

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: River Hills Christian Academy

School Website: <https://www.rhca.cc>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

River Hills Christian Academy (RHCA), as represented by the publicly accessible crawl content, presents no explicit evidence of a classical education orientation within the six classical criteria. The crawl result for RHCA shows a landing-page reference (<https://rhca.cc/lander>) and no other substantive public text to indicate engagement with core classical elements such as the trivium/quadrivium, Great Books, scholé (restful learning), Socratic pedagogy, or liturgical/community practices. In the absence of explicit textual signaling about these elements, the full six-category classical rubric would rate RHCA as NOT CLASSICAL across categories, pending more substantive public content. This judgment is grounded in the absence of explicit mentions of truth/beauty/goodness as transcendent aims, Great Books or the Great Conversation, Trivium/Quadrivium, Socratic pedagogy, a "living curriculum" in virtue, or clear parental/community formation through classical channels on the visible site text. The available public material for RHCA, as reflected in the crawl, includes only a landing-page reference, not substantive programmatic language. See the RHCA crawl entry that contains the landing-page URL for River Hills Christian Academy (rhca.cc/lander) as the visible public artifact.

Key takeaway: Based on the evidence available in the two vector stores, RHCA does not demonstrate the classical criteria in its public materials. The aggregate ranking across the six classical categories is NOT CLASSICAL. The knowledge-base criteria for classical education (truth/goodness/beauty, Great Books, the Trivium/Quadrivium, Scholé, living-teacher formation, parental-partnered formation) are those we compare against; RHCA's public intake does not reveal those elements in visible text. The absence of explicit indicators is the basis for the NOT CLASSICAL assessment here. The knowledge-base rubrics provide the specific term-sets (e.g., Great Books, Trivium, Scholé, liturgy, great conversation, etc.) against which RHCA would be measured if present in public materials. See the knowledge-base lexicon and element rubrics for the six categories.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — NOT CLASSICAL

- Evidence
- The RHCA crawl artifact shows a landing-page reference but no substantive religious/metaphysical language on the visible public text. The crawl entry is a single URL reference (rhca.cc/lander) with no accompanying text signaling transcendental moral realism, liturgical practice, or the integration of theology into disciplines.
- Positive/Negative keyword analysis

- Positive keywords from classical-education lists (truth, goodness, beauty; transcendental realism; liturgy; theology; sacred) are not present in the visible RHCA content. The knowledge-base positive keyword sets (from the Six Essential Elements corpus) would expect explicit mentions of transcendental realities, theology, liturgy, and communal worship to rate classical here; none are evidenced. See the classical-lexicon and element lists for reference.
- Because the RHCA public text appears to provide 0 identifiable classical-positive indicators and 0 negative indicators (no explicit non-classical signals are visible in the crawl snippet), the quantitative read is 0 positive vs 0 negative keywords (0/0).
- Why this rating
- There is no explicit classical-positive signal (truth/goodness/beauty as transcendent, liturgical/community practices, theology integrated into curriculum) in the visible RHCA public text. The public materials available in the RHCA crawl do not demonstrate the classical markers the Six Essential Elements list, which anchors the Classical/Not-Classical rubric. Accordingly, this category is rated NOT CLASSICAL.
- (Notes on data source) The sole visible artifact is a landing-page link; no Great Books, no Scholé language, no liturgical practices are evidenced in the accessible text.

Element 2: School Purpose and Goal — NOT CLASSICAL

- Evidence
- As with Element 1, the public RHCA text available in the crawl lacks explicit articulation of virtue formation, contemplation, or a transcendent telos for education. No statements about forming virtue or pursuing truth/goodness/beauty appear in the accessible material.
- Positive/Negative keyword analysis
- Positive keywords from the classical rubric (formation of character, virtue, scholé or contemplation, telos in true/good/beautiful) are not evidenced in RHCA's public crawl text. The known positive keyword lists emphasize formation over information; none are detectable in the crawl snippet.
- Positive keyword count: 0; Negative keyword count: 0 (no explicit non-classical signals are visible in the crawl text).
- Why this rating
- Without textual evidence of formation-oriented goals, contemplation, or an orientation away from mere information transfer, RHCA does not demonstrate the classical school's formation-centric telos described in the Six Essential Elements rubric. Therefore, NOT CLASSICAL.
- (Notes on data source) RHCA crawl artifact provides no explicit goal statements beyond a landing link.

Element 3: School Curriculum — NOT CLASSICAL

- Evidence
- The accessible RHCA public text shows no listing of liberal-arts Trivium/Quadrivium, no Great Books engagement, no "Great Conversation," and no reference to forming wonder through curriculum. The crawl text is limited to a landing-page URL, which does not reveal curricular detail.
- Positive/Negative keyword analysis
- Positive-curriculum keywords in the classical corpus (Seven Liberal Arts; Great Books; grammatical/-logic/rhetoric; history as Western civilization; wonder; formation through the Great Conversation) are not present in the RHCA crawl snippet. See the Six Essential Elements curriculum lists for reference.
- Positive keyword count: 0; Negative keyword count: 0 (no explicit non-classical curricular signals in the visible text).

- Why this rating
- Without explicit curricular signals consistent with classical education, RHCA does not align with the classical curriculum criteria in the rubric.
- (Notes on data source) Landing-page text provides no curricular detail.

Element 4: School Pedagogy or Teaching Methods — NOT CLASSICAL

- Evidence
- No pedagogy signals (Socratic seminars, scholé, chanting, memory work, or rhetoric training) are present in the visible RHCA crawl artifact. The landing-page reference on [rhca.cc/lander](https://www.rhca.cc/lander) does not reveal teaching-method language.
- Positive/Negative keyword analysis
- The classical pedagogy keyword sets include Socratic dialogue, memorization/recitation, restfulness/scholé, and rhetoric training, none of which appear in the accessible RHCA text. The absence is consistent with a NOT CLASSICAL categorization in pedagogy.
- Why this rating
- The absence of explicit, classical pedagogy descriptors (Socratic seminars, recitation, chanting, or upper-level rhetoric training) in RHCA's public materials leads to NOT CLASSICAL for pedagogy.
- (Notes on data source) See RHCA landing-page text; no pedagogy language is evidenced.

Element 5: School Faculty — NOT CLASSICAL

- Evidence
- The visible RHCA crawl text does not present any faculty descriptions (model teachers, “living curriculum,” mentor culture, or teacher portraits) in public material. The landing-page text provides no faculty-culture language.
- Positive/Negative keyword analysis
- Classical-pooled faculty keywords include “model teachers,” “living curriculum,” “faculty of friends,” and “portrait of a teacher.” These are not present in the RHCA crawl. See the relevant keyword sets for faculty in the Six Elements lexicon.
- Why this rating
- No explicit faculty signals are visible publicly for RHCA in the crawl; thus NOT CLASSICAL in the faculty category.
- (Notes on data source) Landing-page text only; no faculty language observed.

Element 6: School Parents & Community — NOT CLASSICAL

- Evidence
- The RHCA crawl artifact shows no parental-partnership language or community-formation language (co-teachers, parent formation, open campus, etc.). Only a landing-page reference is visible.
- Positive/Negative keyword analysis
- Classical-parent/Community keywords include “partnership with families,” “parent formation,” “open campus,” and “co-teachers.” These signals are not visible in the RHCA crawl. See the Six Elements parent-community keyword references for detail.
- Why this rating

- The absence of explicit RHCA-parent/community language on the public page yields NOT CLASSICAL for Parents & Community.
- (Notes on data source) See landing-page reference; no parent/community language evidenced.

Aggregate Rating - Overall classification: NOT CLASSICAL

Rationale: Across all six categories, RHCA's publicly accessible crawl text provides no explicit classical signals (no Great Books, Trivium/Quadrivium, Scholé, liturgical/community practices, or explicit formation- and virtue-building language). The accessible public artifact for RHCA is a landing-page link with no substantive classical-criteria language, so the standardized rubric yields NOT CLASSICAL in each category. The six-category rubric, when applied to the RHCA public materials, aligns with NOT CLASSICAL overall.

Evidence anchors: - RHCA public crawl artifact showing a landing page: <https://rhca.cc/lander>. - Classical-education rubric and keyword lexicon (truth/goodness/beauty; Great Books; Trivium/Quadrivium; scholé; liturgy; Great Conversation; formation through imitation) documented in the knowledge-base sources.

What would move the needle (only applicable if SOMEWHAT CLASSICAL) - Not applicable here, as the current assessment is NOT CLASSICAL across all categories. No "needle" recommendations are provided since there is no SOMEWHAT CLASSICAL designation to improve.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
