

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Toledo Christian Schools
School Website: <https://toledochristian.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Toledo Christian Schools (Toledo, OH 43614) presents a robust Classical Christian education that aligns strongly with traditional classical criteria. Public-facing materials frame the school as a distinctly Christian, Bible-centered institution that explicitly embraces the classical Trivium model (grammar, logic, rhetoric), a history-rich curriculum, Great Books/Great Conversation themes, Latin (and Koine Greek) study, and a pedagogical arc from memory-focused grammar work to Socratic/seminar-style inquiry in the upper grades. The school also foregrounds liturgical and communal practices (Bible classes, chapel, pastor-led spiritual focus), a living-faculty model, and active partnerships with parents and the broader Christian-community network. Taken together, these elements map closely onto the Six Essential Elements rubric and its Positive Keyword indicators, with few if any explicit Negative Keyword signals in public statements.

Key signals include: - Religious/metaphysical foundations woven into every level of schooling (Bible-centered worldview, chapel, pastor on staff, Statement of Faith) - Formation-focused purpose (educate, disciple, prepare; formation of the whole person) and explicit affirmation that truth, goodness, and beauty are real and knowable through a Biblical lens - Curriculum centered on the Trivium (grammar, logic, rhetoric), Great Books/Great Conversation, history studied across disciplines, and classical languages (Latin, Koine Greek) - Pedagogy that includes memory/recitation in early years, and Socratic/seminar-oriented discourse, with rhetoric training in the upper grades - Faculty described as highly qualified, mentoring, and central to the living curriculum; strong sense of teacher-student partnership - Active parent and community partnership; opportunities for family involvement, shadow visits, and open admissions channels

Overall classification: **CLASSICAL**

Executive decisions are grounded in direct textual evidence from the school's site and internal program descriptions, cross-referenced with the Six Essential Elements Positive Keyword indicators. The school's content demonstrates the core features of classical Christian education: the Trivium, Great Books/Great Conversation, Latin/Greek, biblical worldview integrated across disciplines, liturgical/communal practices, and a faculty-centered living curriculum, all within a framework that emphasizes formation over mere information and partnership with families.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — **CLASSICAL**

Evidence - The school presents itself as non-denominational Christian with biblical values taught in every facet of school life, including Bible classes and a biblically grounded worldview across disciplines. This is stated in Welcome/About TC and Mission/Spiritual development pages. - Chapel, spiritual emphasis gatherings, and a pastor on staff are described as integral to student formation. - Fine Arts language explicitly

anchors truth, goodness, and beauty in the context of Christian belief (God's truth, goodness, and beauty).
 - The core values and philosophy emphasize a Biblical worldview and God-centered education. - Public materials articulate a distinctive Christian worldview across all subjects and a biblically grounded curriculum.

Positive/Negative keyword analysis - Positive keywords present: God, biblical worldview, chapel/worship, Bible classes, theology, biblical truth, sacred, faith, liturgy, church-related language, Statement of Faith. Map: true theology signals (Positive Keywords: theology, liturgy/worship, chapel, biblical worldview, truth/-goodness/beauty as real, faith). - Negative keywords present: none of secular/neutral signals dominate; public materials consistently foreground religion and worship, not secular neutrality. The absence of secular neutrality words supports a positive alignment.

Why this rating - The school frames education as a distinctly Christian, theology-grounded enterprise with liturgical and communal practices and a biblical worldview permeating all subjects. Public materials repeatedly connect truth, goodness, and beauty to God and Scripture, and Chapel/Scripture memory are documented features. This aligns strongly with the Positive keywords for Religious and Metaphysical Foundations and remains far from secular or neutral signals. CLASSICAL.

Element 2: Purpose and Goal — CLASSICAL

Evidence - Mission statements highlight forming the whole person and following Christ, aligning formation with virtue and wisdom rather than merely workforce outcomes. The sequence "Educate • Disciple • Prepare" expresses formation-oriented aims. - The school emphasizes forming the whole person (education as formation), Biblical worldview development, and character formation, not just information transfer. - Great Books/Great Conversation and a historical-cultural canon (Truth, Goodness, Beauty) anchor the telos of education in transcendentals, not just job-readiness. - The Vision of post-secondary academic success is acknowledged, but the formation-centered framing remains explicit, with an ongoing emphasis on Biblical worldview and virtue.

Positive/Negative keyword analysis - Positive keywords present: formation, virtue, wisdom, liberal education/paideia, Great Conversation, classical mission, telos, contemplation/scholé, urban/eternal truths, moral imagination. The site highlights formation of character and virtue as core aims. - Negative keywords present: modest signals of college/career emphasis exist in public materials (e.g., "post-secondary academic and professional success" in Vision). However, formation remains the guiding telos; the presence of career-oriented language is secondary to formation. The documented negative indicators from the Six Elements lexicon are not strongly triggered by the site's public materials.

Why this rating - The school explicitly prioritizes formation and the cultivation of wisdom and virtue through a classical framework. References to forming the whole person, a Biblical worldview, and Great Conversation underscore a formation-centric telos consistent with CLASSICAL labeling. While there is mention of college and post-secondary aims, the primary emphasis remains virtue, wisdom, and the true/good/beautiful within a biblical frame. CLASSICAL.

Element 3: Curriculum — CLASSICAL

Evidence - The curriculum follows the Trivium: Grammar Stage (PK-6), Dialectic/Logic Stage (7-8), and Rhetoric Stage (9-12). These categories are described in Classical Christian education materials and curricula. - History is studied in-depth and across disciplines (ancient/medieval history, Western civilization, biblical history in Old/New Testaments), not reduced to "social studies." - Great Books/Great Conversation is explicitly cited in the high school curriculum; the curriculum aims to engage with enduring questions rather than surface topics. - Latin and Koine Greek language study is highlighted (Latin instruction; Koine Greek in secondary levels). - The school references a classical curriculum focused on recognizing God's truth, goodness, and beauty across all subjects, reflecting a unified classical approach.

Positive/Negative keyword analysis - Positive keywords present: grammar, logic, rhetoric; Great Books/-Great Conversation; history (ancient/medieval); Latin; Koine Greek; classical languages; universal truths;

sacred tradition; rhetoric/dialectic. These map directly to the Positive Keywords in the Six Essential Elements. - Negative keywords present: the site does not emphasize “social studies” terminology in place of history; rather, it preserves history as a discipline within a classical canon. No strong negative signals detected.

Why this rating - The curriculum is explicitly organized around the Trivium and Great Books, includes historical depth across ancient/medieval contexts, and features classical languages (Latin/Koine Greek) and Great Conversation. These are hallmark Positive Keywords in the Six Elements rubric, yielding CLASSICAL for Curriculum.

Element 4: Pedagogy or Teaching Methods — CLASSICAL

Evidence - Lower grades emphasize contemplative aspects of learning with memory work and chanting (Scholé-like practices) and memorization in the grammar stage. This aligns with the “restful learning” and memory-focused strands in classical pedagogy. - Elementary–Junior High activities emphasize structured, repeated memory work and recitation (grammar-stage pedagogy) and engagement with classical content (e.g., ancient history, Bible study). - Upper grades emphasize Socratic discussion, seminars, or debates and rhetoric training; high school students engage in rhetoric-stage activities (speeches, writing, and presentation). - The presence of a “Rhetoric Stage” with opportunities for debate, public speaking, and rhetorical training is explicitly described.

Positive/Negative keyword analysis - Positive keywords present: scholé, contemplation, memory work, recitation, chanting, Socratic dialogue, seminars, rhetoric, debates, public speaking, mastery of classical memory work. These appear in the school’s public content and align with the Positive Keywords in the Six Elements lexicon. - Negative keywords present: minimal. The site does not emphasize purely project-based or student-directed experiential learning as the sole modality; rather, it uses a phased progression through the Trivium with traditional practices.

Why this rating - Pedagogy is anchored in classical methods (grammar/memory in early years, dialectic/seminar in middle years, rhetoric/public-speaking in high school) with a clear path toward contemplative elements (Scholé). This aligns with CLASSICAL.

Element 5: Faculty — CLASSICAL

Evidence - The faculty is described as highly qualified and committed to the school’s mission, with emphasis on mentorship and the living curriculum. The phrase “one of the most qualified and committed faculties in Northwest Ohio” appears in marketing materials, and the faculty is presented as central to the school’s mission. - Statements emphasize teachers as “mature Christian role models,” mentors, and partners with families; the faculty is framed as the core of the school, i.e., the living curriculum. - The school highlights a “profile” or standard of what a teacher should be and what a student should be, aligning with the classical teacher-as-mentor model.

Positive/Negative keyword analysis - Positive keywords present: model teachers, mentors, living curriculum, portrait of a teacher, faculty as core, collegial culture. These terms map to the Positive Keywords for Faculty in the Six Elements lexicon. - Negative keywords present: minimal signals of non-classical faculty descriptors; the content emphasizes a classical, mentor-based living curriculum rather than a purely transactional or facilitator model.

Why this rating - The materials consistently articulate a faculty that is both academically strong and spiritually oriented, operating as the central axis of the school’s formation and curriculum. This matches the CLASSICAL rubric for Faculty.

Element 6: Parents & Community — CLASSICAL

Evidence - The school emphasizes partnership with Christian families and local church communities; parents are described as co-teachers and partners in education. This is highlighted in mission/vision and

core-values content. - Parent involvement is encouraged (open houses, shadow days, tours, homeschool partnerships, and family events). The After Care/Admissions materials show ongoing parent engagement channels and opportunities to connect with the school. - The school's publication materials discuss parental involvement and family participation in school life, including community events, sponsor programs, and the 50th anniversary communications that invite family participation.

Positive/Negative keyword analysis - Positive keywords present: partnership with parents, co-teachers, parental involvement, family events, open campus/admissions visits, parent formation (book studies, gatherings). These map to Positive Keywords for Parents & Community. - Negative keywords present: minimal to none; the materials portray a highly engaged, parent-inclusive community rather than a customer-facing or minimal-involvement stance.

Why this rating - Toledo Christian presents a robust, explicit framework for parent-school partnership and community engagement consistent with the Classical model's expectations for Parents & Community. CLASSICAL.

Aggregate Assessment - All six categories register as CLASSICAL based on the school's public materials and the classical criteria. The school demonstrates a consistent Classical Christian approach across religious foundations, purpose, curriculum, pedagogy, faculty, and parent/community engagement.

What Would Move the Needle - Not applicable for this school given the CLASSICAL determinations across all six categories.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
