile that describes teachers as virtuous mentors, a living curriculum, and collegial teaching practices.
- Establish a parent partnership program (co-teachers, parent education, campus visits) and publicize it on the website.
- Integrate liturgical or communal practices (where consistent with the school's faith tradition) and reference them on the public site.
- Rationale for needle-mover suggestions is grounded in the Six Elements' annotated keywords (e.g., truth/goodness/beauty; theology; liturgy; Great Books; Socratic pedagogy; scholé; formation; partnership with families). The absence of these indicators in the current public-facing crawl data means implementing them would meaningfully move the needle toward CLASSICAL. See the Positive/Negative keyword frameworks for these elements.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
