

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: San Ramon Valley Christian Academy

School Website: <http://srvca.org>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

San Ramon Valley Christian Academy CA 94526 (SRVCA) is currently presented to the public via a crawl that yields essentially no visible content from its website (the crawl content shows a proxy timeout, i.e., no substantive text is available for analysis). This absence of publicly visible, classically oriented language prevents the operationalization of a Classical rubric on SRVCA's site. Based on the classical education criteria (as codified in the knowledge base), there is no demonstrable presence of the core elements (Great Books, Trivium/Quadrivium, Scholé, great conversations, liturgical or communal practices, explicit formation of character through traditional methods, etc.). Consequently, SRVCA's public-facing materials cannot be shown to meet the six classical criteria, and the aggregate assessment is NOT CLASSICAL.

Key context from the classical education knowledge base used for scoring: - The Six Essential Elements of a Classical School (1) provides the formal Positive and Negative Keyword indicators for each category (e.g., truth, goodness, beauty; theology; liturgy; great books; Socratic dialogue; scholé; formation; great conversation; partnership with families, etc.). These keywords form the basis for the keyword analyses that drive category scores. - The accompanying lexical guidance (classicality lexicon) reinforces the same semantic signals (e.g., transcendental ideals, the seven liberal arts, liturgy, memory work, Great Books, Socratic pedagogy, scholé, partnership with families). - The only explicit SRVCA crawl content accessible here is a firecrawl artifact showing a proxy timeout, not textual public content that could be analyzed for classical keywords. This is the principal evidence used to ground the "public-materials keyword" part of the evaluation.

Executive Summary — Element-by-Element Snapshot

- Religious and Metaphysical Foundations: NOT CLASSICAL
- Purpose and Goal: NOT CLASSICAL
- Curriculum: NOT CLASSICAL
- Pedagogy: NOT CLASSICAL
- Faculty: NOT CLASSICAL
- Parents & Community: NOT CLASSICAL

Overall assessment: NOT CLASSICAL

The evaluator's stance here is intentionally anchored in the absence of explicit classical signals in SRVCA's publicly accessible materials. The absence of Great Books engagement, Trivium/Quadrivium emphasis, scholé, liturgical or communal practices, public statements of formation over information, classical faculty portraits, and explicit parent partnerships makes a Classical categorization untenable based on the available data. The classical criteria come from the Six Essential Elements framework and its keyword indicators, which are not evidenced in the SRVCA crawl content that is publicly accessible here. See the core keyword framework for reference and the SRVCA crawl evidence of absence.

What would move SRVCA toward a CLASSICAL classification (notes on needle-moving improvements) are concrete, public, site-level statements and programmatic commitments that align with the classical lexicon, such as: - A publicly stated mission emphasizing formation through the liberal arts (grammar, logic, rhetoric) and the Quadrivium as pillars, along with a stated commitment to “Great Books” and the Great Conversation. - Documentation of a culture of scholé (restful learning), contemplative pedagogy, and ritual or liturgical elements that integrate with curricular life. - Evidence of Socratic pedagogy in upper grades, with students articulating ideas through seminars, debates, and public speaking (rhetoric training), plus a clear lower-grade experience of memory work and chant/memorization. - A clearly articulated partnership with families as co-educators (e.g., parent book studies, family-learning rhythms, open campus), as well as a welcoming stance to visitors. - A “living curriculum” where teachers model virtue and scholarship and where the faculty are described as a cohesive, collegial community.

If SRVCA publishes or highlights these signals on its public site, the category scores would shift toward CLASSICAL or SOMEWHAT CLASSICAL depending on the strength and pervasiveness of the signals.

Note: The following category-by-category analysis is prepared in the required rubric format, with keyword analyses anchored in the Six Essential Elements framework. The absence of public textual content from SRVCA's site means the keyword counts are effectively zero, leading to a NOT CLASSICAL rating across all six categories.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — NOT CLASSICAL

- Evidence
- Public SRVCA site text not accessible in the crawl; the only available SRVCA item shows a proxy timeout with no substantive content to indicate religious/metaphysical framing. This constitutes a lack of usable evidence for transcendental moral realism, liturgical practice, or theology on the public site.
- Positive/Negative keyword analysis
- Positive keywords (from the Six Essential Elements lexicon): 0
- Negative keywords (from the Six Essential Elements lexicon): 0
- Percentage-wise, no positive nor negative indicators can be identified from SRVCA's public content (data not present). See the keyword framework reference.
- Why this rating
- Because no public evidence exists on SRVCA's site to demonstrate transcendental moral realism, theology, liturgical practice, or communal worship, there is no basis to rate this category as Classical or even Somewhat Classical. The absence of signals yields a NOT CLASSICAL rating in this category.

Element 2: School Purpose and Goal — NOT CLASSICAL

- Evidence
- No explicit public articulation of SRVCA's education as formation in virtue and wisdom or as a means to cultivate truth, goodness, and beauty is visible in the accessible crawl artifact. The material provided is a proxy timeout; no mission statement or purpose is publicly visible here.
- Positive/Negative keyword analysis
- Positive keywords found: 0
- Negative keywords found: 0
- The classification framework expects words like formation, paideia, contemplation, scholé, great conversation, etc., which are not present in the accessible SRVCA site content. See the Six Essential Elements lexicon.
- Why this rating

- Without public-site statements about formation, virtue, or the true/good/beautiful telos, SRVCA cannot demonstrate the classical purpose-and-goal signals. The lack of textual evidence places this category in NOT CLASSICAL.

Element 3: School Curriculum — NOT CLASSICAL

- Evidence
- The SRVCA crawl content does not reveal any curriculum details (Great Books, Trivium/Quadrivium, Great Conversation, etc.). The only visible artifact is a proxy timeout, which does not describe a classical curriculum.
- Positive/Negative keyword analysis
- Positive keywords found: 0
- Negative keywords found: 0
- No curriculum signals from SRVCA's public site in the crawl data; the classical lexicon and Great-Books-oriented signals are not detectable here.
- Why this rating
- Without public articulation of seven liberal arts, classical history/Great Books engagement, or an integrated cross-disciplinary approach, there is no basis to classify SRVCA as Classical or Somewhat Classical on curriculum signals.

Element 4: School Pedagogy or Teaching Methods — NOT CLASSICAL

- Evidence
- No public evidence of Socratic seminars, scholé, memorization/chanting, or imitation-based pedagogy is visible in the SRVCA crawl artifact. The only content is a connection-timeout artifact.
- Positive/Negative keyword analysis
- Positive keywords found: 0
- Negative keywords found: 0
- The keyword framework emphasizes Socratic dialogue; scholé; chanting/memorization; and imitation-based pedagogy. None are present in the public crawl data.
- Why this rating
- The absence of publicly visible pedagogy signals means SRVCA cannot be rated as Classical or Somewhat Classical in pedagogy.

Element 5: School Faculty — NOT CLASSICAL

- Evidence
- The crawl data shows no information about faculty profiles, teacher-modeling-of-virtue, or a living-curriculum narrative. The only accessible item is a proxy-timeout text.
- Positive/Negative keyword analysis
- Positive keywords found: 0
- Negative keywords found: 0
- The classical-criteria vocabulary for faculty includes “model teachers,” “portrait of a teacher,” “faculty of friends,” and “living curriculum.” These signals are not present in the publicly accessible SRVCA crawl text.
- Why this rating

- Without public statements or pages describing faculty as virtuous models or living curriculum, there is no basis to rate SRVCA as Classical or Somewhat Classical for faculty signals.

Element 6: School Parents and Community — NOT CLASSICAL

- Evidence
- The SRVCA public materials accessible in the crawl show no parent-partnership content or parent-formation programming in the visible data. The only accessible content is a timeout artifact.
- Positive/Negative keyword analysis
- Positive keywords found: 0
- Negative keywords found: 0
- The Six Essential Elements emphasize partnership with families, parental formation, open campus, and “parents as co-teachers.” No such content is visible in the crawl artifact.
- Why this rating
- The lack of accessible parent-community signals leads to a NOT CLASSICAL rating for SRVCA in the Parents & Community category.

Overall assessment

- Aggregate Ranking: NOT CLASSICAL

The evaluation above rests on the absence of accessible public-materials signals within SRVCA’s crawl data that would align with the Six Essential Elements of Classical Education. The canonical keywords that would signal a Classical orientation (great books, Trivium/Quadrivium, scholé, great conversation, liturgy, formation, partnership with families, model-teacher faculty, etc.) are not demonstrably present in the SRVCA public-facing content as retrieved here. The core classical criteria come from the knowledge-base materials (Six Essential Elements and the associated keyword lexicon), which set the bar for what constitutes a Classical education.

What would move the needle (for SOMEWHAT CLASSICAL status)

- This section is provided only for cases where the aggregate is SOMEWHAT CLASSICAL. Since the current assessment yields NOT CLASSICAL, there is no requirement to propose needle-moving changes beyond noting the kinds of public signals that would move the needle:
- Publicly publish a Classical mission that foregrounds Great Books, the liberal arts (Trivium/Quadrivium), and Scholé (restful learning) with explicit examples on the website.
- Document a clear pedagogy that includes Socratic discussion, memory work, and recitation in early grades with progressive introduction of rhetoric in upper grades.
- Provide explicit evidence of parent-partnership programs (book studies, family learning, open campus) and a visible “living-curriculum” portrait of faculty.
- Feature a public-facing “faculty-as-virtues-model” narrative and a visible “great conversation” curriculum that anchors Western classical tradition.

Executive Summary — Element-by-Element Deep Dive

- Element 1: Religious and Metaphysical Foundations — NOT CLASSICAL
- Evidence: No accessible public material signaling transcendental moral realism, theology, liturgy, or communal worship. Proxy crawl content is an empty/timeout artifact.
- Keyword analysis: Positive = 0; Negative = 0. The classical keyword framework would require terms like truth, virtue, beauty, theology, liturgy, reverence, wonder, etc. The public content does not reveal these.
- Why: Absence of foundational signals.
- Element 2: School Purpose and Goal — NOT CLASSICAL

- Evidence: No public articulation of formation as telos, or of truth/goodness/beauty as real goods within SRVCA's public site data.
- Keyword analysis: Positive = 0; Negative = 0. No signals of scholé, contemplation, or classical telos.
- Why: Absence of purpose-and-goal signals.
- Element 3: School Curriculum — NOT CLASSICAL
- Evidence: Public-crawl text does not reveal a classical curriculum (Great Books, Trivium/Quadrivium, etc.). Proxy text shows only a connection timeout.
- Keyword analysis: Positive = 0; Negative = 0. No Great Books or liberal-arts signals are visible.
- Why: Curriculum signals are not demonstrated publicly.
- Element 4: School Pedagogy — NOT CLASSICAL
- Evidence: Absence of publicly visible pedagogy signals (Socratic pedagogy, scholé, chant/memory, etc.) in the accessible crawl. Proxy timeout text is non-informative.
- Keyword analysis: Positive = 0; Negative = 0. No pedagogy signals are observed.
- Why: Public pedagogy signals are not demonstrated.
- Element 5: School Faculty — NOT CLASSICAL
- Evidence: No public faculty-model signals visible in the crawl artifact.
- Keyword analysis: Positive = 0; Negative = 0. No “living curriculum” or “portrait of a teacher” signals visible.
- Why: Faculty signals are not demonstrated publicly.
- Element 6: School Parents and Community — NOT CLASSICAL
- Evidence: No visible parent-partnership materials on the public crawl. Proxy content provides no content to analyze.
- Keyword analysis: Positive = 0; Negative = 0. No partnership-with-families language visible.
- Why: No parent-community signals are public.

What would move the needle (for SOMEWHAT CLASSICAL) — optional note

- Given the current NOT CLASSICAL classification, there is no required “What would move the needle” section. If SRVCA publicly adopts and documents explicit classical signals (e.g., Great Books/Trivium/Scholé pedagogy, liturgical or communal practices, explicit formation goals, visible Great Conversation-based curricula, and a formal partnership with families), then category-by-category scoring could shift toward SOMEWHAT CLASSICAL or CLASSICAL depending on the strength and pervasiveness of the signals.

ABSTRACT

- Summary: Based on publicly accessible materials (firecrawl data) for San Ramon Valley Christian Academy CA 94526, there is no demonstrable evidence of classical education signals (Great Books/Quadrivium/Scholé, liturgical practice, or partnership with families) in the materials available here. The six classical categories (Religious & Metaphysical Foundations, Purpose & Goal, Curriculum, Pedagogy, Faculty, Parents & Community) are all rated NOT CLASSICAL given the absence of Classical signals in the public materials. This assessment relies on the Six Essential Elements of a Classical School (1) framework for keyword criteria, whose Positive/Negative keywords are documented here as the basis for the scoring. Because the SRVCA crawl yielded no accessible textual content to anchor these signals, no category can be scored as Classical or Somewhat Classical with confidence. See the Six Essential Elements keyword framework and the associated lexicon for the basis of the scoring approach.

- Aggregate: NOT CLASSICAL
- Important caveat: The analysis is constrained by the publicly accessible crawl data. It is possible that SRVCA's publicly accessible site contains classical signals not captured in the current crawl due to the proxy timeout. The absence of visible signals in the accessible data does not guarantee SRVCA does not employ classical approaches; it simply means those signals are not present in the data available for this evaluation.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
