Six Elements of Classical Education School Website Audit

School: Sequitur Classical Academy
School Website: <https://www.sequiturbr.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS MEMBER

Any school that belongs to the Association of Classical Christian Schools (ACCS) is, by definition, recognized as a classical school because ACCS require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

Sequitur Classical Academy (Baton Rouge, LA, 70808) presents a coherent classical Christian program that aligns strongly with core classical education principles. Public-facing materials emphasize a Christ-centered mission, a clear threefold structure of grammar–logic–rhetoric, engagement with classic works, and liturgical/communal practices anchored in Scripture and worship. The school explicitly foregrounds virtue, wisdom, and beauty as aims of education and highlights partnership with families as a foundational principle. Taken together, the evidence indicates a robust CLASSICAL orientation across all six rubric categories, with explicit signals for formation, Great Books orientation, and a living, teacher-led curriculum model integrated with community and parental partnership.

- Evidence of religious and metaphysical foundations includes a Christ-focused mission, a goal of producing wisdom and virtue, and liturgical-style practices (Promptus, Scripture readings, and hymns) woven into daily life.
- The school's stated values foreground Exalt Christ, cultivate wisdom and virtue, and foster delight in learning, with a vision of education that integrates theology, virtue, and the liberal arts.
- Curriculum and pedagogy explicitly follow the Trivium (grammar, logic, rhetoric) and a Great Books–style ambition, along with history study and classical languages. Daily routines include communal prayer and worship elements.
- Faculty is presented as active mentors and living curriculum; leadership and staff pages highlight teachers who model virtue and scholarship.
- Parents and community are positioned as partners in a shared classical project, with open doors for family involvement and ongoing formation for parents.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - Mission and vision articulate a Christ-centered, theologically grounded educational purpose, with explicit statements about glorifying God and formation in virtue and wisdom. - Daily life includes Promptus (prayer, hymns, Scripture), signaling liturgical and communal practices. - Core values emphasize Exalting Christ, virtue, order, beauty, and delight in learning, all pointing to transcendentals and metaphysical aims.

Positive/Negative keyword analysis - Positive keywords present: truth, goodness, beauty, virtue, wisdom, formation, liturgy/worship, reverence/wonder, logos (embedded in classical framing), sacred Scripture, and prayer. The public materials repeatedly connect education to virtue, divine truth, and liturgical life. - Negative keywords present: none evident in public materials; no signals of secular relativism or value-neutral education.

Why this rating - The materials explicitly align with transcendental moral realism and a theology-grounded education, and they embed liturgical/community practices as core pedagogy. This strongly satisfies the Positive/Negative framework for Religious and Metaphysical Foundations in the CLASSICAL rubric. CLASSICAL.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The goal is described as forming virtue and wisdom, not merely preparing for work, with teaching aimed at right feeling/thinking and virtue. The school frames education as a formation toward virtue and wisdom rather than utilitarian outcomes. - The mission foregrounds human flourishing through truth, goodness, and beauty, and ties education to love of God and neighbor. The core values target excellence, wisdom, virtue, order, beauty, and delight in learning.

Positive/Negative keyword analysis - Positive keywords present: formation, wisdom, virtue, truth, goodness, beauty, contemplation/Scholé-like rest (delight in learning). The public statements center on formation and teleology of human flourishing. - Negative keywords present: none (no explicit emphasis on college/career readiness; no signals of value-neutral or utilitarian aims).

Why this rating - The school's stated aims are quintessentially classical: formation toward virtue and wisdom, anchored in transcendentals, with a teleological view of education. CLASSICAL.

Element 3: School Curriculum — CLASSICAL

Evidence - The curriculum structure is clearly Trivium-forward: Grammar (K–6), Logic (7–9), Rhetoric (10–12), with explicit charts showing schedules and subject progression. - Great Books and Western canon are foregrounded in mission and program, with references to “great ideas, great books, foundational truths” and the classical tradition. The daily life includes Stories of the Bible and classical literature options; the program features Latin and other classical languages. - History and literature are integrated throughout the curriculum (World History, Homer, Beowulf, Augustine, Dante, Milton, Shakespeare, Dostoyevsky, etc.), and students read classic works as part of humanities and philosophy strands. - The curriculum chart includes formal study of grammar, logic, rhetoric, and a schedule that grounds daily life in Promptus (prayer, hymns, Scripture).

Positive/Negative keyword analysis - Positive keywords present: Seven Liberal Arts (grammar, logic, rhetoric; Quadrivium components like arithmetic, geometry, music, astronomy), great books, Latin, history, Western civilization, Socratic dialogue, recitation, narration, and disciplined study of classics. These appear across curricular descriptions and schedules. - Negative keywords present: minimal to none; no emphasis on project-based, secularized, or social-studies-as-history replacements in the core curriculum. Some public-facing materials emphasize traditional humanities over purely modern or vocational tracks.

Why this rating - The explicit structure around grammar–logic–rhetoric, Great Books/Western tradition, classical languages, and integrated history aligns strongly with CLASSICAL curriculum criteria. CLASSICAL.

Element 4: Pedagogy or Teaching Methods — CLASSICAL

Evidence - Contemplative/restful learning and Scholé-like emphasis appear in the pedagogy, with lower grades engaging in singing and memory, and upper grades employing Socratic discussion, seminars, and debates. - Upper-school rhetoric training includes opportunities for speeches and rhetoric-based assessment; there is structured progression from memory work to formal logic and dialectic. - The daily Promptus session anchors a liturgical and communal formation at the start of each day, including prayer, hymns, and Scripture recitation. - The program includes use of “Art of Letters,” Latin study, and “Story of the World”/history integration, signaling a historically grounded pedagogy that moves from memory work to dialectic and rhetoric.

Positive/Negative keyword analysis - Positive keywords present: Socratic dialogue/seminar, narration/recitation, chanting/memory work, scholé/restful learning, rhetoric, debate, upper-school rhetoric theses, archival

memory work, and liturgical integration. - Negative keywords present: minimal signals of experiential/project-based-only approaches; public materials emphasize traditional, structured pedagogy rather than constructivist or student-led extremes. (No strong negative signals observed in public materials.)

Why this rating - Pedagogy reflects a classical progression from contemplative, memory-based lower-forms toward Socratic seminar and rhetorical mastery in the upper years, consistent with CLASSICAL pedagogy. CLASSICAL.

Element 5: School Faculty — CLASSICAL

Evidence - The Head of School and staff are presented as mentors and living curriculum, with an emphasis on virtue, subject mastery, and lifelong learning. The Head of School is explicitly named, and staff/board pages outline a community of teachers with moral exemplars. - The school frames faculty as living curriculum and as a core, relational element; teachers are portrayed as colleagues and mentors who model virtue and scholarship. - There is emphasis on the faculty embodying the classical virtues and forming character in students, consistent with classical education models.

Positive/Negative keyword analysis - Positive keywords present: master/mentor/teacher as living curriculum, portrait of teacher/student ideals, collegial culture, lifelong learners, great books seminars for faculty. - Negative keywords present: none evident in public materials; no signals of non-classical faculty models.

Why this rating - The faculty description aligns with classical expectations of the teacher as mentor and living, cultivated exemplar, with a culture of collegiality and lifelong learning. CLASSICAL.

Element 6: School Parents and Community — CLASSICAL

Evidence - The school emphasizes intentional partnership with parents, viewing parents as co-teachers and primary guardians of education. It describes partnership with families and a flow of communication between home and school. - Community formation includes parent education (e.g., book studies or seminars) and opportunities for parents to engage with classical pedagogy. Open campus and visit opportunities are described as well.

Positive/Negative keyword analysis - Positive keywords present: partnership with families, parental formation, home-school collaboration, parent engagement, family covenant, extended home-school community, open campus, parent involvement. These align with classical expectations of family formation and partnership. - Negative keywords present: none evident in public materials; no signals of consumerism or minimal parent involvement.

Why this rating - The materials show explicit alignment with the classical ideal of parents as co-educators and active participants in the school's mission. CLASSICAL.

Aggregate Assessment - All six categories are CLASSICAL based on the keyword analysis and textual evidence drawn from the school's public materials and the classical-school knowledge base.

What Would Move the Needle - Not applicable: The school is classified as CLASSICAL across all six categories, so no category requires needle-moving changes to achieve CLASSICAL status. No additional adjustments are necessary to reach full alignment in the rubric.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
